Gee ...

I've declined the AARP (for now at least - they started sending me
membership
solicitations on my 50th birthday - maybe some day I'll see a benefit)

The NRA would be of interest if I was still a hunter, but alas, the XYL is a
biologist and state-licensed wildlife rehabilitator, so for the sake of
marital
harmony, I've given up that hobby. (I have so many other things going on,
I don't know when I'd have the time for it anyway ...)

The AAA has never appealed to me ... I get good towing coverage for much
less through my car insurance and my new Ford Explorer also comes with
roadside assistance.

Skinheads ... well 'nuff said, I guess.

However, WRT the ARRL - as much as I've had some policy differences
with them over the years, they DO do a LOT of good things for ham radio,
and their member services and publications are also valuable.

All together, I made the value judgment to support the ARRL by maintaining membership for the past 25+ years (I should have become a life member years ago - I'd have really saved money over the years - but I resisted because of my
policy differences with the ARRL leadership in a couple of areas.)

However, with BPL, CC&Rs (don't affect me, but affect a lot of hams), and the good work that the ARRL/IARU did at the WRC on 40m expansion, I finally decided to become a life member and to work my policy differences from the inside as well as from the outside. If I live an average life span from
now, I'll just about break even on the $975.00 life membership. I also sent them $100.00 earmarked to support Ed Hare's work against the BPL threat.

I think that ARRL membership (with QST included) is a good value at the current
dues rates and find it hard to understand how anyone who's REALLY interested in ham radio and its future could justify NOT joining and supporting the good things
that the ARRL does - you don't have to agree with EVERYTHING they do or every position they take (I don't ...), but on balance they do much more right than
wrong, so I support them for that and joust with them on the things I disagree with.

http://www.geocities.com/pascocap2002

I am currently a sophmore in college at Pasco-Hernando Community
college and I am majoring in Aeronautical Science/Professional Pilot

and Missionary Aviation and I have a minor in Pychology.
I am a member of the Civil Air Patrol(CAP) and I am a CAP
communicator(Florida CAP 850). I have been in CAP for almost 4 years
now and I love it.

I love to fly aircraft and I am a current student pilot for Powered,
non-powered, and Ultra-Light aircraft.

I am usually on the 442.650 repeater located in New Port Richey
Florida or the 146.6400 repeater located in Holiday Florida.

My shack has: FT-50R Portable 5 watts, a VX-7R Black Portable 5 watts,
and Icom 706MKIIG.

I am the founder and President of my College club at Pasco Hernando
Community College. We will hold our first meetings and start
fundraising for some equipment.

I am new to the wonderful world of HAM radio and I look forward to
learning code and studying for my General and Extra class licence. I
hope to earn my general in two months and my extra in four months. If
anyone has any tips for me please send me an E-Mail.

73

Jason McDonald DE KI4CNM
I am a volunteer in the Civil Air Patrol. In the Civil Air Patrol.
I am currently serving as:
*Safety Officer
*Cadet Programs Officer
*Aerospace education officer (Gliding)
*Deputy Emergency Services Officer
*Color Guard coach
I have a specialty track in Cadet Programs
My Squadron just recieved a Glider from the Air Force Academy
I am a student Pilot and I am currently a student in:
*Powered Aircraft
*Gliders
*Ultralights
Currently I attend Pasco Hernando Community College and I plan on
going to University of South Florida in the fall.
My current majors are:
*Aeronautical Science
*Missionary Aviation
*Psychology
Things I do:
Favorite Color: Blue or Green, It depends on what mood I am in.
Favorite Food: Lobster and Steak
Favorite TV show: SpongeBob Square pants, Friends, Enterprise, and
anything that is on TLC, Discovery, and the History channels.
Click here to see Pictures of Planes I fly
I have a new hobby in the wonderful world of HAM radio. So far I have

made contacts all oer the country and 1 contact from a guy 40 miles outsite of London. If you are interested in this hobby please feel free to contact me and I will answer as many questions I can.

I can be found on the B.F.O.(Blessings For Obedience) Missionary net on Sunday evenings, 21:00 - 00:00 UTC on 21.330 MHz usb. If you are in the Tampa Bay area I can usually be found on two meter repeater operation during working hours at 146.640 MHz - 600. I can sometimes be found on 28.375 MHz usb in the evenings after 10:00. After a visit to the mission field, I realized that communication was a problem, mainly because of the scarcity of telephones in the mountainous region I was visiting. My Dad (WB4TRR) has been an Amateur Radio operator since 1970 and I grew up watching him talk to people all over the world. I had often thought of following his footsteps but always lacked the motivation to study for licensing, until now. With the

possibility of going into the Mission Field long term, this was my answer. A little bit of hard work was all it took and six months later I had my General class license (KF4YBT). I fell in love with the hobby and 1 year later I earned my Extra class ticket(AF4PA).I am now taking part in a net that provides phone patches, encouragement and prayer for those who have left houses and land for the Gospel’s sake. Having grown up around Ham Radio I would have never thought it could be used for God. My oldest Brother who is one of my best friends is also an Amateur Extra, Gene Parker (AF4BX) He loves Morse code and was a great Elmer in my successfully achieving 20 WPM, TNX Gene. My Wife Michelle Recently earned a Technician Plus Ticket (KG4EKT) and I am looking forward to seeing her upgrade to Extra. I have also been active with the Florida Guard since August of 2002. We are a no Profit Organization that centers around community service, emergency response and disaster preparedness. In some States the State Guard is an Augmentation to the National Guard. To learn how you can become involved in your local State Guard visit the State Guard Association Of The United States website at http://www.sgaus.org/

Biography Info:

My old call sign was KG4HPM. I have combined two of my favorite
hobbies,motorcycles and ham radio. The bike is a 1994 Honda GL1500A
(what I like to call 'my fat old gesser motorcycle') with an Icom
706MKIIG integrated into the audio system of the bike. I used a
Kennedy Technology's interface and J&M headsets to make it all work,
hands on handlebars, as the existing audio does.There are four
antennaes, one for AM/FM radio, one for CB, another one for 2
meter/440 (Comet HP32), and the biggest one for HF (Hamsticks mounted
with quick disconnect). Most of my motorcycle friends think the bike
looks like a porcupine. Since I make a living doing pest control, I
just remind them this bike belongs to the bugman, hence it should have
many antennas. I'm currently a member of ARRL, SPARC, MARC, GWRRA, and
IBA. So many acronym's and so little time.

3. Do Hams Tip?

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-01 03:41:08 UTC
From: Alan Jatowski <a@letdjatow.org>
Message-ID: <bt04se$vc0$0@pita.alt.net>

Linda Sue Williams, 41, is a waitress at Miss Valinda's Country Kitchen. After waitressing for over 20 years, she is somewhat a judge of male character.

Linda Sue's customers are mostly blue collar family men. They come in, drink coffee, read the paper, order breakfast and make a little small talk with Linda Sue and the other waitress staff. The one and two dollar tips they leave Linda Sue are appreciated. Sometimes on Fridays a large group will sit at one table, and Linda Sue may make as much as $20 in tips for the table.

Once a year the ham radio hamfest comes to town, says Linda Sue. They demand endless cups of coffee, dump more food on the floor than they do in their fat bellies and expect instant service, while making lewd remarks to me, says Linda Sue. The table is filled with their expensive little toy radios and palm computers. They brag endlessly what important jobs they have, how many people work for them and how many college degrees they have.

"If only their tipping habits were as big as their inflated egos," said Linda Sue. When they leave, I am lucky if I find a few pennies and dimes left among all the trash. Their body odor lingers for hours after they're gone.

"Hams are smelly cheap braggarts," says Linda Sue.

Yawnnnnnnnnnnnnnnnnnnn........

73 from KI3R (I use Old Spice Sport)

ps if you want to smell something bad catch me the day after a good fish
dinner and I when I come back from an 8 mile run .... boy the system really
blows off those protein by-products .....I know that was just as interesting
as the story above .....Happy New Year KI3R

Better. I just posted some pix on our website, from FD in 1968. My guess is we have about three times the number as we did then.

> Are new folks welcomed?

Yup. During the day, I do no operating at all, just control op the GOTA station and talk to new people when any show up. And we have new people show up.

>Is help provided?

Of course
> If so then consider yourself lucky.

Yeah, lucky enough. If you want, you can bitch about the ARS. Or you could do something about it.

Or are you one of those hams you bitch about in a previous message?

And then it gets even worse, the cbers from the keydown come in.

Just like you should! I'm amazed by the number of hams that seem to
thing that the ARRL has to agree with all their personal opinions. I
wonder how many of those type are married! 8^)

I wonder how many of the priveliges we enjoy - and many take for
granted - in the ARS, would be around if not for the ARRL.

Your SIG says it all. An EXTRA in NO CODE INTERNATIONAL? I see you are a joiner. The more you belong to the better it is.

Help insure the survival and prosperity of ham radio? I think not. Insure the life of the ARRL and manufacturers? YES! No code is killing ham radio. See you on channel 22 good buddy.

Most of the NCI Directors are extras, of their national equivalent thereof.
One has DXCC CW only. What's your point?

> I see you are a joiner. The more you belong to the better it is.

I am ACTIVE in the things I've listed, except for TAPR. I am into
digital communications but have not been active in TAPR projects
for a number of reasons. However, I am VERY active in all of the
others. (I didn't list my local club/RACES/ARES ...) So, it's not a

"the more you belong to the better it is" thing. What's your point?

> Help insure the survival and prosperity of ham radio? I think not.
> Insure the life of the ARRL and manufacturers? YES! No code is killing
> ham radio.

Were it not for the no-code tech license since 1990, I'd bet we'd have
about 1/2 the number of licensed hams in the US that we have now.
(and commercial interests would be better positioned to take some of
our prime spectrum for lack of use)
So, how is no code "killing ham radio" ???

> See you on channel 22 good buddy.

Sorry, you'll have to find someone else to talk to on your favorite
frequency.
I don't have any equipment that will transmit there. (But I do have 3 rigs
that cover all of the amateur bands (except the 5 channels at 5 MHz) from
160m-70cm, all modes, and can be run without AC mains power - main station
rig, mobile (I'm in the process of installing that rig in a new vehicle),
and a QRP
station I use for backpack/travel use.)

How many (ham band) rigs do you have? Can you run for extended periods
(weeks or more, if need be) without commercial power? How active and
well-prepared are you?

Oh, you're just trolling? That's become abundantly clear ... why not try
another stream? I think the bites are about to dry up here.

Exactly. Working from within is generally the most effective way to bring about real, long-term change. However too many other people just want to be back seat drivers or focus on a single policy they don't like and "throw out the baby with the bathwater" so to speak.

Absolutely. Break time usually finds the newcomers making a beeline to the
oldtimers and lively discussions about items they need help with. Several
of us are on an "Elmer's phone list", all of us regular talk to new people
over the air and give help, and several of us regularly teach classes with
many others putting in a little help at one or more sessions of a class.

Yup, change starts with each individual. Don't complain, do something. Be an example of what you think a ham ought to be.

None as the ARS would have remained closed down after World War I. There
was no intent on the government part to ever re-establish those privileges.
While this is in the distant past, we don't have to look too far back to see
loss of spectrum and proposals from the government for loss of spectrum.

One aspect of almost all hobbies" is the cost to play
which often results in an older cross-section of participants.
The same is true for antique cars, model railroading, etc.
Add to that the available "free time" which most older
folks, especially retirees, have.

Greetings,

I figured that this would be one of the BEST groups to ask these questions. I am
getting back into building after quite a while. I am putting in a section in the attic shack for testing and fabrication and I have started to equip things. I already have some relatively good test gear, Tektronics 475A, DM44, sig generator, etc. but want to set up for fabrication. I have been wondering what most of you find as indispensible on your benches. I really want a PCB vise/holder that would aid in the fabrication process.

If any of you do your own design/fab of PCBs I would also be very interested in what you find are the best tools/techniques. If you are using software to go from circuits to black PCB mask I am VERY interested in this (freeware/shareware is best). I have been reading some of the sites but I am most interested in what you as experienced homebrewers like the MOST.

I have done some kit building and fab long ago but I have been out of it for quite some time. I have ordered an elecraft K1 to get my soldering back into shape ;-)

Many Thanks and 73,
Vaughn

May I, Bill?

While I do not think No-Code Int'l. is "killing" ham radio, I do believe it is fostering a bad mindset.

If there were truly no no-code AR license available, I'd agree that the Morse code exam is a barrier to those who neither possess the "Morse aptitude" (For lack of a better term.) nor wish to utilize it OTA. However, there's been a no-code ticket available for over a decade now...with some pretty generous RF real estate and power limitations I might add.

IMHO, No-Code Int'l. has:

1. Encouraged the idea that it is preferable to lower the requirements through mass petition rather than encourage individuals to strive toward higher achievement. Some refer to it as "lowering the bar."

2. Made the notion of more privileges via higher achievement appear as if it's fundamentally wrong. If one wishes to upgrade, then meet the requirements necessary to achieve that upgrade. (Not just the requirements we *want* to meet.)

I've read enough posts here and on the countless code vs. no-code articles on the various ham radio web forums (As well as the actual RM petitions and their respective comments.) to confidently say that neither side can claim an overwhelming numerical advantage over the other. So I think it's safe to say that not all ascribe to the "barrier" notion.

What will happen? Well, the squeaky wheel gets the oil so I think we can be reasonably assured of the elimination of Element 1...at least for Technician "+" privies. Personally, I'm prouder to have achieved rather than squeaked.

Big wall rock climbers and vertical cavers need to deal with the same,
and some of their gear and techniques may be helpful.

For example, when suspended on a rope, in harness, you could use a
loop of cord with a Prusik hitch, attach it to the main rope, and give
yourself a loop to stand on and get some more leg circulation.

There are other techniques used by belayers, as they may be in place
for extended times, and not able to let go of the rope their partner
is on.

As always, this is dangerous stuff, and should only be done with
proper instruction and equipment. Gravity is not always your friend.

Happy trails,

The bites don't seem to drying up at all. I found a few nibbles yet.
The Extras on the no code board have to 5wpm Extras. Couldn't be real
Extras that had at least one exam in front of a FCC examiner. Passed
at least one test at a real FCC examination site. Actually learned
radio theory.
The radios I own are not your concern. I will say I own enough to
operate all bands and modes. Can stay active as long as some kind of
power is still available.Also have had a Ham ticket long enough to
know exactly what the ARRL has really done with the incentive crap
from the 60's. Remember, it was Maxim not the ARRL thst got the
frequencies back after WW 1. Maxim was a mover and shaker, unlike the
deadheads in there now---The Good Ole Boy Club! You guys keep nibbling
because you are afraid to admit you are wrong.

The piece of test equipment that I've found most critical is my brain. Whenever I forget to use it bad things happen. If you're doing radio buy or build a good dip meter. They're hard to find new, but you can find them at hamfests and there's still nothing better for checking out resonant circuits.

When I'm building circuits for through-hole components I just use dead-bug construction. There are numerous articles in QST on the technique, and the newer ARRL handbooks detail some of the methods. I prefer the ground-plane style where you never cut up your circuit board at all.

If I did need a circuit board these days I would be _very_ tempted to use one of the gazillion quick-turn PCB houses out there. There are a number of them that are oriented toward the hobbyist, and they do surface-mount quality boards (at least one, ExpressPCB, offers a kit for doing reflow in a toaster oven as well). Most have an "economy" rate where they charge around $80 to do a pair of 3"x5" boards, and their "regular" service isn't all that bad either. Unless you are very desperately poor I'd recommend that you check them out.

Experience tells me there is something missing from their
explanations. For those who do much climbing the hazards, or at least
some of them associated with staying in the same position are known.

At my age I still do a fair amount of tower climbing. A typical tower
climb is 3 to 4 hours with no few running up to 6 or 7. The longest
have been on the order of 8 to 9 hours. The longest in the last two
years was between 6 and 7 hours.

I always use a "tag line". which they refer to as an arresting
harness. Actually it's a double line with two clips and they are only
a bit over 3 feet long. So, if I slip I won't fall far, but it's gonna
hurt! It does not get in the way of work. It can be clipped to the
side, or in front but attaches to the D rings on the belt. A simple
"tag line" makes climbing safer and easier. Even a simple one
properly attached does not have to get in the way.

I do not believe in the harnesses I see advertized and I do not
believe in using Nylon harness or safety belts. Although we used them
where I used to work, we considered them disposable with a very short
life.
"As I recall" we replaced them every 8 months. Remember, Nylon does
not stand up well in direct sunlight.

I avoid the harnesses as I particularly do not want my legs hanging
or something that will encourage a situation where I can work with
them hanging. Sure they are comfortable, but I stand! If the work is
too strenuous to stand it should be done in some other manner. If the
climber can not keep his or her weight on their feet for the duration
of the climb they should not be climbing in those situations.

I wear a Kline, free floating leather belt which is 5 inches wide. The
belt itself is of double neoprene impregnated nylon monofilament. I
have it inspected regularly. The pole strap is of the same material
and easily extends to go around a tower 2 foot on a side, yet works
just fine on a small TV tower. I knew I'd be using the belt a lot so
I purchased the same type as used by the line and tower crews. I do
see that they are migrating tot he harnesses probably due as much to

OSHA as any other reason. Who knows, ,maybe after this study they will be moving away from them, but they are active and rarely remain in one position for long, so I don't see this as a hazard they would be exposed to very often.

On one job a few years ago, they came up short on some parts. So I slid into the tower, got comfortable and waited about an hour and a half. The temperature was well over 90F. I was in a vertical position, it was hot, and I did very little moving. I wore a wide brimmed hat, long sleeve shirt, and work pants. (and leather gloves) There was no problem nor was there any indication of one. OTOH I sure was getting bored. However it was a position that required I move my legs at regular intervals to stay comfortable.

"I think", although I disagree with their wording, they are referring to a "motionless" upright position. I also believe that although the bent knees at "parade rest" *might* help, it's the movement of the leg muscles that forces the blood out, not just using the muscles to support the weight. Those legs have to *move* to keep the blood from pooling.

One thing I did not see them mention, or I missed it, is the greater likely hood of developing blood clots in the legs when they are motionless or just hanging for long periods. Hanging is far worse than standing on rigid, straight legs.

I would reiterate that any one who feels they need to use a harness of the type in which you can sit to make life easier on a tower should not be climbing at least for nothing more than a very short job, but not the ones that take over half an hour. OTOH there is nothing wrong with wearing one for convenience if handled properly. Tower climbing requires the climber to be in good physical shape, not just for the climbing, but for safety and health reasons.

If the climber is over weight, out of shape, not feeling good, or feels they need additional support to be able to do the job, they should stay on the ground. It is not something that should be taken lightly.

One of the greatest hazards has been the unknowing staying "up there" too long and then being too tired to climb down. On rare occasion some one will climb up a ways and suddenly discover that "This is not for me!" Going up a tower and then helping someone climb down one hand or foot at a time is a rather unique and tiring experience. (and it takes a very long time) At least he didn't go up to 200 feet before looking down. <:-))

Roger, (hello, haven't talked with you in a while) I did a bit of
not-so-tall tower climbing as part of my job while I was in the USAF
communications biz and I quickly discovered "This is not for me!" Heck, I
even got scared once or twice on the so-called parachute ride at Knott's
Berry Farm hehheh.

Call it whatever you want. I guess the states "lowered" the bar
when they stoped testing new drivers on manual gearbox autos.
The reality is the morse test is past its prime...and the entire body
of international countries have seen fit to eliminate morse as

an international treaty element.

I see it as fundamentally wrong when the added priviliges
have no rational link to the added/higher achievement attained.

Yep, the dumbing down of America. The masses can't pass the test so we will make the test easier. Notice how they skirt the issue of having passed any test in front of a FCC examiner. The VEC program is another farce. Why not put the little piece of paper in a corn flakes box. At least you would have breakfast.

37. Kenwood TM-231A help needed

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-01 22:48:05 UTC
From: Don Smith <desmith@innercite.com>

I have a Kenwood TM-231A that I am trying to modify the frequency range. When I got it the radio was able to receive from low 2-meter frequencies to 160mhz plus but the transmit was only to about 148mhz. When I tried the installation of the D209 diode per the modifications instructions and service manual I lost the upper receive frequencies and only had the 2 meter frequencies. Is there something I am missing? Is there some other component that needs to be added or removed? Does the CPU have to be reset in any way.

Also I do not have the TSU-6 tone board installed. Will the radio still produce encode tones and if so, how do I change tones? Please respond by email. Thanks, 73's and Happy New Year to all. Don smith KB6GQA

I have my Purple Martin birdhouse mounted on my tower at a height
of about 20 ft. Last year, I wished I had not been wearing my safety
harness when I was surprised by a six foot long rat snake during a
nest check. The harness forced me to face the snake when I would have
much rather jumped. :-)

I wouldn't say they should have to agree 100% but logic would dictate that
at least about 1/2 of all or so should be in agreement.

Prove it. Prove it without circumstantial or coincidental evidence.

You don't learn CW as a language, you learn morse code. One is a method of transmission and one is an encoding scheme sometimes carried over a method of radio transmission. There is a difference.

This is an excellent point, Bill! And the answer is YES, they did! I have a wife and kid that cannot drive a standard transmission auto or truck. I can drive standard as well as automatic transmissioned vehicles. Who knows more?

Everything is a compromise<:-)) Although I'd say finding the snake
would require a lot higher odds than seat belts Vs being thrown out of
a car. <:-))

Bout all we have in Michigan are Rattle snakes (Missaguga - usually a
little feller) and assorted non poisonous ones. Naturally you know
which kind got me in the upper arm when trimming the hedge around the
house.<sigh> I was black and blue from darn near elbow to shoulder
although at least it didn't make me sick. Then again it was only
about 14 inches long.

Like you I was looking at a bird's nest, which in this case was in the
hedge. I reached in to look at the birds (4 little ones in the nest)
when I felt a burning on my upper arm. I thought I'd picked up a
splinter and the pine sap was burning until I saw the two little holes
in my arm.

The drawback to tag lines and safety belts at 100 feet is the likely
hood of coming across a Yellow jackets nest inside the mast or boom.
They are nasty tempered little suckers.

I was just looking to see if I had any photos of the nests I've run
across in the back yard up on my web site, but didn't find any. I
have a couple to put up that show one nest about a foot across.

The last two years I have destroyed about 30 to 40 nests a year on our
lot which is only 200 feet on a side.

45. Need Alinco DJ-C5T antenna

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-02 09:13:37 UTC
From: george@agora.rdrop.com
Message-ID: <3ff53641$1_3@corp.newsgroups.com>

I am in need of a replacment antenna for an Alinco DJ-C5T Dual Band radio.

I live in the NW corner of Oregon in the US but will be traveling through Hong Kong next week.

Any dealers in the US have replacment parts like this?
Any dealers in Hong Kong?

Best Regards,

George Rachor

My observation is as substantiated as yours. You can't prove anything.
Regarding cost to play, Ham radio only costs what you want it to cost.
I have put together a station for under $100 US. Not new and certainly
not the station I really wanted but it did work and I did QSO many
other stations. Cost is not a factor. Free time is what you want of
it. At 20 I had time if I wanted to take it and at 50 I can still find
time for the important things or what is important at this time.
Regarding costs, ther lays part of the problem. In the 60's I always
wanted that Drake '4' line. Couldn't afford it. Settled on a used
equipment and homebrewed many accy's. Todays out of the box operator
couldn't solder a connection if their life depended on it. Can't
trouble shoot a broken receiver or transmitter. Can't draw a circiut
for a simple crystal controlled transmitter, can't figure the length
of a half wave dipole, can't scrounge parts, etc.....

<snip>

At least I have never encountered snakes or wasps on those rare occasions I needed to go aloft to fix or retrieve a lose halyard. It's only 35 feet above deck but at sea in a light chop it swings about two to three feet with no one up there, add my weight it swings about five to seven feet. So I tie myself a safety harness from 3 strands of 5/8 inch Yacht Braid and secure a double line for hauling to a rigging ring. It's safer than a belt, and while you can't fall out you can get a bad case of motion sickness. I use flying jam cleats to serve as climbers so up and down are slow. There are no mast steps nor anything to grab except at the spreaders. So I try to avoid going up if at all possible. I sail mostly in the winter, and the water is cold!
My antennas are all hinged, so I never climb them!
I think you need to make some accommodation when you pass 65.

Roger Gt

Funny you should mention that, Bill. You see, I took my first driver's
license exam in Jamaica, W.I. where, if you tested in a car equipped
with an automatic transmission, your driving privilidges were limited
to vehicles equipped likewise. It was not really about the
"priviliges," but about safety and all understood this. (Though we ALL
bemoaned the dreaded ramp test.) So yes, I suppose you did "guess"
correctly although the analogy is not quite appropriate to the ARS.

Don't take my word for it. Ask the poor slob who got rear-ended by
that person who borrowed his/her friend's car and, in a panic stop,
mistook the clutch pedal for the brake pedal when the dirver ahead of
him/her stopped short. Actually Bill, I was that poor slob about ten
years ago...so maybe you should take my word for it. I let him slide
though as the damage was minimal with no injuries. Besides, why make
us all pay via increased insurance premiums. Hmm, 1500 Watts on
VHF/UHF...perhaps it wasn't a bad analogy after all?

> The reality is the morse test is past its prime...and the entire body
> of international countries have seen fit to eliminate morse as
> an international treaty element.

The reality is that CW is the second most popular mode in the ARS
today and is a part of the big picture. Let's also not forget that
we're talking about the 5-wpm exam for upgrade within, not for entry
into, the ARS.

> > 2. Made the notion of more privileges via higher achievement appear as if

Does it make any difference at all. The point is that there is
no reason for states to test on manual gearbox
autos because 95% of new vehicles are automatic. Those
that want to will learn to drive a manual without any licensing
intervention needed from the state.

Cheers,
Bill K2UNK

So how many rear-enders have no-coders had while using CW?
The anology is a joke. There is ZERO element of safety involved with
CW knowledge/testing. Had there been any relavent safety
aspect to justify CW testing the FCC would have acknowledged it.

> > > 2. Made the notion of more privileges via higher achievement appear as

So how come a no-code tech isn't banned from using CW
on the only two all-CW only bands. Use does not justify
the requirement since there's nothing detrimental about learning
on the air at even a one word per minute, look it up on a table
rate.

Cheers,
Bill K2UNK

NOT SUR IF I AGRE WID U OM = I CAN QRS IF U WANT 73 BK

Clearly that was not English. Compare to the clear text version:

I'm not sure that I completely agree with you, you young upstart
whipper-snapper. From your comments, you aren't proficient in Morse
Code, Q-signals, or even how to use the "release-to-listen" button, but
I'll use smaller words if that improves your comprehension.

So now, have fun on 11 meters, and back to you.

==

Also, see http://www.hyperdictionary.com/dictionary/continuous+wave

where it says (in part):

Many (especially radio amateurs) continue to understand "CW" to mean
transmission by means a signal of a single frequency which is either on
or off (e.g. Morse code), as opposed to a carrier which varies
continuously in amplitude, frequency or phase. Some would even call the
former "unmodulated" even though turning on and off is actually an
extreme form of amplitude modulation.

Iraq reconstruction's bottom-line
http://www.atimes.com/atimes/Middle_East/EL25Ak05.html

/ / Why then have the required components not been delivered? Jasim
replied dismissively, as though the answer was self-evident: "Because
no other company has been allowed by the US government, only Bechtel."
\ \

Well, the first thing would be getting back on the air after WW1. Some
might disagree on the particulars, but ARRL had a big part in it. I read
that in "200 Meters and Down".

But remember I said I wonder. Wasn't really claiming anything. 8^)

My XYL refuses to parallel park, as do a number of others. She also doesn't do three point turns. Your logic would eliminate those from the test also. A person CAN drive for years and years, and if they do things a certain way, they don't have to PP or TPT. She can drive 100 percent of the time without it. Of course the odd emergency situation may come up.

Bill, if you don't want a Morse code test, that is fine, but you shouldn't use a flawed argument to support it. 8^)

This is your analogy, Bill, not ours. I don't think the analogy fits, I
think people should be required to test on standard, or at least not be
allowed to drive a standard unless tested for it.

one of two answers:

1. It's a goofed up rule

2. It's a good way to get Tech's to practice Morse code.

Either is probably irrelevant because most tech's that aren't planning
on upgrading probably aren't all that interested in Morse code at all,
and there are plenty of goofed up rules.

In Michigan, you will fail your driving exam if you can't parallel park and
do a 3 point turn. They are mandatory test elements. You can fail one but
not both.

>
> So how many rear-enders have no-coders had while using CW?

Oh, I don't know, Billï¿½let's see. Let's ask that fellow who just passed Element 2 and just couldn't wait to get OTA. So he bought a nifty little dual-bander, a "killer" Mirage amp, and pumped a few hundred Watts or VHF or UHF RF into his nice long Yagi (You know, the one marketed as a "Boomer.") pointed toward a distant repeaterï¿½right through the second floor of his neighbor's house. Heck, he mounted it on the mast that formerly hosted a TV antennaï¿½that ought to be good enough, right?

After all, I'm sure that someone who is so bothered at the notion of having to learn and be tested on a skill he deems irrelevant to how he plans on operating, that he joins an "international" movement to remove said offensive taskï¿½would certainly be concerned and cognizant of any harmful RF his equipment might be radiating. Heck, he did pass that 35 multiple-guessï¿½er, I meant choice test that proclaimed him "ready." I am fairly certain though that his mode of choice was not CW. ;-)

> The analogy is a joke.

Actually, I am pretty much joking around with you, Bill. (Lighten up.) HOWEVER, the potential for physical harm is there and somewhere the above scenario may be playing out as you read these wordsï¿½and that's no joke.

> There is ZERO element of safety involved with CW knowledge/testing.

Agreed. It's the mindset I find kinda alarming. Folks that have no problem with putting forth the effort to advance in their endeavors are more likely to exercise that same "work ethic" wrt conscientiously ensuring the safe operation of their station. Conversely, folks that would rather complain about having to put forth some effort (Let's be honest, the effort is rather minimal re. Element 1.) to advance themselves are perceived to be "corner-cutters." (Some might even call themï¿½"slackers.")

BIG BIG DISCLAIMER: I am quite aware that this is not true for all no-code Technicians and/or NCI members, HOWEVER, all it takes is one poor soul getting a cranial soaking from some dunderhead who wants to bombard that repeater to validate the concern. Lest the repeater folks feel offended, there is a club here on LI devoted to simplex operation who support VHF/UHF operation with a tad more than the few hundred Watts mentioned above.

> Had there been any relevant safety
> aspect to justify CW testing the FCC would have acknowledged it.

You slay me, Bill. Is this the same FCC that's ready to administer the BPL suppository to AR? "Who's yer daddy now?!"

Source record: 60111

I'm looking for a good transciever. I've got about $400.00 to start one, and I want to start out with a 50W mobile. (I'm stunningly green in this area, as I did not even specify the correct antenna type to the type of transmitting I was wanting to do.)

1.) I'm assuming I'd still need to use repeaters for long-distance transmissions.

2.) Can anyone approximate the kind of range one can get with 50W?

3.) I've got my eye on the Yaesu FT-8800R. Does anyone thing this is too much/too little?

All I really want to do to get my feet wet is try and make contacts, do some rag chewing, and perhaps play with data. I will need to use this as a "set-up-and-use, fold-up-and-put-away" station for the time being. (In the interest of preserving components, and keeping out of everyone's way. <small house>

I apologize if my ignorance has anyone laughing, but we're all in ham for what we want to do, right? :-)

73

DJM

P.S. I'll be passing my test next thursday.

restaurants generally automatically add a gratuity to the bill for
groups.

Dee that is Steve Oarks from Medina OH he is trolling in ham groups
now when not trolling in rec.radio.cb. Of course he complains a lot
about hams but that is his hypocratic nature. You see how he barged
into this thread and tried to start trouble with n8wwm's call sign.
That is what he is about.

Cuz you're too fucking stoopid to read the cross post thru four NG's?

Dumbass.

Hey Dee D. you see how he operates he is a troll and not only that he is an illegal freebander and HF bootlegger. Ask him about his Collins S-Line he operates without a license and why it is set up to transmit all over the spectrum he will go quiet real fast.

Apparently the state DOES see a continuing need for PP or TPT...
but does NOT see any public purpose, safety issue, or licensing
ommision by not testing for manual gearboxes.

> Bill, if you don't want a Morse code test, that is fine, but you
> shouldn't use a flawed argument to support it. 8^)

The point is that there is ZERO harm if a new ham never
passes a code test and then decides to get on the air and
jump into a code QSO to learn while doing.

The state apparently thinks the same is true for
manual gearbox driving and many other aspects of driving
which aren't tested at all. I can and do drive an extended cab PU-truck
pulling a 5000 lb trailer, combined length about 40 feet.

To the best of my knowledge, no state
tests anyone for that combination of skills.
All that is needed is a regular driver's license.

Cheers,
Bill K2UNK

Which standard, should there be separate licenses for 3 speed column,
4 speed, 5 speed, 6 speed, which shift pattern?

Apparently there is insufficient state
concern to worry about passing a license test with automatic and
then getting behind the wheel of a manual gearbox vehicle. It's
been that way for decades now with no ill results.

Why wouldn't it be a good way to get anone on HF to
practice also if there's no code test at all? That's
the point, there is no rational justification for a CW
mode skill test. The FCC has addressed and dismissed
every known pro-code argument...as has the ITU also
since Code is gone now as a mandatory treaty requirment.

> Either is probably irrelevant because most tech's that aren't planning
> on upgrading probably aren't all that interested in Morse code at all,
> and there are plenty of goofed up rules.

ITU treaty is goofed up too?

Cheers,
Bill K2UNK

So I would like to take this latest exchange by requesting the good people of rec.radio.amateur.policy, rec.radio.amateur.misc groups delete rec.radio.shortwave, rec.radio.cb from the newsgroup line since this thread is off topic in these groups.

Thanks in advance for your cooperation.

And none of this would have happened if only he had known
code? Give me a break.

Answer the question asked...The question is, for those that need
clarity: IF someone became a General or Extra with NO
code skills, and then decided to learn code on-the-air, what's
the harm, danger, etc?

> After all, I'm sure that someone who is so bothered at the notion of
> having to learn and be tested on a skill he deems irrelevant to how he
> plans on operating, that he joins an "international" movement to
> remove said offensive task.would certainly be concerned and cognizant

> above scenario may be playing out as you read these words.and that's
> no joke.

The potential for harm, physical or otherwise is NOT tied
to anyone's knowledge of code. THAT is the point.

> > There is ZERO element of safety involved with CW knowledge/testing.
>
> Agreed. It's the mindset I find kinda alarming. Folks that have no

> would rather complain about having to put forth some effort (Let's be
> honest, the effort is rather minimal re. Element 1.) to advance

> themselves are perceived to be "corner-cutters." (Some might even call
> them."slackers.")

The "effort" has nothing to do with code testing. The goal
of ending code testing is based solely on the lack of
any continued need for code skills to be mandated for
any HF access. There was, in the past, a rational reason
or set of reasons for code knowledge. Those days are gone.
It is that simple.

> BIG BIG DISCLAIMER: I am quite aware that this is not true for all

> Watts mentioned above.

Again, this dialog isn't about the validity or not of
current writtens. My point(s) here are focused only on
code testing. PERIOD!

> > Had there been any relevant safety
> > aspect to justify CW testing the FCC would have acknowledged it.
>
> You slay me, Bill. Is this the same FCC that's ready to administer the
> BPL suppository to AR? "Who's yer daddy now?!"

Sorry to burst your bubble, but its the only
FCC we have. Indeed, had the FCC seriously
errored in their past decion(s) regarding need
or non-need for code skills testing, then I'm
amazed you and others haven't filed court action to
stop the FCC.

If new ham goes OnTheAir to learn code, does that trouble you?
What part of amateur spectrum is considered highway vs
non-highway?

Cheers,
Bill K2UNK

You see Dee D. how Steveo gets violent he has a real problem with anger first thing you know he is threatening to beat someone LOL. But the part about his bootleg Collins HF station is true he brags about it many times on rec.radio.cb ask him you know you hear about these pirating radio spectrum outlaws in the FCC reports but I bet you never met one well here he is his name is Steve Parks.

Because your a TROLLLLLL Steveo and Dee D. needs to know it she was clearly puzzled by you throwing N8WWMs name into the mix for no good reason other than to cause trouble and lets face it you need to be moderated, asslick.

> Save your pennies and wait to buy an IC-706...
> It has what you want AND what you need.

The 706 has ZERO intermod rejection. the IC-2100 works under the big tall tower in my front yard. This same tower blanks a friend's 706 from 3 exits away. My HTX-242 dies about an exit away from home. I have only a crackle in a few freqs with my 2100.

If you are out in the country, a 706 is a good mobile radio, just don't expect it to reject pagers on 2 meters.

BTW, an IC-706MKIIG starts at $760. An IC-2100H is $150. You will find antenna height, then gain, followed by power to be the most important factors. Half a watt 100 feet up will contact more then 100 watts half a foot up. VHF & UHF are basically line of site regardless of mode.

Greetings,

I seem to remember that either NASA or JPL communications were
re-transmitted on some amateur frequencies (2m band, as I recall).

Anyone know if this is being done for tomorrow's Mars rover landing, in the
Southern California area, and what the frequencies are?

Thanks much.

Bob

news:3ff60111.141947166@usenet.ptd.net...
> restaurants generally automatically add a gratuity to the bill for
> groups.

....seems some of the restaurants felt they had to remind some patrons
of that, specifically over the weekend of the Dayton Hamvention.

(I wonder why...? grin :)

I guess they wanted to avoid an argument from some 'groups'
or 'seasonal itinerant patrons' who might have thought they
were getting scammed on their bill or something else. :)

I *also noted* VERY amusingly, that the motel across the street from
us had posted a 15" by 15" sign in their office window, reminding
his 'patrons' for Hamvention weekend, that there was a *strict
maximum limit of two adults occupancy to each single and
four adults to each double room*. (I guess the indian owner
got tired of seeing 8 or 12 stinky overweight middle-aged
white men, leaving a 20 by 20 foot motel room carrying sleeping
bags and leaving a mess like modern-day gypsy traders
whilst only 4 were actual paying patrons...)

:) :)

KG4LEG coy roy update, al lhas been fairly quiet lately on the 146.640
tampa bay florida repeater run by ron N9EE.

coy roy has not made an appearance in a week or so.
the repeater is now off in the middle of the night, shut off by KG4YZZ
or KG4YZY and turned on in the morning by DON KG4COQ

with that, heres a listing of some hams that have been heard recently.

some users from yesterday
N9EE
KG4YZZ
KG4YZY
KG4COQ
W4PZD
K4DNA
KD4YFJ
KC4YUA
W4MDW

some users from today

KK4WS radio check by kd4nwl nwl refered to him as pastor tim
KD4NWL talking to KC4UYL about unemployment topics.
KG4COQ
KG4YZZ

some people heard on DON's TGIF net
KG4COQ ran the net
W4PT commented about no flying
WA4WYX commented he was 72 and his sister was visiting from somewhere.
and thats why he was up this late
KC5JP? commented about being in tarpon springs
KD4NWL commented about marriage
K4IYD in and out
KC4YUA commented he was bicycle mobile
KD4YFJ commented he was looking for a replacement to run the traders
net
KG4WLI commented he was going to be runing the tech net until may
KF4OVA said name was AL
KG4YZZ HI!
several other callsigns that i could not fully understand.

104. AR8200 Vs AR8000

The receiver of AOR AR-8200 is better than AR-8000?
In VHF-UHF-Air Band.

And why?

73
Maurizio

> code? Give me a break.

I'm not talking about "knowing" the code, Bill. Very few people
actually "know" the code from preparing for and passing Element 1. I'm
addressing the self-discipline required to accept the challenge and
meet the requirements to upgrade one's privileges rather than complain
about how one never plans on using it. I'm not much into the newer
digital modes nor am I particularly interested in Satellite assisted
communications, however, if the path to upgrading my license/privies
leads through some learning and testing re. said subjectsï¿½no problem.
(Psst, it's a character issue.)

> Answer the question asked...The question is, for those that need
> clarity: IF someone became a General or Extra with NO
> code skills, and then decided to learn code on-the-air, what's
> the harm, danger, etc?

None. But I suspect you are deliberately missing my point. The code
skills themselves are irrelevant. You could substitute any actual
challenging aspect of upgrading one's ticket in it's place and the
same folks would likely bemoan it. In this "I want it now" culture,
many don't want to have to actually put forth much effort to earn
their ticket. I'd be all for dropping Element 1 altogether AND doing
away with the published Q&A pools. How about just a study guide? Oh
yeah, let's make Element 2 50 questions while we're at it.

> > After all, I'm sure that someone who is so bothered at the notion of

> The potential for harm, physical or otherwise is NOT tied
> to anyone's knowledge of code. THAT is the point.

Sorry, Bill. That may be the point you'd like to key on, (No pun intended) but that's not the point I'm stressing. I agree 100% with the sentence above. It's the slacker-mentality (Sorry, time to shoot from the hip.) that I deplore. If we really want to get young folks involved in AR, this is not a principle I'd like to see them learn. If you complain enough, the bar will be lowered for you. As a youth, the concept of achievement (As well as a well-rounded education.) was constantly stressed and I thank God I had folks (Parents, teachers, guidance counselors, etc.) that cared enough to strongly encourage us to achieve rather complain. I feel so sorry for the kids that are recently got that curve on their Regents exam rather than enroll in a summer program to increase their knowledge to the appropriate level. Some will perform poorly in college and if enough of them complain that their college curriculum is unfairly difficult, perhaps that bar will be lowered as well. Interestingly enough, I now tend to seek out those Elmers who will push me to become a better operator. IMHO, they have my best interests at heart.

> to be mandated for any HF access.

I disagree, I truly believe that it's almost all about the required effort. Again, drop those published Q&A pools and watch the squirming commence. Folks just don't want to be made to have to sit down for 20 mins., twice daily, for a month or two and memorize 43 Morse code

characters.

> There was, in the past, a rational reason
> or set of reasons for code knowledge. Those days are gone.
> It is that simple.

There still is. It's the second most popular mode in use in the ARS
today.

> > BIG BIG DISCLAIMER: I am quite aware that this is not true for all

> current writtens. My point(s) here are focused only on
> code testing. PERIOD!

Again, my dialogue is addressing the character issue involved re.
squeaking vs. achieving. Do you really want to focus on the code test,
Bill. Quite frankly, Element 1 is NOT much of a code test to focus on
and very rarely leaves anybody with any level of OTA proficiency. So
you see, it's not the actual code knowledge or lack thereof that makes
for the dangerous scenarioï¿½it's the associated mentality of those
who'd rather squeak than achieve that can possibly lead to harm.

> stop the FCC.

Quite frankly, Billï¿½I'm no big fan of the FCC. You are, however,
correctï¿½they're the only game in town. Do I think they make mistakes?
Sure, but I'm not sufficiently motivated to file a court action
against them. A few letters to my elected representatives and some
recreational debate on R.R.A.P suffices.

Trust me, my bubble is very much intact. I came into AR approx. three
years ago pretty much oblivious to the code vs. no-code debate. All I
knew was that I wanted to be an ARO and operate HF. Like I've said
before, remove the whing and passion from both sides of the debate and

the obvious remains like a purple elephant in the living room.

>
> If new ham goes OnTheAir to learn code, does that trouble you?

Not at all. I consider myself a relatively new ham and I continue to
increase my code proficiency OTA. After all, the license is really
just a ticket to learn.

> What part of amateur spectrum is considered highway vs
> non-highway?

Thanks for makin' it easy, Bill. How about the CW only portion of
2-meters? I think that sounds like a groovy place to practice some
seriously slow code with a code-buddy. Then, if I like it, perhaps I'd
pass Element 1 and hop on the Novice/Tech "+" sub-bands to increase my
proficiency. Thos are some examples of "rural routes."

The highway, hmmï¿½ Would you really encourage a brand newbie to hop on
7026 kHz and mix it up w/the 35-wpm+ crowd, Bill? Think they'd feel
encouraged? I've had a couple of ops QRS from 20-wpm down to 19-wpm
for me and lemme tell ya, it wasn't fun. Conversely, I have had guys
switch to some really nice Farnsworth style 25-wpm character speed
spaced apart to about 8-wpm and an hour and a half ragchew QSO just
breezed on by with very little effort or tension.

> Cheers,
> Bill K2UNK

Cheers indeed. :-)

Translation, I did it, so should everyone else.
Using your philosophy, the FCC should never change requirements...
even when a specific requirement no longer has justification.

> I'm not much into the newer
> digital modes nor am I particularly interested in Satellite assisted
> communications, however, if the path to upgrading my license/privies

> (Psst, it's a character issue.)

No problem there and I don't oppose "knowledge" questions
about CW the mode. The issue is the stand alone skill test
for morse which is a separate pass fail element. NO other
mode is set on that pedestal.

You are free to propose any changes you wish. Others already
have done so.

You'd rather we continue mandating a skill test for a mode that
is all but totally gone from the world of radio communications
except within amateur use? Again, per my comment above,
NO other mode has its own unique test. That's the point.

> If
> you complain enough, the bar will be lowered for you. As a youth, the

My my, I guess the end of all amateur upgrading
and new learning will be tied to the end of code
testing. You must have really been disappointed when
states stopped testing drivers on manual gearboxes.
For me it was no problem. When my kids wanted
to drive they learned or they had no car to drive as
all our vehicles had been standard shift. Those that
want to learn will. Trying to claim some great
philosophical tie of ending code testing being
the start of an end to new/old hams continuing to
learn is just bunk.

So let me get this straight. You wantis some undefined,
unmeasurable amount of effort that the FCC should be
trying to have in place for any license level?

> Again, drop those published Q&A pools and watch the squirming
> commence.

It will never happen and I don't care if it did. The old
ARRL and AMECO learners guides were just as easy to
memorize sufficiently to pass. I did the General test in
the late 50s exactly that way.

> Folks just don't want to be made to have to sit down for 20
> mins., twice daily, for a month or two and memorize 43 Morse code
> characters.

Irrelavent. The point is NOT the effort, and the FCC has
already chimed in on the. The test must exist or go based
on a clear and understood need for the knowledge. EFFORT
is not now and never has been recognized as a valid test requirement
determinator.

> > There was, in the past, a rational reason
> > or set of reasons for code knowledge. Those days are gone.
> > It is that simple.
>
> There still is. It's the second most popular mode in use in the ARS
> today.

Yet that failed to convince the FCC and, more
recently the ITU. The point is that those bodies
recognize that no one needs to know morse just to be
issued a license. Those that wish to engage in
morse contacts are free to learn morse and use it.
The issue is solely the test requirement and has no
link to actual morse use by anyone.

That's just the old tripe argument that has convinced no one.
The rony of your claim is that most of us that are the
nucleus of NCI activity had already done the morse
test at 5, 13 and/or 20 wpm. Nothing to gain now
if code testing goes altogether.

The FCC removed the winning/passion when they issued the R&O
for 98-143. If you haven't read that yet, I suggest you do.

Exactly. So then why the need for code skill testing...oh,
I remember, the FCC must impose a mystical quantity
of effort for all ham licensing.

> > What part of amateur spectrum is considered highway vs
> > non-highway?

IF they did so, so what? They'd either make a QSO or not.
Nothing ventured, nothing gained. If they felt out of
place they'd shift to calmer waters.

> I've had a couple of ops QRS from 20-wpm down to 19-wpm

> breezed on by with very little effort or tension.

To each his own. What ever floats your boat. I see no problem
with newbie hams doing morse at slow speeds anywhere morse
is allowed as long as they do so within the rules.

Cheers,
Bill K2UNK

107. Modifying the THD7.pm Perl module to work on Windows

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-03 16:42:35 UTC
From: kevinwittme7@hotmail.com
Message-ID: <6bce8dc3.0401030842.51e15853@posting.google.com>
Source record: 60050

Hello all,

I am attempting to port the THD7.pm module (see
http://fastolfe.net/ham/THD7.pm.html) for the Kenwood TH-D7A/G radio
to Windows. It was first developed on Linux. For the most port, it is
platform independent with the exception of serial port handling.

I have modified the new subroutine to include the following code:

```
require Win32::SerialPort;
$self->{_win32} = tie($self->{_fd}, 'Win32::SerialPort', 'COM7');
```

When I test the module from a seperate script I receive the following
error:

```
Can't locate object method "TIESCALAR" via package "Win32::SerialPort"
at C:/Perl/site/lib/THD7.pm line 180.
```

I'm not a Perl programming expert and I am hoping there is someone who
is willing to work me with me on this porting effort. Upon completion,
we could submit the revised module back to the Perl/Ham Radio
community.
Thanks!

KB8VME in Chicago

Bill, I trimmed the cb and shortwave groups out of this reply. We should
all give those folk a break.

I'm not sure which group you're posting from Steve, so I didn't trim the groups. Once I know, I'll trim 'em out. cb and shortwave don't need all this stuff (though shortwave listeners should be VERY concerned about BPL.

FEMA has expressed "grave concerns"

DERA has noted:

"DERA concludes that serious interference to and disruption of critical emergency communications systems in several licensed services throughout North America would almost certainly result from BPL implementation as currently proposed," DERA's comments said. Endorsing FEMA's earlier remarks, DERA said proposed BPL systems don't just pose a risk of interference, they've already been shown to "actually cause harmful interference to licensed radio services."

AMRAD has provided data that suggests that a Operating Ham within a half mile radius will likely knock out BPL. The service is simply too susceptable to interference.

from ARRL site:
AMRAD found that at a distance of just over one-half mile, data transfer ceased in the face of a 100-W signal on 3980 kHz from a mobile transmitter. Adjacent to the test property, AMRAD said data transfer ceased in all but one instance at a transmitter power of just 4 W in the BPL operating band of from 4 to 21 MHz.

back to me:

So BPL is a big source of interference to devices it isn't allowed to interfere with, and it looks like a QRP or CB rig with a good antenna

can knock it out, but certainly a 100 watt rig will take BPL internet out.

As I figured, the BPL internet access concept is going down fast.

A test of BPL was run in Alabama. A engineer friend of mine told me it was not coming up to what was advertised in Birmingham. Repeaters were needed way too often, thus jacking up the expense.

Unless the FCC is totally braindead I think BPL, as proposed will die by itself. However what they want is INCREASE the power of BPL over and above what is presently allowed under part 15.

They may take that route. We shall see.

Hi guys,

If you are interested in a software which has more modes than you know what to do with, including Packet by the way, try out MixW by UT2UZ is really is excellent.

The latest version 2.10 is on my web download page, and the help group is at Yahoo.

www.g3vfp.org/download.html

http://groups.yahoo.com/mixw

Lots of other softwares for radio use on my download page too.

Cheers,

Dave G3VFP.

114. Best antenna (preferrably wire)

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-03 18:38:59 UTC
From: Vaughn Combs <n2bha@arrl.net>
Message-ID: <7%DJb.45623$q55.17003@twister.nyroc.rr.com>
Source record: 60057
Cross-posted to: rec.radio.amateur.antenna,alt.radio.amateur,rec.radio.amateur.homebrew,rec.radio.amateur.misc

I have a few questions and I thought that this may be the group that could help. I have a nice sized backyard and would like to construct an antenna that would give me good performance on 80-10m bands.

The convenient dimensions would put a support (far end) at either 92 feet from the back of the house (support exists that is about 15-20 feet up) or 120 feet from the back of the house (mast anchored to the other side of a shed could easily be installed. Or a more inconvenient support could be erected up to 300 feet out (no support buildings) at the absolute far end of the property. The width of the property as seen looking out the back window is about 65 feet (no supports existing on either side).

Special circumstances and constraints:

-- No tall trees on the property.

-- Attic shack (attic window is probably about 25 feet up). Need to keep to the attic.

-- Cable run from back of house to operating position within the attic would be approximately 25 feet

-- MUST eliminate RFI in the shack and house.

My current setup is an end-fed longwire that works well on all bands except 40m (rig shuts down as I am dipping the SWR to almost 1:1 ;-). I threw up the wire as winter was upon me. I have been off the air for almost 10 years and REALLY wanted to get on the air again.

While the longwire is performing quite well with the exception of 40m I am getting a ton of RF in the shack and it is blanking out TVs and creating loud humming in speakers with 100W from the XMTR. I realize that this is most likely due to the fact that I have inefficient RF ground and I have cut and run radial at 1/4 wave for each band and ran them under the eaves up here in the attic. This has not solved the problem. I am friendly with all of my neighbors and have visited them and did testing on the bands with them on the phone. They are not experiencing any problems. My wife, while understanding, would REALLY like the problem to go away ;-)

My main goal is to build an antenna that will solve the aforementioned RFI problem and that will provide good performance given my constraints.

Any ideas would be GREATLY appreciated.

Many Thanks and 73,
Vaughn
N2BHA

Consider a Delta Loop cut for 80m and fed with Open Wire line. With a tuner/balun, you can work all bands. Research this antenna on Google.....GL

Hi Vaughn,

Your first shot is probably your best shot. You should drop a line from the near end antenna anchor point directly down to a ground and rely on a tuner to make up the differences. From the anchor point (where both wires are broke out) install a 1:1 Current Balun (Choke) between these points and the transmission line back to your rig to eliminate some of your noise into the house, and to get rid of the 40M instability (a classic symptom of Common Mode whose cure is in the Choke). The "ground" lead will radiate, but that is inconsequential. You may also experience a ground loop with it in parallel to your rig's source of ground.

This is the blind-side of many hams who forget that long ground wires have impedance and thus become miserable grounds for RF. Unless you work battery operation without a floating charger, you WILL have this second path to ground (the 'trons will find their own way, even if it isn't obvious to you). I always run battery with a float charger through an 1:1 isolation transformer to kill Mains borne noise; and whenever I experience ground loops, I simply disconnect the charger.

To effectively avoid RF in the shack, the differential currents need
to be balanced (equal in magnitude and 180 degrees out of phase). It
is extremely difficult to do that with an inv-L. I had good luck with
a dipole even though the shack was under one end of the dipole. I
brought the ladder-line off at right angles for about 50 ft then
routed ladder-line back to the shack from there so ladder-line
parallel to the antenna was always about 50 ft away from the antenna.

Kinda of gives a bit of argument:

Why tip for expected average service?

Tips are a reward for exceptional service, not average service.

If the waitress went out of her way to provide extra service other than carrying a plate of food or a cup of coffee (which is what she does anyway), why tip?

Tips are for service over and beyond the call of duty, such as being a bit more friendly to visitors, rather than the run of the mill service. (Take the order and deliver the food and drink). A tip isn't given to a waitress that is crabby because her boyfriend came home drunk as a skunk and still has to get the brakes on his 68 Ford pickup truck fixed.

Tips are an option for extra service, not a wage.

I'll tip if I get very nice friendly service, but will not tip if the service is average. I tip 10% (that way I don't have to do much arithmetic, but will round up to the nearest dollar.

For taxis,let's say for a $16.00 fare, I'll give the driver $20.00 and he can keep the change if he gets me to where I'm goin' safely and efficiently, the cab is well kept and clean. I've been in cabs that should have been taken off the road, and the cab driver gone through a wash, rinse and spin cycle a few times.

As for ham people being stinky and overweight, the same can be said for any other group of people. Be it tennis players, doctors, lawyers, business owners.

If an empty helmet waitress writes in that ham people are stinky, give her a tip as in a written one on a folded peice of paper that says on the front

"Thanks for the food, it was great! Here's your tip:

Folded up in a square as an envelope, but inside is this:

If you go Seattle, Ivar's Seafood Restaurant has the best seafood in Washington State. There's one on the Seattle waterfront, and if you're taking the ferry to Whidbey Island, there's an Ivar's restaurant at Mulkiteo."

As for this Linda Sue, one wonders if she has a hick boyfriend with a shaggly moustace, keg belly and an '83 Ford F-150 with a gun rack in the back , has a bit of rust on it and works at the local

mechanic shop as a tool monkey. She's probably
a country music lover as well, and they both live in a trailer on the
southside of town.

I tip a great majority of the time. Some times I may only have enough to buy the food with as I've not planned ahead to dine out. Any tip depends on how much I buy depending on how hungry I am and what on the menu appeals to me given what I have in my pockets to carry me through the total. I dine out on a whim most of the time. IF I have the cash, I pay 20% of my total or whatever close to it I can make. IF I don't have it, I at least thank them. I do NOT tip when drinking at a bar, as they are paid and don't do much outside of opening a bottle or filling a glass and setting in front of you then collecting your $1 or so for it. I don't use cabs, so no worries there. Went to a new Barber - New Years Eve. Haircut - $10. He made sure it was to perfection. I tipped him $2 which he thanked me for at least 3 times. I do NOT empty my wallet or coins of all just to tip. I do what I can - up to the 20%. I can't speak for ALL hams, but this HAM DOES TIP WHEN POSSIBLE. Like anything else, this smells of placing all in one barrel. Just because "a" ham doesn't tip, doesn't make us all "cheap". G.W.

According to independent analysts, BPL will not cost any less and will probably cost more. While they may have low introductory rates to get their foot in the door, after the first few months it will go up. Afterall the

need to install a LOT of additional hardware to do this. They can't just feed the signal in. In addition, you will need special hardware in your home computer to be able to access the signal. Finally, the signal will be easy to pick up since the lines are totally unshielded so that the problem of identity theft, among other things, will be even more serious.

I'm profoundly elmer-less insofar, and the jargon used throws me off completely. I hope you don't mind taking some time to educate me. I'm assuming the tower in your front yard is your antenna, and "blanking" a friend's 706, I cannot begin to imagine what that means. (We all got started somewhere, I apologize if this is common knowledge among hams, but I am not one yet.) I'm not sure what an HTX-242 is, but my research shows that it's a mobile from Rat Shack. I am decisively out in the country. What's worse, I'm in a dell. (I'm right smack dab in the sticks in a lovely town called Loomis, CA.) I have 1.5 Watt walkie talkie's that are supposed to be able to transmit upwards of 5 miles from my home, but once I start up the hill, or rather, begin to go DOWN the hill away from the house, the signal is lost. I can fire my red ryder bb gun farther than the signal goes, which seems to illustrate that my transmission point is less than desireable. I am willing to travel somewhere in order to be able to use the radio, but I'd quite measureably be inclined to want to operate from home. My complete absence of antenna know-how (This is my WEAKEST link, actually. I'll be studying this element intensively during the week before I take the test. On the internet, I pass the test every time, but just barely.) ... My complete absence of antenna know-how has me wondering just what I might be able to utilize for transmissions. I will need something portable, something that can be set up and taken down rather easily. (That having been said, on our property we have some very tall willow trees) and I know a dipole antenna

won't work with this kind
of radio... So you see, my knowledge is glaringly nonexistent. I can wait a while longer before I get a radio, but if I can spend $150 on a mobile rig, and have it perform really nicely for me, I would be most excited to do so. I apologize if this e-mail is a bit verbose.

I have another question... And again, forgive my utter ignorance here: Can these radios be plugged in a cigarette lighter in the vehicle, driven to a tall location, simply having an antenna mounted on the roof (wire in through window) and someone can CQ from inside the vehicle? I know this sounds a skosh crude, but it's not entirely without it's prospect of being fun.

Any info greatly appreciated!

DJM

135. Re: Best antenna (preferrably wire)

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-03 22:11:39 UTC
From: Vaughn Combs <n2bha@arrl.net>
Message-ID: <v6HJb.2096$Dq1.1671@twister.nyroc.rr.com>
Source record: 60077
Cross-posted to: rec.radio.amateur.antenna,alt.radio.amateur,rec.radio.amateur.homebrew,rec.radio.amateur.misc

Hi Richard,

If this helps both my XYL and I will be in your debt ;-)

So I should solder a shielded copper wire to the near end (aka the feed point but on the other side of the insulator --- near the house), let it run down the side of the house (about 22 to 25 feet down) and then to a ground rod? Then connect both the wire from the point where the new ground wire attaches and the wire (formerly the feedline) that connects to the "long" wire to the balun. Then its on into the house and the tuner via RG-8. Correct?

What do I connect to the ground lugs on the tuner and rig? The inefficient RF ground wire that I have now? That wire currently goes to a ground strip that has 1/4 wave length radials that were cut for each band running through the attic and an additional wire that is attached to a pipe that I found in the attic that is a plumbing drain pipe vent.

BTW, would there be any advantage to using other than 1:1 for the current balun? Any recommendations for the balun? I have seen some that can be made simply from coax.

I hope that I am not being a pain but this RFI prob is a bugger and it would be REALLY nice to squash this one. It is bugging the XYL quite a bit and it limits my operating time ;-)

Also, the ground loop that you are referring to would be current in the shield (or in my case the outer skin of the copper wire ;-) coming through the feed line and into the equipment. From there it is possibly getting into electrical ground through the power supply?

Again, Many thanks for your help and 73,

Vaughn, N2BHA

>Correct?

Yup. That is what I was describing, but it could work dangling (with
a sealed, insulated end that is mechanically tied down; however, this
is not anymore efficient as the floating wires along your rafters,
merely different).

View with fixed font:
BalUn longwire
rig --- tuner ant ---OOOOO-----------------------------
rig --- tuner gnd ---OOOOO-+
| |
| | drop
| |
----- -----
--- ---
- -

Ground loop issues arise due to there being two paths with a
significant distance (in wavelength) between them (from the +
down, through ground, and back up to the rig) and an impedance between
(the BalUn which serves this purpose by design). This usually comes
about when the ham shack is elevated, and still has some form of
ground return that is an appreciable distance (in wavelength,
basically more than 0.1 wavelength) from true ground.

The rig ground may be deliberate, or it may be passive through metal
connections and continuity with the power supply which in turn
inherits it from the wall socket. Even if there is no safety ground
from the wall socket, there is still a capacitive coupling in the

wiring to fulfill the mission (and 40/80M probably plays hell with the
VCR).
>
>What do I connect to the ground lugs on the tuner and rig? The inefficient

>the attic that is a plumbing drain pipe vent.

This may still be a viable option. Don't discard anything, simply
isolate one or all and experiment (it's the name of the game).

>
>BTW, would there be any advantage to using other than 1:1 for the current
>balun? Any recommendations for the balun? I have seen some that can be made
>simply from coax.

Simple coax chokes work just as effectively. Half a dozen to eight
turns of six to eight inch turns will be adequate for 40-15M, you may
need to experiment with a few more turns outside of this. Current
BalUns are simply Ferrite donuts put over a 1 foot length of RG-52
coax (one or a couple dozen donuts). The same thing can be achieved
with a large torus with four or five turns of coax through the center
(if its big enough). This is square law time, so four turns equals 16
donuts. Stacking two large toroids with 3 turns each would substitute
(or maybe three with three turns).

Using ferrite makes for a smaller device that works over a larger span
of frequencies, but winding air wounds can be tested immediately at no
more cost than the cable already handy.

>
>Vaughn, N2BHA
>
Hi Vaughn,

I've described the ground loop above. Isolating it means "busting"
ground somewhere. I use a battery. Voila! Opening any path does
just as well, but you have a dangling radiator somewhere (like the
drop). This may help, or it may change nothing. RFI problems are
unique to every situation and having your shack up high is the major
contributor, but to keep peace in the family try to limit RF exposure

to the end of the pipe (the purpose of the choke).

The choke inhibits RF from traveling back (conduction) into your shack (but your rafter mounted "radials" contribute RF exposure through radiation). You might try wrapping your power supply AC leads through a ferrite (or use a split core). This is choking your rig from going into the House AC. If you do this, take care to observe ALL connections to the rig. Do you have a packet connection to the rig from a computer? This is another path to ground, Choke it!!! Do you have a modem on the computer? Ditto. Computer Display? Ditto. A powered microphone? Ditto. The shack is a hydra of wires all heading to ground eventually and all it takes is one - and sometimes it melts.

There are three forms of power transfer: Conduction, Radiation, and Convection. Clearly convection is out as we are not heating soup. Conduction comes through wire, and radiation through the air. Your problems (as for most) usually comes by virtue of shared paths in the AC distribution and this is a conduction issue. If you move your rig's power supply to another wall socket ON A DIFFERENT BREAKER, you might solve one problem (and discover a new one). Use an extension cord (choke it) to experiment with this possibility. Having the antenna feed point close to the house brings about the possibility of radiation coupling. Move it (the choke point) away from the house. Remember this is square law time too and with each doubling, you quarter your exposure.

I've noted this on the tropical bands up to about 6 Mhz as well as above
11 Mhz. It never used to be there. The power lines and related equipment
in my area are OLD-dating back to the early 1950s when the old
Krushmacher Ranch was subdivided and sold. According to old timers, the
power lines weren't grounded originally, and when lightning hit the pole
connected to your house you'd get 6 inch long flames coming out of your
electrical sockets.

All the poles here are BETWEEN the houses (running through the back
yards) so I doubt I'll be able to narrow it down to one pole.

Sadly, the White Trash element is taking over ham radio in
ever increasing numbers.

2 meters = CB
Hamfest = Freak Fest

Do you expect White Trash to leave a tip? No, but you do
expect them & 12 of their white trash butties to cram into a
motel room intended for two guests.

Even funnier, give White Trash a ham license, and they suddenly
become "enforcers" of CB radio rules.

Thanks ARRL!

Willy
Houston

That's not it at all. The fact is that Morse code IS the second most popular
mode in use in the ARS today. IMHO, that in itself is sufficient
justification. Remember, we're talking about the 5-wpm test, NOT 13 0r 20.

Is this really an issue at 5-wpm, Bill?

The changes I find acceptable are already in a RM proposal. I've sent multiple letters and/or e-mails to my elected representatives, the entire ARRL leadership, and the FCC. That'll suffice for now, thanks.

YEAH BABY!!! You are THE BEST, Bill...thank you, thank you, thank you! Yes, I would very much "like to continue mandating a skill test for a mode that is all but gone from the world of radio communications EXCEPT WITHIN AMATEUR USE." Thats because it's a skill test for upgrading within, not entry into, the ARS and the mode is the second most popular mode in use in the ARS today. Too easy, Bill.

We both know the manual gearshift analogy really doesn't work, so I'll skip that part. However, on the subject of you kids, weren't you the least bit concerned that some other impatient jackass might choose to jump in his college roomates car and just "wing it" down to the store for a pack of cigarettes? I've seen this at Wagner College in Staten Island. The "down" part refers to "down the hill" to Targee Ave. as cigarette machines were not allowed on campus. This is the jerk who'll say he's sorry over and over for hitting your kid's car. I guess that's why defensive driving is so important. Still...I'd sure be concerned.

No Bill, I want a very defined (Element 1) very measurable (5-wpm) effort for two (Not any.) license levels.

> determinator.

You mean the second most popular mode in use today doesn't rate as a valid test requirement determinator. Gee, we could have one for the first most popular, SSB, but we already know how to talk. That's way the stand-alone, Bill. It's a learned skill that's an unknown coming in. (Unlike speech.)

> > > There was, in the past, a rational reason

1. Second most populat mode in use in the ARS today.

2. Unlike speech, this is a new skill that must be acquired.

3. Because an awfully large portion of licensed ARO's want it.

It's like pairing up Tennis partners. A beginning recreational player is usually not paired up with the club pro unless it's for lessons. (Elmer) BTW, I have a confession. My very first AR CW QSO was on 7031 kHz, but it was wuth my Elmer. ;-)

And, in my humble opinion, it is not sufficient justification - no more than the fact that vacuum tubes or circular analog tuning dials were once popular justifies a requirement that they continue to be used. Clearly, unless there is a valid reason otherwise, anyone should be free to use those if he or she wants, but there should be no government regulation mandating that. The same with Morse code.

> Remember, we're talking about the 5-wpm
> test, NOT 13 0r 20.

If a person has no interest in code, the speed certainly isn't going to change that.

The Amateur Radio Service does not exist in a vacuum, Bert. The FCC recently said "the emphasis on Morse code proficiency as a licensing requirement does not comport with the basis and purpose of the service." They came to that conclusion after looking at modern communications systems outside Amateur Radio and the changes that have occurred in communications over the last fifty years. They noted that "no communication system has been designed in many years that depends on hand-keyed telegraphy or the ability to receive messages in Morse code by ear." And they said reducing the emphasis on telegraphy proficiency as a licensing requirement would "allow the amateur service to, as it has in the past, attract technically inclined persons, particularly the youth of our country, and encourage them to learn and to prepare themselves in the areas where the United States needs expertise."

> You mean the second most popular mode
> in use today doesn't rate as a valid test
> requirement determinator. (snip)

If you're going to argue that to justify a test requirement for the second most popular mode, why not argue the same for the third, forth, or even fifth, most popular modes?

By the way, where did you get the idea that CW was the second most popular mode? I agree that SSB is probably the most popular. But, given the sheer numbers of Technicians today and the fact that not all others use CW on a regular basis, certainly far more people use FM than CW today.

Note that the newsgroups "rec.radio.cb" and "rec.radio.shortwave" were removed from this reply (off-topic in those newsgroup).

That deemphasis has already occurred. The no-code tech was instituted in
the late 1980s and the code for the higher classes was dropped to only 5wpm
in 2000. There is no need for further deemphasis. Particularly when the
stated reason was attract technically inclined people. That hasn't happened
so the reason for deemphasis has been proven to be invalid.

>

The poster should have qualified that by saying "second most popular mode on HF". The usage of FM on HF is very strictly limited and regulated and isn't appropriate for use on bands that are as narrow as the HF bands.

As far as testing for the other modes:

Voice - we've all been talking quite some time, the only additional knowledge needed is procedural, which can easily be covered by the written tests

SSTV - just a matter of hooking up the hardware and then following the correct operating procedures, both of which can easily be covered by the written tests.

Digital modes - just a matter of hooking up the hardware and then following the correct operating procedures, both which can easily be covered by the written tests.

Morse code/CW is unique and cannot be covered by the written tests. Actually I happen to believe that there would be great benefit to requiring candidates to demonstrate other basic skills, such as soldering a PL-259 to coax as an example, for licensing. But I know it won't happen.

We don't require knowledge of second languages just because
one or more languages other than English are used by vast
numbers of non-USA hams.

Why does mode popularity mandate a separate skill test just
because others use it? NO other mode has that special
treatment...and, it appears, the FCC understands that.

Of course it is an issue. Any test requirement that can't be justified has
no reason to exist...regardless of how much or how little effort
may be required.

> today. Too easy, Bill.

Too bad your argument doesn't hold sway with the FCC. Additionally,
a dozen or so other countries have already abandoned morse testing
completely. The dominos are falling...it is just a matter of time. The

USA fully endorsed the end of mandatory code testing in the treaty.
Do you expect a reversal of mindset on the internal (USA only) position
by the FCC?

Other than a rather funny tale of an auto thief wo didn't drive a manual
but hijacked a car that was and the bozo lurched the car a couple of times
and then stalled it...I have never heard of anyone being a threat to me
or my kids because they didn't know how to drive a manual gearbox.
Frankly, if you are worried about that happening, you must lead a very
paranoid life. Far greater danger exists from the general driving
public who can't handle their vehicles in anything that resembles
non-perfect driving conditions.

And when the FCC ends that requirement, what is your
desire for additional "work effort" requirements?

Sorry, not everyone talks as you well know. Based on your claim,
everyone should at least be able to have a "voice" QSO, because voice
IS the most popular mode...yet there is NO requiremnt that anyone
be conversant or have voice skills at all. Yes a significant portion
of hams have natural speaking ability, BUT that is NOT true of 100%
of hams...yet there is NO requirement at all for speaking ability.

Gross oversimplification and very uninformed viewpoint.
The FCC's goal is to have rules and regulations that make
sense. If FCC work were the ONLY driving force, they'd
probably end amateur radio completely.

What or how would ending morse result in less work for me
and/or other NCI folks that previosuly passed any code test?
We gain nothing.

Failed to convince the FCC...see R&O for 98-143

> 2. Unlike speech, this is a new skill that must be acquired.

Also Failed to convince the FCC...see R&O for 98-143
PLUS, there is no known harm, danger or threat if a ham
does NOT know te code and/or if a ham decided to learn
and practice on the air even though s/he never took a code test.

> 3. Because an awfully large portion of licensed ARO's want it.

Totally failed to convince the FCC...see R&O for 98-143
The rules and regs of amaeur radio are NOT decided by
popular vote of already licensed hams. Even as to a position
of actually what percent of already licensed hams might
want code testing retained, there is no good data that provides
an accurate picture. The last "survey" of any type was done
by the ARRL almost 10 years ago. NCI did an analysis of
comments filed pro/con when 98-143 was open for comment
and which showed the continued drift from support of code
testing. That too is now over 5 years ago.

The bottom line, (you can agree or not) is that ever since the
concept of no code testing began, the amateur community
has not been universally opposed to ending code testing.
From my perspective, the percent of hams that absolutly want
code testing to stay is an ever decreasing percentage. Exactly
what that percentage isn't known...but, if a survey was held
again, I'm sure it is less today than it was a 5 years ago and
will be even less again a year from now since newcomers
are 'generally' not proponents of code testing and as older
hams which constitute the bulk of code testing support
die off. That may seem crass, but that's the truth as I see it.

In the end, again, the FCC isn't going to make any determination
to keep code testing because X perecnt of hams want to keep
a code test. That is, again, very clear in the 98-143 R&O.

> Not very nice, Bill.

Life's a bitch and then we die. Those that are uncomfortable as
new drivers at highway speeds stay off the highway. Most
highways have minimum speeds to maintain that mindset. If
segments of amateur spectrum became known as high speed
CW segments, then what;s the problem?

> > > I've had a couple of ops QRS from 20-wpm down to 19-wpm

> was wuth my Elmer. ;-)

I repeat, if a new ham ventures into a band segment that is known
or expected to have high speed CW as the norm...and that ham doesn't
get anyone to respond at his/her slow code speed, that's just
the way it goes. That's part of learning for any new ham.

Cheers,
Bill K2UNK

I have never accepted the argument that ending code testing would
result in more technically inclined folks becoming hams, BUT...
until access to the full spectrum of ham privileges comes with
no code test at all, the statement that: "That (more tech inclined hams)
hasn't happened so the reason (ending some code testing, but
not all) for deemphasis has been proven to be invalid" IS
on its own merits invalid.

BUT, there are some hams who have NO voice ability at all.
Should they be prohibited from becoming hams? Should we
have a medical waiver for those voice handicapped hams?

> SSTV - just a matter of hooking up the hardware and then following the

Wrong. The ability (the skill) to send/recieve may not
be a written test aspect, but the theory, signal characteristics,
and some other aspects can be and are on the writtens.

> Actually I happen to believe that there would be great benefit to
requiring
> candidates to demonstrate other basic skills, such as soldering a PL-259
to
> coax as an example, for licensing. But I know it won't happen.

Why would you want that? Frankly, soldering has never been
a strong point with me...yet I've been able to do quite well
technically in my career as well as ham radio. I can "get by"
but prefer to have others do some of the connector soldering
chores for me.

Additionally, a soldering test, especially a PL-259 would be
too subjective a determination. Even soldering can't be learned by
all hams. Would we then have a soldering waiver for blind hams
or other hams handicapped by some affliction that didn't allow
them to ever pass a soldering test?

Cheers,
Bill K2UNK

Nobody's forcing anybody to use it, just learn it...and only for HF privies.

At 5-wpm, it's more a demonstration of discipline than proficiency. That is
where the true crux lies.

They've already reduced the emphasis by creating the no-code Technician ticket and further by reducing the required code speed for the General and Extra tickets.

Unique skill, Dwight...decoded by the human brain. Speach for phone and reading ability for digital are skills brought into the fray from day one.

> By the way, where did you get the idea that CW was the second most
popular

My apologies, I should have been more clear. I actually meant Phone vs. Morse code. I used SSB because I almost never use FM, only for ARES work. Additionally, I'm pretty much always on HF.

> Note that the newsgroups "rec.radio.cb" and "rec.radio.shortwave" were

I gotta tell ya, Bill. You're your own worst adversary wrt to this debate.
Did you bother to tell the NCI newbies about the benefit of using Q signals
and prosigns on CW? Remember this post, Bill?

Nah, how about just the *second* most popular language on the air...prosigns and Q signals. They allow us to effectively communicate with the third most popular language...and fourth, and fifth, and so on...

That's right, Bill. Try getting your message across via phone to that JA station who doesn't speak a lick of English, WITHOUT speaking Japanese. I can...and you know why. Too bad your NCI followers don't know why. Didn't you tell them, Bill? Oh, you left that part out. No prob, your secret's safe with me.

P.S. Here's a useful phrase for the <English only speaking> NCTA's next SSB encounter with a JA station, "Ei-go ga dekimasu ka?" (Do you speak English?)

Obviously you are unaware of how the vanity call system came about. One ham,
who had his RM proposal denied by the FCC, wrote a letter to his
congressman. Turned out this particular congressman had some influence on
the FCC's budget. Bill Clinton signed the bill that had our vanity system
attached to it...no RM proposal needed. One ham CAN make a difference.
Sounds kinda cliche, eh? "One ham, one letter, one vote!" <ggg>

> or my kids because they didn't know how to drive a manual gearbox

Just because you've never heard of it doesn't mean it doesn't exist.

None, while I support Element 1's retention, it really doesn't affect me
personally. Don't count your chickens before they're hatched, Bill. They may
just eliminate it for Novice/Tech "+" privies. (Cool by me.)

I don't really believe the FCC has the ARS' best interests in mind, so that kinda rings hollow from my perspective. Just think BPL.

> > 2. Unlike speech, this is a new skill that must be acquired.

I care a tad more about my fellow newbies than the "life's a bitch and then
we die" mindset. Thank goodness my Elmer taught me how to avoid OTA death
syndrome.

So lets see here. If the new jet airliners will fly and land themselves, the persons that occupy the cockpit don't really need to learn to fly. Makes perfect sense. They don't need to learn to fly because the computer does it for them.

Dwight, how about giving us a good rational reason to continue testing
at all. I can break every reason with either rationale or minor
modifications to equipment.

<snip>

That's nice. The thread has moved on to the other main amateur Troll
subject "code." Nobody in rec.radio.shortwave cares. Please trim the
newsgroups.

The Ohio/Penn DX PacketCluster
DX Bulletin No. 642
BID: $OPDX.642
January 5, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, AA1M K1XN & GoList, NC1L, KP2/K2ZZ, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N5DD, N5FG, K8YSE, W9OL, AK0M, DL/VE3ZIK & www.contesting.info, DL2VFR & IOTA-POST, F5CWU & La Gazette du DX, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, JI6KVR & JA-IOTA Islands News, OH6KN, UA4WHX/AC4LN, VA3RJ & ICPO, VK4AAR and XE1BEF DX Bulletin for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 28th/December, through Sunday, 4th/January there were 229 countries active. Countries available: 1A, 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4W, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9V, 9Y, A2, A3, A4, A5, A6, A7, AP, BV, BY, C3, C6, CE, CE0A, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GM, GU, GW, H4, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, I, IS, J3, J6, J7, J8, JA, JD/m, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T2, T32, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9L, VK9N, VP2E, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

1A, SMOM (Sovereign Military Order of Malta). By the time you read this, the team of 1A0KM operators led by Francesco, IK0FVC, should be QRT (as of January 5th). Remember to QSL via Sergio, IK0FTA. The logs are expected to be available after the operation at the following Web page: http://www.sixitalia.org/1a0km/1a0km2004.htm

5V, TOGO (Update). An English Web page is now available on the InterNet for the upcoming Le Radio Club de Provins 77 (F6KOP) DXpedition to Lome, Togo, as 5V7C from March 6-12th. Please visit it at: http://5v7c.free.fr/les_newsleng.htm

80 METER NEWS. Amateurs from VK-land are now active on their newly expanded 80m phone frequencies. They now have privileges on 3776-3800 kHz (their old allocation was 3795-3800 kHz).

AC4LN/UA4WHX OPERATION WRAP. OPDX InterNet Subscribers will receive an additional bulletin containing an interesting E-mail received from Vladimir, UA4WHX/AC4LN. In the long E-mail, Vladimir talks about QSLing his operations and provides a list of all the DXCC and IOTA entities that he activated (with dates and time UTC) between May 1, 2003 and December 25, 2003. He made a little under 85000 QSOs and states he practically never operated from hotels. Almost all QTHs were local families that he stayed with.

ANNUAL TOP 5 QSL MANAGER SURVEY. John, K1XN, Editor of the GoList, states that it is that time again for the "Annual TOP 5 QSL MANAGER SURVEY". This is a nomination process by DXers of the Top 5 QSL Managers with whom they have had dealings with in 2003. Please send the callsigns of the 5 Best QSL Managers (in your opinion) for 2003. Send your nominations to: golist@golist.net
The results of this survey will be given to Carl, N4AA, for inclusion in the QRZ-DX bulletin and also announced on the GOLIST Reflector by Mid month in February. The purpose of this voting is to give at least a small "THANK YOU" to the work performed by QSL Managers around the world. They do not receive enough praise for the work they perform, nor are they respected enough by the DXers who benefit from their work. VOTING WILL END FEBRUARY 1, 2004. John is looking forward to receiving responses from everyone. This is NOT a closed survey, but open to every DXer world-wide.

C6, BAHAMAS. Steve, AK0M, informs OPDX that he will be operating C6ASB from the Sand Dollar Villa (Web Site at: http://www.sanddollarvilla.com) at Treasure Cay, Bahamas, from February 21-28th. This is IOTA NA-080 and Grid Square FL16. There will be some casual all-band operation in the ARRL CW DX Contest (February 21-22nd) after arrival on Saturday, but some antenna work will have to be finished first that will add 30m, 40m and 75/80m capability to the rental QTH. Casual operation will continue throughout the week after the contest on 80-10 meters, including 12m, 17m and 30m, also 6m if the band opens. Modes are CW (preferred) and SSB, small possibility also of some digital modes. Station will be verticals and FT857 (100W), also FT817 and Buddipole from the beach. His XYL Sandy, KC0RD, may also be on as C6ASC. QSL via AK0M. For those still awaiting cards from the C6ASB operation in July, the cards have been received from the printer and will go out in the next week or two. More info at: http://pages.cfu.net/~sjs/c6asb.htm

D4, CAPE VERDE. Alexander, 4L5A, plans to activate the D4B contest station again in the following two contests. Look for D4B during the CQ WPX SSB Contest (March 27-28th) as a Single-Op/All Band/High Power entry. Also, look for D4B in the CQ WPX CW Contest (May 29-30th) as Single-Op/All

Band/High Power entry. QSL both operations to K1BV. For details and pictures of the D4B contest stations, visit the Web page at: http://www.qsl.net/d44tt

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation is approved for DXCC credit:
Pratas Island - BQ9P (September 9-16th, 2003)
ADDED NOTES: Do you have questions regarding DXCC program issues? Visit the DXCC Web site. Here you will find the program rules, the current and deleted DXCC lists and all of the forms needed to participate. If, after reading the information here, you still have questions regarding the DXCC Program, contact the DXCC Desk. The DXCC Web page is at: http://www.arrl.org/awards/dxcc

FG, GUADELOUPE. Pierre, F6FXS, will be active once again as FG/F6FXS from Guadeloupe mainland, January 14th to February 13th. His planned activity will be on CW only and low power (30 watts) into a long wire antenna. Operations will be on 40/30/20/15/10 meters. His daily time schedule is from 1300-1400z and 2200-2400z (possibly more time, especially for European stations). QSL via his home callsign, direct or the bureau.

FM, MARTINIQUE. Fabrice, F5FUA, will be active as FM/F5FUA/p from the Martinique (NA-107, DIFO FM-001) from February 3-24th. Activity is scheduled daily from 1100-1300z and 2200-2400z on 80/40/20/15/10 meters using an IC 706 MKIIG and a Double Dipole Multi-band Diamond W-8010. No information was provided on modes. QSL via the French REF Bureau is preferred.

FO, AUSTRAL ISLANDS (Update). Veijo, OH6KN, informed OPDX that a group of OH amateurs will be going to Tubuai Island (IOTA OC-152) in the Austral Islands. Operations will take place January 6-18th. Their callsigns are not yet known yet. The team consists of the following: Henri/OH3JR, Veko/OH1AWW, Veijo/OH6KN, Kimmo/OH9MDV, Jouko/OH1RX and Merja (OH1RX's XYL). Their main focus will be on the low bands (160-30 meters) and QSOs with Europe and USA Eastcoast. The suggested operating frequencies are (+/- QRM):
CW - 1822, 3503, 7008, 10108, 14008, 18068, 21008, 24898 and 28008
SSB - 1845, 3790, 7050, 14195, 18145, 21295, 24945 and 28495
RTTY- 14080, 21080 and 28070 kHz
Note: Split up operations will be used.
Some activity will be on RTTY. There will be 2-3 stations in operation and antennas will be 1/2 element verticals on low bands and yagis on the high bands. QSL Manager is OH9MDV: Kimmo Rautio, Sieppotie 10 as 1B, 90650 Oulu, Finland. QSLs are "OK" direct or via the Bureau. Their DXpedition Web pages are at: http://personal.inet.fi/private/pcf2004/ The Web site will also contain a log search.

ISLAND AND LIGHTHOUSE 2004 TOUR. Look for Manfred/DL8DXL and possibly others to activate the following IOTAs and lighthouses. Information provided was very vague. No bands or modes of activity were provided. Callsign to be used are: DL8DXL/p and DL/LX1NO (only for new activations). Here is the planned schedule:

IOTA GIA GLHA WLH ARLHS
May 16-19th Baltrum Island EU-047 N-06 - - -
May 20-23rd Neuwerk Island EU-127 N-12 38 2311 FED-165
May 22nd Scharhoern Isl. EU.127 N-11 - - -
May 24-27th Oland Island EU-042 N-20 new 0712 FED-174
May 27-29th Langeness Isl. EU-042 N-19 - - -
May 29th Langeness Isl. EU-042 N-19 new 1245 FED-134

J3, GRENADA. Bob/AA1M and Mike/W1USN will be active from here as J3/homecall from January 29th through February 6th. They will be operating on CW, SSB and some PSK on the HF bands. QSL to their home callsigns either direct or via the bureau.

KP2, U.S. VIRGIN ISLAND. George, KP2/K2ZZ, informs OPDX that he is now living in St. Thomas. He plans to be active on 20-6 meters. His QSL Manager is W1QJ. George also announced this past week that he will be in the ARRL CW DX Contest (February 21-22nd) as a Single-Op/Single Band (15m)/Low Power entry.

LX, LUXEMBOURG. Operators Jorgen/DL4SDW, Bernd/DL8SCG and Philippe/LX2AJ will be active as LX7I in the CQ 160-Meter CW Contest (January 24-25th) as a Multi-Single entry. QSL via LX2AJ.

MD4, ISLE OF MAN. Operators Martin/G4XUM, G0HSS and Tim/M0BEW will be active as MD4K during the CQ 160-Meter CW Contest (January 24-25th) as a Multi entry. QSL via G3NKC.

NEW OFFICERS FOR 2004. The Texas DX Society has elected the following new officers to serve in 2004:
President - Mike Anderson, N5MV Secretary - Ed Gerber, W5GCX
Vice-President - Don Daze, N5DD Treasurer - Dave Topp, W5BXX
The Texas DX Society fosters the growth of DX and contest activities centered around South Texas. Please visit the society's Web site at: http://www.tdxs.org
For more information, please E-mail Don, N5DD, at: n5dd@arrl.net

OX, GREENLAND (IOTA Op). Operators Frank/DL2SWW and Ric/DL2VFR will be active as OX/homecall from Maniitsoq Island (Inuit-name or in Danish it is called Sukkertoppen), April 23rd to May 5th. Maniitsoq Island is IOTA NA-220 (12.4 % confirmed according to the most wanted IOTA-list). Ric informs OPDX that "the area will be probably difficult for the signal takeoff - the following information is taken from the Web site of the Maniitsoq Tourist Bureau:
The word 'Maniitsoq' means 'uneven' in the Inuit language. And uneven it is. The Maniitsup community is surrounded by the highest and wildest mountains in West Greenland. The wild mountains and the long and narrow fjords makes this landscape very unique and completely different from other landscapes in Greenland. The community has 4,000 inhabitants. 3,000 live in the town of Maniitsoq, situated on the island of the same name. Its distinctive appearance is due to the rugged landscape. From the small centre by the sea, the town stretches along the narrow valleys with wooden houses and even relatively big apartment buildings

clinging to the hillsides. As a result the town is blessed with a labyrinth of stairways. There also used to be a number of canals and the town was called the Venice of Greenland. Today most of these canals are gone and have made way for roads and houses."
Activity will be CW/SSB and the operator's equipment is: two ICOM 706, 1 Finnfet Amplifier 1kW, 1 Amplifier 500 W, and vertical antennas (e.g. HF6V-Butternut). The operator's objectives are:
1) To give/provide NA-220 to as many IOTA chasers as possible.
2) Provide new band counters from OX as much as propagations allows. (They do not expect to have any good propagation on 160 or 80m according to the time/season. However, they are going to try. Also, they are not planning any 6 meters operations.)
3) There is a possibility to activate Lighthouses GRN-031 or GRN-030 (ARLHS numbers).
QSL via the bureau or via their homecall (if requested direct, return postage is: Europe 1 USD or outside of Europe 2 USD). There will be no E-QSL. For more updates and information, go to the Web page at: http://www.iota-expedition.com
Logs will be available on the above Web site after their DXpedition.
ADDED NOTE: Frank/DL2SWW will celebrate his 50th birthday during this DXpedition.

P4, ARUBA. John, W2GD, will be active as P40W during the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All Band entry. QSL via N2MM.

P4, ARUBA. John, KK9A, will be active from the Iguana Villa between March 1-30th. His activity will include two contests. Look for John to be active as P40A in the ARRL DX Phone Contest (March 6-7th) as a Single-Op/Single Band (20m) entry. Also, look for him as P40A in the CQ WPX SSB Contest March 27-28th) as a Single-Op/All Band entry. QSL both operations to WD9DZA. To see the QTH, visit the Web page at: http://www.iguanavilla.com

QSL INFO AND NEWS.....
Bill, K5YG, is no longer the QSL Manager for 9H1PF and P29KPH. For 9H1PF, QSL direct. For P29KPH, QSL per operator instructions. Bill states he has a few cards left for those QSLing direct with return postage or a green stamp.

Bill, W9OL, reports that the logs for TYA11 (yep it's Tango Yankee Alpha One One) by Jacques Bernier from Benin are now online at the "Logbook of The World" (LoTW). These logs were originally managed by W4FRU. Also these logs are for June 19th, 1981, through June 21st, 1981 only. Bill will continue to provide hardcard QSLs. USA requests require SASE. Non USA requests require a SAE/1 IRC or equivalent postage. All bureau requests will be replied via the bureau. Bill states, "As these were handwritten logs, I tried my best to insure accuracy but an error in deciphering may have occurred. If you are NIL (Not In Log), E-mail me with QSO particulars and I will double check and make corrections if needed." This log was one of the rescue projects of the QSL MANAGER'S SOCIETY. Check out the Web Page at: http://www.qsl.net/qslmanagers/

Alan Roocroft, VK4AAR, reports, "I am receiving E-mails and cards for 9V0A and VP8PJ simply because I am the manager for 9V1DX (the same operator in each case). Alan Cheshire, 9V1DX, has not yet announced his QSL route for these operations. The announcement on the S.A.R.T.S. Web page (Singapore Amateur Radio Transmitters' Society) has listed 9V1DX as the route because he is one and the same person. This is not necessarily the case. The place to get the REAL facts are on Alan's own web page at: http://www.geocities.com/vk0ld/1.html
I will hold any cards that come to me for either of these Antarctic operations and will honour them IF I get the job. But for now, HOLD OFF till Alan announces his information on his return to Singapore in a couple of weeks."

SV/A, MOUNT ATHOS. Monk Apollo, SV1ASP/A, was active this past weekend on 17 meters. Watch 18145 and 18160 between 0800 and 1400z. Also, there was a QSN on 24945 kHz at 0954z.

THE 9TH CCF CONTEST/DX MEETING. The Contest Club Finland (CCF) gladly once again calls all the contesters/DXers around the whole contesting/DXing world to come and join the great contesting/DXing company and atmosphere in the CCF's 9th annual Contest/DX meeting held on January 16-18th. The meeting will be held at Sokos Hotel Vantaa, in the city of Vantaa, near Helsinki. There is plenty of activity on their agenda. Read more detailed information about agenda, hotel, contest dinner etc.... at the following Web page: http://www.qsl.net/ccf/meet9th.htm

V3, BELIZE (Lighthouse Activity). Gerd/DJ4KW and Gisela/DK9GG are expected to be active from here January 10th through February 29th. Look for them to sign V31YN on CW and V31GW on RTTY. Activity will be on 160-10 meters. The duo plans a side trip between February 2-6th and operate as V31YN/P from Lighthouse Reef (NA-123). Activity will be CW only on 40-10 meters. QSL via their home callsigns, direct or by the bureau. Logs are expected to be available at the following two Web sites:
http://www.qsl.net/dj4kw
http://www.qsl.net/dk9gg

VK9, COCOS-KEELING ISLAND (Update). There has been a report that Ken, JA1CMD, has had to cancel his VK9CA DXpedition due to transportation problems.

XU, CAMBODIA. Hiroo, JA2EZD, is once again in XU-land and is active with his new callsign XU7AAA. However, you only have a few more days to work him. He will go QRT on January 7th. Activity will be on all HF bands and 6 meters CW/SSB. QSL via the address: Hiroo Yonezuka, P.O. Box 10003, Vientiane, Laos. Check out the following Web page for more details:
http://www.qth.net/dxshack

XU, CAMBODIA. Remember, Peter, NO2R, will be active as XU7ACY from Sihanoukville, now through January 12th. Activity will be on 160, 80 and 40 meters exclusively. QSL via K2NJ, direct.

Initial assessments from monitoring groups and other observers indicates a record number of pirates, unlicensed broadcasters, & intruders took to the airwaves New Year's Eve and New Year's Day across the U.S.

Activity was observed on HF in the 6600-6900 khz range and 15 mhz band. Larger cities had four & five unlicensed Low Power FM stations going simultaneously. Some observers reported unlicensed activity even appearing in the AM broadcast band!

Today with the Internet with the World Wide Web, it seems pointless to bother with pirate broadcasting. If I had a message I wanted heard (or read) I'd set up a web page. If I wanted people to hear my garage band's music, I could upload the mp3s to that web page. The web page would be available 24/7 world wide. A pirate station will only have a very limited
range and time period, and most people interested in your material would miss it.

Add the fact that the pirate station is rather illegal, the web page would be the media of choice.

> deemphasis. (snip)

I disagree. The reasons stated for reducing code (changes over last 50 years, no system dependant on code in many years, and so on) could just as easily be used to argue against a code test of any kind. In other words, how are those facts changed by a 5 wpm test instead of a 13 wpm test?

> (snip) Morse code/CW is unique and
> cannot be covered by the written tests.
> Actually (snip)

It is unique only in the level of emphasis placed on it. Without that emphasis, there would be no unique test for it. Which brings us right back where I started, pointing to what the FCC has said - "the emphasis on Morse code proficiency as a licensing requirement does not comport with the basis and purpose of the service."

Given another statement in your reply ("unique skill...decoded by the human brain"), that statement is rather illogical, isn't it? If the "skill" tested is the ability to decode code with the human brain, it would seem one would have to "use" that ability at some level just to pass the test.

> At 5-wpm, it's more a demonstration of
> discipline than proficiency. That is where
> the true crux lies.

The FCC doesn't have a mandate to test discipline. And, beyond the rules and good operating practices, we shouldn't expect it either. After all, we're not the military or a karate school.

> They've already reduced the emphasis by
> creating the no-code Technician ticket and

As I told Dee, the reasons quoted in my earlier message for reducing code (changes over last 50 years, no system dependant on code in many years, and so on) could just as easily be used to argue against a code test of any kind. In other words, how are those facts changed by a 5 wpm test instead of a 13 wpm test?

The FCC itself has already effectively provided that answer when they said "the emphasis on Morse code proficiency as a licensing requirement does not comport with the basis and purpose of the service." Clearly, the written tests do comport with the basis and purpose of the service, and I doubt many of us, including you, would disagree.

Amateur Radio Newslineï¿½ Report 1377 ï¿½ January 2, 2004

Amateur Radio Newsline report number 1377 with a release date of
Friday, January 2, 2004 to follow in 5-4-3-2-1.

The following is a QST. V-K hams welcome 2004 with new spectrum.
P-29 hams enter the new year with no-code and the FCC ends 2003
embracing smart radios. All this and more on Amateur Radio Newsline
report number 1377 for the first week of 2004 coming your way right
now.

(Billboard Cart Here)

**

RESTRUCTURING: EXCLUSIVE SPECTRUM DOWN UNDER

Hams in Australia start 2004 with an unexpected gift. Some exclusive
spectrum in the 75 meter band. From Brisbane here's Q-News Graham
Kemp, VK4BB, with the rest of the story:

--

As of January 1st amateur radio operators in Australia have gained
exclusive access to 24 kHz of HF spectrum at 3776-3800 kHz for high
frequency amateur radio communications between continents.

The new Australian spectrum allocation for the amateur service is made
under footnote AUS8 of the Australian Radiofrequency Spectrum Plan
2002 published by the ACA. It aligns well with international
arrangements, which means intercontinental communications for
Australian amateur radio operators will be improved at these
frequencies.

This domestic change has affected other spectrum users. More than 40
government bodies, community groups and commercial organizations were
previously licensed for HF communications within this 24 kHz of
spectrum, with amateur operators having lower priority access to 6
kHz.

For Q-News Australia, I'm Graham Kemp, VK4BB, for the Amateur Radio
Newsline.

--

A very nice way to start the year 2004. (Q-News)

**

RESTRUCTURING: P29Z CALLS GIVEN HF GIFT

Australia is not the only nation in the Southern hemisphere to have some ham radio rules changes with the new year. A report out of Papua New Guinea says that the tiny nations has welcomed 2004 by going no-code.

According to Rick Warnett, P29KFS, in Port Morsby, the nations telecommunications regulator PANGTEL has issued an opinion confirming that P-N-G hams holding a Limited Amateur Operator's Certificate of Proficiency now have access to all High Frequency bands granted by PANGTEL. As a result, from 0000 P-N-G time on December 31st hams assigned P29Z series calls have full High Frequency access in the ham bands from 165 KHz thru 28MHz in addition to their 430 MHz to the multi Ghz allocation. (Q-News)

**

RESCUE RADIO: IRELAND PREPARES FOR POWER OUTAGES

Meantime on the other side of the world, what amounts to a mini Field Day exercise took place in Ireland December 6th and 7th. This when that nations ham radio rescue service known as AREN took part in a twenty-four hour simulated test to help prepare members for a possible power failure such as those experienced recently in the US and in the United Kingdom.

The test had several goals. Among them was to establish that AREN members could operate without mains power and to have members ready for activation during a sustained standby period. Also important was maintaining discipline by politely and firmly holding control of a working frequency for the duration of the exercise.

According to assessment reports, the AREN members demonstrated a keen and effective will to efficiently operate such a service. They also held the primary exercise frequency of 3.660 MHz without incident for the duration of the watch period. (IRTS)

**

RADIO LAW: S.C. INDICTMENT IN BPL RELATED SCHEME

Back here at home, it looks as if the first scam associated with Broadband over Powerline technology has surfaced. Amateur Radio Newsline's Jim Davis, W2JKD, tells us the who, the what, the why and the where:

--

News reports say that two Texas businessmen have been indicted on wire fraud and money laundering charges. This in a scheme that defrauded a South Carolina electric utility out of $1 million.

Prosecutors in Columbia, South Carolina say that the two convinced the utility to invest the money in research they said would allow voice,

video and data to be sent to homes and businesses through power lines. According to the documents filed on Thursday, December 18th, the could not deliver on the promises they had made.

Jim Davis, W2JKD, reporting.

--

No trial date has been announced in this case. (Published news reports)

THE CHANGING OF THE GUARD: Joe Knight, W5PDY, - S.K.

Some truly sad news to report. One of the nicest people ever to hold a ham radio license, Joe Knight, W5PDY, the recently retired New Mexico ARRL Section Manager, died on December 28th. Knight was in declining health when he passed away in Albuquerque at age 76.

For those not aware, Joe Knight held the honor of the longest tenure of any Section Manager in history. He was elected to the post in the mid 1970's and only stepped down last July after his health began to fail. In all he served as New Mexico Section Manager close to 27 years. A record never before matched.

Knight was the subject and chief narrator of an article, "The Luckiest Man Alive," which appeared in the January 2003 issue of QST Magazine. In it, Knight said that Amateur Radio will exist as long as there are people who love the art and science of communicating by radio. The article also outlined the vast emergency communication resources that Knight and hundreds of other dedicated volunteers built up over the years in New Mexico.

John Stuart, AC5ZO, the president of the Albuquerque DX Association, visited Knight on December 22nd. At that time Stuart presented Knight with an honorary membership certificate in that group.

Survivors include his wife, Lois, KC5CXO, who often accompanied Knight on his hamfest and convention visits and was a tireless recruiter for new ARRL members. (ARRL, W7AS, N7US, others)

**

CHANGING OF THE GUARD: Emmanuel G. Papandreas, W4SS, - S.K.

And former ARRL Southern Florida Section Emergency Coordinator, Emmanuel G. Papandreas, W4SS, of Lake Worth, passed away, Friday, December 26th at age 80. Manny as he was better was Southern Florida was SEC for 20 years. A record longer than any of his predecessors. And during his tenure, Papandreas oversaw the amateur emergency communications effort following Hurricane Andrew in 1992 including the staging area at the South Florida Fairgrounds in Palm Beach County.

W4SS was a life member of the West Palm Beach Amateur Radio Club and served numerous terms as President. He also taught amateur radio classes and was an ARRL Volunteer Examiner in Palm Beach county. And, over the years, W4SS was the recipient of many awards and honors from the South Florida agencies served by Amateur Radio. (WA4AW)

**

RADIO RULES: FCC OPENS SMART RADIO PROCEEDING

Turning to the regulatory scene, the FCC has adopted a Notice of Proposed Rulemaking and Order that sets out proposals and seeks comments on the uses and applications for "smart" radio systems. This, In light of the ever increasing demand for wireless transmitters.

Smart radios have the ability to adapt their use of spectrum to their environments. For example, a smart radio system could use geolocation and table lookups to determine whether certain frequencies are candidates for use in a particular area. Then, those frequencies could be scanned, idle spectrum identified, and the best frequencies and power levels selected for a particular link.

More is at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-242312A1.doc and http://hraunfoss.fcc.gov/edocs_public/attachmatch/FCC-03-322A1.doc on the World-Wide-Web. (CGC, FCC)

**

ENFORCEMENT: YOU CAN FLY BUT YOU CAN'T USE THAT RADIO

The FCC has asked more groups representing hang glider enthusiasts to tell their members to stay off the ham bands unless they hold Amateur Radio licenses. The agency's Daryl Duckworth, N-N-Zero-W, has more details:

--

Audio report only. Hear it at www.arnewsline.org

--

Hang gliding zealots who fail to heed the FCC warning could face some pretty severe penalties. (FCC, RAIN)

**

ENFORCEMENT: COMPANY FINED $8,000 FOR FAILING TO PAINT TOWER CABLES

The FCC has issued an $8,000 fine against Tower Properties of Florida, Inc. for having unpainted cables attached to their tower structure. Cables that the regulatory agency says precluded good visibility of the orange and white aviation-painted structure.

Section 17.50 of the FCC's Rules provides that antenna structures such as this one that require painting will be cleaned or repainted as often as necessary to maintain good visibility. Further, as incorporated by reference, alternate bands of aviation orange and white are normally displayed on coaxial cable, conduits, and other cables attached to the face of a tower. (CGC, FCC)

**

COMMUNICATIONS LAW: JUDGE RULES ISP'S DO NOT HAVE TO PROVIDE INFO TO MUSIC INDUSTRY

Meantime, back here in the United States, a major setback for the music industry's anti-piracy campaign. This, a federal appeals rejects efforts by the music producers to compel the nation's Internet providers to identify subscribers accused of illegally distributing music on-line. Amateur Radio Newsline's Bruce Tennant, K6PZW, has more:

--

It happened on Friday December 19th and it's being called a substantial setback for the entertainment industry. This, as a three-judge panel from the U.S. Court of Appeals for the District of Columbia overturned a ruling by the trial judge to enforce a copyright subpoena.

Earlier a trial judge had authorized the use of the subpoenas forcing Verizon Communications Inc. to turn over names and addresses for at least four Internet subscribers. Verizon complied but instructed its lawyers to challenges the ruling.

In its decision, the appeals court not only sided with Verizon. It went a step further. This, by declaring one of the crucial arguments used by the Recording Industry Association of America to obtain the original order as -- quote -- bordering upon the silly. The judges words-- not ours.

What does this mean to those artists and companies wanting to protect their intellectual copyright? It won't stop the entertainment industry from suing those who continue to swap music and video files peer to peer, but it will make them a lot harder for the industry lawyers to locate.

From the entertainment capitol of the world, I'm Bruce Tennant, K6PZW, reporting for the Amateur Radio Newsline

--

Its not known if the recording industry plans to appeal this latest decision against it to the U-S Supreme court. (Published news reports)

**

ON THE AIR: IOTA 40TH ANNIVERSARY AWARD

Turning to operating events, Don Field, G3XTT, wants to remind Islands on the Air Award enthusiasts and would-be enthusiasts that 2004 marks the 49th anniversary of this unique program. Don says that a set of files for downloading with lots more information are now available on the Chiltern DX Club website at www.cdxc.org.uk Just follow the IOTA 2004 links and remember this years award began on January 1st. (RSGB)

**

HAMFESTS AND CONVENTIONS: HAMFAIR NY IN FEBRUARY

And a reminder that Sunday, February 29th is the annual Long Island Hamfair and Electronics Show Winterfest sponsored by the Long Island Mobile Amateur Radio Club. The doors open 9:00 AM for buyers. Admission is $6 with children 11 and under welcome through the gate for free.

The location is Levittown Hall in Hicksville, New York. Complete directions are available on the Long Island Mobile Amateur Radio Club website at www.limarc.org/fest.htm (LIMARC)

**

HAMVENTION 2004: AWARD NOMINATING PERIOD CLOSES JANUARY 31ST

And the planners of Hamvention 2004 want to remind everyone that the nominating period for the Radio Amateur of the Year, Technical Excellence and Special Achievement awards program closes on January 31st.

There are three awards that will be given this year. The Radio Amateur of the Year is described as that special person who has made a long term commitment to the advancement of amateur radio. He or she is a well rounded individual who has contributed most of his or her lifetime to our hobby in some very outstanding way.

A nominee for the Technical Excellence award should be a person who has made an outstanding technical advancement in the field of amateur radio. Something like a revolutionary new equipment design or mode of operation that has impacted positively on the day to day operation of many hams.

Last but by no means least, a nominee for the Hamvention's Special Achievement is the kind of special person who has made an outstanding contribution to the advancement of amateur radio. This award is usually given to a respected amateur who spearheaded a single significant project.

Documentation is required. Magazine articles, newsletters, newspaper clippings, videos, and the like will better inform the Awards Committee of your candidate's accomplishments.

The nomination deadline is January 31st, All materials become the property of the Hamvention and cannot be returned.

You can fill out the on-line form and attach documentation files at www.hamvention.org. Then click your mouse on the words award nominations. Printed nominations and documentation go to the Awards Committee, Hamvention 2004, PO Box 964, Dayton Ohio, 45401.

Again, the deadline for all nominations is Saturday, January 31st. (Hamvention)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, we are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

HAM RADIO IN SPACE: ARISS UPDATE

According to ARISS International Chairman Frank Bauer, KA3HDO, the crew on board the International Space Station does not have time to read messages from the ham public and he advises against sending any. We have more in this report:

--

In letters posted to the SAREX remailer, Frank Bauer, KA3HDO, indicates that ham radio is lucky that the crew has been able to fire up the new Kenwood packet radio system that was recently delivered to the space outpost. He also says that its not a good idea for hams to send personal e-mails to the astro-hams indicating that they are really to busy to read and answer them.

As to the new radio itself, Bauer says that the unit is a Kenwood D700 that has been modified to support up to 25 watts maximum output. Normally, if the crew has the system configured with the default settings. This means about 10 watts out which is medium power on the 700.

Regarding the packet frequencies and why split channels rather than simplex is used, Bauer says this. 145.80 MHz is designated a human spaceflight downlink frequency. Right now it shares use on voice and packet for general operations and school group contacts. In the future it will be used at times for voice, packet, repeater capabilities, school group contacts and S-S-T-V. Because of this, the

ARISS team would like to keep the downlink frequency clear for all to hear and receive. Therefore, packet simplex is use not a good idea on this frequency.

I'm Bill Pasternak, WA6ITF

--

Meantime, Miles Man, WF1F, has posted some photos of the new station on his MAREX website. The URL is: http://www.marex.org/hardware.kenwood.html (SAREX BBS, WF1F)

**

EMERGING TECHNOLOGY: RADIO BRINGS FASTER FAST FOOD

On the emerging technology front, fast food has gotten even faster in southern California thanks to the magic of radio. This as five McDonald's restaurants sign a deal with a communications company to allow motorists to zip through the drive-through line without having to stop and pay cash for their food.

The trick is utilizing the same technology that permits motorists to skip stops on toll roads. A transponder will emit a signal to a receiver at the food giant that will automatically calculate the food the fee. The motorist is then billed. The process is said to cut 15 seconds off the normal 131 second-wait for delivery at the payment window. (Technology Corner)

**

INTERNATIONAL-ARGENTINA: ANDES MOUNTAIN LAND CROSSING

From the international page, Carlos Beviglia, LU1BCE, says that between January 4 and 15th, the Radio Club Argentino will participate in the 6th Andes Mountains Land Crossing. LU1BCE is the Secretary of the Radio Club Argentino. He tells the Ohio Penn D-X newsletter that this trek is made every year to honor General San Martin and his army's crossing to Chile. This, during the American Independence War in 1817.

The Radio Club Argentino will provide the communication for the event. The club will set up two High Frequency stations at every camp point throughout the journey. Operation will be mainly on SSB and C-W using the special event call LS4M. QSL via LU4AA, either direct or via the bureau. (OPDX)

**

INTERNATIONAL-CANADA: MEET THE NEW RAC EXEC COMMITTEE

Meantime, to the North, word that Daniel Lamoureux VE2KA, has been elected as president of the Executive Committee of Radio Amateurs of Canada. This, for a 2004 through 2005 term. Also elected to the committee are First Vice President Robert Nash, VE3KZ; Vice President

of Regulatory Affairs James Deann, VE3IQ; Vice President Field Services and International Affairs Pierre Mainville, VA3PM, and Noel Marcil, VE2BR, as Secretary. (RAC)

**

INTRUDER WATCH: THOSE INDONESIANS AGAIN

On the Intruder Watch scene, we have some bad news and some good news. First the bad. VK6XW reports hearing 53 non ham stations on the 14 MHz band operating SSB. He says that most appear to be from Indonesia.

The good news? Word that another group of Indonesians who had been using 14.335 MHz have vanished and have not been found again. The same is true for the bunch on 14.252 which have also disappeared from the Amateur spectrum leaving only the 14.144 gang which have gone LSB and moved up to 14.145 Mhz. (Q-News)

**

SPECIAL EVENT: 50 YEARS A HAM

And you might call this one celebrating a personal best. This as Fort Wayne Indiana's Jack Forbing, K9LSB, takes to the air from March 1st to the 14th as K9L in celebration of his 50 years as a licensed operator.

Jack and his friends in the Hoosierland Amateur Mobile Systems group will operate all bands and all modes from K9LSB's home QTH. Equipment for the event will be a Yaesu FT-1000MP Mark V and a Yaesu FTV-1000 6 meter transverter into an yaggi at 65 feet. All other bands will use dipoles antennas. All QSL's go to K9LSB at his Callbook address. And we wish Jack a hearty well done on reaching this milestone in his ham radio career. (Via e-mail)

**

DX

In DX, 9V1DX, is now active as 9V0A from Ellsworth Mountain in Antarctica. He was spotted in 40 and 30 meters CW. Watch 7.001 or 10.108 MHz between 01:30 and 03:00 UTC. (OPDX)

And W4WX, will be active as KG4DX from Guantanamo Bay, Cuba, from January 13th to the 19th. He will operate the HF bands and 6 meters. QSL to his home call, direct with SASE. (OPDX)

Lastly, AP2JZB, was active recently from Pakistan on 17 and 12 meters SSB . Watch around 18.119 and 24.946 MHz between 13:30 and 15:00 U-T-C. QSL as directed on the air. (OPDX)

**

THAT FINAL ITEM: HAM RADIO HISTORY -- THE FIRST BIG REPEATER MEETING - PART I

And finally this week, many hams are not aware that back in the early 1970's repeater growth and continued experimentation in ham radio relay communication came to a screeching halt. This, as the result of overly restrictive regulations on the part of the FCC.

As most radio amateurs of that era knew, this was not a good time to be the owner of a repeater unless you also held an Electronics Engineering degree. Things had to change if F-M and repeaters were to grow again. In the end, one man risked it all to make it happen.

On January 24, 1974 then 73 Magazine publisher Wayne Green, W2NSD, brought a group of prominent "repeater people" before the FCC. He had arranged the meeting in an attempt to convince the Commissioners to roll back the restrictions put in place as a result of Docket 18803. Here's a sample of what that meeting sounded like:

--
Meeting audio sample
--

Want to hear more? Well, over the next several months you can take a trip back in time to join Wayne Green, W2NSD, former Colorado's Marshal Quiat, AG0X, New York's Howard Lester W2ODC and Dick McKay, K6VGP, from California. This, as they and others go to Washington D-C -- to -- quite literaly -- set repeaters free.

Part 1 of the audio of that meeting is on our website as a Newsline Extra. In it you will meet the hams who traveled to Washington to speak on behalf of the nations FM and repeater community. You will also hear some of the presentations made by them. Its on line now at our f-t-p site at www.arnewsline.org slash quincy.

This is literally a page out of ham radio's history. Its here -- right now for you -- exclusively -- on the Amateur Radio Newsline. (ARNewesline(tm))

SPECIAL ANNOUBCEMENT TO ALL RADIO AMATEURS FRM Hamventionï¿½ 2004

Press Release
(January 2, 2003)

For more information please send e-mail to: media@hamvention.org

Hamventionï¿½ Award Nominations Close January 31st

Do you know an outstanding amateur in your club, community, or from on-the-air contacts? Does this person appear to excel in some phase of amateur radio? Do you feel that he/she deserves national and world-wide recognition? If so, then the time is now for you to sit down and write a letter to nominate that special radio amateur for one of three Hamventionï¿½ 2004 awards.

There are three categories of awards being presented: The Radio Amateur of the Year, Technical Excellence and Special Achievement Award.

The Radio Amateur of the Year is described as that special person who has made a long term commitment to the advancement of amateur radio. A well-rounded individual who has contributed most of his or her lifetime to our hobby in some very outstanding way.

A nominee for the Technical Excellence award should be a person who has made an outstanding technical advancement in the field of amateur radio. Something like a revolutionary new equipment design or mode of operation that has impacted positively on the day to day operation of many hams.

Last but by no means least, a nominee for the Hamvention's Special Achievement award is the kind of special person who has made an outstanding contribution to the advancement of amateur radio. This award is usually given to a respected amateur who spearheaded a single significant project.

All amateurs are eligible - Novice through Extra. Recipients are decided by the Awards Committee, based partially upon the information received, not the number of nominations submitted. The decision of the judges is final.

Nominations must be received before midnight on January 31, 2004. Documentation is not only beneficial, but essential in determining viability of a candidate's achievement(s). Magazine articles,

newsletters, newspaper clippings, videos, etc. will better inform the Awards Committee of your candidate's accomplishments. All materials become the property of the Hamvention and cannot be returned. Submissions go by mail to: Awards Committee, Hamvention 2004, PO Box 964, Dayton Ohio, 45401.

(Note: You can also fill out the on-line "Nominating Form" found at the Hamventionï¿½ 2004 website (http://www.hamvention.org) by clicking your mouse on the words "Award Nominations," but you are still required to submit substantiating documentation to the address noted above before January 31, 2004)

Hello:

I am looking for a couple articles from 1976-1977 73 Magazine?

Anyone save those?

Thanks

Murray

I nominate Hans, not because he's a good guy (he's not), but because
he's got a good idea.

I have two laptops for sale.They are:

Gateway Solo 5300
P3 600 mhz
128 mg ram
12 gig hard drive
extra battery
laptop bag
Windows XP Pro
This laptop works great and looks great.I am asking $500.00 or Best reasonable offer.

Compaq Presario 1200
P3 630
128 mg ram
10 gig hard drive
Windows XP Pro
Laptop works great but does have some minor scratches(scuffs)on top of cover outside.Does not affect laptops operation.I am asking $500.00 for it also or best resonable offer.

Both of these laptops are ready to go on the internet and do work without a problem.They are extras to me as I have upgraded to a newer system.Email me or call 978-281-3359

Several years ago ARRL marketed a WIN3.xx software package called "Radio Designer" which was a 'lite' copy of a commercial RF design program. Unfortunately the program does not run under 16- and 32-bit Windows environments, and the OEM is not interested in entering into further arrangements with ARRL.

Does anyone know of a similar program in a price range (under $500) attractive to hams?

The company that made ARRL Designer (Compact Software) was bought by Ansoft.
They have greatly enhanced the capability, and the current offering is
available as a free student version here:
http://www.ansoft.com/ansoftdesignersv/
There are also many other evaluation & student packages available on the net
for free. Check out this site as a starter:
http://www.rfengineer.cc/rftools.htm

Also, if you do an internet search on "RF circuit analysis software" or
something similar, you'll get lots of hits.

BTW, I run ARRL Designer under Win98SE and it's fine. What OS are you trying
to use it with?

Joe,

Thanks for all the resources. At my house ARRL Designer pukes and dies on
both WIN98 (500MHz P2) and WIN-XP (2.5GHz P-4) machines.

I recently purchased a Icom 208h dual bander and was wondering if anyone has tried getting more audio out of this radio. I have a 207-h also that has much better audio. The 208 seems like it needs to have something adjusted to give it a bit more. Im guessing there is an adjustment in there somewhere but i hate to turn the wrong pot and screw something else up!

Thanks alot Dan in ny

Hans,

ARRL's Radio Designer Version 1.5 (copyrighted 1998) claims that it runs on both Windows 9x amd NT systems, and I can confirm empirically that it operates on Win XP Pro as well - an excerpt from the included Help file is below:

" ARRL Radio Designer 1.5, a Windows (3.1, 3.11, 95 and NT)-based computer program, lets you create computerized models of audio, radio and electronic circuits so you can see how they work--and make them work better--without actually building them....."

IIRC correctly, the last version sold by the ARRL was 1.51. If you are using an older version, perhaps you can find a copy of this one somewhere? Was originally $150, should be a copy at a fraction of that out there now that it is discontinued.......

Thanks Leo,

Mine is the original version 1.0 and it doesn't run in Win98 or Win-XP Pro
or Win-XP Home.

I'll see if I can root out a copy of 1.5.

hi there..

think i will put my pennys worth in here...

do away with the long wire altogether..you will proberly never get rid of
the rf in shack etc..due to being too high above gnd..i know i have tried..i
live in an apartment (3rd floor)..no garden or land..i have tried end feed
long wire from balcony to lamp post etc..rfi to phones stereo etc..BAD

i tried all the tricks in the book no go...
SO.. i chatted my neighboors up and have been using successfully for 4 years
now a full sized 10m-80m diople (trapped with 40m trapps.)its slung up at 3
points in the shape of a triangle each courner on someone elses
apartment..the coax feed is rolled up 6 times 6inches dia just before diople
feed point..i have hung seperate dioples for 18mhz.28mz below main diople to
help on those bands ..
i have had NO tvi/stereo i/ phone i etc atall (touch wood)..i am using full
size diople but not out straight so you could too, espically as you have a
garden!!!
and have worked much dx all over the world with 100w ssb...

so if you give up with the long wire (as i did) try this..its cheap too..and
the antenna is in about every antenna handbook..)

Uhh,

2400Mhz new @ $699
2400Mhz / 600Mhz = 4
$699/4 = $175
$175 * 60% (used) = $ 105

I'll give you that for either one of them.

Where can you buy a 2.4GHz laptop for $700?? Cheapest we can buy them in the PX (which is cheaper than any computer store back home) is about $1200, plus or minus a few $.. maybe you're thinking of desktop or tower machines, which are a lot cheaper than laptops..

Sure, what you say makes perfect logic for all the rich little white
kids whose mommy & daddy buy them the latest hottest
computer. For the kids in the ghetto who have only boom
boxes, the pirate-unlicensed station with a DJ who speaks their
language, IS their world. In fact, a good portion of unlicensed
FM is found in the inner cities.

If you live in or near Evergreen, Colorado, this will be of interest to you. The initial meeting of Evergreen hams is tentatively set for Tuesday January 13th at the Evergreen Sports Grill. Contact Roger k0yy at k0yy@arrl.net for more information or give him a call on the 146.07/67 repeater.

There is nothing to join and there are no dues...just show up.

See the letter below.

> Howdy all,
>
> A number of area hams have met on the air and mentioned that they would
> enjoy getting together with local hams sometime for a cup of coffee or lunch
> or dinner. Several folks mentioned that the Sports Bar and Grill is pretty
> centrally located and easy to find.
>
> So, why doesn't everyone "reply to all" and propose a time and day. Early
> evening during the week or a Saturday morning may be the best time. There is
> never a good time for everyone, so we'll just pick the "best" time. If there
> is sufficient interest we could do it again and vary the time and date so
> more folks can attend.
>
> It's interesting, when you do a zip code search for our area on QRZ; there
> are more than 150 hams in the Evergreen, Conifer, and Kittredge area. There
> are lots of hams up here living in all the various nooks and valleys.
>
> Do you know a local ham that would enjoy attending? Invite them and pass
> along their email address so we can add them to the broadcast group.
>
> I almost always monitor 146.67, the Castle Rock System up on Squaw Mountain.

> Drop by and say hello or list a get together preference.
>
> Happy 2004 and 73,
>
> Roger K0YY and Marilyn KB0LJW Krautkremer
> Evergreen, CO

Always begin with the most simple of antennas. Otherwise you'll have
nothing to make comparisons with. You will have no base or foundation
standard.

Spend a couple of hours stringing up a 150 feet inverted-L and use it on all
bands for a few weeks. That is if you can wrench youself away from it.

the repeater has not been too active today,

the 146.640 traders net email
if you see anything here that you would like please contact the
seller, they would appreciate it!

Hello All:
Here is the listing for January 3, 2004

Important Notice
I am looking for my replacement. Someone who can run the Traders Net
every

Saturday at 8 pm. I will continue to run the net until the end of this
month only. Any body who is interested please email me at
ke4yfj@arrl.net.

Tom KA1UGH has a Ranger with no Mic and no Power Cord. Also a Yaesu
Automatic Anntenna Tuner. Make offer on both.
Contact: 813-973-4713

Phil W4AIG is looking for a Rotor for a small two Meter Anntenna. Also
looking for a 10 Element two Meter Beam.
Contact: philipvelderssr@juno.com

Happy Holidays to all.

73 to All

They're $799 @ BestBuy and they're $ 699 at Amazon . com.

That's for name brand stuff with software bundles, if you look around at
some off brands you may be able to find them cheaper.

Compaq 2.4g laptop, 15" TFT, 256mb Ram, 40gig, 64mb Dedicated DDR agp,
DVD/CD-RW, usb2, winXP and software bundle, new with warranty.

is $1099 with $400 in rebates
I guess they're only $699 at BestBuy, sorry my bad.

An Advisory to US Troops
A Duty to Disobey All Unlawful Orders
http://www.counterpunch.org/mosqueda02272003.html

--

Any being would not want to be deprived the rights to
living, by living to not deny the same rights of others.
(First commandment is a fundamental of understanding
space-time reality, as it pertains to the politics of an
actual sustainable World, indivisible, and eternal.)

To have US exercise denial of rights granted through the
protections of Freedom, asks naturally for reason to
being ones own commitment kept. To leaderlessly faith
in tyrant bush's faulty public judgement to committing
US to indiscriminate murders so he can rob Iraq of all
her riches going nowhere he silently contends as an
illiterate demon liar, exposes Your Mr. bush Jr. as
unfit to preside in Anyone's name. (Walla: Americans
did not elect the monster who openly with 9/11'd
slush-fund-america, finances the oppression of our
families in Uzbekistan, and Wahabbi Saudi Arabia,
unreported by our CNN and CBC as revealing.)

Iraq reconstruction's bottom-line
http://www.asiatimes.ru/atimes/Middle_East/EL25Ak05.html

/ / So there's money; it's just not going around. And
here perhaps lies the solution to the mystery of how the
world's superpower and the world's biggest corporations
can't even begin to put Iraq together again after almost
nine months: The reconstruction is less about
reconstruction than about making the most money
possible. \ \
```

Instead of allowing US to communicate the truth for peace and understanding, happiness and prosperity, Justice and Freedom, the bushites at corporate news control demand you should not believe in what you witness, read, or understand as the established actual, but instead, without reason for, to be victimized to die suffering through corporate censorship. Not knowing why murder is actually wrong universally bush fluffs off as required in Your name to stop Iraq from running public health care. (You know, Saddam a Secularist puppet, in the far middle east, willing to improve universal education through understanding, like a public health care system practiced in every free nation this world over, which does not include bushite america where everyone is an ill-gotten practicing HMO CEO public check writing casher.) For all you people not in America, with an enter as you need public health care initiative, beware, the unbiased american corporate news machine might irrationally decide to murder millions with radio-active toxic bombs in your country to 'free' you from truly caring about your family.

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the

Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers

included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted

surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

The Two Troublemakers
http://www.rense.com/general46/guilt.htm

/ / Some of the students had Palestinian passports. When they asked what they were guilty of, the [bushite nazi savage] soldiers said, "You are guilty of being Palestinian." \ \

A ungodly bushite nazi teen soldier, as an enemy of America was quoted to say also to the falsely imprisoned:

/ / "Say that you love Bush and I will give you food," \ \

Not a love for Justice, or the Bill of Rights, but a
love for the American cop killer traitor bush demon
robbing their very own grandparents they demand by
threat of your murder, for US all as Humanity to do
likewise degenerating, sacrificing our World as cowardly
slaves to benefit the ungodly bushmob 'cabal' of
parasites, the enemies of everyone, including that as
God's will.

ï¿½Beyond human imagination'
http://www.globeandmail.com/servlet/story/RTGAM.20031104.warar1104_4/BNPrint/International
/

/ / I told them I wanted a lawyer. They told me I had no
right to a lawyer, because I was not an American citizen. \ \

"International law? I'd better call my lawyer,"
http://www.payk.net/mailingLists/iran-news/html/current/msg05842.html

/ / "International law? I'd better call my lawyer," the
American President joked in response to a reporter's
question at the White House. \ \

Again, by denying the rest of US as Humanity Justice,
the bushites need advertise between commercial break
only, "Laden did it", no need to follow the ample
criminal 9/11 leads folks, because the crime they say
wasn't committed by true American values. Go on along
bush, cheney, and rumsfeld say, pay no attention to our
evidentiary findings such as, the American FBI's
documented contention, that bush's business partner,
General Ahmad, funded the 9/11 'mastermind' Atta, or the
CIA's, regarding bush LYING in America's name about
Niger (TREASON), or MSNBC's almost Biblical Revelation,
about the bushmob having a signed and sealed, 'top
secret' war plan to not follow the 9/11 evidence to
secure invasion of Afghanistan for Enron, at
Condoleeza's desk, two days prior to the terrorist act
taking place, of which when confronted, confessed as
fully implemented by the Whitehouse. A 'top secret'
plan to blame Laden on a crime they wouldn't actually
try to arrest for with evidence, a plan arranging that
would find bin in Afghanistan pleading innocence with
the help of bush's partner again, General Ahmad, a crime
of such magnitude, it would 'justify' a war mongers
criminal invasion to thwart Enron's impending CRIMINAL
bankruptcy, THIEVING FROM MOMS AND POPS, to then,
ATTEMPT, to close the surviving, armed with knowledge
for good reason Police investigations. All of this
setting a lowly nazi bushite war criminal, frothing
publicly at more than six billion + of US, to state
without opinion, that We, as Humanity, are no longer
afforded God's GIVEN Human Rights to defend ourselves,

nor is the criminal dictates of the demon antiChrist accountable to any rules of law. Universal they publicly quip, as the not-so 'secret' ungodly bushite doctrine of tyranny as enslavement of all that is Righteous and Holy in this World, because, hey, there is no God to speak of... and the King of kings, Son of God fellow, well.. that's all just ninepence fiction. No, WE, as all the make believers of this World, will no longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumfuk loyal nazi teen bushites leading to sacrifice for, for demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US

to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and

double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70, defying Truman, launched a win sumtin at all costs attack against China, that quickly during the unreported stupid needless slaughter of countless American teens, forced Truman to concede defeat by begging for a immediate truce with China while firing MacArthur, who came home to giant demonstrations of love and affection for sacrificing American lives forgotten to the accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you love, go out, go out and get killed, and we have had to say it, and by God they have gone..."

Johnny Wizard "Let US just get bush instead friend."

For the love of life and countries, kill bush as traitor to all our Humanity.

Your unbroken eternal Warrior,
as acting Servant and King,

the one and only,
as staring Johnny Wizard,
the true Son of Man

P.S. My reader, I taunt you again: forward these words of love or hate as if they were of Your own concern. America I think Will be interested in this public outrage of the silent majority, an outrage that will ecplise into an international scandal of such proportions, it just might win US the newscast with the facts on Justice ruling our way. (I am excepting all reasonable job offers. Hint hint.)

--

A bushite nazi soldier's motto: Do NOT kill demon bush for the love of God as true Patriots would, but war your

comrades in arms with toxic cluster bombs to secretly
kill yourselves with later on, including US as the
innocent, our children included, while STEALING, not
going nowhere public Iraqi institutions, including
desperately needing humanitarian aid shipments, starving
the poorest of the poor, all to please and glorify the
pension thieves of our Grandparents, and the heroin
pushers to our school kids.

--

> To my friends in Iraq, don't let corporate american
> media divide yourselves from community as equal
> participators. An Iraqi, is foremost, a member of our
> Humanity, and just like the rest of US, hate the God
> betraying anti-American demon antiChrist bush, more than
> anything else in the Universe for persecuting the
> innocent while killing coppers to steal our assets
> undefended without a leader to speak out everywhere for
> our living rights included.

--

Free to be living justly for yourself
truly as caring to know this as everything

What a horrible day as history. We witness the likes of
The happen to be "wealthy" as extremely disturbing
american, Bill Hemmer or Blitzer, or CBC's corporately
managed professional news teams, who would as they have
done, propagandize our communities with intentional
deceit to not cover, the top priority established facts
on our actual murders, and happily watch US fall further
robbed, as Mr. bush Jr. victims, while feigning a just
representation on behalf of our civilization. Look,
phone them yourself. These corporate cultists do not
offer any counter to the facts that stand before US all,
but for to practice censorship against Humanities
interest in nabbing the prime 9/11 suspects. There is
no dispute found with those who are aware of the
evidence that directly implicates bush Jr. And rumsfeld
for our murders on 9/11. But Bill doesn't want to
actually work for the People to protect the interests of
Americans as police officers, such as those directly
involved in the criminal investigations, and instead,
sides to leave yourself in the dark on bush Jr.'s true
nature, as the super evil anti-Christ, actively,
actually, really, no doubt about it, trying to further
destroy the American dream as no longer Our own as
equals committed to freedom through representation.

USATODAY.com - Cluster bombs kill in Iraq

/ / During the war in Iraq, U.S. ground forces dipped into
stockpiles of more than 740 million cluster bomblets, all
with a history of high dud rates. \ \

I hear you. I have several older (DOS) comm programs which puke on
faster machines - good ol' PCPLUS for one. That's why my 24/7 packet
circuit (for the local ARES/RACES group) runs on a separate (166
P1) machine - it slows down my Athlon XP 2000 and my P2 machines.

I'm trying to find a DOS emulator for Linux to see if I can run two
circuits at once now...,..

A version of F6FBB is available which runs native on Linux, using the
Linux AX.25 networking support code. There ought to be no problem
running multiple TNCs (either real ones in KISS mode on serial ports,
or soundmodem versions), doing digipeating, etc. on Linux.

Don't flame me if you don't like my asking price.Look at what they are
selling for on Ebay and other places.I will buy them all day at that price
if I can find them.
You so called price cops come up with your formulars that you can get them
for,Why don't you sell them at that price????SO PLEASE DON'T GIVE ME A BUNCH
OF CRAP SAYING YOU CAN AND DON'T PUT OTHERS DOWN.PUT UP OR SHUT UP.

Phil,

Don't know if it will help, but how about this:
http://www.dosemu.org/
I have no idea if it will help or not; I'm thinking of putting Linux in one of the boxes. A Google search of 'DOS emulators for Linux' yielded a ton of hits, but you've likely already researched them.

Maybe so, but the reason you post is to sell something, not to be
helfpul.

rec.radio.amateur.misc is not a forsale newsgroup. Neither, do
I assume, are the two laptop newsgroups that you originally posted
to (but which you've now taken out of the cross-posting.

rec.radio.swap I thought wasn't intended for computers, though at
least it is intended as a buying and selling newsgroup, unlike
the other three.

But just because something can be related to a subject, does not
mean it should be posted there. The whole point of specific newsgroups
is to group related matters, and once you start suggesting "this
can be used with radio [or whatever]" then you open the floodgates
for any kind of forsale ad.

The only thing that matters to you is that you want to sell this
computer, and you make the mistake that it will sell faster if
you post to more newsgroups.

I've been looking around on how to set up a simpatch. A simpatch is short for "simplex autopatch." HRO has told me to get their CS-900. I don't have a ham shack yet so I'm thinking about just putting the appropriate equipment I need in my room. That would include a radio, power supply, antenna, and maybe the CS-900, and anything else you think I might need. Would you happen to know anything about this type of set up? and/or do you have any advise?

Thanks
73,

Ken KB3KHI

You will probably be disappointed with the performance. Simplex auto patch presumes that the land line caller is radio savvy. You have to say "over" a lot to make things work. Better to build a repeater and use a half suplex patch.

Hello folks,
I am have trouble locating (on google) a downloadable version of the user manual for the YAESU VX 400 Portable radio. Can someone kindly point me in the right direction. I seen other model user manuals, even some available from Yaesu website and to some extent they have been helpful to identify such things as the DC input socket from the EAR socket. But I really need to proper manual now.

If I am asking in the wrong usenet group, then I am sorry, could tell me which group I should be using.

Thank you.

218. Ham Whoppers

Ah good ones -- some more "Great Ham Whoppers"
I only own one radio!!
Ur 599 (ur call again please).
Your QSL is in the Mail
I'll Never Build Another Kit Project

I bought my mint TS-950SDX for $300.00.
I worked em on the first call.
I never worked DX on a net!!

After a long boring QSO:
XYL says dinner is ready.
Just got the ____ call.
We're losing propagation (wiggle the RF Pwr control)
QRM Now -- Better Sign while we can!
OOpps -- there's the doorbell
Gotta land line OM -- 73
OOppss Rover!!! Gotta run and empty the dog!!
Oh shoot, lightning in the area, gota shut down!
XYL says time to take my pills. Gota go!
Time for the local repeater net, Gota go!

I am just running a few watts, opps there goes the circuit breaker.
I usually copy code around 40 wpm but have an ear infection so using phone
now.
Love code but had my Vibroplex stolen so have to use phone.

Long Island Mobile Amateur Radio Club (LIMARC), is looking for DONATIONS of "Ham" gear, like triband beams, rigs, and towers, to be used for our Emergency Communication Stations, and Field Day.

If you have any old equipment that you're not using anymore, and would like to donate it to our cause, we will make sure that you get a nice letter, being that we have 503 c(3) status with the I.R.S. ,for a tax deduction, from our club.
We really need your help, so please try to assist us in any way that you can.

Thanks in advance

Good ones ..... how about ....

Hey I just got my ticket ....your VEC group testing time didn't fit into my schedule so I drove 300 miles and "passed"

To the person above .....you can borrow my key since you learned 5 WPM overnight .... naa don't have time for CW .....

The band is always "open" here .....

I can't pass the code test because of my hearing .....

My wife says I can put up that 100 foot tower but ....

Boy I'd love to help you guys but I have something going on this weekend ....

Nobody wants to do anything for this club ....meanwhile this joker has done crap for years save bitch about everything ....

Gee I'd really like to have that ----as I have been looking for one of those for years ...meanwhile your "good buddy" has cut a deal with a fellow cross town who wants one but doesn't want to miss out on a "score".

To the widow ..... Ya know Mrs. RF your husband was such a good guy and he told me that you should only talk to me about getting rid of the "shack". Don't laugh '''this HAS happened at funeral homes ......

To the grieving widow ..... Ya know Mrs. RF that you can't get parts for that old stuff any more ... I'll give you a few bucks and then give the radios to the scouts they can take them apart for a merit badge project ....

It only "cuts out" now and then ....

AND NOW FOR THE GRANDDADDY OF WHOPPERS .... drum roll .....

CW always gets through ....

God Bless 73 KI3R Tom Popovic Belle Vernon Pa.

Most Amateur radio operators act and behave as if they are the progeny
of first cousins. Pocket protector, HT strapped to their belt and very
large belly. So large in fact that they haven't seen their pekker in
years.

I am have a old fisher tuner but I am looking to get a better 70s fm tuners for about $100 to $150 off eaby. I am looking at getting McIntosh Marantz Kenwood Pioneer with good am/fm slective wich one of these would you reccommond for dxing in my price range. Would using a APS 13 antenna with the tuner that you reccommond be good for dx 150miles or more. What is I put this dxing antenna 36ft higher would that work good or would I need to go higher and how high would I need to put it. Any help good in this area would be nice if you know anything I might need to know.

hmmmm. you must have run into a few of the rednecks because a lot of us
aren't this way at all.

Me, I wear blue jeans, button down shirts (many styles and colors to
choose from) and sneakers or boots most of the time.

I was a bit overweight for a while (bad diet) but that is going away to
the tune of 10 lbs. a month (thank you Dr. Atkins!). Regular exercise
doesn't hurt either.

now... about your opinion. perhaps you should relegate it to a much
narrower forum? its an over-generalization that makes you look foolish.

An Advisory to US Troops
A Duty to Disobey All Unlawful Orders
http://www.counterpunch.org/mosqueda02272003.html

--

Any being would not want to be deprived the rights to
living, by living to not deny the same rights of others.
(First commandment is a fundamental of understanding
space-time reality, as it pertains to the politics of an
actual sustainable World, indivisible, and eternal.)

To have US exercise denial of rights granted through the
protections of Freedom, asks naturally for reason to
being ones own commitment kept. To leaderlessly faith
in tyrant bush's faulty public judgement to committing
US to indiscriminate murders so he can rob Iraq of all
her riches going nowhere he silently contends as an
illiterate demon liar, exposes Your Mr. bush Jr. as
unfit to preside in Anyone's name. (Walla: Americans
did not elect the monster who openly with 9/11'd
slush-fund-america, finances the oppression of our
families in Uzbekistan, and Wahabbi Saudi Arabia,
unreported by our CNN and CBC as revealing.)

Iraq reconstruction's bottom-line
http://www.asiatimes.ru/atimes/Middle_East/EL25Ak05.html

/ / So there's money; it's just not going around. And
here perhaps lies the solution to the mystery of how the
world's superpower and the world's biggest corporations
can't even begin to put Iraq together again after almost
nine months: The reconstruction is less about
reconstruction than about making the most money
possible. \ \

Instead of allowing US to communicate the truth for peace and understanding, happiness and prosperity, Justice and Freedom, the bushites at corporate news control demand you should not believe in what you witness, read, or understand as the established actual, but instead, without reason for, to be victimized to die suffering through corporate censorship. Not knowing why murder is actually wrong universally bush fluffs off as required in Your name to stop Iraq from running public health care. (You know, Saddam a Secularist puppet, in the far middle east, willing to improve universal education through understanding, like a public health care system practiced in every free nation this world over, which does not include bushite america where everyone is an ill-gotten practicing HMO CEO public check writing casher.) For all you people not in America, with an enter as you need public health care initiative, beware, the unbiased american corporate news machine might irrationally decide to murder millions with radio-active toxic bombs in your country to 'free' you from truly caring about your family.

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the

Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers

included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted

surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

The Two Troublemakers
http://www.rense.com/general46/guilt.htm

/ / Some of the students had Palestinian passports. When they asked what they were guilty of, the [bushite nazi savage] soldiers said, "You are guilty of being Palestinian." \ \

A ungodly bushite nazi teen soldier, as an enemy of America was quoted to say also to the falsely imprisoned:

/ / "Say that you love Bush and I will give you food," \ \

Not a love for Justice, or the Bill of Rights, but a love for the American cop killer traitor bush demon robbing their very own grandparents they demand by threat of your murder, for US all as Humanity to do likewise degenerating, sacrificing our World as cowardly slaves to benefit the ungodly bushmob 'cabal' of parasites, the enemies of everyone, including that as God's will.

ï¿½Beyond human imagination'
http://www.globeandmail.com/servlet/story/RTGAM.20031104.warar1104_4/BNPrint/International/

/ / I told them I wanted a lawyer. They told me I had no right to a lawyer, because I was not an American citizen. \ \

"International law? I'd better call my lawyer,"
http://www.payk.net/mailingLists/iran-news/html/current/msg05842.html

/ / "International law? I'd better call my lawyer," the American President joked in response to a reporter's question at the White House. \ \

Again, by denying the rest of US as Humanity Justice, the bushites need advertise between commercial break only, "Laden did it", no need to follow the ample criminal 9/11 leads folks, because the crime they say wasn't committed by true American values. Go on along bush, cheney, and rumsfeld say, pay no attention to our evidentiary findings such as, the American FBI's documented contention, that bush's business partner, General Ahmad, funded the 9/11 'mastermind' Atta, or the CIA's, regarding bush LYING in America's name about Niger (TREASON), or MSNBC's almost Biblical Revelation, about the bushmob having a signed and sealed, 'top secret' war plan to not follow the 9/11 evidence to secure invasion of Afghanistan for Enron, at Condoleeza's desk, two days prior to the terrorist act taking place, of which when confronted, confessed as fully implemented by the Whitehouse. A 'top secret' plan to blame Laden on a crime they wouldn't actually try to arrest for with evidence, a plan arranging that would find bin in Afghanistan pleading innocence with the help of bush's partner again, General Ahmad, a crime of such magnitude, it would 'justify' a war mongers criminal invasion to thwart Enron's impending CRIMINAL bankruptcy, THIEVING FROM MOMS AND POPS, to then, ATTEMPT, to close the surviving, armed with knowledge for good reason Police investigations. All of this setting a lowly nazi bushite war criminal, frothing publicly at more than six billion + of US, to state without opinion, that We, as Humanity, are no longer afforded God's GIVEN Human Rights to defend ourselves,

nor is the criminal dictates of the demon antiChrist accountable to any rules of law. Universal they publicly quip, as the not-so 'secret' ungodly bushite doctrine of tyranny as enslavement of all that is Righteous and Holy in this World, because, hey, there is no God to speak of... and the King of kings, Son of God fellow, well.. that's all just ninepence fiction. No, WE, as all the make believers of this World, will no longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumfuk loyal nazi teen bushites leading to sacrifice for, for demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US

to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and

double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70, defying Truman, launched a win sumtin at all costs attack against China, that quickly during the unreported stupid needless slaughter of countless American teens, forced Truman to concede defeat by begging for a immediate truce with China while firing MacArthur, who came home to giant demonstrations of love and affection for sacrificing American lives forgotten to the accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you love, go out, go out and get killed, and we have had to say it, and by God they have gone..."

Johnny Wizard "Let US just get bush instead friend."

For the love of life and countries, kill bush as traitor to all our Humanity.

Your unbroken eternal Warrior,
as acting Servant and King,

the one and only,
as staring Johnny Wizard,
the true Son of Man

P.S. My reader, I taunt you again: forward these words of love or hate as if they were of Your own concern. America I think Will be interested in this public outrage of the silent majority, an outrage that will ecplise into an international scandal of such proportions, it just might win US the newscast with the facts on Justice ruling our way. (I am excepting all reasonable job offers. Hint hint.)

--

A bushite nazi soldier's motto: Do NOT kill demon bush for the love of God as true Patriots would, but war your

comrades in arms with toxic cluster bombs to secretly
kill yourselves with later on, including US as the
innocent, our children included, while STEALING, not
going nowhere public Iraqi institutions, including
desperately needing humanitarian aid shipments, starving
the poorest of the poor, all to please and glorify the
pension thieves of our Grandparents, and the heroin
pushers to our school kids.

--

> To my friends in Iraq, don't let corporate american
> media divide yourselves from community as equal
> participators. An Iraqi, is foremost, a member of our
> Humanity, and just like the rest of US, hate the God
> betraying anti-American demon antiChrist bush, more than
> anything else in the Universe for persecuting the
> innocent while killing coppers to steal our assets
> undefended without a leader to speak out everywhere for
> our living rights included.

--

Free to be living justly for yourself
truly as caring to know this as everything

What a horrible day as history. We witness the likes of
The happen to be "wealthy" as extremely disturbing
american, Bill Hemmer or Blitzer, or CBC's corporately
managed professional news teams, who would as they have
done, propagandize our communities with intentional
deceit to not cover, the top priority established facts
on our actual murders, and happily watch US fall further
robbed, as Mr. bush Jr. victims, while feigning a just
representation on behalf of our civilization. Look,
phone them yourself. These corporate cultists do not
offer any counter to the facts that stand before US all,
but for to practice censorship against Humanities
interest in nabbing the prime 9/11 suspects. There is
no dispute found with those who are aware of the
evidence that directly implicates bush Jr. And rumsfeld
for our murders on 9/11. But Bill doesn't want to
actually work for the People to protect the interests of
Americans as police officers, such as those directly
involved in the criminal investigations, and instead,
sides to leave yourself in the dark on bush Jr.'s true
nature, as the super evil anti-Christ, actively,
actually, really, no doubt about it, trying to further
destroy the American dream as no longer Our own as
equals committed to freedom through representation.

USATODAY.com - Cluster bombs kill in Iraq

/ / During the war in Iraq, U.S. ground forces dipped into
stockpiles of more than 740 million cluster bomblets, all
with a history of high dud rates. \ \

You can receive just about any mode of slow scan tv ever used with the
software called MMSSTV available at the following site:

http://www.qsl.net/mmhamsoft/

Scroll down the screen 'til you see the link. This is incredible
software made even better due to the fact that it is true freeware as
long as it is being used for non-commercial use. No nags, no time
limits, just a really fine program in use by hams all over the world.

It's really easy to use, but that being said, you'll get more out of
the program if you read the help file.

To receive pictures all you need is a cable from the "speaker out" on
your receiver, to the soundcard "Line In" jack on your computer...no
other interface is required. Works super.

Good luck and enjoy....

Burger King (drive-thru) customers told: 'You are Too Fat to have a
Whopper'

Police believe teenage pranksters are hacking into the wireless
frequency of a US Burger King drive-through speaker to tell
potential customers they are too fat for fast food.

Policeman Gerry Scherlink said the pranksters told one
customer who had just placed an order: "You don't
need a couple of Whoppers. You are too fat. Pull ahead."

The offenders are reportedly tapping into the wireless frequency
at the restaurant in Troy, Michigan. Police believe the culprits
are watching and broadcasting from close range.
Officer Scherlinck said the men are telling customers who order
a Coca-Cola that, "We don't have Coke." And when the customer
asks what they do have, the hacker would say: "We don't have
anything. Pull ahead."

But what has managers concerned is the profanity the
hackers are using, according to police.

A drive-through customer has told police
if he had children with him in the car and
someone used profanity, he would have been upset.
Burger King franchise owner Tony Versace issued
the following statement in response to the
incidents: "We apologise to our customers who've
been insulted by the use of this drive-through speaker."

Management at the fast-food restaurant are reportedly
trying to change the radio frequency used for the
(drive thru) speakers.

Actually, they're probably speaking the truth! There are a lot of overweight people in the area. I know, I'm one of them. In addition to that, it's fact that Burger King food is very fatning. Maybe they feel they're providing a public service! People need to lighten up, and regain their sense of humor. The whole world is too uptight!

Thanks for the pointer, Dave. I'm getting back into the *nix world
after being away from it for almost 10 years and I've forgotten more
than I remember, it seems.

I'll try to find F6FBB and see if I like it. I've become very
attached to the look and feel of PkGold over the last 10+ years that
I've used it, and of course in a pinch I can use a straight terminal
program....

Bill Crocker

Bottom line, really, is that the hackers don't have to be in sight of the persons giving the order at the drive up. The low pwr rigs of these fast food places can be heard for several blocks if one has a good mobile rig and some can be heard as far away as a half mile on a base station antenna. It is a simple task to hear what the customers are ordering. Besides, if the customers are sitting in their cars, how is the prankster to know what they look like?
If I were a betting type, I'd bet that a Ham with a modified two meter rig was behind it since many of these places operate on low power VHF frequencies. An enterprising Ham could experiment for a few minutes and easily find the PL tone the food places use.
Trouble is that this is not a local law enforcement problem. They have no jurisdiction. Call the FCC...and you know how long it takes THEM to act! It seems like it took forever for Riley to get David Tolassi tossed off 20M.

In article <kLqdnVqCIe6B2WKiRVn-jA@comcast.com>, wcrocker007@comcast.net says...

<snippety>

> Actually, they're probably speaking the truth! There are a lot of
> overweight people in the area. I know, I'm one of them. In addition to
> that, it's fact that Burger King food is very fatning. Maybe they feel
> they're providing a public service! People need to lighten up, and regain
> their sense of humor. The whole world is too uptight!

I would fully agree with that. However, I don't agree with the pranksters cussing at people. That's just plain uncalled for.

On the weight comments, though... <chuckle!> Yep, I think fast-food restaurant managers are getting a hard-and-fast education in the downfalls of using radio links for their drive-through intercoms. ;-)

That is just awesome! What great fun! I want to hang out with those guys. I bet you will see this turn up in a movie since they can't seem to think up their own stuff. Its just some low scale electronic warfare and really pretty harmless except for some hurt feelings. You go for it fella's. Oh yeah, Detroit was voted the fattest city in a recent survey via Netscape. America is getting really big!

Look for many fast food places to use itinerant freqs. such as 154.570 and
154.600. Wal-Mart is known to use 154.570 but their PL tones vary from store
to store. 151.565 is another well used freq. but of late the fast food
places shy away from that one due to over use by others, including truckers.
Now that the MURS freqs. have been opened up for general use it is not
unusual for places such as Wal-Mart to move from VHF to the UHF freqs.
If you live near an industrial park, listen to these freqs. since many of
them use small, one watt handheld rigs for in-house comms. Listen to 454.500
and 454.550. These are commonly used as well.

Similar situation in the GMRS band. It used to be used by small business,
and security firms. Now it's being infiltrated, legally, by individuals,
for personal use. Lots of channel wars going on these days!

no KG4LEG today.

some activity i heard today on the 146.640 tampa bay N9EE repeater

W4BBH ? or W4BBA (really think it was BBH)
WD4APL
KF4RTE
N9EE
W4MDW i lived in indiana and moved to florida in 1969
KD4WDI had a friend in IN KF4KDK
N4WGL
W9RZR talking to KD4WDI about indiana (RZR is a snowbird)
KE4EAO
KD4WLI
KF4GZE (echolink) and local, pissed off that people are not letting
him talk because they aren't pausing enough between transmissions.
KG4COQ letting N9EE know about the time of the chilli cookoff at
starkey park.

Very funny gag, life's a bitch ain't it? Especially to the technology
lame. Oh well, just no mean stuff. I personally will keep it funny
but not costly or nasty, well... that is if it ever happens. :-)

Hey. It IS kinda funny to order an onion burger and a six pack...then listen
to the kids ask each other, "Did you hear that?".
It brightens up their mundane fast food job and it drives the wannabe
managers nuts!
Just don't tell the Ebonics customers that they should speak English. I did
that once and the chatter was hilarious!
"You be pokin fun at me?".
No, I just can't unnerstan you.
"Whassup wif you, bitch?"
Give your order again, please, and speak slowly.
"I done tole you what I want, bitch. Unnerstan what I be saying?"
I'm sorry, please repeat your order?
"I done tole you once you mufuh bitch an' I ain't sayin' it again."
I'm sorry. I didn't understand you. What was your order?
"You bitch, I be gonna drive aroun' and come in de door an whup yer honkey
ass!"
Would you like fries with that, sir?
"You be messin' wif me, Honkey. I gonna git you fired."
Please drive around. The police are waiting.
"I gots places to go bitch. Cancel my order cuz I be outta here."

CL -- go to QRZ.com http://www.qrz.com/

Scroll down to NAME SEARCH in the left hand column -- click there
In the menu -- Type in city and state e.g. Iola KS
Get city listing of Amateurs
Works for zip codes as well.

helmsman <helmsmandelete@mindspring.com> wrote in
news:2v0000dgble3r4nrua94jov5kuunnsqcrt@4ax.com:

The other day I received a "careless driving" citation from an officer that I pass every morning at around 5:10 AM. As I exited a place where I stop to get coffee, I used a left turn only lane to accelerate prior to entering the driving lane. I was cited for "driving in a center turning lane", which came shortly after the left turn only lane.

I always carry my Yaesu VX-5R and listen to the Pittsburgh Police as I head to work. (It wasn't the Pittsburgh Police that pulled me over). Anyway, had I not shut the radio off prior to the officer coming to my window, I'd probably be in jail now as a terrorist. I don't believe that Pennsylvania or local ordinances forbid me to carry a scanner, and I am a licensed HAM, so I am authorized to carry the Transceiver. Supposedly the FCC permits Amateurs to carry radio transceivers that "are incidentally capable of receiving" public service broadcasts.

Try to explain that to the police.

It's odd how often the borough officers find it necessary to "pull their guns", especially contrasted to the Pittsburgh Police, where I believe that they are much more reluctant to use their weapons. (I believe that it's called discipline). The officer in my case didn't have his gun drawn, but I did witness another borough incident where 2 cops had a car pulled over. The car had 5 geriatric women in it. One officer positioned himself at the rear of the car, with his hand on his gun. I guess traffic stops of old ladies going to bingo are much more dangerous than I believed.

Imagine what they would do to what they believed was an unauthorized monitor of police communications.

Regards

Amateur Radio Newsline™ Report 1378 – January 9, 2004

Amateur Radio Newsline report number 1378 with a release date of Friday, January 9, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. V-K hams celebrate a new ham radio, some new Amateur Radio problems in Nepal, and Canadian hams learn that they may loose 220 to 22 MHz. All this and the latest in the war against B-P-L on Amateur Radio Newsline report number 1378 coming your way right now.

(Billboard Cart Here)

**

RESTRUCTURING: NO-CODE COMES TO VK-LAND

Major changes to ham radio in Australia were celebrated on the air on New Years Day. Q-News Graham Kemp, VK4BB, listened in and tells us what he heard:

--

When 1 January 2004 arrived, so to did a new era for Amateur Radio operators around Australia. At one minute past midnight, amidst the fireworks across Australia, Amateur Radio short wave frequencies lit up, too, as they celebrated the removal of a requirement for Morse Code qualification by getting on air in unprecedented numbers.

A quick scan through the 80 meter band during the first hour of the QSO party showed that there was standing room only with stations of all license levels participating eagerly in the party with some limited and novice limited stations handling high amounts of static and nearby station noise with considerable skill .

All states and territories activated special radio stations for the event. There were plenty of Wireless Institute of Australia stations on the air to help with the bonus contacts with VK5WI, VK6WIA, VK2WI, VK4WIG, VK4WIA and VK4WIT heard during the quick scan around 80 meters.

In the act, the Wireless Institute of Australia's club station VK1WI was activated from the home of their President, Alan Hawes. Way up north long time WIA supporter John Stevens took to the airwaves from the Townsville region.

As the morning wore on the stations operating were fewer but still at a level that veteran operators say rival the heydays of HF operating when Novice licensees were first able to access the HF bands.

From Q-News Australia, I’m Graham Kemp, VK4BB, reporting for the Amateur Radio Newsline.

--

Still more changes to ham radio down-under is expected in the coming months. (Q-News)

**

RESTRUCTURING: NEW BANDS AND NO-CODE TO CROATIA

Croatia has become the first country in Region 1 to benefit from the expansion of the 40 metre band agreed at the World Radio Conference in Switzerland last summer. 9A amateurs have also been given privileges at 70 and 3,400 Mhz.

New amateur radio regulations came into effect in Croatia on the 26th of December. Since then, amateurs there may operate between 7,100 and 7,200 kHz on a Secondary basis, with a maximum power of 1,000 watts PEP, in addition to the normal Region 1 allocation of 7,000 to 7,100 kHz. On 4 metres, Croatian amateurs now have 70.000 to 70.450 MHz, with a power limit of 10 watts. They also gain a new band between 3,400 and 3,410 MHz, with a maximum permitted power of 150 watts.

The Morse code requirement for an HF bands licence was also dropped with the new regulations and there are now only two licence classes there: the full licence and a beginners' licence.

I’m Jeramy Boot, G4NJH, in Nottingham England. (GB2RS)

**

RADIO POLITICS: HAM RADIO IN NEPAL

Some bad news about ham radio in Nepal. Charles Harpole, K4VUD, says that his efforts, along with those of 9N1AA, to expand ham radio in that nation and to establish a memorial club station for the late Father Marshall Moran, 9N1MM, are on an indefinite hold. This, due to the disturbed social and political conditions there.

Harpole says that all radios and other gear that was donated some years ago have been distributed to the currently licensed native 9 N hams. Harpole says that the gear will come back to a club station someday. Harpole asks that everyone bear with this situation and extend understanding. (OPDX)

**

SPECTRUM REALLOCATION: 220 - 222MHZ ON THE BLOCK IN CANADA

Canadian Amateurs may lose part of the 220 to 222 MHz in the 1 point 3 meter band. band. Thats the recommendation being made by the Radio Advisory Board of Canada to Industry Canada following an 18 month survey. Rick Johnson, KA9VZD, is in Antioch, Illinois, with more:

--
In a move reminiscent of the situation in the United Sates back in 1991, the 220 to 222 MHz band would be transferred away from Canada’s Amateur Radio operators and given to that nations Mobile Radio service. That’s the bad part. Here’s the good news. The Radio Advisory Board of Canada has

recommended that Amateur repeaters in this portion of the band be grandfathered to continue operation for a number of years. That time period would be decided by Industry Canada which is Canada’s radio and telecommunications regulator.

The Radio Advisory Board also recommended allocating 219 to 220 MHz to amateurs in Canada on a secondary, non-interfering basis. This says the R-A-B-C would put the band in agreement with a similar allocation now available to radio amateurs in the United States.

But here is where the Radio Advisory Board of Canada begins to think outside the proverbial box. While most administrations seems to frown on the idea of hams and non-hams sharing spectrum and talking with one another in a common allocation, Canada has other ideas.

The Radio Advisory Board wants a 150 kHz wide parcel in the reallocated band be designated as “Public Service Spectrum.” A small band to be shared by Canadian Amateur Radio operators and Canadian Mobile Services for special public safety and disaster communications applications. In other words, Canadian hams could talk with their non ham counterparts -- and vice versa -- in a disaster scenario.

Radio Amateurs of Canada, as a member of the Radio Advisory Board of Canada, has opposed any changes to the 220 to 222 MHz spectrum. Unfortunately, so far with very little success.

For the Amateur Radio Newsline, I’m Rick Johnson, KA9VZD, reporting.

--

Industry Canada must now take this advice and decide what it will do with 220 to 222 Mhz, and how soon. The full story is on the web at http://www.rac.ca/news/canada.htm (RAC)

THE BPL FIGHT: BPL INTERFERENCE PROVEN TWO-WAY

Two organizations have filed comments with the FCC that augment previously expressed worries about potential interference from and to Broadband over Power Line systems. One of them shows that service providers could loose a lot of income if anyone operates even a low power radio near a B-P-L transmission line. Amateur Radio Newsline's Bruce Tennant, K6PZW, reports:

--
Picking up on the what it terms as grave concerns expressed by the Federal

Emergency Management Agency over implementation of B-P-L on December 4, the nonprofit Disaster Preparedness and Emergency Response Association has called on the FCC to require impartial B-P-L field testing as well as additional public comment and full and open public hearings.

The ARRL Letter says that in comments to the FCC the Disaster Preparedness organization concluded that serious interference to and disruption of critical emergency communications systems in several licensed services throughout North America would almost certainly result from BPL implementation as currently proposed.

Endorsing earlier FEMA remarks, the group said that proposed B-P-L systems don't just pose a risk of interference. Rather, they have already been shown to actually cause harmful interference to licensed radio services.

Meanwhile, the Amateur Radio Research and Development Corporation has filed additional test data with the FCC. This, to support preliminary findings suggesting that BPL systems are susceptible to interference from even modest Amateur Radio HF signals. AMRAD said its newest data demonstrated that amateur operation in the test neighborhood would cause many homes to lose their Internet connectivity.

For its RF susceptibility experiment, AMRAD used the Potomac Electric Power Company system test site. It features a mid-1960s vintage home with unshielded interior electrical wiring and overhead power lines.

AMRAD's tests found that at a distance of just over one-half mile, data transfer ceased in the face of a signal from a mobile 100 watt transmitter on 3 point 980 MHz. When sited adjacent to the test property, AMRAD said data transfer went away in all but one instance at a transmitter power of just 4 watts operating in the proposed Broadband Over Powerline spectrum.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

What AMRAD has now done is to prove that interference with B-P-L will be a two way problem. More so for data providers who won't see much profit if something as simple as a 5 watt C-B radio can shut down a neighborhoods B-P-L operations. (ARRL)

**

THE BPL FIGHT: TAMPA TRIBUNE PRESENTS BOTH SIDES

An excellent article that details both sides of the B-P-L controversy appeared in the January 5th edition of the Tampa Tribune. In it, reporter Will Rodgers provides not only the industry side of the issue, but the ham radio side as well. The article can be read on-line at the cyberspace address in this weeks printed Amateur Radio Newsline report. You can read the article on-line at www.tampatrib.com/Business/mgalzo1pd.html (Via e-mail)

**

WITH THE FCC: CHAIRMAN POWELL PROMOTES A FREE MARKET TELECOM REVOLUTION

The chairman of the FCC is sending out a message that the migration to digital telecommunications will not falter. Michael Powell says that entrenched service providers such as telephone companies and cable television providers can either join the party or suffer the consequences.

In a December 29th interview with reporters and editors from the San Jose Mercury News, Michael Powell shared a number of personal views. At one point he stated the current migration to digital is really a simple thesis. One that says for the past 100 years we've had one kind of communications system. That being a system that's both analog and narrow band. And while it's the greatest machine ever built by mankind, it's also extremely mature, and it's really, in Powell's view, at the end of its innovation life.

Perhaps Powell's most controversial statement came in regard to companies that are not eager to invest in the digital revolution. He said -- quote: "I have no problem if a big and venerable company no longer exists tomorrow, as long as that value is transferred somewhere else in the economy."

You can read more of what FCC Chairman Powell had to say at www.siliconvalley.com/mld/siliconvalley/7591252.htm (CGC)

**

RADIO LAW: FCC STILL NOT "NAMING NAMES" IN ENFORCEMENT ISSUES

The FCC's decision to no longer identify those hams allegedly violating the Part 97 Amateur Rules continues into the new year. The agency's Daryl Duckworth, N-N-Zero-W, has the latest word:

--

Duckworth: "The FCC, at least temporarilly, has revised the format in which it is supplying information on Amateur Radio enforcement actions. The new format provides only the state and city with a synopsys of the action taken, without naming any indiciduals.

Pursuant to privacy concerns, the FCC currently is reviewing its proceedures in its radio services regasrding the release of information about individuals. Following this review, the FCC will determine its privacy policy for the future. "

--

As we go to air there is still no word as to when the revirew of privacy proceedures at the FCC will be completed. Its been about two months since the ban on relesing names was put in place. (FCC)

**

COMMUNICATIONS LAW: NORWEGIAN COURT SAYS COPYING DVD'S NOT PIRACY

An appeals court in Oslo Norway has dealt a major blow to those trying to protect the intellectual copyright of material that they own from unauthorized duplication. This, after it upholds the acquittal of a 20-year-old Norwegian

man who posted a program on the Internet for cracking DVD security codes.

Prosecutors had appealed a lower court decision after Jon Lech Johansen was acquitted last January of violating Norway's data break-in laws with his DeCSS program for DVDs. The prosecution had sought a 90-day suspended jail sentence, confiscation of computer equipment and a $2,940 fine. But the judge ruled that Johansen could freely copy DVDs he bought, adding he didn't violate the Nordic country's laws protecting intellectual property.

The case was widely seen as a test of Norway's computer protection laws. Prosecutors said they were considering appealing to the country's supreme court. In the meantime, the decision is being viewed as a major setback for anti-piracy proponents in the entertainment industry, worldwide. (Published news reports)

**

RADIO HONORS: GARC HONORS MEMORY OF KU3Z

The Goddard Spaceflight Center Amateur Radio Club in Greenbelt Maryland has honored one of its own. By a unanimous vote at the clubs Christmas party, the "WA3NAN Space Shuttle Retransmission Facility" has ben renamed the "Joe Grzesik KU3Z Memorial Space Shuttle and I-S-S Retransmission Facility." This, in honor of Grzesik’s outstanding support of relaying of space shuttle and International Space Station ham radio communications on the terrestrial Amateur bands for over two decades. Joe Grzesik KU3Z became a Silent Key in 2003. (N8PK vis the WA3NAN News Exchange)

**

HAM RADIO HONORS: SELECTING THE TOP 5 QSL MANAGER SURVEY

John Shelton, K1XN, Editor of the Go List says that it’s time again for his newsletters’ annual “Top 5 QSL Manager” survey. This is is a process by which DX’ers get to choose those that they consider to be the best QSL Managers with whom they have had dealings with in the past 12 months. Its also a way to provide at least a small “thank-you” to the work performed by these and other QSL Managers around the world.

The results of this survey will be given to Carl Smith, N4AA, for inclusion in the QRZ-DX bulletin and also announced on the GO LIST Reflector by mid February. To vote, send your list of those who you are the five best 5 of 2003 by e-mail to golist@golist.net before February 1st. Again, that address is golist@golist.net. (OPDX)

**

HAMFESTS: WINTERFEST IN VA. IN FEB.

Turning to the ham radio social calendar, the 28th annual Winterfest sponsored by the Vienna Wireless Society is slated for Sunday, February 29th. The gathering will take place at Northern Virginia Community College in Annandale, Virginia. And if you're ready to take the test, an Examination Team will be on hand Saturday, February 28th. More information is on the web at

www.viennawireless.org (KG4OJT)

**

MEETINGS AND CONFERENCES: AMSAT-NA IN FL IN FEBRUARY

And the next meeting of the Board of Directors of AMSAT-NA will take place at the Orlando Airport Clarion Hotel on Saturday, February 21 and Sunday, February 22nd. Starting at 8.30 am on Saturday, the meeting will be open to all AMSAT North America members wanting to take part.

Among the items to be discussed will be to develop the AMSAT North America Strategic Plan while considering current governing factors. AMSAT members wishing to attend and make a presentation to the Board should advise President Robin Haighton, VE3FRH by February 15th. Let him know the topic and the length of time needed to present. His e-mail is ve3frh@amsat.org (AMSAT-NA)

**

BREAK 2

This is ham radio news for today’s radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

SPACE AND SCIENCE: NEW TRAVELING SPACE EXHIBIT

The largest traveling space exhibit ever has made its first stop The 12,000 square foot display will allow visitors to touch rocks from Mars and the moon, take a virtual visit to the red planet and explore the international space station.

The exhibit employs the most advanced technology available here on earth to get its message out. The exhibit will be at Seattle's Pacific Science Center through May 9th. Then, it begins its own journey on a 15 city tour over the next five years. (NASA News)

**

EMERGING TECHNOLOGY: SIREN SENSOR TEST IN L.A.

On the technology front, the Los Angeles Fire Department has been asked to study the possibility of equipping engines with a device to turn traffic lights green. This, so vehicles responding to emergencies don't have to stop at intersections. Bill Pasternak, WA6ITF, is in our Los Angeles studio with more:

--

Los Angeles City Councilman Tom LaBonge has asked the Fire Department to work with the City's Department of Transportation to start a pilot program using

technology such as SirenSensor. This is an acoustically activated device that can differentiate emergency sirens from ambient noise and then warn the civilian driver of the approach of an emergency vehicle. It does this by shutting of a near-by car's audio system or radio and activating both audible and visual signals. The councilman believes that this technology can help police and firefighters respond to emergencies with greater speed.

For the Amateur Radio Newsline, Bill Pasternak, WA6ITF, in the City of Angels.

--

No word when the tests of this remote control system might begin. More about SirenSensor is on the web at http://www.findarticles.com/cf_dls/m4PRN/1998_Nov_13/53213508/p1/article.jhtml (LA News)

**

NEW PRODUCTS: NEW QUICK-CHARGE NiMH BATTERIES

Turning to the latest in electronic products of interest to hams, we have this from battery maker Rayovac. That company has announced a new charger that it says is capable of fully restoring a specially designed Nickel Metal Hydride cell in only 15 minutes. Dubbed the I-C3, the new rechargeable cells and charging system uses Rayovac's In-Cell Charge Control technology that puts the control of recharging into the battery instead of the charger. The company says that doing this offers significant performance and convenience advantages over existing rechargeable and disposable battery systems. More information is on-line at www.rayovac.com (Rayovac)

**

NEW PRODUCTS: INTEL IN YOUR TV

And the world's largest microchip maker will soon unveil plans to make integrated circuits for use in digital television receivers. Santa Clara, California based Intel is exploring a technology called liquid crystal on silicon which is a hybrid between the more expensive silicon microchips and liquid crystal displays. This could significantly lower the cost of flat panel high definition displays. Industry analysts say that if this technology is successful it would pose a serious threat to established consumer electronics chip makers in Europe and Japan, such as Philips and Sony Corp., as well as emerging players like Texas Instruments. (Intel)

**

DX

In D-X, keep an ear open for members of a French radio club who will be on the air from Togo. This as the F6KOP Le Radio Club de Provins 77 announce that they plan to be active from Grid Square JJ06 as 5V7C from March 6th to the 12th. More information is on-line at http://5v7c.free.fr/defaulteng.htm (OPDX)

And OPDX reports that S57CQ, is now active from Bhutan as A52CQ and is expected to stay there through January 14th. Activity is expected to be on all bands as much as possible. QSL via S57DX. (OPDX)

**

THAT FINAL ITEM: THAT FINAL ITEM: ARDF

Lastly, some hams have learned the secret of enjoying the hobby while staying physically fit. They're the fans of on-foot transmitter hunting, also called radio-orienteering and ARDF. Reporter Joe Moell, K0OV, has the story of a California ham who is rapidly becoming one of the best.

--

I've told you about the many direction-finding medals that have been won by Jay Thompson W6JAY, Newsline's Young Ham of the Year. But you don't have to be Jay's age to be a big winner at international on-foot transmitter hunts. 61-year-old Bob Cooley KF6VSE of Pleasanton, California has just brought home a couple of gold medals from the IARU Region 3 Championships in Australia.

The competitions began November 28 near Ballarat, a historic gold mining town in northwestern Victoria province. They were hosted by the Wireless Institute of Australia and organized by the Victorian ARDF Group.

Cooley competed in M60, the Superveteran Category for men age 60 and above. On the 4.7-kilometer two-meter course, he found his required three fox transmitters in 1:30:25, seven minutes ahead of the second-place finisher. Then on the 5.6-kilometer 80-meter course, he did even better, finding all three foxes and getting to the finish line in 1:15:22.

All three IARU Regions hold championships in odd-numbered years. These events for Region 3, encompassing Asia and Oceania, drew 50 male and 9 female competitors from Australia, China, Japan, Korea, and New Zealand. KF6VSE was the only guest from North America.

A long-time competitor at non-radio type orienteering events, Bob has improved greatly since he discovered ARDF in 1999. He finished among the top ten in his age and gender category at the 2000 ARDF World Championships near Nanjing, China. This past summer, he won gold medals on both bands at the 2003 USA ARDF Championships near Cincinnati.

You can get a link to the complete results from Australia and learn more about world-class transmitter hunting on the Web at www.homingin.com. There you will also find the details on the upcoming USA ARDF Championships, which will take place in California next June. That's homingin -- one word -- homingin.com

From southern California, where we do transmitter hunting every month of the year, this is Joe Moell K-zero-Oscar-Victor, reporting for Newsline.

--

Again Joe’s website is www.homingin.com (K0OV, ARNewsline(tm))

277. Re: RF-Hacker fun with the drive-thru window

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-11 03:02:40 UTC
From: southdakotaradio@aol.com
Message-ID: <20040110220240.02537.00002400@mb-m23.aol.com>
Source record: 59920

Nearly all Target stores use 155.955Mhz with an 179.9 CTCSS tone.

Many McDonalds still operate on 154.600Mhz with an 82.5 CTCSS tone, although some have migrated to 457 or 469Mhz UHF. Output is commonly on 35.020Mhz.

Burger King often uses 154.540Mhz with an 88.5 CTCSS. Output is commonly 33.400Mhz.

Taco Bell commonly uses 151.895Mhz with an 88.5 CTCSS. Output is commonly on 33.400.

For best results, use a scanner to monitor the output frequency. Make sure there is sufficient space between your transmitting and receiving (scanner) antennas so as to prevent bleedthrough from the transmitter when monitoring the output. This way, you will hear exactly what the clerk hears and know precisely how well you are getting into the system.

Modified dual-band ham transceivers are excellent for this type of work. Business band radios that are user-programmable "on-the-fly" (no programming software required) are a close second.

Coming up in our next episode: Crossbanding between fast-food restaurants...or "Hearing Burger King customers order Nacho Chalupas while Taco Bell patrons express their desire for Whoppers!"

I just bought a kenwood Tr 751A, and forgot to ask about the 'tones',
I have check the manual,,, and I just don't understand it. Could
someone tell me if this unit has the ability to work fm repeaters that
use tones? And how do I determin if this unit has 'tone ability',
and if so how do I check. thanks very much. cl 73

Too funny...and accurate. Perhaps the unemployed Turd Herders down around
Georgia could take a hint. Unemployment compensation aint where it is at
unless one is by nature a lazy no-good unemployable bum.
You know the type. Give them a few bucks each week with a booze store nearby
and they are happy as can be.
Their only bill is the $50.00 a month they have to pay the Court. Life is
grand for these low-lifes.

Them KPC4's were a bargain at £30 considering the price I paid for my two
some 10 Years or so ago.

Just goes to show how times change.

I think I will hang onto my remaining KPC4 as it might be worth more to a
museum or something.

True, I paid over 300 quid for my first PK232MBX, but at the time I could
easily get 10 connections into my station at once.. but packet has gone the
way of CB, 70cms, etc etc.. i.e dead!

I would not say that it is dead ....
just no longer the flavour of the month / year.
most folks have gone on the internet - a lot faster !!
I did run 9k6 tcp/ip and AX25@ 9k6 but when you could get the same
sort of thing on the internet (DX cluster etc) at a high speed, more
reliable
and the equipment was comparatively cheaper than the radio, TNC, 9k6
modem.
And who needs a TNC now ? software for sound cards will do it and
most have or can find a 486 to run the stuff on.
Still I though £25 was about the right value to ask. Looks like Dave will be
getting his TNC back then.

Yes the KPC'3 were / are a bargain if you want them !!

cheer for your thoughts Martin

The FCC likely can't do anything anyway. Burger
King's drive through frequency just happens to
correspond to channel four of the license free CB
VHF band known as MURS. MURS is covered under Part
95 the same as 11m CB and FRS. Channel four is
154.570MHz. Besides Burger King I've heard Toco
Bell and the local Laser Quest game joint on the
same frequency in my area. Radio Shack was selling
2w 2 channel MURS legal radios as a discontinued
item for about $30 about 6 months or more ago.
They sold out real quick to those who wanted one
to play around with on MURS. I would guess its
just some kids with one of those radios. So long
as they are not jamming any body technically
they're are not violating any rules either. The
only thing Burger King can do is what was stated,
change their frequency to one of the remaining
licensed color-dot frequencies.

I agree that the FCC won't do anything, but I think it's because they want to
avoid that pesky interstate/intrastate issue. The BK could probably bring
harassment and/or nuisance charges under local laws provided they can identify
the culprit. Since it's a local signal, the TwistyBuster RDF should be able to
pin down the troublemaker in no time at all.

Not likely to help as many of the MURS users are actively looking how to open "the other channels". The 150 MHz band is only a bit "safer" than 27 MHz due to the lack of much skip. Also, vendors are marketing UHF devices that are part FRS/part GMRS. Of course, it operates at *much* higher power off of the FRS channels, so guess which channels get used? I can see a future in marketing spred spectrum devices :)

Ohio/Penn DX Bulletin No. 643

The Ohio/Penn DX PacketCluster
DX Bulletin No. 643
BID: $OPDX.643
January 12, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, W1JR, K2UO, NO2R, K3CT, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W4WX, W6ZPL, AA8LL, K8YSE, NE8Z, 4J9RI, CE6TBN, CT1END, DJ5JH, DL5EBE, DL6UAA, F5CWU & La Gazette du DX, F5NQL & UFT, HA5X, I1JQJ/IK1ADH & 425 DX News, JI6KVR & JA-IOTA Islands News, PA9JJ, UA3SAQ, VA3RJ & ICPO, VK4AAR, VU3DJQ and ZL4HU for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 4th/January, through Sunday, 11th/January there were 223 countries active. Countries available: 1A, 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5R, 5T, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BS7, BV, BY, C3, C5, C6, CE, CE0Z, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J3, J5, J6, J7, J8, JA, JT, JW, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T2, T30, T7, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, VE, VK, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

1A, SMOM (Sovereign Military Order of Malta). Well, this may be confusing. According to the 1A0KM Web page: "Different from what we said the official log of 1A0KM 2004, we will be not online, maybe only in a second time." This seems to indicate that the online logs will not be available this time, but possibly the next operation as promised. They also state that there were some pirate operations. The Web page states: "You have to

consider pirate activity these QSO in these times, all QSOs are on CW:
QSOs of January 2nd 2004 between 2300z and 2400z on 7 Mhz
QSOs of January 3rd 2004 between 0800z and 0900z on 14 Mhz, (it was active a real station on the same band on SSB in these times)
QSOs of January 4th 2004 between 0100z and 0600z on 7 Mhz
QSOs of January 4th 2004 between 2000z and 2100z on 7 Mhz."
For updates, please refer to the operation's Web page at:
http://www.sixitalia.org/1a0km/1a0km2004.htm

2003 DXING (A Year In Review By Joe, W1JR). Joe Reisert, W1JR, informed OPDX last weekend that "2003 wasn't such a bad year for DXing after all. I worked 286 entities, slightly less than in 2002. I missed 4 that I know of that were usually on lists or nets (which I try to avoid). Hence, for record keepers sake, about 45 entities did not have a valid operation in 2003." So I asked Joe to put together something and I would publish it. Here is what Joe sent to OPDX: "As I said, I worked 286 DXCC entities in 2003, all of which I believe were legit stations and QSOs. Here's my list of the countries I believe were NOT active (legitimately) in 2003.
Africa: 3B6, 3Y (Bouvet), 5A, 9X, D6, E3, FR/G, FR/T, FT/W, FT/X, FT/Z, VK0 (Heard) and ZS8 (Marion)
Antarctica: 3Y (Peter 1)
Asia: 1S, 7O, BS, P5, VU4 and VU5
Europe: 1A0, JX, R1 (FJL) and R1 (MVI)
N. America: CY0, FO/C, KP1, KP5, XF4 and YV0
Oceania: 3D2 (Conway), FK/C, KH1, KH5, KH7 (Kure), T33, VK9M, VK9W, ZL7 and ZL9
S. America: CE0X, HK0 (Malpelo), VP8 (S. Georgia) and VP8 (S. Sandwich)
In addition, I missed 5 last year that I believe were active: 5V, TN, V5, VP8 (S. Orkney) and C2. I missed some of these because I don't do Nets and Lists! So far in 2004 (by January 9th), I've worked over 120 entities. Best of DXing for 2004..... 73, Joe, W1JR"

425TROPHY. The "425 DX News" group has announced a new survery is being taken. The group has selected 14 DXpeditions for you to vote on as the best 2003 DXpedition. The "425TROPHY" will be given to the winner during a DX Convention (to be announced). The group is also accepting donations EXCLUSIVELY for the 425TROPHY. The callsigns/names of the donors will be engraved on the TROPHY and listed on the 425 Web site. To vote, please visit the Web page at: http://www.425dxn.org/trophy_2003

4U1I, ITU HQ (Taking 160m Requests). Ivan, OM3CGN, states he will be in Geneva until December 15, 2004. He is taking requests for 160 meters contacts via E-mail. His E-mail address is: om3cgn@nextra.sk

5V, TOGO (Update from the 5V7C crew and F6KOP, Provins ARC). Operators Dominique/F5VHQ and Franck/F5TVG will arrive in Togo on the 4th of March to pick up the licences and begin to install the gear; especially the antennas on the traffic site. They will also do some testing. You may be able to contact 5V7C earlier than the 6th of March. This is when the rest of the crew will join F5VHQ and F5YVG. Visit the 5V7C Web site at:
http://5v7c.free.fr/defaulteng.htm

Sign their guestbook at: http://5v7c.free.fr/livre.html

AT0, INDIA. Did you work AT0D this past weekend? This was Ram, VU3DJQ. He informed OPDX that he has permission to operate as AT0D (or possible AT0DJQ) during contests. Look out for him between now and the end of March. Operations will be on 20 meters only. QSLs go to EA7FTR.

C5, THE GAMBIA. Jan, PA9JJ, will be active as C56JJ from March 29th until April 5th from a QTH in Kololi (Senegambia Beach Hotel). Jan states he will try to put up an antenna for 160 meters but is not sure if he can work 160 due to the very high QRN and QRM levels. Jan tells OPDX that he will also be using RTTY and/or PSK31 and focus on the Warc bands if 80 and 160 meters are no good. There will be no activity on 6 meters for he has no antenna for this band. This will be a one man DXpedition and he will use a FT-100 and a G5RV. QSL via the address on QRZ.com. Jan states, "NO E-QSL request for I do not use e-qsl."

C6, BAHAMAS (IOTA and Lighthouse Op). Wade, AA8LL, informs OPDX that he and Liz, K8LIZ, will be active again as AA8LL/C6A and K8LIZ/C6A and will operate from Pittstown Point on Crooked Island (IOTA NA-113), Jaunary 16-19th. This operation also counts for Bird Rock Lighthouse, ARLHS BAH-005. On January 17-18th, they will operate as C6ALB from the Bird Rock Lighthouse proper. This counts for WLA LH-0118 in addition to ARLHS BAH-005 and NA-113. Activity will be mostly SSB from 40-10 meters (They love the WARC bands!) but other bands/modes are possible. QSL to AA8LL or K8LIZ direct or bureau.

CE9, SOUTH SHETLAND ISLANDS. Ricardo, CE3HDI, is expected to be on the air as CE9R from King George Island (IOTA AN-010 and DICE ICE-901) "Presidente Eduardo Frei Montalva Base" (WABA CE-03) from now until February 24th. Activity will be on all bands CW/SSB. QSL via CE3HDI.

CASTLE ACTIVITY. The Association of Radioamadores de Coimbra will activate Castle Lousa as CS6ARC/p on Janaury 18th. QSL via the CBA. The reference number for the Diploma of the Castles and Forts of Portugal is: DCFP C-065

DX MAGAZINE'S MOST WANTED SURVEY (Results Are In!). The DX Magazine has announced the results of its annual "Most Wanted Survey" which was taken between late September and ended during mid-October of 2003. The total results are published in the January/February 2004 issue of the DX Magazine. The magazine breaks down the results by world-wide, Europe only, world-wide (No Europe or USA), overall USA, USA/NA Eastern Time Zone, USA/NA Central Time Zone, USA/NA Mountain Time Zone and US/NA Pacific Time Zone. Here are the top 10 Most Wanted:
1) Scarborough Reef (BS7) 6) Yemen (7O)
2) Andaman & Nicobar Islands (VU4) 7) Juan de Nova & Europa (FR/J & FR/E)
3) North Korea (P5) 8) Navassa Island (KP1)
4) Lakshadweep Islands (VU7) 9) Desecheo Island (KP5)
5) Peter I Island (3Y) 10) Aves Island (YV0)

This survey was taken by Carl Smith, Editor of QRZ DX and The DX Magazine. For more information on these publications, please visit the Web page at: http://www.dxpub.com

FM, MARTINIQUE. Guy, F5MNW, will be active as FM/F5MNW between February 21st and March 6th from the main island (NA-107 and DIFO FM001). Activity will be CW only on the HF bands. Guy will be active during his spare time. QSL direct via his HC (SAE + 1 IRC or 2 USD - One green stamp is no more sufficient to cover today's postal fees for a card sent to the Americas, Asia or Oceania) or via the French REF Bureau.

FO (FO/A & FO/M), FRENCH POLYNESIA, AUSTRAL AND MARQUESAS ISLANDS. Gerard, ON4AXU (ex-C21XU, T30XU, 3D2XU, ZK1AXU (North/South), 5W0GD and A35XU) has informed OPDX that his plans for 2004 are to go to FO, FO/A and FO/M between May 13th and June 13th. His plans/schedules are as follows:
May 12-13th - He leaves Amsterdam to London to LAX to Papeete
May 13-16th - Papeete, French Polynesia (OC-046)
May 16-24th - Tubuai (Austral) (OC-152)
May 26th-June 1st - Papeete-Moorea (OC-046), Huahine (OC-067)-Raiatea (OC-067)-Papeete
June 2nd - Papeete-Hiva Oa (Marquesas OC-027)
June 11th - Hiva Oa-Papeete
Callsigns and bands/modes of operations have not yet been announced. However, Gerard has a Web page and is looking for comments/suggestions for this operation. Please visit: http://www.qsl.net/on4axu

FS, FRENCH ST. MARTIN. Operators Dave/K3LP (Team Leader), Larry/N7DD, Steve/N3SB, Tyler/K3MM, Jeff/N8II, Clint/W3ARS and Kam/N3KS will be on the island from February 18-24th. They will operate from Mort's (W1UQ's) QTH at Paradis Peak (1,400 elevation). Each team member will operate with their own FS/homecall prior to and after the ARRL Contest. During the ARRL DX CW Contest (February 21-22nd), the team will be active as FS5UQ during the contest as a Multi-Multi entry. All QSLs are via www.QRZ.com.

HC1, ECUADOR. Rick, NE8Z, informs OPDX that he will be operating as HC1MD from Tumbaco, Ecuador, January 22-28th. Tumbaco is located "just over the hill" from HCJB's massive antenna complex in Pifo, Ecuador. Rick will be using a TS850s + SB200 + Carolina Windom on 80-10 meters CW/SSB. He will be paying special attention to the WARC bands on this trip. On Monday, January 26th, Rick will be monitoring 50.110 MHz all day. That will be the only day that he will have access to 6 meters (100w + 5 element Cushcraft yagi). Please view the HC-DX Awards at:
http://www.octavia.com/qsl/awards.htm
QSL via QRZ.com or K8LJG at: John Kroll, 3528 Craig Drive, Flint, MI 48506 USA.

IOTA NEWS.....
SA-031. Marco, CE6TBN, plans to be active as CE6TBN/8 from Riesco Island (DICE ICE-804), January 12-15th. Activity will be on 40, 20, 17, 15, 12 and 10 meters SSB, using monoband vertical antennas and a TS-140. QSL via N1IBM: Morris E. Maze III, 847 Dolan St., Lanoka Harbor, New Jersey 08734, USA.

SA-032. Marco, CE6TBN, plans to be active as CE6TBN/8 from Wellington Island (DICE ICE-802), January 17-20th. Activity will be on 40, 20, 17, 15, 12 and 10 meterd SSB, using monoband vertical antennas and a TS-140. QSL via N1IBM: Morris E. Maze III,

847 Dolan St., Lanoka Harbor, New Jersey 08734, USA.

SA-047. Emilio, PU5HAS, will be active as PY5/PU5HAS from Mel Island, January 15-17th. Activity will be on 80-10 meters, SSB only (limited license). QSL via his home callsign, direct or by the bureau.

KG4, GUANTANAMO BAY (Op Cancelled). Bill, KG4DX (W4WX), informs OPDX that his January 13-19th operation to GTMO is cancelled due to shortage of billeting at GTMO. He will try again later.

LU, SOUTH ORKNEYS ISLANDS. Martin, LU3DO, the new medical doctor for the Orcadas Base on the South Orkneys, is expected (might) be active as LU3DO/Z for about one year until March 2005. He will use the equipment which Henry, LU4DXU, will leave behind on the island after his departure to Laurie Island (January 23rd).

NEW OFFICERS FOR 2004. Robert Paquette, W6ZPL, Secretary of the Southern California DX Club (SCDXC), informs: "We are pleased to announce the election of following amateurs to serve as officers in the Southern California DX Club (SCDXC) for 2004. History was made with this year's elections; for the first time in the clubs 58 year history we have elected our first woman president. Cathy Gardenias, K6VC, is a well know amateur radio operator and a first class DXer. Cathy has won the SCDXC Clipperton Award (1998-99) for the member who worked the most DXCC entities in their first year as a member. She has also been awarded the SCDXC DXer of the Year Award which she won along with her husband ARRL Orange Section Manager (Southwest Div.) Carl Gardenias, WU6D. Cathy has been a great asset to the SCDXC, and we are proud to add her to the very distinguished list of amateurs who have served this club as president.
President Cathy Gardenias, K6VC E-mail: k6vc@scdxc.org
Vice President Jim Shryne, N6DHZ E-mail: n6dhz@scdxc.org
Secretary Bob "Bubba" Paquette, W6ZPL E-mail: w6zpl@scdxc.org
Treasurer A.J. "Doc" Holub, WA6OGO E-mail: wa6ogo@scdxc.org
Membership Larry Mallek, K6YUI E-mail: k6yui@scdxc.org
Director Charlotte Iseda, KB6FXS E-mail: kb6fxs@scdxc.org
Director Howard Elovitz, W6EGZ E-mail: w6egz@scdxc.org
Ex Officio Herb Rosenberg, KG6OK E-mail: kg6ok@scdxc.org
The official mailing address for all SCDXC correspondences during 2003 will be: Southern California DX Club (SCDXC)
Attn: Robert Paquette, W6ZPL, Secretary
2253 W. Whittier Bl.
La Habra, CA 90631
E-mail: secretary@scdxc.org
Please visit the SCDXC Web site for the latest club information at:
http://www.scdxc.org

P4, ARUBA (Update). Last week we mentioned that John, W2GD, would be active as P40W in the ARRL DX CW Contest as SOAB entry. John has told OPDX that he will be there between February 18-23rd. Before and after the contest there will be some operation on all bands SSB and CW, with an emphasis on 160 meters at night, 10 meters during the day. QSL via

N2MM.

PJ5, ST. EUSTATIUS. Jim, K1NA, will be active as PJ5NA during the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All Band entry. QSL via K1NA.

QSL INFO AND NEWS.....
POSTAGE CONTINUES TO INCREASE.....
Mart, DL6UAA, informs OPDX that as of Janaury 2004, the postage for a airmail letter from DL to outside of Europe is now a bit higher. OLD: 1.50 (EURO) NEW: 1.55 (EURO).
Wolf, DJ5JH, adds that currently this is 1.99 USD at the rapidly deteriorating exchange rate (1 EURO = 1.28 USD). He states, "Soon 2 USD will not be enough to postage for direct QSL." Some hams still continue to add only 1 USD with their QSL card as return postage.

Alan Roocroft, VK4AAR, informs OPDX: "I must finally capitulate but I DID try to avoid the inevitable increase like other VK and ZL managers. When sending QSLs to me for one of my people, I must humbly ask DXers to send USD 2.00 as long as our dollar remains this strong against the US dollar. 'Greenstamps' are the preferred way as IRCs are a pain in the 'you-know-where'. By the way, there is no surface mail to overseas destinations from Australia (with the exception of large parcels etc). Air mail is the only possibility for cards and letters."

Ken Holdom, ZL4HU, reports: "In my previous E-mail I advised that due to the strong value of the New Zealand Dollar all cards received directly with one green stamp or USD will be replied to via the bureau. Today I exchanged some U.S. currency and the rate was 1 USD = NZD 1.40. This is the worst it has been in our times of DXing and DXpeditioning. Our current ecconomy postal charges worldwide are NZD 1.50 so as you can see there is a real difference. Airmail is at NZD 2.00. As our Association does not have sufficient funds to meet the additional postage costs, cards with insufficient postage WILL be replied to via the BUREAU. I am sorry for this but it is simply beyond our control and I hope you will all appreciate our situation..... Kind Regards and Good DXing... Ken Holdom ZL4HU Kermadec DX ASSOCIATION"

NEW QSL MANAGER. Rashad/4J9RI and Stan/UA3SAQ report that as of Janaury 1, 2004, the Radio Club 4K7Z (also 4K1V, 4J1S, 4K60AA and 4K7DWZ) has a new QSL Manager: Uljanov Vladimir (UA3FDX), P.O. Box 10, Moscow, 121615 Russia.

A61AJ QSL UPDATE: George, K2UO, reports that 7,000 QSLs have been processed and sent out directly or via the bureau. This clears up the backlog of cards with the exception of those from QSLs with "missing log segments", these number about 1,000, both direct and bureau. Most of the missing log segments are in 2002. Ghis and the boys in A6 are trying to find the missing log segments and hopefully will be successful.

ALL direct cards are being answered the "same day" they are received (IF K2UO has logs for ALL QSOs requested). K2UO is the QSL manager for U.S., U.S. possessions, North and South America and the Caribbean. DJ2MX is QSL manager for Europe/Asia/Africa/Pacific.

LOGS NOW ON LOTW! Bill, W9OL, reports that the following logs have been upload and are now available on the "Logbook of The World":
A4XYS - Logs for September 1983 through March 1984
KB4ATV/4S7 - Logs for April 4, 1984 through April 8, 1984
He states that he is still working on some of them and will continue to provide hardcard QSLs upon request. USA only requires a SASE. Non USA only requires a SAE, 1 IRC is sufficient. All bureau requests will be replied via the bureau. Bill states, "If you feel that you have a QSO that is not included in the LoTW log, feel free to E-mail me with particulars and I will re-examine the log." His E-mail address is: w9ol@billnjudy.com

QSLs for IR7LH, a special activation of a beacon that is on the air between November 1st (2003) to April 30th (2004), should be QSled via IK7JWX, by the bureau or direct with a SASE. Operators are: IK7JWX on SSB and I7PXV on CW.

Special event station N2MO was activated by Ocean Monmouth ARC (OMARC) this past weekend. Operations were from the historic Project Diana site and activity was to commemorate the first ever successful moon bounce experiment as conducted by the U.S. Army Signal Corps held on 10th of January 1946. QSL via N2MO. For more information on the Diana Project and for QSL info please visit the OMARC web site at: http://www.omarc.org Also visit the InfoAge Learning Center for more Diana Project history at: http://www.infoage.org/diana.html

SPECIAL EVENT. Chris, HA5X, informs OPDX that on May 1, 2004, the Republic of Hungary becomes a full member of the European Union (EU). The EU which currently consists of 15 member states will become a union of 25 European countries. Throughout the year of this accession, members of MOM Radioclub will be using the special amateur radio callsign, HA2004EU. Their aim is to make the year 2004 a remarkable event for ham radio operators world wide, whether or not they live in or outside the EU, which is carrying out its biggest ever enlargement. They would like to make as many amateur radio contacts as possible using different amateur radio equipment and various operating techniques. They are looking forward to a year full of interesting experiments and amateur radio ventures. One of the principles of the EU is the easy travel within the Union. To symbolize what that freedom of movement means for amateur radio operators, they plan to visit several current and new members states of the EU, and make amateur radio contacts from all the countries they visit. Beside the operation of the special callsign from Hungary and other member states, the MOM Radioclub also plans to issue an award to those amateur radio operators of the world who can fulfill its requirements. For more information, expedition announcements and stories, please visit the following Web page at: http://ha2004.eu/

TO5, MARTINIQUE. Albert, NH7A, will be active as TO5A during the ARRL DX Phone Contest (March 6-7th) as a Single-Op/All Band entry. QSL via F5VHJ.

V31, BELIZE (Lighthouse Activated). Gerd/DJ4KW and Gisela/DK9GG are expected to be active as V31YN (CW) and V31GW (RTTY), respectively, from Consejo Shores, between now and February 29th. Activity will be on 160-10 meters. From February 2-6th, they will be active as V31YN/P from Lighthouse Reef (IOTA NA-123). This activity will be 40-10 meters CW only. QSL via their home callsigns, direct or by the bureau.

XU7, CAMBODIA (Update/Correction). Peter, NO2R, was not active from here last week as reported in OPDX.643. However, Pete told OPDX that he will be leaving for Cambodia January 31st and expects/hopes to be on the air by February 2nd for 7 days. He will concentrate his activities on 160 meters and 80/40 meters. QSL via K2NJ, direct.

Z22, ZIMBABWE. Dudley, Z22JE, can be found daily, usually on 21290 kHz (+/- 5 kHz) starting around 1830z. OPDX was informed by John, K3CT, that Dudley is also looking for a manual for a Robot 800 RTTY Terminal Unit. He has one but it is lacking the manual. His QSL manager is K3PD.

302. Railfans on the Air

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-11 23:02:08 UTC
From: Dale Wiese <dwiese42@hotmail.com>
Message-ID: <QBkMb.25137$P%1.23274451@newssvr28.news.prodigy.com>
Source record: 59845

I'm trying to contact railfans who are also radio amateurs.

Last year in June a group of fellow hams ran a special event station from the Illinois Railway Museum using the call sigh W9T. This was a very enjoyable event, and we intend to go back this year. We are looking for other individuals, groups, or clubs who might like to join us by operating on the same day from a rail related location. Our hope is to build this over a few years into an event similar to the route 66 event, where hams try to contact as many of the "Railfans on the Air" sites as they can on the special event day. A single certificate would be issued, with endorsements for each station worked.

Possible sites could be a rail museum, depot, well known railfan location, old tower, anything that is rail related that you feel might be an interesting place to operate from.

So, is there any interest in this? The most likely date would be June 5th. In addition to the IRM site, we have a contact near Branson/Hollister who wants to participate. If we can get a couple more, I think we would have a great start to what could become a large, well known yearly event.

73,

Dale Wiese, N9XD

WMD threat exaggerated: report

http://www.theage.com.au/articles/2004/01/09/1073437472186.html

"In that process they changed something that is an opinion
into a fact, and they consistently did this," he said at
a briefing on the report.

From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers
celebrating joyously in contempt for God while singing,
right after the unreported dropping of thousands of
pounds of bombs on everyone in Afghanistan, body parts
everywhere, while knowing directly as individuals, every
single, there was no evidence offered that anyone there
was responsible for any crimes whatsoever, including the
Afghanistan women who worked for the newspaper, but for
to be victims of fanatic nazi american barbarity,
disguised as human, like bush almost gets away with as
pure evil deceived, now completely impossible to
believe. Oh, by the way, I am now taking new
memberships for al-Qaida.

As I say, there isn't a real man in the
American Marines, or the Army willing to protect America
with their lives, for if there were, rumsfeld and bush
would be rightly dead for the murders continuing against
those they know as innocent. As even with their
continuing threats against more innocent people as
American lives they brag to throw away as just soldiers,
as all these other nations they try to make ready to
sacrifice millions for, while propagandizing that our
Justice we need not believe in to grant us freedom from
oppression, nor evidence no longer a requirement to
convince us who is evil, and who is not lying. Nobody
deserves to be murdered, but a murderer escaping to

recommit. \ \

Any being would not want to be deprived the rights to
living, by living to not deny the same rights of others.
(First commandment is a fundamental of understanding

space-time reality, as it pertains to the politics of an actual sustainable World, indivisible, and eternal.)

To have US exercise denial of rights granted through the protections of Freedom, asks naturally for reason to being ones own commitment kept. To leaderlessly faith in tyrant bush's faulty public judgement to committing US to indiscriminate murders so he can rob Iraq of all her riches going nowhere he silently contends as an illiterate demon liar, exposes Your Mr. bush Jr. as unfit to preside in Anyone's name. (Walla: Americans did not elect the monster who openly with 9/11'd slush-fund-america, finances the oppression of our families in Uzbekistan, and Wahabbi Saudi Arabia, unreported by our CNN and CBC as revealing.)

Iraq reconstruction's bottom-line
http://www.asiatimes.ru/atimes/Middle_East/EL25Ak05.html

/ / So there's money; it's just not going around. And here perhaps lies the solution to the mystery of how the world's superpower and the world's biggest corporations can't even begin to put Iraq together again after almost nine months: The reconstruction is less about reconstruction than about making the most money possible. \ \
snpd

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New

York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for

including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child

murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their

'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

The Two Troublemakers
http://www.rense.com/general46/guilt.htm

/ / Some of the students had Palestinian passports. When
they asked what they were guilty of, the [bushite nazi savage]
soldiers said, "You are guilty of being Palestinian." \ \

A ungodly bushite nazi teen soldier, as an enemy of
America was quoted to say also to the falsely
imprisoned:

/ / "Say that you love Bush and I will give you food," \ \

Not a love for Justice, or the Bill of Rights, but a
love for the American cop killer traitor bush demon
robbing their very own grandparents they demand by
threat of your murder, for US all as Humanity to do
likewise degenerating, sacrificing our World as cowardly
slaves to benefit the ungodly bushmob 'cabal' of
parasites, the enemies of everyone, including that as
God's will.

ï¿½Beyond human imagination'
http://www.globeandmail.com/servlet/story/RTGAM.20031104.warar1104_4/BNPrint/International
/

/ / I told them I wanted a lawyer. They told me I had no
right to a lawyer, because I was not an American citizen. \ \

"International law? I'd better call my lawyer,"
http://www.payk.net/mailingLists/iran-news/html/current/msg05842.html

/ / "International law? I'd better call my lawyer," the
American President joked in response to a reporter's
question at the White House. \ \

Again, by denying the rest of US as Humanity Justice,
the bushites need advertise between commercial break
only, "Laden did it", no need to follow the ample
criminal 9/11 leads folks, because the crime they say
wasn't committed by true American values. Go on along
bush, cheney, and rumsfeld say, pay no attention to our
evidentiary findings such as, the American FBI's
documented contention, that bush's business partner,
General Ahmad, funded the 9/11 'mastermind' Atta, or the
CIA's, regarding bush LYING in America's name about
Niger (TREASON), or MSNBC's almost Biblical Revelation,
about the bushmob having a signed and sealed, 'top
secret' war plan to not follow the 9/11 evidence to
secure invasion of Afghanistan for Enron, at
Condoleeza's desk, two days prior to the terrorist act
taking place, of which when confronted, confessed as
fully implemented by the Whitehouse. A 'top secret'
plan to blame Laden on a crime they wouldn't actually
try to arrest for with evidence, a plan arranging that
would find bin in Afghanistan pleading innocence with
the help of bush's partner again, General Ahmad, a crime

of such magnitude, it would 'justify' a war mongers criminal invasion to thwart Enron's impending CRIMINAL bankruptcy, THIEVING FROM MOMS AND POPS, to then, ATTEMPT, to close the surviving, armed with knowledge for good reason Police investigations. All of this setting a lowly nazi bushite war criminal, frothing publicly at more than six billion + of US, to state without opinion, that We, as Humanity, are no longer afforded God's GIVEN Human Rights to defend ourselves, nor is the criminal dictates of the demon antiChrist accountable to any rules of law. Universal they publicly quip, as the not-so 'secret' ungodly bushite doctrine of tyranny as enslavement of all that is Righteous and Holy in this World, because, hey, there is no God to speak of... and the King of kings, Son of God fellow, well.. that's all just ninepence fiction. No, WE, as all the make believers of this World, will no longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumfuk loyal nazi teen bushites leading to sacrifice for, for demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq
http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70, defying Truman, launched a win sumtin at all costs attack against China, that quickly during the unreported stupid needless slaughter of countless American teens, forced Truman to concede defeat by begging for a immediate truce with China while firing MacArthur, who came home to giant demonstrations of love and affection for sacrificing American lives forgotten to the accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you love, go out, go out and get killed, and we have had to say it, and by God they have gone..."

Johnny Wizard "Let US just get bush instead friend."

For the love of life and countries, kill bush as traitor to all our Humanity.

Your unbroken eternal Warrior,
as acting Servant and King,

the one and only,
as staring Johnny Wizard,
the true Son of Man

P.S. My reader, I taunt you again: forward these words of love or hate as if they were of Your own concern. America I think Will be interested in this public outrage of the silent majority, an outrage that will ecplise into an international scandal of such proportions, it just might win US the newscast with the facts on Justice ruling our way. (I am excepting all

reasonable job offers. Hint hint.)

--

A bushite nazi soldier's motto: Do NOT kill demon bush
for the love of God as true Patriots would, but war your
comrades in arms with toxic cluster bombs to secretly
kill yourselves with later on, including US as the
innocent, our children included, while STEALING, not
going nowhere public Iraqi institutions, including
desperately needing humanitarian aid shipments, starving
the poorest of the poor, all to please and glorify the
pension thieves of our Grandparents, and the heroin
pushers to our school kids.

--

> To my friends in Iraq, don't let corporate american
> media divide yourselves from community as equal
> participators. An Iraqi, is foremost, a member of our
> Humanity, and just like the rest of US, hate the God
> betraying anti-American demon antiChrist bush, more than
> anything else in the Universe for persecuting the
> innocent while killing coppers to steal our assets
> undefended without a leader to speak out everywhere for
> our living rights included.

Deadly suppositions
http://www.rationalreview.com/rlwrights/112603.shtml

/ / That's right. American troops are now being used to destroy
private property of "suspected Iraqi guerrilla fighters." What
happened to requiring proof before depriving someone of "life,
liberty, or property" as stated in our own Constitution? Evidently
that does not apply to people we attack so that we can bring them our
way of life. \ \

--

GO F*CK YOURSELF, MR. PRESIDENT
http://www.antiwar.com/justin/j112603.html

/ / We must act, even if the threat is nonexistent - because of the
potential danger. If "self-defense" consists of necessary
"preemption," then what would happen if we started acting on this
Bushian principle domestically? After all, killers, robbers, and
rapists don't announce their intentions, politely putting us on notice
before they strike. Why not just jail them before they have a chance
to commit a crime? This principle, if applied within the U.S., would
lead straight to totalitarian rule. Applied abroad, it means perpetual
war. \ \

--

I Know When Bush Is Lying: His Lips Move
http://military.surfwax.com/files/Weapons_of_Mass_Destruction.html

/ / The Bush regime's panic is reflected in its adoption
of Israeli revenge tactics, using F-16 aircraft to drop
500lb bombs on residential areas called "suspect
zones".... ...Lianne Seymour, widow of the commando Ian
Seymour, said: "They misled the guys going out there.
You can't just do something wrong and hope you find a
good reason for it later." \ \

War Propaganda
http://www.currentconcerns.ch/archive/2003/02/20030228.php

/ / In other words, the military actors and politicians
are totally blinded by the "war on terrorism" dogma.
Truth is falsehood and falsehood is truth. Realities
are turned upside down. Acts of war are heralded as
"humanitarian interventions" geared towards upholding
democracy. Military occupation and the killing of
civilians are presented as "peace-keeping operations."
The repeal of democracy is portrayed by General Franks
as a means to providing "domestic security" and
upholding civil liberties. \ \

--

http://www.bushdraft.com/

/ / With the threat of 56% of troops not re-enlisting
Bush is going to need a draft unless he changes his
policies soon. I'm sure you agree, I'm sure you don't
want your friends, family and coworkers drafted either.
To fight for what? freedom? When George Bush passed
the Patriot Act and now the Patriot Act 2 he took away
many of the rights that we cherish so much. Why are we
"bringing freedom" to the Middle East when Bush has
shredded the constitution and taken away our freedoms at
home? It doesn't make any sense. \ \

--
http://www.globalblogs.com/binationaltimes/archives/00000116.html
"Yes, Bush lied"

/ / WASHINGTON - A year ago, on Oct. 1, one of the most
important documents in U.S. history was published and
couriered over to the White House. \ \

--

This is why I plead with armed Americans to kill the
unarrested bush for the love of children everywhere.
Look, we know directly who the bushites are who PUBLICLY
advocate the murder of innocent People through corporate

censorship, who support furthering the demon antiChrist's senseless crimes against my America, and our World. Example: You'd think Art Bell figures none of his listeners could in no other way, learn of traitor bush murdering thousands in New York City, and his contemptuous silence on the issue forbidding anyone else from publicly mentioning it. I have dominated alt.fan.art-bell for years, while Art Bell, like Canada's Peter Warren, will continuously advertise open line calls, but abruptly end calls topicing on KNOWN FACTS surrounding their evil false deity bush, 9/11, Iraq, depleted plutonium, Halliburton, and the deaths of our innocent lives fallen to their personal inaction depicting our community as uninterested. Art Bell in FACT has pre-screened his "open line" calls since bush stole power, and does so, to make appear Americans aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumfuk bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are indiscriminately bombing residential communities with radio-active toxic waste for nothing but to please their evil false deity, Our Mr bush Jr.. No rational reason but for a hatred to Your Humanity, and God if you believe.

Example: that evil nazi terrorist buford blount confesses to murdering thousands of innocent Iraqi People for nothing, no reason he proudly professes as wicked evil heinous traitor. Think of the lives You could save Patriot, by justly killing the unarrested buford blount, on hopes a person to take his place could at the very least consider being honorable in defending Your America? Demon buford blount is truly the enemy to American soldiers, for, if your family was murdered by buford blount irrationally commanding mindless bushite soldiers for nothing but to further rob the dying American tax payers, would you not too, spend your will hunting the evil nazi fuck down personally to spare further another innocent family suffering? To kill the

unarrested unAmerican buforld blount is to stop him from
ordering the practically dead already, nazi dumfuk
treasonous bushite brethren teens, from victimizing
again US as the innocent undefended.

While CNN still insists it's better for them to
misinform and ignore, than to expose the demon bush as
the true target for any Patriot's rage. American
soldiers are being sacrificed to die for no known good
reason, but for bad leadership as evil bushite war
profiteers.

--
House Nixes Anti-Profiteering Penalties In Iraq Spending Bill

http://www.senate.gov/~feinstein/03Releases/warprof103103.htm

/ / "When the Senate Appropriations Committee considered
this supplemental request, Senators Leahy, Feinstein,
and I joined together to criminalize war profiteering --
price gouging and fraud -- with the same law that was
passed during World War II. Yet this amendment, was
stripped out of the final bill," said Durbin. "I fail
to understand how anyone can be opposed to prosecuting
those who want to defraud and overcharge the United
States government and the American taxpayers." \ \

--

--

/ / The Constitution cites "high crimes and misdemeanors" against the
state as grounds for impeachment. Could there be any higher crime
against the American people than to have knowingly deceived us in
order to stampede us into an act of barbarism that has betrayed our
finest ideals, our highest ethical standards, our national honor, and
our whole history? \ \

> http://www.jail4bush.org/
>
> The money for reconstruction is being misplaced as stolen, while
> corporate america demands bush not be held accountable.

Here's what a bushite's granmom's tax payment is going
towards, minus the 2.5 billion per month of 4 that is
secretly STOLEN by the bushmob as something Americans
are forbidden to know of through their corporate news
censorship stealing their very own demeaned values,
dying.

How U.S. will spend $20.3B in Iraq
By SCRIPPS HOWARD

ACK! This Scripps Howard piece is missing from our internet world!

Hmmm.. now looking...
this following is an archive of official corporate news sources, of
which few if none report specifically on how the demon bushmob is
spending/stealing grandma's moola..

http://www.stern.nyu.edu/globalmacro/cur_policy/middle_east_news.html

looking more...

U.S.'s 'Iron Hammer' Code Name 1st Used by Nazis
http://news.yahoo.com/news?tmpl=story2&cid=1896&u=/nm/20031118/us_nm/iraq_hammer_dc&printe
r=1

Not surprising, but not what Americans should be following after....

Anyway, the cash breakdown of the criminal thefts of Iraqi assets
is now, as the tyranny of the nazi bushites, becoming harder for US to
find, why so?

We have stories like these ones still though..

Senate digs into Iraq $87 billion
http://www.csmonitor.com/2003/0929/p01s01-usfp.htm

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The

evil is in plain sight, the danger only increases with denial."

Remember: Demon bush doesn't forget signing his soul to the invade Afghanistan plan by not following the 911 evidence, but would top secretly attribute to Laden for blame, authored by himself, rumsfeld, Condoleeza, and General Ahmad two days prior to the public event of murdering "thousands" in wealthy corporate America, a secret plan that has been confessed publicly to US as fully implemented by the White House right from the start to Jim at MSNBC, months after the fact when the demon antiChrist was caught with American blood in his breath.

Not to follow the criminal leads surrounding evil bush as mass murdering antiChrist, is what the White House confesses to Americans today as official policy under every circumstance. Karma. Demon bush tells corporate america that they'll persecute the innocent in any country by denying our fundamental human rights of Freedom and Justice, while now dropping 2000 pound bombs in God's World containing children, while corporate nazi bores, report in judgement of the great King who MAY have cuddled some cute boy! Jackson has given so much to America in stone, and in return, the corporate news nazi bushites sit condemning a great man whose open vulnerability gives him his wondrous strength and power as true American artistry. While these very same treasonous corporate bushite news anchors refuse to report on tommy franks running death squads against school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's

re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems sometimes, as too, how terribly it truly is for life whose love isn't appreciated by our will anymore as the living in america, oh yeah, I mean America.

As an American then, what life will you forsake where bush'll rob you over and over as the never living for something better? These american bushite nazi fuks, think your gonna wash their feet, and instead of defending yourself and family, just turn the other cheek right before the bushites drop a two thousand pound bomb or two on your innocent neighbor next door? Done for nothing but feeding the bushmob?, as unarrested buford blount contends in God's presence? Then to think, buford blount figures I as a real man will not seek him out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help yourself? The true danger to America increases with American doubts on bush's blatant, true naked evilness, or humoring God as Johnny, and betting on yourself for a change by supporting me as the time being? Look, what could you do for your freedom, when I demand the pursuit of Justice by following evidence to truly protect this World we share? Support my demand to raise the news media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where almost half of the monthly 4 billion dollar tax payer bill is quietly disappearing while grandma loses her cable television, or only grandson? Is that Leadership I ask every American Soldier to be brave and forward this letter on terrorism to your fellow comrads secretly. Then, we'll see...

Johnny Wizard

Johnny Wizard is Mainstream!

The nazi fuck bush, the unelected American cop killer, has still to be questioned by american corporate dictates, why, General Ahmad, is not a wanted man by American Patriot flag waving standards being coporatized as not worthy thinking as. Our entire World can easily witness, no American soldier has publicly stood up verbally against my calls for bush and rumsfeld's immediate arrest or execution for 9/11. Sure Blitzer, and Bill Hemmer froth secretly in contempt for all the American People, at the opportunity to sit secure well blocking US interests at CNN headquarters, to watch in glorious minute by minute coverage, scores of unrepresented by corporate cult standard Humans, be criminally murdered by their evil anti-American propaganda by the will of now more than 2 billion people the bushmob has declared as his personal enemy (60 countries), just like what Blitzer and Bill have done unbiasedly regarding Afghanistan's heroin pushers, the deliberate bombing of the Taliban's girl schools, and the running of death squads by wimp ass coward and traitor to EVERY soldier the world over, tommy franks, largely as he has, against the understood by all to be innocent, unarmed and practically defenseless. With bush's america, showing no interest in preventing the further degradation of the living standards of US People in Afghanistan, (who were already at the brink of starvation), but for to steal the resources of an impoverished nation, and too, as they have, already indebted to the World Bank by purchasing millions of unused american minted terrorist handbooks from the eighties, while spending 4-5 billion dollars a month to continue killing US innocent people to steal even further American values, like "we" don't even exist anywhere. More wealth wasted than would be needed to feed and house the entire population, while forming a just police force accountable to a rule of conduct. But no, according to the election rigging repuglicans, (ES&S search "Dozens of Documented Reports") there is no money to steal if they don't murder, torture, and rob from our communities to destroy our belief in Humanity. Again, I will remind you reader, and NRA card caring member if your joining ME late, I have personally contacted Bill Hemmer, and Bliter's secret "War Room" in Atlanta, as well as contacting Walter Issacson (CEO of CNN), and Sid Beddington (super dumbass CNN producer) with the following facts, that they have refused to allow Americans to openly consider in bush's criminal american dictatorship. Our Mr. bush Jr. and rumsfeld, had a plan revealed by MSNBC to invade Afghanistan, on the premise of not following the criminal evidence for a undisclosed crime, while planning to blame bin Laden for

it without producing any evidence, a crime that hadn't even yet taken place when the plans were officially drawn up and dated with General Ahmad, plans to specifically attack the Taliban for not siding with Enron we learned from Niaz, The Working Group, India, cheney and Ken. Also, the Taliban, had offered Laden for arrest during Clinton's tenure, but Clinton admitted, they could not actually find any evidence to stand the scrutiny of the public, nor justify the reasons for Laden's blind vilification through corporate controls. (It has been alleged it was Barbara Bodine HERSELF who sent the Cole into Yemen against the voiced concern of all involved military commanders, then insured the criminal investigations into her matters would be halted, as example.) So, clearly, a brand new crime would have to be devised secretly. (Note: without 9/11, how would it look killing indiscriminately severely poor Afghan families not tied in anyway whatsoever to flying American planes into American buildings by a German, Mr. Atta, who was funded by the General, salaried by the 30 billion plus Tenant?) That's right. This same General Ahmad, from the ISI, not only put together the 9/11 cover up plan together with the bushmob in Washington according to several members of the Senate Intelligence Committee, but also was according to the fine FBI officers involved in the criminal investigation, the prime terrorist funder, to our Mr. Atta. (globalresearch.ca) Also, if this doesn't already clearly paint a clear picture of betrayal by CNN ignoring the American People, consider this also: The bushmob insisted this same General be the war criminal to go to the Taliban personally, to tell US, no evidence would be offered against Laden, nor public trial offered, against what would be to all Americans who actually believe in the Constitution, and the Bill of Rights, (or the Taliban leadership who really believe in God while mistaking like everybody else does), not guilty of the accusation based only as blind speculation. The very same General who devised the plot we're telling you, as documented, and confessed to MSNBC by the White House ALREADY. What an "embarrassment" the ISI blushed! So, what did bush, america's false deity then state as traitor to ALL humans while closing investigations? "We don't need any evidence, we know he's guilty.", right on que. Mr. bush, the demon plays that cheat against Humanity over and over again now, like he figures someday it'll really work for me, (never mind G), cause he figures no truth exists actually in his dark evil world of betrayal against himself as US all included. His wicked dumb

evil, that costs the lives and hardships of REAL Americans, only succeeds, because corporate dictates demand no discussions on anything politically factual. (At least not for longer than two or three minutes, with nobody respected as invited for being knowledgeable, or knowing basic high school maths either.) It's the term "we", bush and rumsfeld uses routinely, without substantiated fact to honestly hold our conclusion, as their criminal justification to willingly murder US people as unheard of. He figures as the anti-Christ, because he stole the title of President, he therefor inherited all knowing wisdom like dark magic by openly fooling himself, as all of humanity witnesses repeatedly his falsehoods on our truer Nature. Not as a Jesus the Creator might, to play the crazy, laugh at strangeness, or sing almost lyrically to life for the joy of it, but as a talentless demon monster to rob and murder from ourselves as the established innocent factually, and left unprotected because the Living eternal Universe can be feared for nothing I suppose. If bush is not following the criminal leads, nor the relevant public information easily available for all to peruse, how can he disagree with everyone without public answers to disprove our existence? "Secretly", he and rotten rumsfeld continue to state to the six billion plus of US, even so though, it doesn't therefor make the recorded History, or the actual evidence of reality go away somewheres else, such as some of the great work the FBI, or the CIA has done being directly involved, again doesn't just vanish as not presidentially viable.(The highest office in America, should be citizen.) Or, make WMD just appear out of nowhere either, if Iraq don't actually have any. You'd figure, as Mike said better at whatreallyhappened.com, but I can't recall specifically, if bush has secret evidence to substantiate his allegations against the Iraqi people, and thinks his knowledge, being better than all US rest put together, shows a threat to the American People, wouldn't he therefor make it known to all, to protect ourselves truly as concerned? Like Johnny would? Instead of, as he is, using the bluff to excuse the potential MURDER of untold thousands if not millions to also steal from for himself, like the election, and that 50 billion? Remember: bush killed New Yorkers to steal American lives, and publicly showed Our world no interest in arresting himself, the true evil doer for the 9/11 money maker. No purpose in life, but to make others suffer and die, is the bushmob mantra. (Even if weapons do show up, staged, or otherwise, it is still no reason to kill Iraqis to steal their resources, to leave US people

there, under a criminal dictatorship for a planned thirty years of massive American casualties after American casualties, so the bushmob can steal even more from our grand parents left unprotected without police protection here at home left alone.) Particularly, if the public evidence we conclude as documented FACT stands directly in opposition to bush's dark secret fantasy of Universal criminal tyranny he spews daily as lies against GOD in Our public air space. A planned criminal tyranny of evilness, that has been released to US publicly through one real American after another, ignored overtime by the CNN celebs, yet, still happening as Our high priority issues. I'm beginning to have a difficult time keeping up with the truth that leaks from the bushmobbed syndicate like a sieve practically everyday too. Have you heard of, "RebuildingAmericasDefenses.pdf" on CNN? Or, how about "11-14-02_Chin-4.pdf"? (Don't miss that one.) I haven't, but can't really stand watching them pretending we can't see anything at all either. So, these terror plans.. When the nazi bushmob was caught without them, (as they were top secret presidential documents entrusted to the witch condoleeza), could do nothing but confess they were fully implemented. Why? Because they walk through the entire scenario that bush puppeted the months before to armed Soldiers. (God wins every time.) Mr. bush and General Ahmad's plan, is to continue to wage an unending war against humanity, (60 nations) as the "way" of escaping public Wrath, Your Wrath American Soldier, for something, that, again, for 9/11, hadn't yet happened, but bush and rumsfeld prepared for to close investigations on. Mr. rumsfeld was reported (emperors-clothes.com) to have been told by his own Secretary, in case he had forgotten his top job responsibility while sitting behind his desk fidgeting, he was, as rotten rumsfeld, required to be at NMCC immediately. He didn't go after then either. The only possible place the terrorist plan could have been carried through to stand down the Air-Force. (Let those under him take the bullet if push comes to shove. American traitor rotten rumsfeld thinks of everything too eh?) His public excuse I'm sure it would be, he was concerned about the death of US People while sitting there doing nothing. The same rotten rumsfeld, who tells US openly in Our public arena while almost cackling, he wishes to murder and torture completely innocent people that Americans should be forbidden to learn of in a open as the Public court room of Our peers through America's once respected, if sadly, mostly mythologized fair Justice system, now headed by

ashcroft, a total incompetent, who wishes not to apprehend terrorists by tracking the criminals, but to destroy what little freedom is left for America by advocating, in public, the persecution of US innocent persons instead. Really. Again, listen up Ashcroft, last time: bush and rumsfeld's plan, that the White House confessed to as fully implemented, demands by excuse after excuse, that the actual evidence trail not be followed, and that legitimate FBI, and CIA officers (Rowley, and the insider trades for example.) are to be continually ignored. Just as CNN has done staying unbiased. Allowing bush and rotten rumsfeld to kill innocent People deliberately, stealing America's Freedom through injustice to themselves. First degree murders. See, the nazi bush slaves go on and on how great it it to be murdering innocent populations far away as terrorists to steal and plunder, but, for who would be there as themselves close up and personal (gods WE are) to question their own demise by someone who thought without thinking likewise? (God is Not.) This is why I ask an American Soldier somewhere to stand as One single person for America, a Family Man, and take out the re-offending mass murderer, unelected dictator, Our Mr. bush Jr., by thinking like a Soldier is really Universal. And, if his successor, should do the same secretly, publicly advocating wars, death squads, or torture against Ourselves as the innocent to steal from, WE do the same again, until, CNN finally opens up communications to the American People as warranted to be wise.

Sure, only Jews in Kenya, like with Odigo, seemed to be warned to stay clear from an impending terrorist act, and sharon played a personal role as documented several months ago to attempt the blowing up the Mexican Congress and blame it on the Unionists, or bin Laden, oh ya and also, I shouldn't forget, apparently, the rocket launcher was painted blue lying in a field untouched when the mossad in Kenya pointed it out to reporters they brought to witness the whole story by-line, but that doesn't therefor, make the likud party, or especially ariel sharon Jewish. For ariel knows when he steals or kills others as innocent being himself openly a terrorist, is ariel knowing, real Jews would be murdered too, by someone like himself, albeit, in secret avoiding the trying but divided coppers, that he murders also. But, hey, that's where he gets all the repuglican money he doesn't earn but steals over the lives of Jews he watches fall dead as unfigured. Mr. sharon, will tell us how disgruntled he is to see only Jews die by

terrorism, then goes out as a PUBLIC FIGURE, and commits the same, but far more hanious acts against G as a pirating criminal National icon. So, sharon, what is it that so upsets you to see US Jews die then you nazi parasite, you cancer tumor, you disingenuous harbinger of suffering to God as Humanity? It is only his private show without questions for comment, as he can not answer publicly without being dishonest about his criminality. Murder is murder, and sharon, the bigoted-racist murderer, the terrorist supporter and perpetrator, has stolen the rights of the Children of Israel to live in peace by good will, and Justice for everyone counted. Jews are Palestinian. See, being Jewish is a religion, and the ancient Palestine, is of a label for comprising every understanding to this, that can not be completely understood symbolicly as contained to be definitive. Also, like America is truly melting, and murder accomplice negroponte, can not face for personal weakness, ineptness, and hatred for all of Humanity, so advocates huge oppression against all America as real People corrupted by a government of injustice, and contempt for themselves unheard from. (Jesus, just try to get together two people who agree on everything. Justice however, should be a no-brainer for everyone, but CNN say's nothing in Our defense as equals, and would, as they do, watch You be robbed and murdered, and not raise a word.) Also, just for double, the oldest practicing Jews we know of through recorded history, (the almost censored "Dead Sea Scrolls" included), are dark skinned, and live in Ethiopia, and the likud party, like so many other "settlers", are mostly filtered christian Kaisers, who migrated from Russia on the promise they would receive stolen property, (sure, I'm jewish!) (search "ILA" and the "JNF") like farms, houses, and Our children's toys. (FrontLine's one time broadcast) See, If sharon didn't steal and murder, repuglicans would have no excuse to receive kick backs to plunder even further, from the great stupid American People. Which is why a bush supporter is so deeply ignorant on just about everything like Speilberg is regarding the Holocaust, and like too many american soldiers, who we can be sure, would die in sacrifice from cowardice before bravery as evil under the anti-Christ, dictating war crimes against US all as Humanity unrepresented. Until Now. For, Christians have no protection from anti-discrimination laws in Israel, nor do Atheists either apparently. How spooky dumb is that? Legitimizing hitler they are politically. Jews are this, jews are that, and all of everyone else, is something unquantifiable, unknowable, and all around

unloved and disrespected everywhere as G-D is forgiveness to be abused on Christmas, according to the deliberate practices of sharon singularly, as a bigoted nazi murderer, and the written words of the banned in Canada talmud also.) No bullshit. Clearly to all, very anti-American. Biggest secret going! Why? Americans are largely illiterate, drugged, and all around dumb. Now, where is CNN, or Our beloved "wealthy" celebs, who advocate blind obedience as slaves to the anti-Christ, to discourse me a liar truly as Jesus? Nowhere? You are still waiting People, while American families continue to be robbed and left for dead by inaction through corporate american standards. For, what can only one God do I ask yourself really?

If a thing is done wrong often enough, it becomes right.
-Richard A. Leahy

Johnny Wizard

--

Holy Jesus Man!

Have you heard the Revelations from India's government to the FBI now made public?, regarding the principle terrorist funder of Mohammad Atta being, the ISI's, General Ahmad? The bush administration's personal confidant, and top secret military strategist? See, it was Jim at MSNBC that informed US of bush's terrorist plan existing as once top secret presidential documents, and, that this same general, was also responsible for, according to several members of the Senate Intelligence Committee, developing the said war strategy of invading Afghanistan on behalf of the evil bushmob, with the very anti-human premise, of blaming bin Laden for a crime without any evidence to substantiate our public accusation, to murder more than a hundred thousand, plus! A crime, 9/11, I will remind you, that for when the evil plan was devised, hadn't even yet taken place. But was threatened would happen, if the Taliban didn't side for Enron's interests in serving for Ken Lay, one of bush's many bum buddies. (They apparently do that sort of thing on a regular basis, with all the members in their secret meetings of the 'only Boners' fraternity.) It doesn't take much either to understand why rotten rumsfeld, corporate america's sweetheart, (you know, the sadistic nazi war criminal who gets off on murdering or torturing innocent people), told US he wanted to have arrested those at the WhiteHouse and the Pentagon, or even in the Military, who would dare as Americans, to inform Americans what he and bush were

truly doing in their names.

Destroy the unelected unarrested heroin pushing American cop killer war criminal, the demon we all know so well as corporate america's false deity, the super evil doer anti-Christ, Our Mr. bush Jr. Now Patriot Soldier, and be loved by all as Savior. Or not, and be a thoughtless degenerate, a cowardly regressing nazi bush slave, who would sacrifice your own family as yourself truly, because JESUS CHRIST, life is living to survive for Justice, as God is warranted to be as ourselves, with equal rights to being as is of US all included. Mr. ashcroft tells Americans he is purposefully destroying their freedoms as legal due process because he, as an idiot, and a traitor, has to fight ourselves as a terrorist blindly in Our names without American Justice, but never explains his action, is asked to, nor could he. As ashcroft, like most in the bushmob are, is founded completely unqualified. Why doesn't ashcroft move to have bush and rumsfeld arrested or executed immediately by following the criminal leads for 9/11 on behalf of Americans as an American?, what with all the ample evidence documented as factual and everything? Instead, decides too, like the demon bush demands in attempt to sway his capture, that evidence will no longer be mandatory for him to decide who should be stolen from, as the left dead to be robbed as forgotten by Justice denied to all as Godly. American soldiers are truly as represented, weak, slow, and painfully pathetic cowards, refusing to protect their own families as a national defense measure, instead, as nazi dumfuk bush slaves, willingly support the murder of would be themselves as criminals, truly against US all as the innocent.

Mr. bush was quoted once again defending his irrationality as criminal murder rampages against the innocent as ourselves like he did in New York City with rumsfeld, by stating,

"Maybe somebody needs to explain to me why they say something, but I don't feel like I owe anybody an explanation."

The evil anti-Christ figures he'll just continue to rob and murder American Patriots while destroying freedom as Justice for US all, and simply escape Your wrath by corporate america making no fuss to speak in Our defense as the still living to be underestimated as equals.

Destroy Our Mr. bush Jr. now, and be loved by all as God would!

From: British News
July 17, 2002
Britain backs US plan for attack on Iraq
By Philip Webster, Political Editor

(Quoting the terrorist supporter blair, Philip was),

``To be TRUTHFUL about it, there was no way we could have got the public consent to have suddenly launched a campaign on Afghanistan but for what happened on September 11.'' ...

Oh, so there was a criminal intent known also by yourself then blair to prop up heroin pushers to save Enron's impending criminal bankruptcy?

We have repeatedly witnessed, CNN and CBC refusing to represent our Democracies, our FBI officers, like airing Coleen Rowley, General Ahmad, or the sabotaging of the Moussouie investigation by ashcroft, or the CIA, regarding the insider stock trades, or dealing heroin. The innocence of the Taliban for 9/11, and the barbarity of the Northern Alliance as heroin pusher slave owners. No, every single american according to CNN being unbiased, does not want bush the anit-Christ arrested immediately for killing Americans in New York City to steal our worths and freedoms as worthy of defence matters by their own measure as corporate cultists. As I told you, Bill Hemmer and several other celebs at CNN, now are fully aware of bush and rumsfeld being the true purpetrators of 9/11, yet, Bill continues to play evil against US all, figuring nobody ever will know without CNN coverage on his contempt for American Patriots he asks to have sacrificed for as bushwhores like himself and Blitzer. CNN refuses to protect Americans as equals commited to Justice for US all.

It was just reported by Chris Marden on the 27 November 2002, that bush's top whore richard pearl, has advised Britsh MPs, that bush secretly as the anti-Christ has no intention of allowing the Iraqi inspection process to succeed, and instead, is commited to murder ourselves either way.

Again, bush and blair, like CNN, have no evidence to substantiate their allegations against Saddam, and have stated because they have no evidence, they therefor as demons, can murder anyone on the face of this planet to steal our lives in OUR names as US innocent. Mr. blair and the bushmob have recently stated, that they have no evidence that Saddam has any WMDs, nor, is any threat to OUR WORLD community, and because of that, if the inspectors find no weapons, and Saddam insists it is

because he doesn't have any, this, accordingly, would give these criminal master minds a cause to murder hundreds of thousands of innocent people, if not millions, and steal all the assets of the Iraqi people, while destabilizing our entire endangered species. They are mass murderers, threatening humanity to recommit more murder as TERRORISTS! Never while I stand ALIVE evil nazi dumb fucks. KILL BUSH NOW! Hey, have you heard about rotten rumsfeld's P2OG? "O", as in Oh rumsfeld is truly an evil fuck! Apparently, rumsfeld wants to provoke terrorist activity to murder ourselves as innocent cilivilians, as an opportunity to invade any country he wants to rob and plunder further. Also, most importantly, according to the official documents, rotten rumsfeld figures it would be important when he and his mobsters commit these crimes, it be understood, that nobody be able to trace it to himself, or his partners in crime, so they figure, the criminal acts should be carried out through his department at the pentagon, then, get this, he won't therefor be accountable, or scrutinized by the American people through corporate news channels. The offical pentagon report details this.

snpd

All Wrapped Up
CBC as managed has deliberately with intent, worked to misinform and propagandize our community on what is as, documented provable fact, regarding Mr. bush's complicity to the murder of US as the innocent in New York City. CBC has refused to live up to our responsibility to protect our democracy, and in silence, has pirated our names to murder those understood to be innocent of the accused offence. CBC has refused to allow ourselves as the public to understand, Mr. bush forbade the FBI from pursuing bin Laden investigations, just prior to 9/11 with secret Presidential directive W199I (199I WF213589), which had John O'Neil, the anti-terrorism head for the FBI publicly protest by resigning over. This W199I directive was put into place after the administration had been warned by the BND, and several other legitimate intelligence agencies, of an impending terrorist plot involving the high-jacking of American airplanes to be used as weapons and flown into land marks. In addition to these unreported top priority political issues that stand to be true as documented factually, the bush administration had also secretly put together a sinister war strategy, that was revealed to ourselves as the public, by Canada's own Jim Miklaszewski at MSNBC, to have existed without any doubt

as Presidential Directive documents, two days prior to 9/11 at the WhiteHouse. A planned strategy to invade specifically Afghanistan, by blaming bin Laden for a crime, but providing no evidence to back up the allegations. That's right. The super evil criminal bush dictatorship had a plan in place to not follow the actual evidence to arrest the true culprits for a crime that hadn't even yet taken place, but that they were prepared for to close investigations on, as an opportunity to invade specifically Afghanistan, propping up the Northern Alliance who still practice the barbarity of sharia law, with the bush bonuses of selling heroin to our world, and most importantly, building a liquefied natural gas pipe line for bush and his Enron friends, to rob even more further from us all.
Legitimate FBI officers unrepresented by Mueller claim General Amad was the principle terrorist funder of Muhammad Atta, responsible for a wire transfer of $100,000, who, incidentally was in unusual meetings, the General was, with the bush administration a week prior to 9/11, who also not only participated in meetings with several top officials in the Senate Intelligence Committee, but also, was reported to participate in building the war strategy of invading Afghanistan, as the reported desperate excuse offered for the General being there just prior to 9/11, and also, was personally responsible for negotiating the non-surrender of bin Laden, of which the ISI claimed, the General advised the Taliban not to do so because, no evidence would be offered, nor public trial for an offence bin claimed he played no part of.
We are all in agreement, in truth we rise, evil is just the deceived disguised. Boo!
The case is wrapped up, and bush and rumsfeld need to be immediately arrested for 9/11, for murdering countless thousands for stolen gain, at the losses to our humanity, that show through every putrid utterance of scum bucket bush, as contempt for our living as humanity through Law. Where a person accused of a criminal offence without any evidence is clearly innocent. For why I ask you reader, would any unjustified leader of US people blame someone for a crime who wasn't linked to the offense, while working to close investigations, and not follow through with the ample clues to capture the true evil doers? Just how cowardly stupid can soldier families be taken without conviction as themselves worth fighting for?
Justice for all, and glory be to godly.
Johnny Wizard

Freedom is only garnered through Justice for
all equally
Nobody deserves to be murdered, but a
murderer escaping to recommit
"Patriotism is the last refuge of a scoundrel" wrote
Samuel Johnson, and he wasn't just mixing words.
Patriotism is not about mindlessly as cult slaves
obeying bush the unellected nazi fascist criminal
dictator, it is about protecting freedom for all as
democracy demands by law. Ours. Mr. bush has said
that if we, as Nations, don't agree with himself as
world dictator, removing the guiding principles of
constitutional Justice as freedom for all instills,
while actively destroying America and murdering innocent
people for no crimes who struggle now only to survive
from his criminal tirades, advocating torture while
declaring wars against anyone poor and unrepresented,
with a complete disrespect for all human life, and our
courts of Law, has clearly stuck himself to be our enemy
everywhere, as being evil personified, which
inextricably demands his immediate incarceration for the
crimes he is committing against ourselves as a true
terrorist without question, no? The bushmob desecrate
the ideals of freedom, Justice and democracy garnered by
truth as our own being to be individuals, and is exalted
by CNN claiming to be representing ourselves while
watching us be robbed and murdered as stolen from
openly. Mr. Turner, you have terribly disappointed our
world in this great time of need for ourselves as
humanity.
Again, all relevant evidence, circumstantial and
otherwise, regarding the WTC terrorist act, points to
the bushmob, and rumsfeld especially.
"Any argument about any aspect of the conduct of the war
against terrorism," as Globe and Mail columnist John
Ibbitson puts it, "must begin with those airplanes
smashing into the World Trade Center and the Pentagon.
And then it must stay there and never move from that
spot."
Flight 11, all ticket sales are accounted. How did
terrorists board without purchasing tickets? No, the
airline industry did not take the names off the lists on
Sept. 11, as too on the 12th they confirmed so with a
small correction, but if they had, how then would, or
could, the desperate doubter explain strange flight 77
from the same company, which does leave room for
terrorists to be on board with the given total. Oh...
I think I know. Two flights had duped terrorists hired
by the bush wrecked state department, explaining the
State Department connected money transfer discovered by
the good FBI to the head terrorist, Germany's Mr. Atta,

unreported by the Commi Nazi Network of course, showing a belief on Atta's part, that he would not die with the top secret arrangement he had made with the bushmob privately, explaining why the bushmob had his passport in their possession secretly, and why Atta couldn't have checked in with baggage. (Ya right, he's gonna pack a jet fuel consumption calculator and a video titled, "How to fly a jumbo jet airliner in twenty minutes for dummies" left behind of all places in baggage, explaining the secret bushmob audio tape still to be never released where Atta is heard mumbling, "Jeeze, where's my lucky shirt?" and, "Does anybody here know who's flying this thing?") The $100,000 didn't go far, and Atta clearly wasn't a devote Muslim, as in the bar he drank vodkas and flashed a huge wad of hundreds and fifties to the manager, and everyone else in yelling distance, bragging how much the bushmob had paid him stupidly to do so, for a flight he couldn't possibly have boarded as a viable pilot or passenger. Also, why need carry his passport loosely as needing to remain unnoticed, if he didn't buy a ticket, nor planned to travel anywheres, if he somehow magically just appeared on the plane in mid-flight after an all night bender with hookers? Also, none of the four flights easily indicated that they had been highjacked, while the transponders were all turned off by code from inside the locked cockpits, at roughly the same time as if by automation, with flights not changing their flight course for as long as fifteen minutes, like no passenger ticketed terrorists aboard flight 11, ("Hey Atta! check out the view!", or "You left the manual where?", or "Gee, thank God you have the final draft, suicide letter still with you for when we burst into a fireball."), as too, the 200 mile precisely aligned trajectories, without HUD, do attest something not quite normal, according to experts in the Air Force with thousands of hours flight experience and some chaos theorized war gameroom background, and elsewhere, who know of bowling a perfect game while blindfolded, using a checker. Flight 77. The planted terrorists failed to highjack due to the fact, the plane was returned to control of the real pilot who managed to use communications after a fifteen minute fight for something. Conversations that the bushmob confiscated. For after 77 changed course in the dramatic after some struggle for the controls, it then returned to it's original flight path, and okayed, but, not for long, for now they knew inside information. "No, I wanna fly this plane according to procedure while you guys fight a fair three round fight." or "You say planes have actually flown into the WTC towers?" or

"Let's just pretend we're the real pilots, and maybe no one will notice?" But shut off transponder only then? was it on again, or had it never been off before? If the terrorists were subdued, or gave up by showing their red bomb boxes only contained confetti, how do they so quickly take the pilots place, (who had just been last near for calls after returning to normal), to push the codes? This is why the bushmob took the tape. CNN tells us rumsfeld says the FAA didn't contact NORAD until 9:25, while at the same time, CNN also tells us controllers who handled 77, knew it had been highjacked at 8:46.
Also, explaining the now no longer strangeness of why bush desperately ran to confiscate those airline videotapes of the passengers boarding flight, not thinking to know we now know who they all were. (Maybe things didn't go exactly according to his evil nazi plan?) Truly brave American soldiers would arrest bush and rumsfeld by the end of a loaded ready to fire rifle, and any other who stand to stop us from viewing our evidence available. Why, that's called obstructing Johnny Wizard. Also, consider this, the thought to necessitate the order of the terrorists to force passengers to use cell phones as secretly planned, two flights, (Time magazine Sept. 24 - Flight 93 "We've been highjacked. They're being nice.") but make no declarations on behalf of themselves leaving no point for departure? With a communication plan not controlled from the air perchance? Ah, but not on flight 11 or 175 where terrorists weren't present, as again, every passenger accounted, but no calls? Only one not talked about, because it doesn't fit with the bushmob lies. Flight attendant Sweeny was reported as the only one I am aware of to make a cell phone call over the entire hour on flight 11, or 175, to the ATC at Boston, giving seat numbers to highjackers that were not on board as registered ticket holders, (so how did she?) nor even sitting where Meuller lies, who in so doing, disputes she made the call to know factually. Makes no sense to me also, and CNN, we can be sure, will do nothing for the Americans who lost their lives over the senseless ignorance of their corporate cult status, that perpetrates this form of dim-wittedness without helping you by interviewing anybody involved in the investigations, to rather let the bushmob continue dictating unchallenged to murder more of us, for staying unawares of our silent screaming.
hmm... Any unboarded tickets? Apparently so, for it was reported all purchased tickets were used but one. Another koinkydink regarding the hooting and hollaring,

drinking and carousing in the strip bar the night before of the bushmob barkers, is that nobody would PURPOSEFULLY give their lives in a collective criminal operation for CASH payments through the State Department as to go gone dead broke next day, against living life's costly riches freely would they? Did Atta from Germany even attempt to give the 100k to his wife and children for safe keeping? Bingo. Also it has recently been revealed by India's officials, and Pakistan's Foreign Secretary, Niaz Naik, that the bushmob had contacted their governments in AUGUST as himself typically idiotic, as privately to public representatives in a unreported meeting in Berlin to state, he, as the anti-Christ, would slaughter the innocent people of Afghanistan's government, who had ended the heroin trade and were protecting the country while progressing towards equal rights for women,(We will sue CNN for every dollar Turner has.) making illegal, slaves and murder, by forming national laws that five years previous didn't exist, also making it safe to travel, and started opening schools for girls while being starved for doing so good for everyone. Why would bush the demon attempt to do so? To shore up corporate banker support for Enron, who had placed a 3 billion dollar investment in Dhabol Power Company, and needed liquefied natural gas in a big hurry, what with Qatar drying up, and the tripling in price of naphtha. Stuck no longer able to garner partnership with the present pipe deal contract offer for Afghanistan agreed to as well by tribal leaders who Tommy murdered, as too, India's insistence in not being ripped off any longer, by a company the entire nation learned easily to hate over the past decade, and the laundered employee pension money unretractable in the Cayman Islands proved to be of little use apparently, and of course most importantly, also the secretly known to fellow shyster cheney, impending criminal bankruptcy, and we must also not forget bush had excepted 2 million dollars in bribes from Ken Lay, who had his own late night office suite at the White House for their private encounters, so it has been kinda reported, but difficult to believe bush manages to whore so much, but understandable, what with the way he walks so funny. See, the Taliban had excepted a deal from Bridas, a pipeline offer to help rebuild the nation, while the bushmob just threatened to murder all their families for Enron's conspiracy tied to the repuglican nazi regime. Enron could never obtain investors desperately needed, to attempt with capital, to hide their crimes against all the American people, without a binding contract, investors such as from the

multi-billionaires in the post WWII charity organization, World Bank, of which as unocal, being typical repuglican, only offered bribes to officials from Afghanistan to hurt their nation they, as the Taliban, truly believed in working for. As a another example where these nazi vermin relate their uselessness against us all from, Mr. phil gramm lobbied for slave labour at 10 cents an hour for America, while sneaking in a bill for California to have their electricity price quadrupled, for his relatively paultry personal check of one hundred thousand, while California citizens payed billions and billions as stolen from without police protection, as companies fell going bankrupt due to gramm's assault, leaving many out of work to get swindled even further by repuglican corruptions that run rampant through the entire state in other places, without me there to bask on the beaches to give an occasional cameo appearance, while flexing my muscles to the tune of some free beer, a place to crash, and maybe pretzels, hint hint. Achem. On the morning of the fast paced Sept 11th, bush was aware of something special in NYC that he would comment on as asked SPECIFICALLY he stated while leaving his hotel room, on his way unswavered directly to hear about goats from school children by nine, as it was reported his comment to be so nationally, on ABC News with Peter Jennings reporting on the terrorist highjackings. While we now know according to the FAA's official report, that at 8:20, officials were made aware of the unprecedented emergency while channelling through authorities, (the bushmob as rotten rumsfeld through CNN speaks nothing about it saying, all the FAA employees are lying, and don't keep watch professionally) and according to the criminal indictment against the bushmob filed by Ilarion Bykov and Jared Israel available at www.emperors-clothes.com, the Secret Service are kept more informed than anyone concerned with bush's safety, so, you'd figure, would have made bush aware of all four flights, since he was already familiar with one important thing going on in NYC, that he would talk to the media about directly later as massed for it, right? (Perhaps someone should ask Andy?) Bush was also reported to receive a call in his motorcade about the horrific event, with him also confirming to witness the tragedy of flailing bodies from the epicenter of disaster, you know, the WTC towers, commercial airlines thing?, school television sets we presume existed that he left only a moment to thought, as he then quickly entered smiling nonchalantly, a different world stage, the class room unshaken, without thought to think he may have been

confused earlier to then attempt seeking clarity, no, he sat for 25 minutes unalarmed, chit chatting like nothing was happening, just as we rehearse, and as disturbingly deceived evil as ever to be believed, as anti-Christ he is it would seem to be. He later after tinking tried as dumb as he is, to deflect his gruesome macabre conduct, by suggesting he had learned only of the doom just prior to entering the classroom, where he immediately without thought, quickly attributed the disasters to pilot error while making a funny, while completely dismissing his concern as not even present for the loss of innocent American lives, bankers even, (then, before, and now he'd even tell you unblinking, "What?"), just like the tens of thousands as children in Afghanistan, and the terrorist crimes he advocates in Palestine, as he then pressed on to more urgent matters regarding his press op cover up. Did you see his media reaction in front of the classroom, when he heard the news for the forth time officially that morning, as again, he even admitted to actually visually witnessing some of the devastation before that moment, and that only then, had it become a serious matter to change, or not change his demeanor? Stuck he was then, with no mind to ruse, er.. time to snooze, Arg! What was the cue? Errrch... If he moves with priority interest as concerned openly honest public figure, as he knows a legitimate President would have been to first learn of such carnage,
THE MONTH BEFORE IN AUGUST,
why not previous before he left his Hotel room with a television? Outside the Hotel? In the motorcade? With school staff as you'd figure would have been present too laughing, no? Instead he stayed as he had been to give no orders publicly, nor attempt to make public inqiries, but to listen with such unbelievable absolute devotion, equating a beautiful child's story, as if it were Jesus from the heavens himself, speaking directly on the living Nature of our Universe... Okay, maybe we won't be able to convict him on that, but, if that isn't worth enough salt to be considered newsworthy, how about when bush said he didn't hear of the towers until he was at the school building, nixing the recorded comment reported on by John Cochrane of ABC News with Peter Jennings, that bush made a noise saying that he was importantly aware of something in NYC to speak directly on later? Or how about at the memorial, when he publicly stated it would take two whole hours to read the names of those he would without thinking, murder as innocent for Enron he told India and Pakistan in August similarly, so he would just read the titles of companies to say Grace, then would press on to more urgent

matters.
"Crime is terribly revealing. Try and vary your methods as you will, your tastes, your habits, your attitude of mind, and your soul is revealed by your actions."
- Agatha Christie

March 11, 2002
Too many loose ends...
By Barrie Zwicker
... Yet at 6:30 the evening of September 11th NBC Nightly News, along with many outlets, reported: "It was after the attack on the Pentagon that the Air Force then decided to scramble F-16s out of the DC National Guard Andrews Air Force Base to fly ... a protective cover over Washington, D.C." ...

Joint Chiefs of Staff, General Richard Myers testified to the Senate Armed Service Committee of Sept. 13th, that no fighter planes had been launched until after the Pentagon was hit. CBS reported the next day, three days after the event took place, that everyone in the media and government as Myers, who of all would surely know as much as anyone with the paper work he had to prove it, including also highly respected employees at Andrews Air Force Base, and at New Jersey, were all lying without explanation nor reason to, and that at 8:44 two F-15s scrambled from Otis Air National Guard Base on Cape Cod, and were racing to New York at less than 300mph, below 20% throttle, to arrive way too late from over a hundred miles away, making the 'official' CNN story implausible. Although, the FAA has stated that it, as required by statute, and rehearsed for decades as practiced, drilled, and executed flawlessly, alerted military authorities in Colorado, throwing the command to rumsfeld's chain at the first sign of a possible high jacking, and did not sit staring at radar for 29 minutes, then yet again for another 20 twiddling through the manuals as bush would have us believe without suggesting. The attackers clearly did not act alone, as rumsfeld fights to threaten us with murder to think anything but his assuredness of who are the evildoers without evidence available to us all as facts to speak for ourselves, which to the trained observer, incriminates himself as suspect on the purpose. (None of even the how would anyone know who 'suspects' without having purchased tickets, are al-Qaida, nor from Afghanistan, according also to the FBI's Mr. Mueller, who in his knowledge of evidence as it pertains to criminal conviction required for our civilization stated, only "one --->--- OR ---<--- more" might.)

Showing a cowardly fear nullifying judicial procedure, by swaying the numbed corporate automatons to think likely as machines, while not searching nor speaking to give reprimands for correction, which would be done as normal, if rumsfeld wasn't directly responsible for the crimes himself as nazi traitor. Why else? Because real soldiers as American employed at Air Force Bases have whispered behind our locked corporate news doors, with no place to speak openly as national, being corporate news is taking none of our phone calls, as Americans are generally broadcasted to be illiterate and cowardly because generally they seem to be that way actually, as I too, still haven't been addressed as someone with something to say by our professional, they know us better than ourselves, news standards. However, I am presently working desperately with many at CBC for an up coming let's slam Johnny documentary, or possibly even a legitimate news story, and others in the alternative media are slowly opening up channels of communication by returning my phone calls, of which, you as well, could do the same in our name. The universe is turning, take hold somewhere. As I was saying, real soldiers as American employed at Air Force Bases have stated without an ability to be wide open, leaving this point very difficult to confirm as of yet on our part, without jeopardizing ourselves as dazed and confused hopelessly lost nowhere. Example, our media giants we all suffer without answering any of our important questions, airwave savvy broadcasters such as Myers, rumsfeld, Mueller, Ashcroft, Chris,

[cnn]

shrub, and the overwhelming cowardice of others to spread this document to feed newspapers, soldiers, and law enforcement officers everywhere, enemy or otherwise, that has so far, found no rebuttals regarding the evidence before us, and rational for Justice to be served as a protection for our freedoms we must struggle to maintain always forever.

That stand down orders forbidding any military aircraft taking flight for defensive measures were given out verbally right after the first airliner hit the tower. Mr. rumsfeld and bush's immediate public explanation to us meetin like this', given to surviving American families of murdered police officers, fire fighters, and soldiers everywhere, leaves us by their continuing silence of no statement to counter this extremely serious accusation that demands resolution either way

immediately, (or both their right deserts by watering frauds), found recently at a very popular respected web site or two, would make one heck of a NRA town hall gatherin, eh gentlemen? Now, back to Myers in a later different congressional flub. (That I would sight if I could, but a small miraculously unawares group, holding our title of RCMP, has seized property of my own such as computer equipment without officially charging me for writing truthfully, that I've always freely publicly admitted to doing privately through all local news media outlets here in Winnipeg, (that give me next to nothing as political coverage for being critical, scientific, and possessing elementary math skills such as addition and division regarding our public ad revenues) several legitimate newspapers across Canada, and as a secret to themselves even group, only two officers seemed vaguely familiar with deductive reasoning, along with our actual history as humanity, that they had spent two months with overtime pay researching only on how to use Google apparently, are presently pouring through Amiga Basics as we speak, looking not for my well documented claims they balked in secret terror to tell me it wasn't about them as individuals to answer, but to threaten my freedom with their excitement about the prospect to find personal works to use against myself to this world I call home. In darkness they claimed they would not be individually involved professing from somewhere if asked by another playing evil against the wall, and therefor as anyone could be entrapped as victim, would get Johnny on a indefinite termed mental health care rap for being intelligence, they would try, to publicly accuse myself lacking hounor and character, on behalf of the secret service good cop bad cop Don jokingly told me for life, as trapped helpless supporters of cop killers and lottery scammers stealing from our grandparents, just ignoring their jobs, our lives, my written words, that do largely include, my publicly made requests to protect our communities as legal bound claims based in our criminal codes as Constitutional, who as themselves will attempt to stand publicly not to bring attention if afforded the effort of public accusation against myself, pretending to be us they'd suppose eventually, captured in our public arena against me as unworthy. Standing otherwise to Lord over us against themselves. Truth, Justice, freedom and liberty destroy ignorance as injustice, slavery and oppression, like it or not, here come's Johnny with no lawyer. If a murderer is on the loose recommitting, do we not use the required force to stop the transgressor from re-offending? The media is our messenger. Anyway, (Jeepers, I sure can go on eh?)

as I was saying, Myers later in another committee addressing the timeline specifically, stated something like:
Oh, I don't know any longer, now that the professional news corporations are dictating our existence without my records, and our democratic governmental testimonies, left me thinking to not bring anything with me as required this time, sorry, no, actually, I forgot why I came here today. Is it over now?
Also, in retrospect, we, as you, can also witness through archived military newsgroups an almost complete support by our gun saluting soldiers and several real OFFICERS, American and Canadian, for my calls as a single citizen in our fledgling democracies for the immediate arrest of rumsfeld and bush escaping our authorities for murdering American civilians. Gore won the election, so let's make him President until a new election can be called as soon as possible. CNN must become humans and demand public representation. Look, we've screamed around the world regarding the facts irrespective of myself as an individual, and the corporate cult members refuse to report our stories, while actively working to oppress us all with deceit, they feign as brave to steal from us as poorly represented. See? Mr. bush as anti-Christ states that if a dictator pirates the authority of a nation and commits CRIMES against ourselves as humanity, the nations police officers should be slaughtered without mercy, or allowed legal council as defences, as regard for our standing universal laws of decree by our big time Creator grants us free will as unthinkable anyway (it's a long story, read the somewhat boring, "Johnny's Last Stand" if your interested in how I do this without flinching), and in bush's extreme evilness, now suggests, America as in deed our world needs to be nuked for not defending our flag. As we witnessed horrified in Florida, as bush the demon tyrant self destructing in his personal hatred for everything truly, argued with only himself publicly, that he as pure evil, isn't required to have evidence to murder anyone, and if The People should speak out as Justice for all as reason does sustain, he'll annihilate the entire planet, as he is against every life as US not understood, perceived, or believed, because he is generally so stupid as evil is always, leaving him targeting specifically, any police officers who are protecting ourselves as community he would blindly spout proudly, if we could nail him on the question directly. Justice to protect a person not guilty of a crime, he believes is ONLY relative to whom holds the speakers platform for

accusation, so as dictator, he sides to steal and destroy our lives unworthy as himself, and doing so, has him deceived it brings bounty by monetary value stolen, not earned, seeing no value in personal relationships but to distrust others as reflected to being a part of himself also, leaves him in relationship to us, secretly planning to deceive the entire infinite forever Universe, being harmful to all as the anti-Christ he is without exception. Ah, but alas Mr. bush, infinity plus infinity equals infinity super dummy. Nothing else wiser as this Universe is intelligence known to ourselves as wonder eternal. See, if there is one thing every single conscious entity in this Universe of Universes can all agree on despite whatever bush spews, is that we don't wish to be deprived our right to life and liberty for just living to not deny that right from any other. Lucky for bush, God is forgiveness, being of a causeless force before an actual beginning kinda nature, me on the other hand as Johnny, representing life and death the way I do honestly, am not so stupid nor tolerant watching him destroy ourselves in error. It's a crazy world. Mr. bush tinks the world is only of his perception, nothing more of ideas, no strength in wisdom, fearing equality for us would leave him in all honesty, a life wasted trying to cheat himself. While I as Christ say every single individual has the equal born right inherent as existence eternal dictates, not only because I'm naturally a caring, compassionate person familiar with physics, but also because it does me well for my freedom to be all I can. For in this struggle of living, I foresee great potentials, not only for myself having fancy dinners and super big parties, but also for the realms of knowledge I'm familiar with ourselves neglecting, and how many important issues go unresolved due to doubters who dismiss actual experts in areas such as understood sciences that need our utmost immediate attention, motivating me to do anything possible to make this place a better world on behalf of everyone, that of which, to resolve, only lacks a lounge act King, who as should be, me, because here I am to crown myself standing this way forever dreaming. Plus, believing I'm actually trying to help this big old clunker of a Universe as I understand fairly well as friendly, really makes it an extra special bonus for the planet and everything, as long as our world isn't completely decimated by the bushmob, due to the general masses having absolutely no interest in understanding themselves.
I don't have any interest in what others do with their freedom, other than deny ourselves to do likewise. If a

nation commits a crime against my freedom as a individual, of which I know as a god to be equally represented through everything, an innocent person murdered effects me personally, especially when it's advocated in a public forum where freedom is advertised, but obviously not present, there is where my voice demands by RIGHT to be in defence of all innocence, (big G 6 power) such as is my eternal struggle for freedom in my own name of John. (I'm in the book.) I wouldn't kill everyone in the country, or police officers as bush would advise, but demand the perpetrator to be corrected, chastised, insulted, arrested, or shot smiling as my two year John is crazy mad about bush the nazi tyrant murderer, has manifest ourselves this way. Freedom is only garnered through Justice for all equally. Mr. bush and cheney don't understand that, nor wish to learn about us, because it runs to expose their weakness publicly, as cowardly and truly pathetic individuals they both truly are, as they fail to pretend otherwise to more than half who know better, and as bush, to hide from us all as a very anti-American war criminal. Which is why we as humanity, must demand bush and rumsfeld's immediate arrests for mass murders and also for decimating the American Constitution and Bill of Rights in our corner. Mr. bush and rumsfeld must be stopped at all costs as our own willing, shot smiling now if need be, twenty dollars a head I'm offering, as too, helping our disabled officers enforce our laws to protect ourselves on behalf of every person. Did you notice how our corporate professionals ignore my world wide factual claims, only to silently advocate yourself to be oppressed and stolen from again? Maybe blown up real bad, while bush blames whomever now that evidence isn't necessary to convince the numbed and drugged of America for paying to destroy themselves by rewarding bush as saviour? Do you notice how our professional corporate cogs, refuse to report on bush's fifty billion American worker tax dollar rip off, and by omission, advocate criminal acts against ourselves as society's helpless tax paying victim? Or CNN refusing to report the closing of certain voting polls in Florida as all eligible people from the area, were lined outside the station, left to be told to go across town in fifteen minutes, but first the repuglican party is going to charge you for loitering, er.. I mean busing, no, wait, and so it went till many never made it as reported. Never mind all the disqualifications. Mr. bush was not elected, and is a tyrannical dictator of evilness never known before or ever to be again, for his gamble is for all our real lives he leverages as we truly fall dying.

Either we survive, or bush destroys all of humanity due to the lack of real courage as heroism in America to challenge his hatred of our world living to continue, and irrational fear of our ultimate freedom to remain forever wondering aimlessly. Mr. bush shall not continue to advocate murdering our police officers while stealing our monies, or we will get him ourselves for continuing to do so, as he daily advocates on all corporate news channels, smiling his demon grin as dumfbuck shihtead. Mr. bush is presently trying to dump tons of radioactive waste on a extremely volatile fault line under Yucca mountain, shipped right across the country from all over. Purposefully ignoring all scientific, as the public's concern intentionally. It is clearly an act of hatred for all life as our Nature, for it is so beyond irrational, and into maliciously evil, and in of itself, should warrant prison sentences, if not immediately halted for public review demanded to be broadcasted on CNN internationally, in a manner where the staff actually tries to do something on behalf of the weakened nation as still barely living. I have wondered of a Canadian prosecutor against myself standing, if unfortunately the RCMP, in conclusion, do privately decide against ourselves being by playing stupid against democracy and freedom would be my defence I'd suppose they would appear to all, while begging for forgiveness from those who know not what I write. (I can't even read this myself sometimes. When I was questioned weather I wrote "The Trial and Conviction...", it was murmured quickly, that, oh we have ways of proving you did with our government crack computer specialists, so don't try to get out... Huh? I, in the paper weeks previous to them stealing my goods, mention directly my discussions with my provider, let alone the computer geek fact, that every paper I've published on usenet has address headers. And oh ya, and then there is the second paragraph in "The Trial..", and the mention of my full name elsewhere, with tons on contact information. No, this is about not allowing my legal, rational, provable arguments made public against bush and rumsfeld the war monster criminals, for fear to face the horrible failures of our corporated media to represent Justice as ourselves in North America. Having me now placed potentially closer to the position I was struggling for, by attempting to actually imprision ourselves under bush dictatorship ruled broken by everyone. Thanks for helping to realistically illustrate my argument. Goodbye cruel world.) I would suspect if so, an effort argued bogusly, in a possible corrupt court room only to foul our sacredness as

humanity under tyranny against our nature to be insulted, with the news bank bosses ignoring our downfalls, to not allow to plead my case openly as John, so here I make it now. I beg of you as a stranger to help our Justice ring through, if not for me, for yourself as deserve to do so. Or, go straight to hell, who needs who. Mr. bush's private Secret Service agent was drinking diet coke when I first spoke with him person to person. (I've written at least five papers discussing the science of monsanto.) Didn't really seem that all a bad bloke, and I do believe we left on fairly, no need to kill each other terms mutually. But, thought all the people in this world should be blown to bits without thinking nor discussing why it seemed he thought those he didn't know were deserving of murder, along with our families as collateral damage, and the country side toxically polluted for generations like in Iraq, to waste billions to give the bushmob to sell heroin and distribute cocaine for his fear of the CIA, of which fairly, he seemed ashamed when I mentioned it, bush's pathetically weak and cowardly cocaine dealers who are acting illegally, desecrating the American flag, the Constitution, the Bill of Rights, and so on because, the northern alliance treated women so badly before the Taliban he witnessed to tell me all about it briefly, and how all deserved to be slaughtered blindly to make him feel like American, and no other ideas had been implanted by command headquarters when they sent him on his own for testing my friend or foe hyperspace capabilities. Why all the murders we stand for? Because apparently, the al-Qaida that Americans never heard from, state nazi corporate america has no right murdering and stealing from ourselves as humanity, while propping up military dictatorships with American people dollars, killing innocent families attacking Allah by representing the evil in Jihad, as all would agree who could think likely from any religion including atheism. The nazi bankers with daily full page newspaper ads don't like that philosophy understood by ourselves as the silented as taken to be granted, while our in debt soldiers are told to murder people accused of crimes without any evidence. Nazi Germany all over again, while racists utter threats against entire nations going unchallenged as actually published. Mr. rick lowry of the national review goes unarrested and corporately celebrated, suggesting to nuke Mecca, and sites 'moderates' who suggest 10 other capital cities, nevermind Philadelphia, while I yell, "get bush and rumsfeld now as the nazi war criminals they are, escaping true American JUSTICE INFINITE as

INDIVISIBLE!", (just pretend I'm not here). Central Affairs representative Christina Rocca, the evil witch she was to humanity as God, uttered the CRIMINAL threat to the Taliban's embassador for choosing the better LEGAL business deal in August "Except our offer of a carpet of gold, or we'll bury you in a carpet of bombs."

Unocal and the Afghanistan pipeline
by Larry Chin
Online Journal, 6 March 2002
... Osama bin Laden advised the Taliban to sign with Bridas. In addition to offering the Taliban a higher bid, Bridas proposed an open pipeline accessible to warlords and local users. Unocal's pipeline was closed for export purposes only. Bridas' plan also did not require outside financing, while Unocal's required a loan from the western financial institutions (the World Bank), which in turn would leave Afghanistan vulnerable to demands from western governments.
Bridas' approach to business was more to the Taliban's liking. Where Bulgheroni and Bridas' engineers would take the time to "sip tea with Afghan tribesmen," Unocal's American executives issued top-down edicts from corporate headquarters and the US Embassy (including a demand to open talks with the CIA-backed Northern Alliance)....
J.W. reminder: The northern alliance are bush's heroin pushers with women slaves
----
Of course CNN again, refused to protect Justice infinite by reporting the facts, while bush followed through by murdering more than 3000 mostly wealthy citizens as his excuse to murder more us good people for his evilness (CNN reported bush most popular according to their bogus tabulations that seemed to neglect, no one voted for me either), while now two seemingly unread RCMP officers, a single Secret Service agent, and one justice scribbled Obrein or maybe it's OBorien look to ignore my equal rights, by claiming my demands to be human, something they as nobodies will hide from, while attacking my credibility hidden by private news agencies from the public, hoping we will just die away with them to plunder who? BZzzzzzTT! Wrong. Welcome to the Twilight Zone late comers. These cops supposedly of ourselves, are well aware but pretend can't read, bush and rumsfeld blamed an entire nation of millions for a crime without any evidence, but to steal and plunder, over crimes they were responsible for, murdering everyone, while I wrote every real proud and strong American should help our police detachments, stand up

and shoot the two nazi bastards in good lighting immediately, for trying to undermine everything the American flag represents, while purposefully leveraging the general populace to remain in ignorance, as CNN just refuses to report on anything regarding the State of the Union, attempting to escape the Judicial system by destroying our democracies, sacrificing soldiers too stupid to live godly. Now we can only assume these officers are trying desperately to convince the real RCMP to cower as duplicitous, as too stupid to care for themselves as our own brethren, trying to find me guilty as just one man named John for living natural, to make them as nazis strong for oppressing our Nations as God everywhere, because of their inability to stand on guard as Royally Canadian. They've actually told me they are going to attempt to charge me for something, but know not what to total yet. They seemed fairly excited over the prospect of stalling our entire human race, needing to learn first how to, then to go through hundreds of thousands of Amiga documents, programs, libraries, and device drivers, that the entire Amiga World community has been working through for 20 years, then there is the thousands of individual games from the eighties that they'll need to learn the intricacies of, my absolutely huge art collection of mostly babes, dragons, movie posters, and sea mammals, and finally my 'Johnny Archives' drawer, that they of course in terror, will completely ignore, along with North American criminal lottery revenue tabulations, neuroscientific MMT papers, (The most horrific toxin known to humanity), the bad evils of Monsanto we can be sure will be considered a definite "oh, they didn't see that as officers of our laws", AZT? shell and talisman? Forget that, just let those people out there die as murdered they would snicker privately in secret telling nobody, no, it's all about finding a way to send Johnny, he thinks he's so smart, genius away for being brave and oh so freakishly strong. It's already been near a month of planning to hurt our ability to communicate as humanity, as it is becoming increasingly more difficult for me to post my ramblings, while neglecting my legal demands for bush and rumsfeld's criminal arrests as repeating offenders of first degree murders still threatening everybody. GIVE US BACK MY AMIGA! Or, real officers, military and otherwise, along with your co-workers, your neighbors, and my family of garbage pickers, will charge you with obstructing Justice. For, your cowardice to protect our communities is not my own as John, and attempting to hurt me as an individual to hide from your paid responsibility to our communities, is not what the REAL

RCMP stands for publicly. Obstructing Justice is a charge that holds a maximum life term prison sentence if we look to the mounting dead bodies, in a court case we will likely preside over as true, brave, strong and free, against fools trying to break our living spirit to believe in my determination to have this done on behalf of everyone.
Barely alive Iraq is no threat to anyone, but torture advocate cheney as soon to be war criminal like bush and rumsfeld. stopthewaragainstiraq.org Spend five minutes at that site which sends info around the globe, and then notice how CNN doesn't want to play the public on the issue understood by all our experts. I'm not sure myself of CNN, for I can't stand wasting my time any longer watching themselves ignoring everyone. If the corporational news degenerates, continue espousing the benefits of siding to be nazis in our names, escaping our justice system as mass murderers, Mr. rick lowry, bush and rumsfeld, will be challenged by every proud NRA card carrying, God fearing, life protector imaginable, this includes of course our REAL POLICE agents of freedom in the Secret Service, that are smart enough to believe in the name of the law, and not idly shaking in terror, while attacking our citizenry for speaking out rationally on behalf of our falling dead comrades. Ed McMann and bush are planning to tour American elementary schools to teach children to help secretly identify those 'others' who are "injurious to the domestic tranquility of the people", and teaching the "importance of patriotism and obedience to the state", pope nazi bush is so terrifying on his own representing the dark ages as evil incarnate, I couldn't possibly make this horror up, and Ed has always been a stupid drunken sell out, so, no big surprise there for anyone. Can you please e-mail this letter to the staff of your favorite radio program for me please, then we'll all listen to themselves turn against our communities as us CIA (see below), FBI, and legitimate officers of our LAWS, by remaining silent while hanging up on everyone trying to protect ourselves from war mongering nazi crime lords, as truth to set us free from the chains of tyranny will take a course, it's just how many will willingly in fear of living, take bush's place for nazi sacrifice, instead of standing to prove our worths by demanding justice for all right God damn now? What can they be scared of but us? Do some fear we'll make'em look stupid for being so? What can we blame but the time we run so quickly short on, for we must not dawdle, and get back to work to pay the bankerman for doing nothing, so to give our luxuries of freedom to do other things we know not of,

because we're bust as it is, and this days almost completely done for now like the others, oh, but our hundred or so American multi-millionaire TV entertainers have it so good by never ever getting political generally, while hundreds of millions are robbed and murdered in their names as evil taking much by giving so little back in return, screaming nothing as individuals, pretending to be actual struggling artists, as this life is truly a pain for them to pay attention. ("Oh, but what about my poor dying fans who worship me like Jesus" they would probably say.) In other news, the good CIA elements were reported by The London Times, to have asked the London Financial Services, to investigate the traced, extremely unusual 'put option' stock transactions regarding the two airline companies, (a 4000% off the norm bet they would both lose cash value) just prior to the terrorist acts taking place, they did, and came back with A.B Buzzy Krongard, bush's dumbass cocaine dealing, anthrax mailing, executive director of the CIA ourselves, who bush the nazi dictator now says the CIA can not arrest in a military dictatorship absent Universal law, and has recently told Americans, wimpass buzzy, will now be free to murder ANYONE American including subordinates, who dare try to reclaim their rights as an equal under God not heard from. We say true brave American soldiers and our grandmothers everywhere say otherwise. Where is the Mafia when we need them for Christ sake? Oh ya, mostly dead, maybe I'm moving to fast on these issues eh? These facts mean bush, rumsfeld, and now buzzy, are directly involved in the terrorist acts in NYC, of which bush, as American traitor, has publicly encouraged the WTC investigations to stop looking more evil to all as us than ever. CNN decided to drop the story they were almost holding right there, because it involved protecting our never talked about, good investigative working CIA officers (I was a little shocked also), justice and democracy for US people sold down the river, drats, actual work, where CNN rather just slaughter US innocent people and police officers instead of reporting on the bush crime waves, while selling cocaine to school kids, then call themselves heroes in my name after the carnage for blindly dropping bombs from the sky on everyone. Heroes? More like typical american nazi cowards, willing to murder their own families as themselves, than bravely put their lives on the line standing to protect Justice as freedom for everyone, as to what true bravery, and heroism has always been. While the world watched CNN broadcasting, American nazi soldiers celebrating joyously in contempt for God while singing,

right after the unreported dropping of thousands of pounds of bombs on everyone in Afghanistan, body parts everywhere, while knowing directly as individuals, every single, there was no evidence offered that anyone there was responsible for any crimes whatsoever, including the Afghanistan women who worked for the newspaper, but for to be victims of fanatic nazi american barbarity, disguised as human, like bush almost gets away with as pure evil deceived, now completely impossible to believe. Oh, by the way, I am now taking new memberships for al-Qaida.

As I say, there isn't a real man in the American Marines, or the Army willing to protect America with their lives, for if there were, rumsfeld and bush would be rightly dead for the murders continuing against those they know as innocent. As even with their continuing threats against more innocent people as American lives they brag to throw away as just soldiers, as all these other nations they try to make ready to sacrifice millions for, while propagandizing that our Justice we need not believe in to grant us freedom from oppression, nor evidence no longer a requirement to convince us who is evil, and who is not lying. Nobody deserves to be murdered, but a murderer escaping to recommit.

Just prior to Sept 11th, bush ordered the Naval Strike Force in the Indian Ocean, a 24 hour strike force for DEFENSIVE purposes to be shut down. Mr. bush threatened to veto the Defence Appropriations Bill only after the Democrats tried to move 600 million out of 'Star Wars' and into anti-terror defence. The Star Wars program also includes in it's ranks, an extremely corrupt bunch of criminals, who bribed repuglicans to remove the American law against making false claims for governmental contracts, a seditious act as TREASON that was never reported by the Commi Nazi Network, who now defraud every American openly, escaping military tribunals because, American soldiers are clearly to everyone on the planet, left inept, and as pathetic cowards lacking leadership everywhere, stuck with evil American murdering rumsfeld as nazi kcuf, real leadership long gone years ago, when forced to shoot with dirty syringes as only the clinically deranged would order our soldiers need not to be thought human. So, as a consequence, most intelligence left disgraced without medals, that would have only accentuated their inhumanity as deranged lunatics. While now America's left with nazi soldiers who dance over the slaughtering of suffering third world civilians and police officers,

who were in the process of making something better for their nation by following the guide of universal Justice, while evil rumsfeld the nazi fuck, offers a reward for murdering 'Omar the Just', because he asked for evidence that didn't exist. Why? Omar was standing up to protect the American flag by supporting the apprehension of those truly responsible for the WTC terrorist attacks against Justice as freedom America is quickly losing. As I say, there isn't a real man in the American Marines, or the Army willing to protect America with their lives, for if there were, rumsfeld and bush would be rightly dead for the murders continuing against those they know as innocent. As even with their continuing threats against more innocent people as American lives they brag to throw away as just soldiers, as all these other nations they try to make ready to sacrifice millions for, while propagandizing that our Justice we need not believe in to grant us freedom from oppression, nor evidence no longer a requirement to convince us who is evil, and who is not lying. Nobody deserves to be murdered, but a murderer escaping to recommit. Mr. bush and rumsfeld must be immediately arrested to face a fair trial for their crimes in NYC, or suffer a death sentence carried out by every man smart enough to comprehend, that freedom for ourselves and family, mean Justice for all of humanity. Justice protects our democracies from those who wish to deprive ourselves the pursuit of happiness, and like nazi bush and rumsfeld, wish to steal our earnings and sacrifice our lives for their personal misgivings, and fear of this awesome universe. Creating only hardships and suffering as murders against everyone they abuse our God granted freedom, is truly evil and insane, as they are both without question, mankind's worst delinquents. Whew... On another note, as you can believe this to be also not reported, bush apposed all democratic, anti-Enron money laundering efforts by the Democrats as a traitor to every single American value. (democrat.com) We true soldiers figure he burns the American flag when he thinks no one is looking. Mr. bush and rumsfeld need to be immediately brought out of the darkness to the witness of every American soldier, never heard till now as forgotten dead or otherwise, offered a fair trial, and then given life term prison sentences after a speedy conviction for the murder of all the lost American life continuing to fall unheard from, due to their terrorist acts involving us being censored, with me still here squawkin', just as before the man comes to take us away, haha, locked up to never as cared for, you people truly disappoint ourselves,

leaving you to suffer this way for nothing. Why why why. All I ask you is to e-mail this to two people to help our planet survive okay? Then when I see ya, I'll give ya a star somewhere or something. Or don't, and get on your bad side, doing for nobody which would include yourself not heard from. I am not kidding here about this Revelations, Judgement Day, let's just try a little to help Johnny for Christ sake, somethings going to send him to the clink for being a super human being, and that doesn't seem right to anyone. Right? Buddies? Pals? Life long friends?
Thomas White - former vice chairman of Enron - Secretary of the nazi american military, that refuses to believe in ourselves as a democracy demands a conduct of law to treat us human beings as kind, such as a governed nation of people should be considered innocent until proven otherwise. They placed in power illegally, heroin dealers and mass murderers of over 50,000 Afghans just a few years previous, who believe women should be slaves, while slaughtering just about the same to make Tommy look brave, killing us people as he actually told us he has no reason to give, or explain, who we must demand be closed down as arrested for actual war crime matters, for the sake of our innocent lives, and as nazis speaking as us illiterates apposing free speech, have made no commitment to peace in the region, but to place the burden and costs on every nation truly committed to ourselves as humans being. Look, Dutch shell and unocal's deal is a crime against Afghanistan, which offers nothing to the nation but bribes to officials who are almost all employees of unocal. What is coward drug pawn unocal employee, penned as Washington's own, Karazi's position on behalf of the crying children? For him to side with unocal, would mark himself traitor to every person concerned for the plight of people who live in Afghanistan, and he certainly wouldn't be a leader in anyone's summation with himself surrounded by drug dealers to feed our world's poverty stricken either, just as he walked in as to who he always has been. As well, we all know CNN will make no attempts to inform the public but to propagandize with lies, cheating the entire world so Ted can further cash in with our freedoms payed as collateral. Mr. bush, the biggest nazi of all humanity, spewing his hatred for our lives as his ignorant barbarity and contempt for Justice and freedom as the pathetic coward he truly is wasted and deplorable, was speaking recently, almost coherently, with the President from Peru after three private executive meetings, stated to our press, he wasn't so much interested in stopping the distribution of cocaine

and heroin on the rise with his secret partners that most everyone of the literate world knows of in the back to the way it was Afghanistan and elsewheres, but the demand for it by the weak and dispossessed who quickly get hooked, then suffer hopefully for a lifetime he smirked, would be another way to steal our resources. Mr. bush is the evilest scumbag who has ever barely existed, a degenerate, a criminal, really really evil, and extremely unAmerican. Also, again, God damn you people, Mr. bush the terrorist, funds sharon to criminally steal our properties as a parasite, to ourselves as bleeding wounded host, purposefully murders innocent families guilty of no crimes, and good police officers as wickedly evil against every God imaginable, while all CNNed Americans are expected to silently except our voices unheard, which encompasses close to 90% of newgroup mideast political traffic condemning the bastard, and more than 70% of the Israeli population 'officially' by the corporate standard present there agree he is a monster in this dying bushmob universe. Mr. sharon is NOT JEWISH and is not supported by any practicing Jews anywhere. G-D, he desecrated the THIRD Holiest of Holies, after slaughtering would be Jews of which the Israeli government commissioned him guilty for. But you know, he is constantly surrounded by nazi soldiers armed by the American tax payer, so he is difficult to detain, without attempting to blow people up in the market places he threatens, while continuing with repeatable murders that he holds no remorse for whatsoever. Ask the monster, he'll even tell you he is that evil. We'd call him officially the anti-Christ but bush won the toss up. MSNBC refuses to allow any of my clear to any arguments on private message boards they censor us for content, that way, Chris won't appear to directly ignore the simple thoughts against the murder of innocent lives that he advocates as not his own, and I think most people are starting to believe him as deliberately excommunicating himself as loser to our human cause. Plus, I have a limited ability to communicate as our weaknesses do sadly attest our general ignorance, for, the bushmob is now working to have my freedom stolen too, to incarcerate me for demanding Justice, while in silence, threatening every political leader by our corporate news departments refusal to protect myself as anyone. You could be me partner. Please help us in this regard, play a part in history, take some pity, I'm going to the funny farm as not understood by any they tell you to do nothing to protect our freedoms, destroying our eternal souls in acting so cowardly to even not stand for yourself as one

to be worthy, left forgotten. Hello? Is anybody out there?
Lawrence Lindsay - Enron's advisory board - bush's regressive tax assault advisor against every principle the American flag once represented. The American economy is being looted. Trillions have gone away, while billions continue to be stolen. The criminals hiding inside the Pentagon can't account for more than 1.2 trillion dollars in American stolen revenues, while evil bush near doubled their takes believing obviously in no God, attempting to destroy nations in all honesty he hides through only corporate genocide, as our humans lives are squandered without value as meaningless to the bottom line not existing. Depression will ensue if we are not allowed to understand this simple dying force being drained against our wills intentionally. Why will CNN continue to refuse interviewing me, us, them, anyone? Is it our wesly natenah-who dickhead smarmy, hitler warnt so evil like all those people out there are, four hour daily dose time again nurse? Do they by not doing so, support the oppression of ourselves not heard from? Help them hear me as public voice from the wilderness please for heaven's sake, have a heart for yourself man, bush is planning to destroy your world, of which he has no care for ourselves, because his deception as the anti-Christ now fools no one but himself as evil to all things imaginable.
No, really.
Marc Raciot - Enron's former chief lobbyist - Chairman of the crime ridden repuglican party, who has recently stated, he may continue to still lobby for bankrupt Enron as he leads repuglicans straight to victory. What a mastermind game player eh?
Printed below is a speech that Dennis Kucinich, United States Congressman from Cleveland, Ohio, gave recently while ignored completely by corporated american cult members, making him the first member of the United States Congress to openly repudiate President Bush's absent war rationale, and will be remembered in history forever.
Congressman Kucinich's,
A Prayer for America
Program note: (to be sung as an overture for America)
"My country 'tis of thee. Sweet land of liberty of thee I sing. From every mountain side, let freedom ring. Long may our land be bright. With freedom's holy light. Oh say does that star spangled banner yet wave. O'er the land of the free and the home of the brave?"
"America, America, God shed grace on thee. And crown thy good with brotherhood from sea to shining sea."

I offer these brief remarks today as a prayer for our country, with love of democracy, as a celebration of our country. With love for our country. With hope for our country. With a belief that the light of freedom cannot be extinguished as long as it is inside of us. With a belief that freedom rings resoundingly in a democracy each time we speak freely. With the understanding that freedom stirs the human heart and fear stills it. With the belief that a free people cannot walk in fear and faith at the same time.

I can't believe they may be prosecuted if they're caught. They are
preventing people from becoming more obese and getting heart attacks, high
cholesterol, high blood pressure and mad cow disease. They are true heroes,
not criminals.

306. John Hugentober CW Profeciency Award

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-12 19:03:13 UTC
From: Brian <k4bri@arrl.net>
Message-ID: <4002ef71$0$12225$a0465688@nnrp.fuse.net>
Source record: 59849

*** REMINDER ***
Once again, logs are due for entries in the John Hugentober CW Profeciency Award, sponsored by the Oh-Ky-In Amateur Radio Society. www.ohkyin.org

Purpose

To encourage amateur radio operators to keep proficient in the art of morse code communications. To keep with John's love, dedication and proficiency in morse code.

Dates
Any confirmed [QSL'd] CW QSO conducted between January 1st, 2003 and December 31st, 2003 is eligible. Award entries will be accepted until January 31st, 2004.

Modes
CW (A1A). The use of keyboards, software, and/or automatic CW encoders or decoders is not allowed.

Exchange

The only exchange necessary for this award is the written proof of CW contact. Please submit your log including the station callsign, the date and time of the contact, and the send and received RST report. Net checkins or one-way CW copying are not eligible.

Scoring
Each CW contact scores with a new station scores five (5) points. Successive contacts with the same station score one point each. Copies of QSL cards submitted with written code comments (i.e. 'Nice fist' or 'Easy to copy') will score an additional 10 points.

Submission
All entries for this award should be mailed to:

Oh-Ky-In Amateur Radio Society

C/O Brian DeYoung, K4BRI

11068 Pleasant Ridge Road

Alexandria, KY 41001-9716

E-Mail entries WILL be accepted - K4BRI@ARRL.NET

73 - Brian, K4BRI

Like Murderers who prevent people from suffering the effects of old age?
True Heroes all!

Yeah, sure!

Remember this guys....
These headsets are NO LICENSE part 15 devices. Read the laws on part 15. It says that the end user MUST ACCEPT any and all interferance to the part 15 device PERIOD. They have no guard band, no protection (no frequency co-ordination) against other users on 154.57 and 154.600. What Booger-King sees as malious, might be acceptable on MURS 4 and 5.
a few facts......
The local Police DO NOT have jurisdiction over ANY use of radio, this is a federal area.
The FCC has better things to do than hunt down Part 15 crap and the people involved.
A lot of the places that use the 457/467Mhz headsets ARE NOT LICENSED! (just as bad as the pranksters)
Spend a few bucks more and get them on 902-928MHZ or higher or spread spectrum if they are so concerned about interferance.
Go back to a hardwired system.
Meanwhile, lines like.....Please shut that piece of crap your driving off so I can hear you, CONGRADULATIONS!! your our 10,000 customer and your lunch today is ON THE HOUSE, and "I'm sorry...were closed by the health board for vermin infestation. We SHOULD be open tomorrow if we can catch all the little bastards tonight"..are all time winners. Be creative, have fun and let them play into it. Remember the staff at these places would LOVE to be able to say what your saying and laughing their asses off while your doing your thing. After your done wish them good night and thank them for the good time :) you will find a lot of the customers WILL play along with it..if given the chance. The ones that get uptight....FUCK THEM!.....life is WAY too short to get upset about a talking box.

Do we know for sure which frequency was being used?

Most Burger Kings do not use 154.570/154.600. The ones I have monitored use a customer input frequency of 154.540. This is a licensed business band frequency, NOT a no-license MURS frequency.

Other common fast food inputs are 154.515 and 151.895. These are also licensed business band frequencies.

Not true anymore! In many large cities, there are special
"Radio Inspector Divisions" with full authority.

I don't know all the pertinent details of this issue. But it's also possible that the "drive thru" system which was "hacked" (I hate using computer terms to describe radio actions) was on the older 154 Mhz frequency band. One of those drive thru frequencies, in common use in my area, is now part of the MURS allocation. Since MURS radios are legal to be used, the only possible infraction that the FCC could bring in this case, would be deliberate interference. And THAT depends on the licensing status of the fast food place. If they are not licensed, they get no protection from other users.

These are not random interference which would require the business to
tolerate them, they are intentional attacks upon the customers of the
business intended to do harm! Local Law enforcement can charge them with
"Malicious mischief" or other related infractions due to the intervention of
these transmissions with the operation of someone else's business. OR a
court issued restraining order prohibiting them from operating a radio
within range of any commercial operation for the purpose of disrupting the
normal operation of that business. It is done all the time with Loiters
and other disruptive acts!

When it is pertinent to the topic, and my sense of humor is in fine condition! There just isn't anything funny on this newsgroup except some of the people!

The Radio use was not the point, and the discussion depicting the crime as a prank was ill-conceived. The company was damaged and the customers disturbed. Do you defend such anti social acts?

PS: What the hell, you think I'd let you get away with that shallow innuendo? I'm 5'11", 185# in training to fight steel in armor! Young man of 65. ("it's only a game" but the swords are real.)

If I was standing on the street, and you walked up to me, are you not
permitted to make whatever comment you see fit? If you told me face to
face that you thought that I was too fat to eat a whopper, would that
be illegal? There is this thing called the 1st amendment..... So why
should it be any different through a radio?

> Local Law enforcement can charge them with
>"Malicious mischief" or other related infractions due to the intervention of
>these transmissions with the operation of someone else's business.

That depends. If the business was employing FCC part 15 radio gear,
then they can expect no protection from interference. People tried
running businesses on CB radio years ago, and those same people had to

deal with the traffic from other users, much of which could be
considered "disruptive"

> OR a
>court issued restraining order prohibiting them from operating a radio
>within range of any commercial operation for the purpose of disrupting the
>normal operation of that business. It is done all the time with Loiters
>and other disruptive acts!

Maybe. I guess it all depends on the level of malice and the effect
that the disruptions had. From what I've heard, the interference
consisted mostly of random insulting comments, and not necessarily
jamming of the system in a way that would prevent it from working.

Dave

There are limits to free speech, Dave. In this case, the answer would be no if the comments were slanderous, defamatory, racist, or done in a threatening or harassing manner. Making unwelcomed comments about a person's appearence (especially when transmitted over the public airways) could be considered harassment, and I doubt the First Amendment would protect such actions.

> That depends. If the business was
> employing FCC part 15 radio gear,
> then they can expect no protection
> from interference. (snip)

That addresses normal interference, not the intentional act of malicious interference. Malicious interference is a violation of FCC rules. And, in case you're wondering, the First Amendment would not protect a person here either - the person would not be charged for what was said, but for doing so in a manner (using equipment, etc) which violates FCC rules.

> Maybe. I guess it all depends on
> the level of malice and the effect

This brings another issue into question. Some states have laws to protect the normal operations of a business - to prevent malicious interference with that. It is also possible these laws, if available, might come into play here.

The recent legislation allowing local LEOs to prosecute illegal behavior ONLY applies to CB radio operators. At the request of the ARRL and other ham radio groups, it was specifically written to NOT apply to business band, hams, etc.

Therefore, this would not apply here.

Only true if Burger King was using a MURS frequency, which I doubt. All the
Burger Kings I have found (those which have not yet migrated to 900Mhz) are on
154.515 or 154.540Mhz.

Neither of these are MURS frequencies. Both are licensed business radio
service frequencies.

Radio, shortwave.. related topics, not too far OT. Not much
different than discussing AM pirate stations.
The only newsgroup that's got funnier participants than
rec.collecting.coins is this one. The conspiracy afficianados and their
antagonists are hilarious, way better than the current crop of TV shows.

>
> The Radio use was not the point, and the discussion depicting the
> crime as a prank was ill-conceived. The company was damaged and the
> customers disturbed.

I doubt the customers were any more disturbed than they are when,
back at work, they find they received the wrong order at the drive-
through, or when they have to wait 15 minutes during lunch hour because the
clerk at the window is arguing with the car in front about how many
Whoppers were supposed to have no pickles.
The business damaged? No, not damaged. Annoyed? Irritated? Sure,
but not damaged. The week after this happened, it'll all be forgotten,
except for the poor schmoe back at corporate hq who has to figure out which
frequencies are hack proof, and then prove it to the CEO.

> Do you defend such anti social acts?

Discussing it and defending it are too different approaches. I'd be
hacked if it happened to me, but to be honest, I'd just fix the problem
(change comm system, pretty easy and inexpensive to do) and then forget the
whole thing. It's a very small, temporary fly in a very big jar of
ointment.

Good for you. I'm 6'2", 195#, barely your junior, and recently
received deputy black belt. Old and dead are two different things, right?
(In a tight spot, I'm unlikely to have a sword handy, but I've almost

always got hands and feet nearby! <G>)

WMD threat exaggerated: report

http://www.theage.com.au/articles/2004/01/09/1073437472186.html

"In that process they changed something that is an opinion
into a fact, and they consistently did this," he said at
a briefing on the report.

From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers
celebrating joyously in contempt for God while singing,
right after the unreported dropping of thousands of
pounds of bombs on everyone in Afghanistan, body parts
everywhere, while knowing directly as individuals, every
single, there was no evidence offered that anyone there
was responsible for any crimes whatsoever, including the
Afghanistan women who worked for the newspaper, but for
to be victims of fanatic nazi american barbarity,
disguised as human, like bush almost gets away with as
pure evil deceived, now completely impossible to
believe. Oh, by the way, I am now taking new
memberships for al-Qaida.

As I say, there isn't a real man in the
American Marines, or the Army willing to protect America
with their lives, for if there were, rumsfeld and bush
would be rightly dead for the murders continuing against
those they know as innocent. As even with their
continuing threats against more innocent people as
American lives they brag to throw away as just soldiers,
as all these other nations they try to make ready to
sacrifice millions for, while propagandizing that our
Justice we need not believe in to grant us freedom from
oppression, nor evidence no longer a requirement to
convince us who is evil, and who is not lying. Nobody
deserves to be murdered, but a murderer escaping to
recommit. \ \

US Firms STEALING Money
http://thestar.com.my/news/story.asp?file=/2003/12/7/nation/6859213&sec=nation

/ / ``KBR is charging Iraq US$180,000 (RM684,000) for each school they
renovate. They then give the project to Iraqi sub-contractors and pay
them just US$20,000 (RM76,000) to do the job. \ \

Any being would not want to be deprived the rights to
living, by living to not deny the same rights of others.
(First commandment is a fundamental of understanding
space-time reality, as it pertains to the politics of an
actual sustainable World, indivisible, and eternal.)

To have US exercise denial of rights granted through the
protections of Freedom, asks naturally for reason to
being ones own commitment kept. To leaderlessly faith
in tyrant bush's faulty public judgement to committing
US to indiscriminate murders so he can rob Iraq of all
her riches going nowhere he silently contends as an
illiterate demon liar, exposes Your Mr. bush Jr. as
unfit to preside in Anyone's name. (Walla: Americans
did not elect the monster who openly with 9/11'd
slush-fund-america, finances the oppression of our
families in Uzbekistan, and Wahabbi Saudi Arabia,
unreported by our CNN and CBC as revealing.)

Iraq reconstruction's bottom-line
http://www.asiatimes.ru/atimes/Middle_East/EL25Ak05.html

/ / So there's money; it's just not going around. And here perhaps lies the solution to the mystery of how the world's superpower and the world's biggest corporations can't even begin to put Iraq together again after almost nine months: The reconstruction is less about reconstruction than about making the most money possible. \ \
snpd

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just

like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who

will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe

evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

The Two Troublemakers
http://www.rense.com/general46/guilt.htm

/ / Some of the students had Palestinian passports. When they asked what they were guilty of, the [bushite nazi savage] soldiers said, "You are guilty of being Palestinian." \ \

A ungodly bushite nazi teen soldier, as an enemy of America was quoted to say also to the falsely imprisoned:

/ / "Say that you love Bush and I will give you food," \ \

Not a love for Justice, or the Bill of Rights, but a love for the American cop killer traitor bush demon robbing their very own grandparents they demand by threat of your murder, for US all as Humanity to do likewise degenerating, sacrificing our World as cowardly slaves to benefit the ungodly bushmob 'cabal' of parasites, the enemies of everyone, including that as God's will.

‘Beyond human imagination'
http://www.globeandmail.com/servlet/story/RTGAM.20031104.warar1104_4/BNPrint/International/

/ / I told them I wanted a lawyer. They told me I had no
right to a lawyer, because I was not an American citizen. \ \

"International law? I'd better call my lawyer,"
http://www.payk.net/mailingLists/iran-news/html/current/msg05842.html

/ / "International law? I'd better call my lawyer," the
American President joked in response to a reporter's
question at the White House. \ \

Again, by denying the rest of US as Humanity Justice,
the bushites need advertise between commercial break
only, "Laden did it", no need to follow the ample
criminal 9/11 leads folks, because the crime they say
wasn't committed by true American values. Go on along
bush, cheney, and rumsfeld say, pay no attention to our
evidentiary findings such as, the American FBI's
documented contention, that bush's business partner,
General Ahmad, funded the 9/11 'mastermind' Atta, or the
CIA's, regarding bush LYING in America's name about
Niger (TREASON), or MSNBC's almost Biblical Revelation,
about the bushmob having a signed and sealed, 'top
secret' war plan to not follow the 9/11 evidence to
secure invasion of Afghanistan for Enron, at
Condoleeza's desk, two days prior to the terrorist act
taking place, of which when confronted, confessed as
fully implemented by the Whitehouse. A 'top secret'
plan to blame Laden on a crime they wouldn't actually
try to arrest for with evidence, a plan arranging that
would find bin in Afghanistan pleading innocence with
the help of bush's partner again, General Ahmad, a crime
of such magnitude, it would 'justify' a war mongers
criminal invasion to thwart Enron's impending CRIMINAL
bankruptcy, THIEVING FROM MOMS AND POPS, to then,
ATTEMPT, to close the surviving, armed with knowledge
for good reason Police investigations. All of this
setting a lowly nazi bushite war criminal, frothing
publicly at more than six billion + of US, to state
without opinion, that We, as Humanity, are no longer
afforded God's GIVEN Human Rights to defend ourselves,
nor is the criminal dictates of the demon antiChrist
accountable to any rules of law. Universal they
publicly quip, as the not-so 'secret' ungodly bushite
doctrine of tyranny as enslavement of all that is
Righteous and Holy in this World, because, hey, there is
no God to speak of... and the King of kings, Son of God
fellow, well.. that's all just ninepence fiction. No,
WE, as all the make believers of this World, will no
longer have ANY legal recourse to defend our own loved
family from being stolen from through a bush bitch
buford blount doing whatever criminally with dumfuk
loyal nazi teen bushites leading to sacrifice for, for

demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that

is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq
http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a

savior of the american way of life, and The People?,
they ate it again when in 1950, at the age of 70,
defying Truman, launched a win sumtin at all costs
attack against China, that quickly during the unreported
stupid needless slaughter of countless American teens,
forced Truman to concede defeat by begging for a
immediate truce with China while firing MacArthur, who
came home to giant demonstrations of love and affection
for sacrificing American lives forgotten to the
accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you
love, go out, go out and get killed, and we have had to
say it, and by God they have gone..."

Johnny Wizard "Let US just get bush instead friend."

For the love of life and countries, kill bush as traitor
to all our Humanity.

Your unbroken eternal Warrior,
as acting Servant and King,

the one and only,
as staring Johnny Wizard,
the true Son of Man

P.S. My reader, I taunt you again: forward these words
of love or hate as if they were of Your own concern.
America I think Will be interested in this public
outrage of the silent majority, an outrage that will
ecplise into an international scandal of such
proportions, it just might win US the newscast with the
facts on Justice ruling our way. (I am excepting all
reasonable job offers. Hint hint.)

--

A bushite nazi soldier's motto: Do NOT kill demon bush
for the love of God as true Patriots would, but war your
comrades in arms with toxic cluster bombs to secretly
kill yourselves with later on, including US as the
innocent, our children included, while STEALING, not
going nowhere public Iraqi institutions, including
desperately needing humanitarian aid shipments, starving
the poorest of the poor, all to please and glorify the
pension thieves of our Grandparents, and the heroin
pushers to our school kids.

--

> To my friends in Iraq, don't let corporate american
> media divide yourselves from community as equal

> participators. An Iraqi, is foremost, a member of our
> Humanity, and just like the rest of US, hate the God
> betraying anti-American demon antiChrist bush, more than
> anything else in the Universe for persecuting the
> innocent while killing coppers to steal our assets
> undefended without a leader to speak out everywhere for
> our living rights included.

Deadly suppositions
http://www.rationalreview.com/rlwrights/112603.shtml

/ / That's right. American troops are now being used to destroy private property of "suspected Iraqi guerrilla fighters." What happened to requiring proof before depriving someone of "life, liberty, or property" as stated in our own Constitution? Evidently that does not apply to people we attack so that we can bring them our way of life. \ \

--

GO F*CK YOURSELF, MR. PRESIDENT
http://www.antiwar.com/justin/j112603.html

/ / We must act, even if the threat is nonexistent - because of the potential danger. If "self-defense" consists of necessary "preemption," then what would happen if we started acting on this Bushian principle domestically? After all, killers, robbers, and rapists don't announce their intentions, politely putting us on notice before they strike. Why not just jail them before they have a chance to commit a crime? This principle, if applied within the U.S., would lead straight to totalitarian rule. Applied abroad, it means perpetual war. \ \

--

I Know When Bush Is Lying: His Lips Move
http://military.surfwax.com/files/Weapons_of_Mass_Destruction.html

/ / The Bush regime's panic is reflected in its adoption of Israeli revenge tactics, using F-16 aircraft to drop 500lb bombs on residential areas called "suspect zones".... ...Lianne Seymour, widow of the commando Ian Seymour, said: "They misled the guys going out there. You can't just do something wrong and hope you find a good reason for it later." \ \

War Propaganda
http://www.currentconcerns.ch/archive/2003/02/20030228.php

/ / In other words, the military actors and politicians are totally blinded by the "war on terrorism" dogma. Truth is falsehood and falsehood is truth. Realities are turned upside down. Acts of war are heralded as

"humanitarian interventions" geared towards upholding
democracy. Military occupation and the killing of
civilians are presented as "peace-keeping operations."
The repeal of democracy is portrayed by General Franks
as a means to providing "domestic security" and
upholding civil liberties. \ \

--

http://www.bushdraft.com/

/ / With the threat of 56% of troops not re-enlisting
Bush is going to need a draft unless he changes his
policies soon. I'm sure you agree, I'm sure you don't
want your friends, family and coworkers drafted either.
To fight for what? freedom? When George Bush passed
the Patriot Act and now the Patriot Act 2 he took away
many of the rights that we cherish so much. Why are we
"bringing freedom" to the Middle East when Bush has
shredded the constitution and taken away our freedoms at
home? It doesn't make any sense. \ \

--
http://www.globalblogs.com/binationaltimes/archives/00000116.html
"Yes, Bush lied"

/ / WASHINGTON - A year ago, on Oct. 1, one of the most
important documents in U.S. history was published and
couriered over to the White House. \ \

--

This is why I plead with armed Americans to kill the
unarrested bush for the love of children everywhere.
Look, we know directly who the bushites are who PUBLICLY
advocate the murder of innocent People through corporate
censorship, who support furthering the demon
antiChrist's senseless crimes against my America, and
our World. Example: You'd think Art Bell figures none
of his listeners could in no other way, learn of traitor
bush murdering thousands in New York City, and his
contemptuous silence on the issue forbidding anyone else
from publicly mentioning it. I have dominated
alt.fan.art-bell for years, while Art Bell, like
Canada's Peter Warren, will continuously advertise open
line calls, but abruptly end calls topicing on KNOWN
FACTS surrounding their evil false deity bush, 9/11,
Iraq, depleted plutonium, Halliburton, and the deaths of
our innocent lives fallen to their personal inaction
depicting our community as uninterested. Art Bell in
FACT has pre-screened his "open line" calls since bush
stole power, and does so, to make appear Americans

aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumfuk bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are indiscriminately bombing residential communities with radio-active toxic waste for nothing but to please their evil false deity, Our Mr bush Jr.. No rational reason but for a hatred to Your Humanity, and God if you believe.

Example: that evil nazi terrorist buford blount confesses to murdering thousands of innocent Iraqi People for nothing, no reason he proudly professes as wicked evil heinous traitor. Think of the lives You could save Patriot, by justly killing the unarrested buford blount, on hopes a person to take his place could at the very least consider being honorable in defending Your America? Demon buford blount is truly the enemy to American soldiers, for, if your family was murdered by buford blount irrationally commanding mindless bushite soldiers for nothing but to further rob the dying American tax payers, would you not too, spend your will hunting the evil nazi fuck down personally to spare further another innocent family suffering? To kill the unarrested unAmerican buforld blount is to stop him from ordering the practically dead already, nazi dumfuk treasonous bushite brethren teens, from victimizing again US as the innocent undefended.

While CNN still insists it's better for them to misinform and ignore, than to expose the demon bush as the true target for any Patriot's rage. American soldiers are being sacrificed to die for no known good reason, but for bad leadership as evil bushite war profiteers.

--
House Nixes Anti-Profiteering Penalties In Iraq Spending Bill

http://www.senate.gov/~feinstein/03Releases/warprof103103.htm

/ / "When the Senate Appropriations Committee considered
this supplemental request, Senators Leahy, Feinstein,
and I joined together to criminalize war profiteering --
price gouging and fraud -- with the same law that was
passed during World War II. Yet this amendment, was
stripped out of the final bill," said Durbin. "I fail
to understand how anyone can be opposed to prosecuting
those who want to defraud and overcharge the United
States government and the American taxpayers." \ \

--

--

/ / The Constitution cites "high crimes and misdemeanors" against the
state as grounds for impeachment. Could there be any higher crime
against the American people than to have knowingly deceived us in
order to stampede us into an act of barbarism that has betrayed our
finest ideals, our highest ethical standards, our national honor, and
our whole history? \ \

> http://www.jail4bush.org/
>
> The money for reconstruction is being misplaced as stolen, while
> corporate america demands bush not be held accountable.

Here's what a bushite's granmom's tax payment is going
towards, minus the 2.5 billion per month of 4 that is
secretly STOLEN by the bushmob as something Americans
are forbidden to know of through their corporate news
censorship stealing their very own demeaned values,
dying.

How U.S. will spend $20.3B in Iraq
By SCRIPPS HOWARD

ACK! This Scripps Howard piece is missing from our internet world!

Hmmm.. now looking...
this following is an archive of official corporate news sources, of
which few if none report specifically on how the demon bushmob is
spending/stealing grandma's moola..

http://www.stern.nyu.edu/globalmacro/cur_policy/middle_east_news.html

looking more...

U.S.'s 'Iron Hammer' Code Name 1st Used by Nazis
http://news.yahoo.com/news?tmpl=story2&cid=1896&u=/nm/20031118/us_nm/iraq_hammer_dc&printer=1

Not surprising, but not what Americans should be following after....

Anyway, the cash breakdown of the criminal thefts of Iraqi assets
is now, as the tyranny of the nazi bushites, becoming harder for US to
find, why so?

We have stories like these ones still though..

Senate digs into Iraq $87 billion
http://www.csmonitor.com/2003/0929/p01s01-usfp.htm

/ / 1. Four-week business course for 2,000 Iraqis, $20 million
($10,000 per pupil). \ \

--

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The
evil is in plain sight, the danger only increases with
denial."

Remember: Demon bush doesn't forget signing his soul to
the invade Afghanistan plan by not following the 911
evidence, but would top secretly attribute to Laden for
blame, authored by himself, rumsfeld, Condoleeza, and
General Ahmad two days prior to the public event of
murdering "thousands" in wealthy corporate America, a
secret plan that has been confessed publicly to US as
fully implemented by the White House right from the
start to Jim at MSNBC, months after the fact when the
demon antiChrist was caught with American blood in his
breath.

Not to follow the criminal leads surrounding evil bush
as mass murdering antiChrist, is what the White House
confesses to Americans today as official policy under

every circumstance. Karma. Demon bush tells corporate america that they'll persecute the innocent in any country by denying our fundamental human rights of Freedom and Justice, while now dropping 2000 pound bombs in God's World containing children, while corporate nazi bores, report in judgement of the great King who MAY have cuddled some cute boy! Jackson has given so much to America in stone, and in return, the corporate news nazi bushites sit condemning a great man whose open vulnerability gives him his wondrous strength and power as true American artistry. While these very same treasonous corporate bushite news anchors refuse to report on tommy franks running death squads against school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems

sometimes, as too, how terribly it truly is for life
whose love isn't appreciated by our will anymore as the
living in america, oh yeah, I mean America.

As an American then, what life will you forsake where
bush'll rob you over and over as the never living for
something better? These american bushite nazi fuks,
think your gonna wash their feet, and instead of
defending yourself and family, just turn the other cheek
right before the bushites drop a two thousand pound bomb
or two on your innocent neighbor next door? Done for
nothing but feeding the bushmob?, as unarrested buford
blount contends in God's presence? Then to think,
buford blount figures I as a real man will not seek him
out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help
yourself? The true danger to America increases with
American doubts on bush's blatant, true naked evilness,
or humoring God as Johnny, and betting on yourself for a
change by supporting me as the time being? Look, what
could you do for your freedom, when I demand the pursuit
of Justice by following evidence to truly protect this
World we share? Support my demand to raise the news
media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where
almost half of the monthly 4 billion dollar tax payer
bill is quietly disappearing while grandma loses her
cable television, or only grandson? Is that Leadership
I ask every American Soldier to be brave and forward
this letter on terrorism to your fellow comrads
secretly. Then, we'll see...

Johnny Wizard

Johnny Wizard is Mainstream!

The nazi fuck bush, the unelected American cop killer,
has still to be questioned by american corporate
dictates, why, General Ahmad, is not a wanted man by
American Patriot flag waving standards being coporatized
as not worthy thinking as. Our entire World can easily
witness, no American soldier has publicly stood up
verbally against my calls for bush and rumsfeld's
immediate arrest or execution for 9/11. Sure Blitzer,
and Bill Hemmer froth secretly in contempt for all the
American People, at the opportunity to sit secure well
blocking US interests at CNN headquarters, to watch in
glorious minute by minute coverage, scores of
unrepresented by corporate cult standard Humans, be
criminally murdered by their evil anti-American
propaganda by the will of now more than 2 billion people
the bushmob has declared as his personal enemy (60
countries), just like what Blitzer and Bill have done

unbiasedly regarding Afghanistan's heroin pushers, the deliberate bombing of the Taliban's girl schools, and the running of death squads by wimp ass coward and traitor to EVERY soldier the world over, tommy franks, largely as he has, against the understood by all to be innocent, unarmed and practically defenseless. With bush's america, showing no interest in preventing the further degradation of the living standards of US People in Afghanistan, (who were already at the brink of starvation), but for to steal the resources of an impoverished nation, and too, as they have, already indebted to the World Bank by purchasing millions of unused american minted terrorist handbooks from the eighties, while spending 4-5 billion dollars a month to continue killing US innocent people to steal even further American values, like "we" don't even exist anywhere. More wealth wasted than would be needed to feed and house the entire population, while forming a just police force accountable to a rule of conduct. But no, according to the election rigging repuglicans, (ES&S search "Dozens of Documented Reports") there is no money to steal if they don't murder, torture, and rob from our communities to destroy our belief in Humanity. Again, I will remind you reader, and NRA card caring member if your joining ME late, I have personally contacted Bill Hemmer, and Bliter's secret "War Room" in Atlanta, as well as contacting Walter Issacson (CEO of CNN), and Sid Beddington (super dumbass CNN producer) with the following facts, that they have refused to allow Americans to openly consider in bush's criminal american dictatorship. Our Mr. bush Jr. and rumsfeld, had a plan revealed by MSNBC to invade Afghanistan, on the premise of not following the criminal evidence for a undisclosed crime, while planning to blame bin Laden for it without producing any evidence, a crime that hadn't even yet taken place when the plans were officially drawn up and dated with General Ahmad, plans to specifically attack the Taliban for not siding with Enron we learned from Niaz, The Working Group, India, cheney and Ken. Also, the Taliban, had offered Laden for arrest during Clinton's tenure, but Clinton admitted, they could not actually find any evidence to stand the scrutiny of the public, nor justify the reasons for Laden's blind vilification through corporate controls. (It has been alleged it was Barbara Bodine HERSELF who sent the Cole into Yemen against the voiced concern of all involved military commanders, then insured the criminal investigations into her matters would be halted, as example.) So, clearly, a brand new crime would have to be devised secretly. (Note:

without 9/11, how would it look killing indiscriminately severely poor Afghan families not tied in anyway whatsoever to flying American planes into American buildings by a German, Mr. Atta, who was funded by the General, salaried by the 30 billion plus Tenant?) That's right. This same General Ahmad, from the ISI, not only put together the 9/11 cover up plan together with the bushmob in Washington according to several members of the Senate Intelligence Committee, but also was according to the fine FBI officers involved in the criminal investigation, the prime terrorist funder, to our Mr. Atta. (globalresearch.ca) Also, if this doesn't already clearly paint a clear picture of betrayal by CNN ignoring the American People, consider this also: The bushmob insisted this same General be the war criminal to go to the Taliban personally, to tell US, no evidence would be offered against Laden, nor public trial offered, against what would be to all Americans who actually believe in the Constitution, and the Bill of Rights, (or the Taliban leadership who really believe in God while mistaking like everybody else does), not guilty of the accusation based only as blind speculation. The very same General who devised the plot we're telling you, as documented, and confessed to MSNBC by the White House ALREADY. What an "embarrassment" the ISI blushed! So, what did bush, america's false deity then state as traitor to ALL humans while closing investigations? "We don't need any evidence, we know he's guilty.", right on que. Mr. bush, the demon plays that cheat against Humanity over and over again now, like he figures someday it'll really work for me, (never mind G), cause he figures no truth exists actually in his dark evil world of betrayal against himself as US all included. His wicked dumb evil, that costs the lives and hardships of REAL Americans, only succeeds, because corporate dictates demand no discussions on anything politically factual. (At least not for longer than two or three minutes, with nobody respected as invited for being knowledgeable, or knowing basic high school maths either.) It's the term "we", bush and rumsfeld uses routinely, without substantiated fact to honestly hold our conclusion, as their criminal justification to willingly murder US people as unheard of. He figures as the anti-Christ, because he stole the title of President, he therefor inherited all knowing wisdom like dark magic by openly fooling himself, as all of humanity witnesses repeatedly his falsehoods on our truer Nature. Not as a Jesus the Creator might, to play the crazy, laugh at strangeness, or sing almost lyrically to life for the joy of it, but

as a talentless demon monster to rob and murder from ourselves as the established innocent factually, and left unprotected because the Living eternal Universe can be feared for nothing I suppose. If bush is not following the criminal leads, nor the relevant public information easily available for all to peruse, how can he disagree with everyone without public answers to disprove our existence? "Secretly", he and rotten rumsfeld continue to state to the six billion plus of US, even so though, it doesn't therefor make the recorded History, or the actual evidence of reality go away somewheres else, such as some of the great work the FBI, or the CIA has done being directly involved, again doesn't just vanish as not presidentially viable.(The highest office in America, should be citizen.) Or, make WMD just appear out of nowhere either, if Iraq don't actually have any. You'd figure, as Mike said better at whatreallyhappened.com, but I can't recall specifically, if bush has secret evidence to substantiate his allegations against the Iraqi people, and thinks his knowledge, being better than all US rest put together, shows a threat to the American People, wouldn't he therefor make it known to all, to protect ourselves truly as concerned? Like Johnny would? Instead of, as he is, using the bluff to excuse the potential MURDER of untold thousands if not millions to also steal from for himself, like the election, and that 50 billion? Remember: bush killed New Yorkers to steal American lives, and publicly showed Our world no interest in arresting himself, the true evil doer for the 9/11 money maker. No purpose in life, but to make others suffer and die, is the bushmob mantra. (Even if weapons do show up, staged, or otherwise, it is still no reason to kill Iraqis to steal their resources, to leave US people there, under a criminal dictatorship for a planned thirty years of massive American casualties after American casualties, so the bushmob can steal even more from our grand parents left unprotected without police protection here at home left alone.) Particularly, if the public evidence we conclude as documented FACT stands directly in opposition to bush's dark secret fantasy of Universal criminal tyranny he spews daily as lies against GOD in Our public air space. A planned criminal tyranny of evilness, that has been released to US publicly through one real American after another, ignored overtime by the CNN celebs, yet, still happening as Our high priority issues. I'm beginning to have a difficult time keeping up with the truth that leaks from the bushmobbed syndicate like a sieve practically everyday too. Have you heard of,

"RebuildingAmericasDefenses.pdf" on CNN? Or, how about "11-14-02_Chin-4.pdf"? (Don't miss that one.) I haven't, but can't really stand watching them pretending we can't see anything at all either. So, these terror plans.. When the nazi bushmob was caught without them, (as they were top secret presidential documents entrusted to the witch condoleeza), could do nothing but confess they were fully implemented. Why? Because they walk through the entire scenario that bush puppeted the months before to armed Soldiers. (God wins every time.) Mr. bush and General Ahmad's plan, is to continue to wage an unending war against humanity, (60 nations) as the "way" of escaping public Wrath, Your Wrath American Soldier, for something, that, again, for 9/11, hadn't yet happened, but bush and rumsfeld prepared for to close investigations on. Mr. rumsfeld was reported (emperors-clothes.com) to have been told by his own Secretary, in case he had forgotten his top job responsibility while sitting behind his desk fidgeting, he was, as rotten rumsfeld, required to be at NMCC immediately. He didn't go after then either. The only possible place the terrorist plan could have been carried through to stand down the Air-Force. (Let those under him take the bullet if push comes to shove. American traitor rotten rumsfeld thinks of everything too eh?) His public excuse I'm sure it would be, he was concerned about the death of US People while sitting there doing nothing. The same rotten rumsfeld, who tells US openly in Our public arena while almost cackling, he wishes to murder and torture completely innocent people that Americans should be forbidden to learn of in a open as the Public court room of Our peers through America's once respected, if sadly, mostly mythologized fair Justice system, now headed by ashcroft, a total incompetent, who wishes not to apprehend terrorists by tracking the criminals, but to destroy what little freedom is left for America by advocating, in public, the persecution of US innocent persons instead. Really. Again, listen up Ashcroft, last time: bush and rumsfeld's plan, that the White House confessed to as fully implemented, demands by excuse after excuse, that the actual evidence trail not be followed, and that legitimate FBI, and CIA officers (Rowley, and the insider trades for example.) are to be continually ignored. Just as CNN has done staying unbiased. Allowing bush and rotten rumsfeld to kill innocent People deliberately, stealing America's Freedom through injustice to themselves. First degree murders. See, the nazi bush slaves go on and on how great it it to be murdering innocent populations far away as

terrorists to steal and plunder, but, for who would be there as themselves close up and personal (gods WE are) to question their own demise by someone who thought without thinking likewise? (God is Not.) This is why I ask an American Soldier somewhere to stand as One single person for America, a Family Man, and take out the re-offending mass murderer, unelected dictator, Our Mr. bush Jr., by thinking like a Soldier is really Universal. And, if his successor, should do the same secretly, publicly advocating wars, death squads, or torture against Ourselves as the innocent to steal from, WE do the same again, until, CNN finally opens up communications to the American People as warranted to be wise.

Sure, only Jews in Kenya, like with Odigo, seemed to be warned to stay clear from an impending terrorist act, and sharon played a personal role as documented several months ago to attempt the blowing up the Mexican Congress and blame it on the Unionists, or bin Laden, oh ya and also, I shouldn't forget, apparently, the rocket launcher was painted blue lying in a field untouched when the mossad in Kenya pointed it out to reporters they brought to witness the whole story by-line, but that doesn't therefor, make the likud party, or especially ariel sharon Jewish. For ariel knows when he steals or kills others as innocent being himself openly a terrorist, is ariel knowing, real Jews would be murdered too, by someone like himself, albeit, in secret avoiding the trying but divided coppers, that he murders also. But, hey, that's where he gets all the repuglican money he doesn't earn but steals over the lives of Jews he watches fall dead as unfigured. Mr. sharon, will tell us how disgruntled he is to see only Jews die by terrorism, then goes out as a PUBLIC FIGURE, and commits the same, but far more hanious acts against G as a pirating criminal National icon. So, sharon, what is it that so upsets you to see US Jews die then you nazi parasite, you cancer tumor, you disingenuous harbinger of suffering to God as Humanity? It is only his private show without questions for comment, as he can not answer publicly without being dishonest about his criminality. Murder is murder, and sharon, the bigoted-racist murderer, the terrorist supporter and perpetrator, has stolen the rights of the Children of Israel to live in peace by good will, and Justice for everyone counted. Jews are Palestinian. See, being Jewish is a religion, and the ancient Palestine, is of a label for comprising every understanding to this, that can not be completely understood symbolicly as contained to be definitive.

Also, like America is truly melting, and murder accomplice negroponte, can not face for personal weakness, ineptness, and hatred for all of Humanity, so advocates huge oppression against all America as real People corrupted by a government of injustice, and contempt for themselves unheard from. (Jesus, just try to get together two people who agree on everything. Justice however, should be a no-brainer for everyone, but CNN say's nothing in Our defense as equals, and would, as they do, watch You be robbed and murdered, and not raise a word.) Also, just for double, the oldest practicing Jews we know of through recorded history, (the almost censored "Dead Sea Scrolls" included), are dark skinned, and live in Ethiopia, and the likud party, like so many other "settlers", are mostly filtered christian Kaisers, who migrated from Russia on the promise they would receive stolen property, (sure, I'm jewish!) (search "ILA" and the "JNF") like farms, houses, and Our children's toys. (FrontLine's one time broadcast) See, If sharon didn't steal and murder, repuglicans would have no excuse to receive kick backs to plunder even further, from the great stupid American People. Which is why a bush supporter is so deeply ignorant on just about everything like Speilberg is regarding the Holocaust, and like too many american soldiers, who we can be sure, would die in sacrifice from cowardice before bravery as evil under the anti-Christ, dictating war crimes against US all as Humanity unrepresented. Until Now. For, Christians have no protection from anti-discrimination laws in Israel, nor do Atheists either apparently. How spooky dumb is that? Legitimizing hitler they are politically. Jews are this, jews are that, and all of everyone else, is something unquantifiable, unknowable, and all around unloved and disrespected everywhere as G-D is forgiveness to be abused on Christmas, according to the deliberate practices of sharon singularly, as a bigoted nazi murderer, and the written words of the banned in Canada talmud also.) No bullshit. Clearly to all, very anti-American. Biggest secret going! Why? Americans are largely illiterate, drugged, and all around dumb. Now, where is CNN, or Our beloved "wealthy" celebs, who advocate blind obedience as slaves to the anti-Christ, to discourse me a liar truly as Jesus? Nowhere? You are still waiting People, while American families continue to be robbed and left for dead by inaction through corporate american standards. For, what can only one God do I ask yourself really?

If a thing is done wrong often enough, it becomes right.
-Richard A. Leahy

Johnny Wizard

--

Holy Jesus Man!

Have you heard the Revelations from India's government to the FBI now made public?, regarding the principle terrorist funder of Mohammad Atta being, the ISI's, General Ahmad? The bush administration's personal confidant, and top secret military strategist? See, it was Jim at MSNBC that informed US of bush's terrorist plan existing as once top secret presidential documents, and, that this same general, was also responsible for, according to several members of the Senate Intelligence Committee, developing the said war strategy of invading Afghanistan on behalf of the evil bushmob, with the very anti-human premise, of blaming bin Laden for a crime without any evidence to substantiate our public accusation, to murder more than a hundred thousand, plus! A crime, 9/11, I will remind you, that for when the evil plan was devised, hadn't even yet taken place. But was threatened would happen, if the Taliban didn't side for Enron's interests in serving for Ken Lay, one of bush's many bum buddies. (They apparently do that sort of thing on a regular basis, with all the members in their secret meetings of the 'only Boners' fraternity.) It doesn't take much either to understand why rotten rumsfeld, corporate america's sweetheart, (you know, the sadistic nazi war criminal who gets off on murdering or torturing innocent people), told US he wanted to have arrested those at the WhiteHouse and the Pentagon, or even in the Military, who would dare as Americans, to inform Americans what he and bush were truly doing in their names.

Destroy the unelected unarrested heroin pushing American cop killer war criminal, the demon we all know so well as corporate america's false deity, the super evil doer anti-Christ, Our Mr. bush Jr. Now Patriot Soldier, and be loved by all as Savior. Or not, and be a thoughtless degenerate, a cowardly regressing nazi bush slave, who would sacrifice your own family as yourself truly, because JESUS CHRIST, life is living to survive for Justice, as God is warranted to be as ourselves, with equal rights to being as is of US all included. Mr. ashcroft tells Americans he is purposefully destroying their freedoms as legal due process because he, as an idiot, and a traitor, has to fight ourselves as a terrorist blindly in Our names without American Justice,

but never explains his action, is asked to, nor could he. As ashcroft, like most in the bushmob are, is founded completely unqualified. Why doesn't ashcroft move to have bush and rumsfeld arrested or executed immediately by following the criminal leads for 9/11 on behalf of Americans as an American?, what with all the ample evidence documented as factual and everything? Instead, decides too, like the demon bush demands in attempt to sway his capture, that evidence will no longer be mandatory for him to decide who should be stolen from, as the left dead to be robbed as forgotten by Justice denied to all as Godly. American soldiers are truly as represented, weak, slow, and painfully pathetic cowards, refusing to protect their own families as a national defense measure, instead, as nazi dumfuk bush slaves, willingly support the murder of would be themselves as criminals, truly against US all as the innocent.

Mr. bush was quoted once again defending his irrationality as criminal murder rampages against the innocent as ourselves like he did in New York City with rumsfeld, by stating,

"Maybe somebody needs to explain to me why they say something, but I don't feel like I owe anybody an explanation."

The evil anti-Christ figures he'll just continue to rob and murder American Patriots while destroying freedom as Justice for US all, and simply escape Your wrath by corporate america making no fuss to speak in Our defense as the still living to be underestimated as equals.

Destroy Our Mr. bush Jr. now, and be loved by all as God would!

From: British News
July 17, 2002
Britain backs US plan for attack on Iraq
By Philip Webster, Political Editor

(Quoting the terrorist supporter blair, Philip was),

``To be TRUTHFUL about it, there was no way we could have got the public consent to have suddenly launched a campaign on Afghanistan but for what happened on September 11.'' ...

Oh, so there was a criminal intent known also by yourself then blair to prop up heroin pushers to save Enron's impending criminal bankruptcy?

We have repeatedly witnessed, CNN and CBC refusing to represent our Democracies, our FBI officers, like airing Coleen Rowley, General Ahmad, or the sabotaging of the Moussouie investigation by ashcroft, or the CIA, regarding the insider stock trades, or dealing heroin. The innocence of the Taliban for 9/11, and the barbarity of the Northern Alliance as heroin pusher slave owners. No, every single american according to CNN being unbiased, does not want bush the anit-Christ arrested immediately for killing Americans in New York City to steal our worths and freedoms as worthy of defence matters by their own measure as corporate cultists. As I told you, Bill Hemmer and several other celebs at CNN, now are fully aware of bush and rumsfeld being the true purpetrators of 9/11, yet, Bill continues to play evil against US all, figuring nobody ever will know without CNN coverage on his contempt for American Patriots he asks to have sacrificed for as bushwhores like himself and Blitzer. CNN refuses to protect Americans as equals commited to Justice for US all.

It was just reported by Chris Marden on the 27 November 2002, that bush's top whore richard pearl, has advised Britsh MPs, that bush secretly as the anti-Christ has no intention of allowing the Iraqi inspection process to succeed, and instead, is commited to murder ourselves either way.

Again, bush and blair, like CNN, have no evidence to substantiate their allegations against Saddam, and have stated because they have no evidence, they therefor as demons, can murder anyone on the face of this planet to steal our lives in OUR names as US innocent. Mr. blair and the bushmob have recently stated, that they have no evidence that Saddam has any WMDs, nor, is any threat to OUR WORLD community, and because of that, if the inspectors find no weapons, and Saddam insists it is because he doesn't have any, this, accordingly, would give these criminal master minds a cause to murder hundreds of thousands of innocent people, if not millions, and steal all the assets of the Iraqi people, while destabilizing our entire endangered species. They are mass murderers, threatening humanity to recommit more murder as TERRORISTS! Never while I stand ALIVE evil nazi dumb fucks. KILL BUSH NOW! Hey, have you heard about rotten rumsfeld's P2OG? "O", as in Oh rumsfeld is truly an evil fuck! Apparently, rumsfeld wants to provoke terrorist activity to murder ourselves as innocent cilivilians, as an opportunity to invade any country he wants to rob and plunder further. Also, most importantly, according to the official documents, rotten rumsfeld figures it would be important when he and his

mobsters commit these crimes, it be understood, that nobody be able to trace it to himself, or his partners in crime, so they figure, the criminal acts should be carried out through his department at the pentagon, then, get this, he won't therefor be accountable, or scrutinized by the American people through corporate news channels. The offical pentagon report details this.

snpd

All Wrapped Up
CBC as managed has deliberately with intent, worked to misinform and propagandize our community on what is as, documented provable fact, regarding Mr. bush's complicity to the murder of US as the innocent in New York City. CBC has refused to live up to our responsibility to protect our democracy, and in silence, has pirated our names to murder those understood to be innocent of the accused offence. CBC has refused to allow ourselves as the public to understand, Mr. bush forbade the FBI from pursuing bin Laden investigations, just prior to 9/11 with secret Presidential directive W199I (199I WF213589), which had John O'Neil, the anti-terrorism head for the FBI publicly protest by resigning over. This W199I directive was put into place after the administration had been warned by the BND, and several other legitimate intelligence agencies, of an impending terrorist plot involving the high-jacking of American airplanes to be used as weapons and flown into land marks. In addition to these unreported top priority political issues that stand to be true as documented factually, the bush administration had also secretly put together a sinister war strategy, that was revealed to ourselves as the public, by Canada's own Jim Miklaszewski at MSNBC, to have existed without any doubt as Presidential Directive documents, two days prior to 9/11 at the WhiteHouse. A planned strategy to invade specifically Afghanistan, by blaming bin Laden for a crime, but providing no evidence to back up the allegations. That's right. The super evil criminal bush dictatorship had a plan in place to not follow the actual evidence to arrest the true culprits for a crime that hadn't even yet taken place, but that they were prepared for to close investigations on, as an opportunity to invade specifically Afghanistan, propping up the Northern Alliance who still practice the barbarity of sharia law, with the bush bonuses of selling heroin to our world, and most importantly, building a liquefied natural gas pipe line for bush and his Enron friends, to rob even more further from us all.

Legitimate FBI officers unrepresented by Mueller claim General Amad was the principle terrorist funder of Muhammad Atta, responsible for a wire transfer of $100,000, who, incidentally was in unusual meetings, the General was, with the bush administration a week prior to 9/11, who also not only participated in meetings with several top officials in the Senate Intelligence Committee, but also, was reported to participate in building the war strategy of invading Afghanistan, as the reported desperate excuse offered for the General being there just prior to 9/11, and also, was personally responsible for negotiating the non-surrender of bin Laden, of which the ISI claimed, the General advised the Taliban not to do so because, no evidence would be offered, nor public trial for an offence bin claimed he played no part of.
We are all in agreement, in truth we rise, evil is just the deceived disguised. Boo!
The case is wrapped up, and bush and rumsfeld need to be immediately arrested for 9/11, for murdering countless thousands for stolen gain, at the losses to our humanity, that show through every putrid utterance of scum bucket bush, as contempt for our living as humanity through Law. Where a person accused of a criminal offence without any evidence is clearly innocent. For why I ask you reader, would any unjustified leader of US people blame someone for a crime who wasn't linked to the offense, while working to close investigations, and not follow through with the ample clues to capture the true evil doers? Just how cowardly stupid can soldier families be taken without conviction as themselves worth fighting for?
Justice for all, and glory be to godly.
Johnny Wizard

Freedom is only garnered through Justice for all equally
Nobody deserves to be murdered, but a murderer escaping to recommit
"Patriotism is the last refuge of a scoundrel" wrote Samuel Johnson, and he wasn't just mixing words. Patriotism is not about mindlessly as cult slaves obeying bush the unellected nazi fascist criminal dictator, it is about protecting freedom for all as democracy demands by law. Ours. Mr. bush has said that if we, as Nations, don't agree with himself as world dictator, removing the guiding principles of constitutional Justice as freedom for all instills, while actively destroying America and murdering innocent

people for no crimes who struggle now only to survive from his criminal tirades, advocating torture while declaring wars against anyone poor and unrepresented, with a complete disrespect for all human life, and our courts of Law, has clearly stuck himself to be our enemy everywhere, as being evil personified, which inextricably demands his immediate incarceration for the crimes he is committing against ourselves as a true terrorist without question, no? The bushmob desecrate the ideals of freedom, Justice and democracy garnered by truth as our own being to be individuals, and is exalted by CNN claiming to be representing ourselves while watching us be robbed and murdered as stolen from openly. Mr. Turner, you have terribly disappointed our world in this great time of need for ourselves as humanity.

Again, all relevant evidence, circumstantial and otherwise, regarding the WTC terrorist act, points to the bushmob, and rumsfeld especially.

"Any argument about any aspect of the conduct of the war against terrorism," as Globe and Mail columnist John Ibbitson puts it, "must begin with those airplanes smashing into the World Trade Center and the Pentagon. And then it must stay there and never move from that spot."

Flight 11, all ticket sales are accounted. How did terrorists board without purchasing tickets? No, the airline industry did not take the names off the lists on Sept. 11, as too on the 12th they confirmed so with a small correction, but if they had, how then would, or could, the desperate doubter explain strange flight 77 from the same company, which does leave room for terrorists to be on board with the given total. Oh... I think I know. Two flights had duped terrorists hired by the bush wrecked state department, explaining the State Department connected money transfer discovered by the good FBI to the head terrorist, Germany's Mr. Atta, unreported by the Commi Nazi Network of course, showing a belief on Atta's part, that he would not die with the top secret arrangement he had made with the bushmob privately, explaining why the bushmob had his passport in their possession secretly, and why Atta couldn't have checked in with baggage. (Ya right, he's gonna pack a jet fuel consumption calculator and a video titled, "How to fly a jumbo jet airliner in twenty minutes for dummies" left behind of all places in baggage, explaining the secret bushmob audio tape still to be never released where Atta is heard mumbling, "Jeeze, where's my lucky shirt?" and, "Does anybody here know who's flying this thing?") The $100,000 didn't go far,

and Atta clearly wasn't a devote Muslim, as in the bar he drank vodkas and flashed a huge wad of hundreds and fifties to the manager, and everyone else in yelling distance, bragging how much the bushmob had paid him stupidly to do so, for a flight he couldn't possibly have boarded as a viable pilot or passenger. Also, why need carry his passport loosely as needing to remain unnoticed, if he didn't buy a ticket, nor planned to travel anywheres, if he somehow magically just appeared on the plane in mid-flight after an all night bender with hookers? Also, none of the four flights easily indicated that they had been highjacked, while the transponders were all turned off by code from inside the locked cockpits, at roughly the same time as if by automation, with flights not changing their flight course for as long as fifteen minutes, like no passenger ticketed terrorists aboard flight 11, ("Hey Atta! check out the view!", or "You left the manual where?", or "Gee, thank God you have the final draft, suicide letter still with you for when we burst into a fireball."), as too, the 200 mile precisely aligned trajectories, without HUD, do attest something not quite normal, according to experts in the Air Force with thousands of hours flight experience and some chaos theorized war gameroom background, and elsewhere, who know of bowling a perfect game while blindfolded, using a checker.
Flight 77. The planted terrorists failed to highjack due to the fact, the plane was returned to control of the real pilot who managed to use communications after a fifteen minute fight for something. Conversations that the bushmob confiscated. For after 77 changed course in the dramatic after some struggle for the controls, it then returned to it's original flight path, and okayed, but, not for long, for now they knew inside information. "No, I wanna fly this plane according to procedure while you guys fight a fair three round fight." or "You say planes have actually flown into the WTC towers?" or "Let's just pretend we're the real pilots, and maybe no one will notice?" But shut off transponder only then? was it on again, or had it never been off before? If the terrorists were subdued, or gave up by showing their red bomb boxes only contained confetti, how do they so quickly take the pilots place, (who had just been last near for calls after returning to normal), to push the codes? This is why the bushmob took the tape. CNN tells us rumsfeld says the FAA didn't contact NORAD until 9:25, while at the same time, CNN also tells us controllers who handled 77, knew it had been highjacked at 8:46.
Also, explaining the now no longer strangeness of why

bush desperately ran to confiscate those airline videotapes of the passengers boarding flight, not thinking to know we now know who they all were. (Maybe things didn't go exactly according to his evil nazi plan?) Truly brave American soldiers would arrest bush and rumsfeld by the end of a loaded ready to fire rifle, and any other who stand to stop us from viewing our evidence available. Why, that's called obstructing Johnny Wizard. Also, consider this, the thought to necessitate the order of the terrorists to force passengers to use cell phones as secretly planned, two flights, (Time magazine Sept. 24 - Flight 93 "We've been highjacked. They're being nice.") but make no declarations on behalf of themselves leaving no point for departure? With a communication plan not controlled from the air perchance? Ah, but not on flight 11 or 175 where terrorists weren't present, as again, every passenger accounted, but no calls? Only one not talked about, because it doesn't fit with the bushmob lies. Flight attendant Sweeny was reported as the only one I am aware of to make a cell phone call over the entire hour on flight 11, or 175, to the ATC at Boston, giving seat numbers to highjackers that were not on board as registered ticket holders, (so how did she?) nor even sitting where Meuller lies, who in so doing, disputes she made the call to know factually. Makes no sense to me also, and CNN, we can be sure, will do nothing for the Americans who lost their lives over the senseless ignorance of their corporate cult status, that perpetrates this form of dim-wittedness without helping you by interviewing anybody involved in the investigations, to rather let the bushmob continue dictating unchallenged to murder more of us, for staying unawares of our silent screaming.
hmm... Any unboarded tickets? Apparently so, for it was reported all purchased tickets were used but one. Another koinkydink regarding the hooting and hollaring, drinking and carousing in the strip bar the night before of the bushmob barkers, is that nobody would PURPOSEFULLY give their lives in a collective criminal operation for CASH payments through the State Department as to go gone dead broke next day, against living life's costly riches freely would they? Did Atta from Germany even attempt to give the 100k to his wife and children for safe keeping? Bingo. Also it has recently been revealed by India's officials, and Pakistan's Foreign Secretary, Niaz Naik, that the bushmob had contacted their governments in AUGUST as himself typically idiotic, as privately to public representatives in a unreported meeting in Berlin to state, he, as the

anti-Christ, would slaughter the innocent people of Afghanistan's government, who had ended the heroin trade and were protecting the country while progressing towards equal rights for women,(We will sue CNN for every dollar Turner has.) making illegal, slaves and murder, by forming national laws that five years previous didn't exist, also making it safe to travel, and started opening schools for girls while being starved for doing so good for everyone. Why would bush the demon attempt to do so? To shore up corporate banker support for Enron, who had placed a 3 billion dollar investment in Dhabol Power Company, and needed liquefied natural gas in a big hurry, what with Qatar drying up, and the tripling in price of naphtha. Stuck no longer able to garner partnership with the present pipe deal contract offer for Afghanistan agreed to as well by tribal leaders who Tommy murdered, as too, India's insistence in not being ripped off any longer, by a company the entire nation learned easily to hate over the past decade, and the laundered employee pension money unretractable in the Cayman Islands proved to be of little use apparently, and of course most importantly, also the secretly known to fellow shyster cheney, impending criminal bankruptcy, and we must also not forget bush had excepted 2 million dollars in bribes from Ken Lay, who had his own late night office suite at the White House for their private encounters, so it has been kinda reported, but difficult to believe bush manages to whore so much, but understandable, what with the way he walks so funny. See, the Taliban had excepted a deal from Bridas, a pipeline offer to help rebuild the nation, while the bushmob just threatened to murder all their families for Enron's conspiracy tied to the repuglican nazi regime. Enron could never obtain investors desperately needed, to attempt with capital, to hide their crimes against all the American people, without a binding contract, investors such as from the multi-billionaires in the post WWII charity organization, World Bank, of which as unocal, being typical repuglican, only offered bribes to officials from Afghanistan to hurt their nation they, as the Taliban, truly believed in working for. As a another example where these nazi vermin relate their uselessness against us all from, Mr. phil gramm lobbied for slave labour at 10 cents an hour for America, while sneaking in a bill for California to have their electricity price quadrupled, for his relatively paultry personal check of one hundred thousand, while California citizens payed billions and billions as stolen from without police protection, as companies fell going bankrupt due to

gramm's assault, leaving many out of work to get swindled even further by repuglican corruptions that run rampant through the entire state in other places, without me there to bask on the beaches to give an occasional cameo appearance, while flexing my muscles to the tune of some free beer, a place to crash, and maybe pretzels, hint hint. Achem. On the morning of the fast paced Sept 11th, bush was aware of something special in NYC that he would comment on as asked SPECIFICALLY he stated while leaving his hotel room, on his way unswavered directly to hear about goats from school children by nine, as it was reported his comment to be so nationally, on ABC News with Peter Jennings reporting on the terrorist highjackings. While we now know according to the FAA's official report, that at 8:20, officials were made aware of the unprecedented emergency while channelling through authorities, (the bushmob as rotten rumsfeld through CNN speaks nothing about it saying, all the FAA employees are lying, and don't keep watch professionally) and according to the criminal indictment against the bushmob filed by Ilarion Bykov and Jared Israel available at www.emperors-clothes.com, the Secret Service are kept more informed than anyone concerned with bush's safety, so, you'd figure, would have made bush aware of all four flights, since he was already familiar with one important thing going on in NYC, that he would talk to the media about directly later as massed for it, right? (Perhaps someone should ask Andy?) Bush was also reported to receive a call in his motorcade about the horrific event, with him also confirming to witness the tragedy of flailing bodies from the epicenter of disaster, you know, the WTC towers, commercial airlines thing?, school television sets we presume existed that he left only a moment to thought, as he then quickly entered smiling nonchalantly, a different world stage, the class room unshaken, without thought to think he may have been confused earlier to then attempt seeking clarity, no, he sat for 25 minutes unalarmed, chit chatting like nothing was happening, just as we rehearse, and as disturbingly deceived evil as ever to be believed, as anti-Christ he is it would seem to be. He later after tinking tried as dumb as he is, to deflect his gruesome macabre conduct, by suggesting he had learned only of the doom just prior to entering the classroom, where he immediately without thought, quickly attributed the disasters to pilot error while making a funny, while completely dismissing his concern as not even present for the loss of innocent American lives, bankers even, (then, before, and now he'd even tell you unblinking, "What?"), just like the

tens of thousands as children in Afghanistan, and the terrorist crimes he advocates in Palestine, as he then pressed on to more urgent matters regarding his press op cover up. Did you see his media reaction in front of the classroom, when he heard the news for the forth time officially that morning, as again, he even admitted to actually visually witnessing some of the devastation before that moment, and that only then, had it become a serious matter to change, or not change his demeanor? Stuck he was then, with no mind to ruse, er.. time to snooze, Arg! What was the cue? Errrch... If he moves with priority interest as concerned openly honest public figure, as he knows a legitimate President would have been to first learn of such carnage,
THE MONTH BEFORE IN AUGUST,
why not previous before he left his Hotel room with a television? Outside the Hotel? In the motorcade? With school staff as you'd figure would have been present too laughing, no? Instead he stayed as he had been to give no orders publicly, nor attempt to make public inqiries, but to listen with such unbelievable absolute devotion, equating a beautiful child's story, as if it were Jesus from the heavens himself, speaking directly on the living Nature of our Universe... Okay, maybe we won't be able to convict him on that, but, if that isn't worth enough salt to be considered newsworthy, how about when bush said he didn't hear of the towers until he was at the school building, nixing the recorded comment reported on by John Cochrane of ABC News with Peter Jennings, that bush made a noise saying that he was importantly aware of something in NYC to speak directly on later? Or how about at the memorial, when he publicly stated it would take two whole hours to read the names of those he would without thinking, murder as innocent for Enron he told India and Pakistan in August similarly, so he would just read the titles of companies to say Grace, then would press on to more urgent matters.
"Crime is terribly revealing. Try and vary your methods as you will, your tastes, your habits, your attitude of mind, and your soul is revealed by your actions."
- Agatha Christie

March 11, 2002
Too many loose ends...
By Barrie Zwicker
... Yet at 6:30 the evening of September 11th NBC Nightly News, along with many outlets, reported: "It was after the attack on the Pentagon that the Air Force then decided to scramble F-16s out of the DC National

Guard Andrews Air Force Base to fly ... a protective
cover over Washington, D.C." ...

Joint Chiefs of Staff, General Richard Myers testified
to the Senate Armed Service Committee of Sept. 13th,
that no fighter planes had been launched until after the
Pentagon was hit. CBS reported the next day, three days
after the event took place, that everyone in the media
and government as Myers, who of all would surely know as
much as anyone with the paper work he had to prove it,
including also highly respected employees at Andrews Air
Force Base, and at New Jersey, were all lying without
explanation nor reason to, and that at 8:44 two F-15s
scrambled from Otis Air National Guard Base on Cape Cod,
and were racing to New York at less than 300mph, below
20% throttle, to arrive way too late from over a hundred
miles away, making the 'official' CNN story implausible.
Although, the FAA has stated that it, as required by
statute, and rehearsed for decades as practiced,
drilled, and executed flawlessly, alerted military
authorities in Colorado, throwing the command to
rumsfeld's chain at the first sign of a possible high
jacking, and did not sit staring at radar for 29
minutes, then yet again for another 20 twiddling through
the manuals as bush would have us believe without
suggesting. The attackers clearly did not act alone, as
rumsfeld fights to threaten us with murder to think
anything but his assuredness of who are the evildoers
without evidence available to us all as facts to speak
for ourselves, which to the trained observer,
incriminates himself as suspect on the purpose. (None
of even the how would anyone know who 'suspects' without
having purchased tickets, are al-Qaida, nor from
Afghanistan, according also to the FBI's Mr. Mueller,
who in his knowledge of evidence as it pertains to
criminal conviction required for our civilization
stated, only "one --->--- OR ---<--- more" might.)
Showing a cowardly fear nullifying judicial procedure,
by swaying the numbed corporate automatons to think
likely as machines, while not searching nor speaking to
give reprimands for correction, which would be done as
normal, if rumsfeld wasn't directly responsible for the
crimes himself as nazi traitor. Why else? Because real
soldiers as American employed at Air Force Bases have
whispered behind our locked corporate news doors, with
no place to speak openly as national, being corporate
news is taking none of our phone calls, as Americans are
generally broadcasted to be illiterate and cowardly
because generally they seem to be that way actually, as
I too, still haven't been addressed as someone with

something to say by our professional, they know us
better than ourselves, news standards. However, I am
presently working desperately with many at CBC for an up
coming let's slam Johnny documentary, or possibly even a
legitimate news story, and others in the alternative
media are slowly opening up channels of communication by
returning my phone calls, of which, you as well, could
do the same in our name. The universe is turning, take
hold somewhere. As I was saying, real soldiers as
American employed at Air Force Bases have stated without
an ability to be wide open, leaving this point very
difficult to confirm as of yet on our part, without
jeopardizing ourselves as dazed and confused hopelessly
lost nowhere. Example, our media giants we all suffer
without answering any of our important questions,
airwave savvy broadcasters such as Myers, rumsfeld,
Mueller, Ashcroft, Chris,

[cnn]
shrub, and the overwhelming cowardice of others to
spread this document to feed newspapers, soldiers, and
law enforcement officers everywhere, enemy or otherwise,
that has so far, found no rebuttals regarding the
evidence before us, and rational for Justice to be
served as a protection for our freedoms we must struggle
to maintain always forever.
That stand down orders forbidding any military aircraft
taking flight for defensive measures were given out
verbally right after the first airliner hit the tower.
Mr. rumsfeld and bush's immediate public explanation to
us meetin like this', given to surviving American
families of murdered police officers, fire fighters, and
soldiers everywhere, leaves us by their continuing
silence of no statement to counter this extremely
serious accusation that demands resolution either way
immediately, (or both their right deserts by watering
frauds), found recently at a very popular respected web
site or two, would make one heck of a NRA town hall
gatherin, eh gentlemen? Now, back to Myers in a later
different congressional flub. (That I would sight if I
could, but a small miraculously unawares group, holding
our title of RCMP, has seized property of my own such as
computer equipment without officially charging me for
writing truthfully, that I've always freely publicly
admitted to doing privately through all local news media
outlets here in Winnipeg, (that give me next to nothing
as political coverage for being critical, scientific,
and possessing elementary math skills such as addition

and division regarding our public ad revenues) several legitimate newspapers across Canada, and as a secret to themselves even group, only two officers seemed vaguely familiar with deductive reasoning, along with our actual history as humanity, that they had spent two months with overtime pay researching only on how to use Google apparently, are presently pouring through Amiga Basics as we speak, looking not for my well documented claims they balked in secret terror to tell me it wasn't about them as individuals to answer, but to threaten my freedom with their excitement about the prospect to find personal works to use against myself to this world I call home. In darkness they claimed they would not be individually involved professing from somewhere if asked by another playing evil against the wall, and therefor as anyone could be entrapped as victim, would get Johnny on a indefinite termed mental health care rap for being intelligence, they would try, to publicly accuse myself lacking hounor and character, on behalf of the secret service good cop bad cop Don jokingly told me for life, as trapped helpless supporters of cop killers and lottery scammers stealing from our grandparents, just ignoring their jobs, our lives, my written words, that do largely include, my publicly made requests to protect our communities as legal bound claims based in our criminal codes as Constitutional, who as themselves will attempt to stand publicly not to bring attention if afforded the effort of public accusation against myself, pretending to be us they'd suppose eventually, captured in our public arena against me as unworthy. Standing otherwise to Lord over us against themselves. Truth, Justice, freedom and liberty destroy ignorance as injustice, slavery and oppression, like it or not, here come's Johnny with no lawyer. If a murderer is on the loose recommitting, do we not use the required force to stop the transgressor from re-offending? The media is our messenger. Anyway, (Jeepers, I sure can go on eh?) as I was saying, Myers later in another committee addressing the timeline specifically, stated something like:
Oh, I don't know any longer, now that the professional news corporations are dictating our existence without my records, and our democratic governmental testimonies, left me thinking to not bring anything with me as required this time, sorry, no, actually, I forgot why I came here today. Is it over now?
Also, in retrospect, we, as you, can also witness through archived military newsgroups an almost complete support by our gun saluting soldiers and several real OFFICERS, American and Canadian, for my calls as a

single citizen in our fledgling democracies for the immediate arrest of rumsfeld and bush escaping our authorities for murdering American civilians. Gore won the election, so let's make him President until a new election can be called as soon as possible. CNN must become humans and demand public representation. Look, we've screamed around the world regarding the facts irrespective of myself as an individual, and the corporate cult members refuse to report our stories, while actively working to oppress us all with deceit, they feign as brave to steal from us as poorly represented. See? Mr. bush as anti-Christ states that if a dictator pirates the authority of a nation and commits CRIMES against ourselves as humanity, the nations police officers should be slaughtered without mercy, or allowed legal council as defences, as regard for our standing universal laws of decree by our big time Creator grants us free will as unthinkable anyway (it's a long story, read the somewhat boring, "Johnny's Last Stand" if your interested in how I do this without flinching), and in bush's extreme evilness, now suggests, America as in deed our world needs to be nuked for not defending our flag. As we witnessed horrified in Florida, as bush the demon tyrant self destructing in his personal hatred for everything truly, argued with only himself publicly, that he as pure evil, isn't required to have evidence to murder anyone, and if The People should speak out as Justice for all as reason does sustain, he'll annihilate the entire planet, as he is against every life as US not understood, perceived, or believed, because he is generally so stupid as evil is always, leaving him targeting specifically, any police officers who are protecting ourselves as community he would blindly spout proudly, if we could nail him on the question directly. Justice to protect a person not guilty of a crime, he believes is ONLY relative to whom holds the speakers platform for accusation, so as dictator, he sides to steal and destroy our lives unworthy as himself, and doing so, has him deceived it brings bounty by monetary value stolen, not earned, seeing no value in personal relationships but to distrust others as reflected to being a part of himself also, leaves him in relationship to us, secretly planning to deceive the entire infinite forever Universe, being harmful to all as the anti-Christ he is without exception. Ah, but alas Mr. bush, infinity plus infinity equals infinity super dummy. Nothing else wiser as this Universe is intelligence known to ourselves as wonder eternal. See, if there is one thing every single conscious entity in this Universe of

Universes can all agree on despite whatever bush spews, is that we don't wish to be deprived our right to life and liberty for just living to not deny that right from any other. Lucky for bush, God is forgiveness, being of a causeless force before an actual beginning kinda nature, me on the other hand as Johnny, representing life and death the way I do honestly, am not so stupid nor tolerant watching him destroy ourselves in error. It's a crazy world. Mr. bush tinks the world is only of his perception, nothing more of ideas, no strength in wisdom, fearing equality for us would leave him in all honesty, a life wasted trying to cheat himself. While I as Christ say every single individual has the equal born right inherent as existence eternal dictates, not only because I'm naturally a caring, compassionate person familiar with physics, but also because it does me well for my freedom to be all I can. For in this struggle of living, I foresee great potentials, not only for myself having fancy dinners and super big parties, but also for the realms of knowledge I'm familiar with ourselves neglecting, and how many important issues go unresolved due to doubters who dismiss actual experts in areas such as understood sciences that need our utmost immediate attention, motivating me to do anything possible to make this place a better world on behalf of everyone, that of which, to resolve, only lacks a lounge act King, who as should be, me, because here I am to crown myself standing this way forever dreaming. Plus, believing I'm actually trying to help this big old clunker of a Universe as I understand fairly well as friendly, really makes it an extra special bonus for the planet and everything, as long as our world isn't completely decimated by the bushmob, due to the general masses having absolutely no interest in understanding themselves.

I don't have any interest in what others do with their freedom, other than deny ourselves to do likewise. If a nation commits a crime against my freedom as a individual, of which I know as a god to be equally represented through everything, an innocent person murdered effects me personally, especially when it's advocated in a public forum where freedom is advertised, but obviously not present, there is where my voice demands by RIGHT to be in defence of all innocence, (big G 6 power) such as is my eternal struggle for freedom in my own name of John. (I'm in the book.) I wouldn't kill everyone in the country, or police officers as bush would advise, but demand the perpetrator to be corrected, chastised, insulted, arrested, or shot smiling as my two year John is crazy mad about bush the

nazi tyrant murderer, has manifest ourselves this way. Freedom is only garnered through Justice for all equally. Mr. bush and cheney don't understand that, nor wish to learn about us, because it runs to expose their weakness publicly, as cowardly and truly pathetic individuals they both truly are, as they fail to pretend otherwise to more than half who know better, and as bush, to hide from us all as a very anti-American war criminal. Which is why we as humanity, must demand bush and rumsfeld's immediate arrests for mass murders and also for decimating the American Constitution and Bill of Rights in our corner. Mr. bush and rumsfeld must be stopped at all costs as our own willing, shot smiling now if need be, twenty dollars a head I'm offering, as too, helping our disabled officers enforce our laws to protect ourselves on behalf of every person. Did you notice how our corporate professionals ignore my world wide factual claims, only to silently advocate yourself to be oppressed and stolen from again? Maybe blown up real bad, while bush blames whomever now that evidence isn't necessary to convince the numbed and drugged of America for paying to destroy themselves by rewarding bush as saviour? Do you notice how our professional corporate cogs, refuse to report on bush's fifty billion American worker tax dollar rip off, and by omission, advocate criminal acts against ourselves as society's helpless tax paying victim? Or CNN refusing to report the closing of certain voting polls in Florida as all eligible people from the area, were lined outside the station, left to be told to go across town in fifteen minutes, but first the repuglican party is going to charge you for loitering, er.. I mean busing, no, wait, and so it went till many never made it as reported. Never mind all the disqualifications. Mr. bush was not elected, and is a tyrannical dictator of evilness never known before or ever to be again, for his gamble is for all our real lives he leverages as we truly fall dying. Either we survive, or bush destroys all of humanity due to the lack of real courage as heroism in America to challenge his hatred of our world living to continue, and irrational fear of our ultimate freedom to remain forever wondering aimlessly. Mr. bush shall not continue to advocate murdering our police officers while stealing our monies, or we will get him ourselves for continuing to do so, as he daily advocates on all corporate news channels, smiling his demon grin as dumfbuck shihtead. Mr. bush is presently trying to dump tons of radioactive waste on a extremely volatile fault line under Yucca mountain, shipped right across the country from all over. Purposefully ignoring all

scientific, as the public's concern intentionally. It is clearly an act of hatred for all life as our Nature, for it is so beyond irrational, and into maliciously evil, and in of itself, should warrant prison sentences, if not immediately halted for public review demanded to be broadcasted on CNN internationally, in a manner where the staff actually tries to do something on behalf of the weakened nation as still barely living. I have wondered of a Canadian prosecutor against myself standing, if unfortunately the RCMP, in conclusion, do privately decide against ourselves being by playing stupid against democracy and freedom would be my defence I'd suppose they would appear to all, while begging for forgiveness from those who know not what I write. (I can't even read this myself sometimes. When I was questioned weather I wrote "The Trial and Conviction...", it was murmured quickly, that, oh we have ways of proving you did with our government crack computer specialists, so don't try to get out... Huh? I, in the paper weeks previous to them stealing my goods, mention directly my discussions with my provider, let alone the computer geek fact, that every paper I've published on usenet has address headers. And oh ya, and then there is the second paragraph in "The Trial..", and the mention of my full name elsewhere, with tons on contact information. No, this is about not allowing my legal, rational, provable arguments made public against bush and rumsfeld the war monster criminals, for fear to face the horrible failures of our corporated media to represent Justice as ourselves in North America. Having me now placed potentially closer to the position I was struggling for, by attempting to actually imprision ourselves under bush dictatorship ruled broken by everyone. Thanks for helping to realistically illustrate my argument. Goodbye cruel world.) I would suspect if so, an effort argued bogusly, in a possible corrupt court room only to foul our sacredness as humanity under tyranny against our nature to be insulted, with the news bank bosses ignoring our downfalls, to not allow to plead my case openly as John, so here I make it now. I beg of you as a stranger to help our Justice ring through, if not for me, for yourself as deserve to do so. Or, go straight to hell, who needs who. Mr. bush's private Secret Service agent was drinking diet coke when I first spoke with him person to person. (I've written at least five papers discussing the science of monsanto.) Didn't really seem that all a bad bloke, and I do believe we left on fairly, no need to kill each other terms mutually. But, thought all the people in this world should be blown to

bits without thinking nor discussing why it seemed he thought those he didn't know were deserving of murder, along with our families as collateral damage, and the country side toxically polluted for generations like in Iraq, to waste billions to give the bushmob to sell heroin and distribute cocaine for his fear of the CIA, of which fairly, he seemed ashamed when I mentioned it, bush's pathetically weak and cowardly cocaine dealers who are acting illegally, desecrating the American flag, the Constitution, the Bill of Rights, and so on because, the northern alliance treated women so badly before the Taliban he witnessed to tell me all about it briefly, and how all deserved to be slaughtered blindly to make him feel like American, and no other ideas had been implanted by command headquarters when they sent him on his own for testing my friend or foe hyperspace capabilities. Why all the murders we stand for? Because apparently, the al-Qaida that Americans never heard from, state nazi corporate america has no right murdering and stealing from ourselves as humanity, while propping up military dictatorships with American people dollars, killing innocent families attacking Allah by representing the evil in Jihad, as all would agree who could think likely from any religion including atheism. The nazi bankers with daily full page newspaper ads don't like that philosophy understood by ourselves as the silented as taken to be granted, while our in debt soldiers are told to murder people accused of crimes without any evidence. Nazi Germany all over again, while racists utter threats against entire nations going unchallenged as actually published. Mr. rick lowry of the national review goes unarrested and corporately celebrated, suggesting to nuke Mecca, and sites 'moderates' who suggest 10 other capital cities, nevermind Philadelphia, while I yell, "get bush and rumsfeld now as the nazi war criminals they are, escaping true American JUSTICE INFINITE as INDIVISIBLE!", (just pretend I'm not here). Central Affairs representative Christina Rocca, the evil witch she was to humanity as God, uttered the CRIMINAL threat to the Taliban's embassador for choosing the better LEGAL business deal in August "Except our offer of a carpet of gold, or we'll bury you in a carpet of bombs."

Unocal and the Afghanistan pipeline
by Larry Chin
Online Journal, 6 March 2002

... Osama bin Laden advised the Taliban to sign with Bridas. In addition to offering the Taliban a higher bid, Bridas proposed an open pipeline accessible to

warlords and local users. Unocal's pipeline was closed for export purposes only. Bridas' plan also did not require outside financing, while Unocal's required a loan from the western financial institutions (the World Bank), which in turn would leave Afghanistan vulnerable to demands from western governments.
Bridas' approach to business was more to the Taliban's liking. Where Bulgheroni and Bridas' engineers would take the time to "sip tea with Afghan tribesmen," Unocal's American executives issued top-down edicts from corporate headquarters and the US Embassy (including a demand to open talks with the CIA-backed Northern Alliance)....
J.W. reminder: The northern alliance are bush's heroin pushers with women slaves
---
Of course CNN again, refused to protect Justice infinite by reporting the facts, while bush followed through by murdering more than 3000 mostly wealthy citizens as his excuse to murder more us good people for his evilness (CNN reported bush most popular according to their bogus tabulations that seemed to neglect, no one voted for me either), while now two seemingly unread RCMP officers, a single Secret Service agent, and one justice scribbled Obrein or maybe it's OBorien look to ignore my equal rights, by claiming my demands to be human, something they as nobodies will hide from, while attacking my credibility hidden by private news agencies from the public, hoping we will just die away with them to plunder who? BZzzzzzTT! Wrong. Welcome to the Twilight Zone late comers. These cops supposedly of ourselves, are well aware but pretend can't read, bush and rumsfeld blamed an entire nation of millions for a crime without any evidence, but to steal and plunder, over crimes they were responsible for, murdering everyone, while I wrote every real proud and strong American should help our police detachments, stand up and shoot the two nazi bastards in good lighting immediately, for trying to undermine everything the American flag represents, while purposefully leveraging the general populace to remain in ignorance, as CNN just refuses to report on anything regarding the State of the Union, attempting to escape the Judicial system by destroying our democracies, sacrificing soldiers too stupid to live godly. Now we can only assume these officers are trying desperately to convince the real RCMP to cower as duplicitous, as too stupid to care for themselves as our own brethren, trying to find me guilty as just one man named John for living natural, to make them as nazis strong for oppressing our Nations as God

everywhere, because of their inability to stand on guard as Royally Canadian. They've actually told me they are going to attempt to charge me for something, but know not what to total yet. They seemed fairly excited over the prospect of stalling our entire human race, needing to learn first how to, then to go through hundreds of thousands of Amiga documents, programs, libraries, and device drivers, that the entire Amiga World community has been working through for 20 years, then there is the thousands of individual games from the eighties that they'll need to learn the intricacies of, my absolutely huge art collection of mostly babes, dragons, movie posters, and sea mammals, and finally my 'Johnny Archives' drawer, that they of course in terror, will completely ignore, along with North American criminal lottery revenue tabulations, neuroscientific MMT papers, (The most horrific toxin known to humanity), the bad evils of Monsanto we can be sure will be considered a definite "oh, they didn't see that as officers of our laws", AZT? shell and talisman? Forget that, just let those people out there die as murdered they would snicker privately in secret telling nobody, no, it's all about finding a way to send Johnny, he thinks he's so smart, genius away for being brave and oh so freakishly strong. It's already been near a month of planning to hurt our ability to communicate as humanity, as it is becoming increasingly more difficult for me to post my ramblings, while neglecting my legal demands for bush and rumsfeld's criminal arrests as repeating offenders of first degree murders still threatening everybody. GIVE US BACK MY AMIGA! Or, real officers, military and otherwise, along with your co-workers, your neighbors, and my family of garbage pickers, will charge you with obstructing Justice. For, your cowardice to protect our communities is not my own as John, and attempting to hurt me as an individual to hide from your paid responsibility to our communities, is not what the REAL RCMP stands for publicly. Obstructing Justice is a charge that holds a maximum life term prison sentence if we look to the mounting dead bodies, in a court case we will likely preside over as true, brave, strong and free, against fools trying to break our living spirit to believe in my determination to have this done on behalf of everyone.
Barely alive Iraq is no threat to anyone, but torture advocate cheney as soon to be war criminal like bush and rumsfeld. stopthewaragainstiraq.org Spend five minutes at that site which sends info around the globe, and then notice how CNN doesn't want to play the public on the issue understood by all our experts. I'm not sure

myself of CNN, for I can't stand wasting my time any longer watching themselves ignoring everyone. If the corporational news degenerates, continue espousing the benefits of siding to be nazis in our names, escaping our justice system as mass murderers, Mr. rick lowry, bush and rumsfeld, will be challenged by every proud NRA card carrying, God fearing, life protector imaginable, this includes of course our REAL POLICE agents of freedom in the Secret Service, that are smart enough to believe in the name of the law, and not idly shaking in terror, while attacking our citizenry for speaking out rationally on behalf of our falling dead comrades. Ed McMann and bush are planning to tour American elementary schools to teach children to help secretly identify those 'others' who are "injurious to the domestic tranquility of the people", and teaching the "importance of patriotism and obedience to the state", pope nazi bush is so terrifying on his own representing the dark ages as evil incarnate, I couldn't possibly make this horror up, and Ed has always been a stupid drunken sell out, so, no big surprise there for anyone. Can you please e-mail this letter to the staff of your favorite radio program for me please, then we'll all listen to themselves turn against our communities as us CIA (see below), FBI, and legitimate officers of our LAWS, by remaining silent while hanging up on everyone trying to protect ourselves from war mongering nazi crime lords, as truth to set us free from the chains of tyranny will take a course, it's just how many will willingly in fear of living, take bush's place for nazi sacrifice, instead of standing to prove our worths by demanding justice for all right God damn now? What can they be scared of but us? Do some fear we'll make'em look stupid for being so? What can we blame but the time we run so quickly short on, for we must not dawdle, and get back to work to pay the bankerman for doing nothing, so to give our luxuries of freedom to do other things we know not of, because we're bust as it is, and this days almost completely done for now like the others, oh, but our hundred or so American multi-millionaire TV entertainers have it so good by never ever getting political generally, while hundreds of millions are robbed and murdered in their names as evil taking much by giving so little back in return, screaming nothing as individuals, pretending to be actual struggling artists, as this life is truly a pain for them to pay attention. ("Oh, but what about my poor dying fans who worship me like Jesus" they would probably say.) In other news, the good CIA elements were reported by The London Times, to have asked the London Financial Services, to investigate the

traced, extremely unusual 'put option' stock transactions regarding the two airline companies, (a 4000% off the norm bet they would both lose cash value) just prior to the terrorist acts taking place, they did, and came back with A.B Buzzy Krongard, bush's dumbass cocaine dealing, anthrax mailing, executive director of the CIA ourselves, who bush the nazi dictator now says the CIA can not arrest in a military dictatorship absent Universal law, and has recently told Americans, wimpass buzzy, will now be free to murder ANYONE American including subordinates, who dare try to reclaim their rights as an equal under God not heard from. We say true brave American soldiers and our grandmothers everywhere say otherwise. Where is the Mafia when we need them for Christ sake? Oh ya, mostly dead, maybe I'm moving to fast on these issues eh? These facts mean bush, rumsfeld, and now buzzy, are directly involved in the terrorist acts in NYC, of which bush, as American traitor, has publicly encouraged the WTC investigations to stop looking more evil to all as us than ever. CNN decided to drop the story they were almost holding right there, because it involved protecting our never talked about, good investigative working CIA officers (I was a little shocked also), justice and democracy for US people sold down the river, drats, actual work, where CNN rather just slaughter US innocent people and police officers instead of reporting on the bush crime waves, while selling cocaine to school kids, then call themselves heroes in my name after the carnage for blindly dropping bombs from the sky on everyone. Heroes? More like typical american nazi cowards, willing to murder their own families as themselves, than bravely put their lives on the line standing to protect Justice as freedom for everyone, as to what true bravery, and heroism has always been. While the world watched CNN broadcasting, American nazi soldiers celebrating joyously in contempt for God while singing, right after the unreported dropping of thousands of pounds of bombs on everyone in Afghanistan, body parts everywhere, while knowing directly as individuals, every single, there was no evidence offered that anyone there was responsible for any crimes whatsoever, including the Afghanistan women who worked for the newspaper, but for to be victims of fanatic nazi american barbarity, disguised as human, like bush almost gets away with as pure evil deceived, now completely impossible to believe. Oh, by the way, I am now taking new memberships for al-Qaida.

As I say, there isn't a real man in the American Marines, or the Army willing to protect America with their lives, for if there were, rumsfeld and bush would be rightly dead for the murders continuing against those they know as innocent. As even with their continuing threats against more innocent people as American lives they brag to throw away as just soldiers, as all these other nations they try to make ready to sacrifice millions for, while propagandizing that our Justice we need not believe in to grant us freedom from oppression, nor evidence no longer a requirement to convince us who is evil, and who is not lying. Nobody deserves to be murdered, but a murderer escaping to recommit.

Just prior to Sept 11th, bush ordered the Naval Strike Force in the Indian Ocean, a 24 hour strike force for DEFENSIVE purposes to be shut down. Mr. bush threatened to veto the Defence Appropriations Bill only after the Democrats tried to move 600 million out of 'Star Wars' and into anti-terror defence. The Star Wars program also includes in it's ranks, an extremely corrupt bunch of criminals, who bribed repuglicans to remove the American law against making false claims for governmental contracts, a seditious act as TREASON that was never reported by the Commi Nazi Network, who now defraud every American openly, escaping military tribunals because, American soldiers are clearly to everyone on the planet, left inept, and as pathetic cowards lacking leadership everywhere, stuck with evil American murdering rumsfeld as nazi kcuf, real leadership long gone years ago, when forced to shoot with dirty syringes as only the clinically deranged would order our soldiers need not to be thought human. So, as a consequence, most intelligence left disgraced without medals, that would have only accentuated their inhumanity as deranged lunatics. While now America's left with nazi soldiers who dance over the slaughtering of suffering third world civilians and police officers, who were in the process of making something better for their nation by following the guide of universal Justice, while evil rumsfeld the nazi fuck, offers a reward for murdering 'Omar the Just', because he asked for evidence that didn't exist. Why? Omar was standing up to protect the American flag by supporting the apprehension of those truly responsible for the WTC terrorist attacks against Justice as freedom America is quickly losing. As I say, there isn't a real man in the American Marines, or the Army willing to protect America with their lives, for if there were, rumsfeld and bush would be rightly dead for the murders continuing against

those they know as innocent. As even with their continuing threats against more innocent people as American lives they brag to throw away as just soldiers, as all these other nations they try to make ready to sacrifice millions for, while propagandizing that our Justice we need not believe in to grant us freedom from oppression, nor evidence no longer a requirement to convince us who is evil, and who is not lying. Nobody deserves to be murdered, but a murderer escaping to recommit. Mr. bush and rumsfeld must be immediately arrested to face a fair trial for their crimes in NYC, or suffer a death sentence carried out by every man smart enough to comprehend, that freedom for ourselves and family, mean Justice for all of humanity. Justice protects our democracies from those who wish to deprive ourselves the pursuit of happiness, and like nazi bush and rumsfeld, wish to steal our earnings and sacrifice our lives for their personal misgivings, and fear of this awesome universe. Creating only hardships and suffering as murders against everyone they abuse our God granted freedom, is truly evil and insane, as they are both without question, mankind's worst delinquents. Whew... On another note, as you can believe this to be also not reported, bush apposed all democratic, anti-Enron money laundering efforts by the Democrats as a traitor to every single American value.
(democrat.com) We true soldiers figure he burns the American flag when he thinks no one is looking. Mr. bush and rumsfeld need to be immediately brought out of the darkness to the witness of every American soldier, never heard till now as forgotten dead or otherwise, offered a fair trial, and then given life term prison sentences after a speedy conviction for the murder of all the lost American life continuing to fall unheard from, due to their terrorist acts involving us being censored, with me still here squawkin', just as before the man comes to take us away, haha, locked up to never as cared for, you people truly disappoint ourselves, leaving you to suffer this way for nothing. Why why why. All I ask you is to e-mail this to two people to help our planet survive okay? Then when I see ya, I'll give ya a star somewhere or something. Or don't, and get on your bad side, doing for nobody which would include yourself not heard from. I am not kidding here about this Revelations, Judgement Day, let's just try a little to help Johnny for Christ sake, somethings going to send him to the clink for being a super human being, and that doesn't seem right to anyone. Right? Buddies? Pals? Life long friends?
Thomas White - former vice chairman of Enron - Secretary

of the nazi american military, that refuses to believe in ourselves as a democracy demands a conduct of law to treat us human beings as kind, such as a governed nation of people should be considered innocent until proven otherwise. They placed in power illegally, heroin dealers and mass murderers of over 50,000 Afghans just a few years previous, who believe women should be slaves, while slaughtering just about the same to make Tommy look brave, killing us people as he actually told us he has no reason to give, or explain, who we must demand be closed down as arrested for actual war crime matters, for the sake of our innocent lives, and as nazis speaking as us illiterates apposing free speech, have made no commitment to peace in the region, but to place the burden and costs on every nation truly committed to ourselves as humans being. Look, Dutch shell and unocal's deal is a crime against Afghanistan, which offers nothing to the nation but bribes to officials who are almost all employees of unocal. What is coward drug pawn unocal employee, penned as Washington's own, Karazi's position on behalf of the crying children? For him to side with unocal, would mark himself traitor to every person concerned for the plight of people who live in Afghanistan, and he certainly wouldn't be a leader in anyone's summation with himself surrounded by drug dealers to feed our world's poverty stricken either, just as he walked in as to who he always has been. As well, we all know CNN will make no attempts to inform the public but to propagandize with lies, cheating the entire world so Ted can further cash in with our freedoms payed as collateral. Mr. bush, the biggest nazi of all humanity, spewing his hatred for our lives as his ignorant barbarity and contempt for Justice and freedom as the pathetic coward he truly is wasted and deplorable, was speaking recently, almost coherently, with the President from Peru after three private executive meetings, stated to our press, he wasn't so much interested in stopping the distribution of cocaine and heroin on the rise with his secret partners that most everyone of the literate world knows of in the back to the way it was Afghanistan and elsewheres, but the demand for it by the weak and dispossessed who quickly get hooked, then suffer hopefully for a lifetime he smirked, would be another way to steal our resources. Mr. bush is the evilest scumbag who has ever barely existed, a degenerate, a criminal, really really evil, and extremely unAmerican. Also, again, God damn you people, Mr. bush the terrorist, funds sharon to criminally steal our properties as a parasite, to ourselves as bleeding wounded host, purposefully murders

innocent families guilty of no crimes, and good police officers as wickedly evil against every God imaginable, while all CNNed Americans are expected to silently except our voices unheard, which encompasses close to 90% of newgroup mideast political traffic condemning the bastard, and more than 70% of the Israeli population 'officially' by the corporate standard present there agree he is a monster in this dying bushmob universe. Mr. sharon is NOT JEWISH and is not supported by any practicing Jews anywhere. G-D, he desecrated the THIRD Holiest of Holies, after slaughtering would be Jews of which the Israeli government commissioned him guilty for. But you know, he is constantly surrounded by nazi soldiers armed by the American tax payer, so he is difficult to detain, without attempting to blow people up in the market places he threatens, while continuing with repeatable murders that he holds no remorse for whatsoever. Ask the monster, he'll even tell you he is that evil. We'd call him officially the anti-Christ but bush won the toss up. MSNBC refuses to allow any of my clear to any arguments on private message boards they censor us for content, that way, Chris won't appear to directly ignore the simple thoughts against the murder of innocent lives that he advocates as not his own, and I think most people are starting to believe him as deliberately excommunicating himself as loser to our human cause. Plus, I have a limited ability to communicate as our weaknesses do sadly attest our general ignorance, for, the bushmob is now working to have my freedom stolen too, to incarcerate me for demanding Justice, while in silence, threatening every political leader by our corporate news departments refusal to protect myself as anyone. You could be me partner. Please help us in this regard, play a part in history, take some pity, I'm going to the funny farm as not understood by any they tell you to do nothing to protect our freedoms, destroying our eternal souls in acting so cowardly to even not stand for yourself as one to be worthy, left forgotten. Hello? Is anybody out there?
Lawrence Lindsay - Enron's advisory board - bush's regressive tax assault advisor against every principle the American flag once represented. The American economy is being looted. Trillions have gone away, while billions continue to be stolen. The criminals hiding inside the Pentagon can't account for more than 1.2 trillion dollars in American stolen revenues, while evil bush near doubled their takes believing obviously in no God, attempting to destroy nations in all honesty he hides through only corporate genocide, as our humans

lives are squandered without value as meaningless to the bottom line not existing. Depression will ensue if we are not allowed to understand this simple dying force being drained against our wills intentionally. Why will CNN continue to refuse interviewing me, us, them, anyone? Is it our wesly natenah-who dickhead smarmy, hitler warnt so evil like all those people out there are, four hour daily dose time again nurse? Do they by not doing so, support the oppression of ourselves not heard from? Help them hear me as public voice from the wilderness please for heaven's sake, have a heart for yourself man, bush is planning to destroy your world, of which he has no care for ourselves, because his deception as the anti-Christ now fools no one but himself as evil to all things imaginable.

No, really.

Marc Raciot - Enron's former chief lobbyist - Chairman of the crime ridden repuglican party, who has recently stated, he may continue to still lobby for bankrupt Enron as he leads repuglicans straight to victory. What a mastermind game player eh?

Printed below is a speech that Dennis Kucinich, United States Congressman from Cleveland, Ohio, gave recently while ignored completely by corporated american cult members, making him the first member of the United States Congress to openly repudiate President Bush's absent war rationale, and will be remembered in history forever.

Congressman Kucinich's,

A Prayer for America

Program note: (to be sung as an overture for America)

"My country 'tis of thee. Sweet land of liberty of thee I sing. From every mountain side, let freedom ring. Long may our land be bright. With freedom's holy light. Oh say does that star spangled banner yet wave. O'er the land of the free and the home of the brave?"

"America, America, God shed grace on thee. And crown thy good with brotherhood from sea to shining sea."

I offer these brief remarks today as a prayer for our country, with love of democracy, as a celebration of our country. With love for our country. With hope for our country. With a belief that the light of freedom cannot be extinguished as long as it is inside of us. With a belief that freedom rings resoundingly in a democracy each time we speak freely. With the understanding that freedom stirs the human heart and fear stills it. With the belief that a free people cannot walk in fear and faith at the same time.

BZZZZZZZZT! Wrong! Applies to ham radio operators, business
band, and ALL radio operations. LEOs can jack up ham radio
ops in a heartbeat!

> through a radio? (snip)

There are limits to free speech, Dave. In this case, the answer would be no if the comments were slanderous, defamatory, racist, or done in a threatening or harassing manner. Making unwelcomed comments about a person's appearence (especially when transmitted over the public airways) could be considered harassment, and I doubt the First Amendment would protect such actions.

> That depends. If the business was
> employing FCC part 15 radio gear,
> then they can expect no protection
> from interference. (snip)

That addresses normal interference, not the intentional act of malicious interference. Malicious interference is a violation of FCC rules. And, in case you're wondering, the First Amendment would not protect a person here either - the person would not be charged for what was said, but for doing so in a manner (using equipment, etc) which violates FCC rules.

> Maybe. I guess it all depends on
> the level of malice and the effect
> that the disruptions had. From

This brings another issue into question. Some states have laws to protect the normal operations of a business - to prevent malicious interference with that. It is also possible these laws, if available, might come into play here.

Dwight Stewart (W5NET)

Aw, come on. Lighten up. This thread is about frequencies used by fast food establishments and "what if". Leave it to a couple of guys to take it to the next "what if" level, i.e. legal repercussions and ensuing arguments between egos.
Give it a rest, guys.

I've been reading this thread since the very beginning and issues of legality were raised very early in the discussion. And, as far as I can see, our discussion of the legal issues does not hinder your ability to discuss whatever you want about this situation. So I have to respond with a request for you to "lighten up" - you discuss what you want and we'll do the same.

351. A Newbies View On Things

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-16 15:05:23 UTC
From: Scott <scott5mi@cox-internet.com>
Message-ID: <100fvcqc8jnev60@corp.supernews.com>
Source record: 59794

Hi folks.

Please allow me to give a "newbies" view on the current state of amateur radio, and also ask a few questions.

I recently took my Technicians License exam and passed with a perfect score. (I bring up the score just to indicate that I studied hard, and took the exam seriously). I am now studying to take the 5wpm mores code test. I have not yet purchased a radio, or even been "on the air". More on this is a moment.

I have also joined a local radio club, whose first meeting I attended last night. This club owns and maintains the local 2m repeater, and even though it is an open repeater, if nothing else, I feel as though by joining, I am helping to support a service which I plan on eventually using.

But what disappoints me is the fact that I left this meeting knowing absolutely no more than I did when I walked into the door. I had been led to believe that one of the best ways for a new guy just becoming involved in this hobby to get practical advice on things like your first purchase of equipment, which bands are best for what, and the different applications of amateur radio, was to join a club. Well, unfortunately, the majority of the meeting I attended was, in my opinion, controlled by a group of 7 or 8 ham "veterans" trying to impress one another with their technical knowledge.

So, I guess what I would like to do here is give my views on what I have seen so far, and invite anyone who is more informed on these matters to correct me.

1) The Amateur Radio Service is not an essential element in our society. Even in times of emergency, there is nothing you can do with a ham radio that you can't do with an internet connection, fax machine, land line telephone, or cell phone in similar circumstances. Ham Radio is a hobby, and like golf, gardening, bird watching, or any other hobby, it could cease to exist tomorrow, and nothing would really change.

2) To me, the most appealing aspect to Ham Radio is the gaining of knowledge. Learning the "in's and out's" of all that encompasses Ham Radio o peration is the true fun, whether it is dx'ing, satellite, CW or whatever. But, like building a boat in a bottle, or even doing a crossword puzzle, the satisfaction comes in the steps taken to accomplish the task, not the end result itself.

3) From all accounts that I have heard, the number of new Amateur licenses issued has been declining for years. This would tell me that the best way to save the hobby was to open new Hams with open arms, instead of clinging white-knuckled to the past (packet radio, morse code etc.) look to the

future, and make it fun.

Thanks for letting me rant folks. Now for some questions.

1) Can anyone point me towards any resources to assist someone brand new to the hobby? (Stuff like recommendations on the type of equipment to get for the first time buyer)?

2) Also, any sources to purchase used equipment. I think I would rather buy more functional used stuff, than new equipment that has less "bells and whistles".

3) One more thing...I am looking for information on antennas that is geared to the novice.

Thanks folks.

Don't judge the entirety of amateur radio, or the entirety of clubs, by the actions of a few jerks. What you describe is actually not that uncommon. If the club president, or whoever is moderating the meeting, is uncaring enough to just let such crap happen, then you may want to think about finding another club.

The other thing you want to consider is that it's not so much what you ask: It's how you ask it. Narrow your questions down as much as possible before you ask them.

Also, I would give it a couple of meetings and see what happens before you give up on your current club. I'm saying this because a local club in my area (Puget Sound region) is just the opposite of what you describe: Supportive, relaxed, friendly to newcomers.

> 1) The Amateur Radio Service is not an essential element in our society.

There are lots of police, fire, and public service agencies, including the Red Cross and FEMA, that would argue that point with you most vociferously. Even President Bush has directly recognized amateur

radio for its contributions to our society.

If amateur radio were not an 'essential' service, organizations
like RACES, ARES, and MARS would not exist.

> Even in times of emergency, there is nothing you can do with a ham radio
> that you can't do with an internet connection, fax machine, land line
> telephone, or cell phone in similar circumstances.

I beg to disagree, and it is through direct experience. The Puget
Sound region suffered a strong earthquake in late February of 2000.
Within less than five minutes after the quake struck, cellphone
connections across the region were utterly jammed, landlines were iffy
at best, and no one was allowed into most of the buildings on the Boeing
campus to even GET to the Internet-connected computers.

What was it that stayed up and usable during the entire period of
the quake, and after the quake? You guessed it. Amateur radio repeaters.
Much of the traffic I heard during that time was most interesting
indeed.

> like golf, gardening, bird watching, or any other hobby, it could cease to
> exist tomorrow, and nothing would really change.

If that is truly your belief, why did you even bother to get your
license?

Amateur radio, like Life itself, is a mirror. It will give back to
you exactly what YOU put into it.

> 2) To me, the most appealing aspect to Ham Radio is the gaining of

> peration is the true fun, whether it is dx'ing, satellite, CW or whatever.
> But, like building a boat in a bottle, or even doing a crossword puzzle, the
> satisfaction comes in the steps taken to accomplish the task, not the end
> result itself.

I disagree there as well. The end result is part of the appeal.
What you get into is a state where you do something one way, observe the
end result, and then try to improve on that result. That's what
tinkering and experimentation are all about.

> 3) From all accounts that I have heard, the number of new Amateur licenses
> issued has been declining for years. This would tell me that the best way to
> save the hobby was to open new Hams with open arms, instead of clinging
> white-knuckled to the past (packet radio, morse code etc.) look to the

You need to take another look at the definition of the Amateur
Radio SERVICE in Part 97, FCC regs.

> Thanks for letting me rant folks. Now for some questions.
>
> 1) Can anyone point me towards any resources to assist someone brand new to

> the hobby? (Stuff like recommendations on the type of equipment to get for
> the first time buyer)?

The problem you're facing is that asking that question, in exactly
the way you ask it above, is like asking someone "Should I buy a car or
motorcycle, and what type should it be?"

Can you see how broad that is? You need to be more specific with
what, exactly, you want to do and what modes you're interested in
operating. Are you interested mainly in VHF/UHF? Perhaps in HF down the
road a bit? How much do you want to spend? What features are important
to you? Mobile, base, or portable?

> 2) Also, any sources to purchase used equipment. I think I would rather buy
> more functional used stuff, than new equipment that has less "bells and
> whistles".

<gryn> You and I are of a similar mind on at least one thing, I
see. That I can help with! The best possible place to pick up used
goodies is ham radio swap meets, often a part of hamfests. You can find
a listing of upcoming events at http://www.arrl.org

You should also ask around at your next club meeting, especially
among the 'tinkerers' in the club. They're likely to know a lot of
sources for getting hold of equipment and parts.

If you'd like some guidelines on scrounging, you can check my
site: http://www.bluefeathertech.com/technoid/swapadvice.html

> 3) One more thing...I am looking for information on antennas that is geared
> to the novice.

Again, far too broad a question. Are you looking for something
that's just plain simple to put up and use, or do you want something
that's going to help you grab some decent DX? How much space do you have
available? How much can you spend?

Happy hunting.

Here's my rig:

IC-V8000 with an X50 Antenna... (2M/440 BASE VERTICAL 4DB/7DB)

Gettin' the ol' feet wet soon!

I have a certificate of completion, and the guy told me I could transmit with it. This has me more-or-less scratching my head, as I was led to believe I could only transmit once I'm in the FCC database. Don't want to start yakking it up before I can legally do so.

I'm excited, though. Can't wait to get on the air. :-)

And now I can say 73, and have it count.

73

DJM

P.S. I don't know if this is mediocre, but I missed two of the questions.

Do you have a call yet? Don't sound like it. You can't put out a signal
without a callsign.

If you do have a callsign, and you upgraded from a Novice ticket, then you
can operate with your callsign and append it with /at (slash amateur
technician).

Well, you're doing the right thing, but realize in the real world this will
be
more 'social' than technical.

Yep, real world. And God help you if you ever point out one of these
guys mistakes! Even if you ask a question that may lead to showing
they made a mistake!!

But fortunately, these guys, while a very visible marker at the clubs, are
NOT 100% of the clubs. You'll still meet other friendly people, I'm
sure, just give it a chance. And you'll probably find that there are a
LOT of technical resource people who DON'T have to show off and
be 'brain proud' for the masses. People who can REALLY answer
questions, not blast their way through. But you'll have to learn to
be a bit more of an 'operator' at the club to find these people.

Just like operating. Don't be an alligator. Big mouth, little ears. Learn
to tread carefully around the alligators, and spot the real resource
people. Do lots of receiving, THEN transmit. In the club, do lots
of listening and observing, then find the people who you can ask.

Occasionally one of the mouths will have an answer, and by all means, use the resource. But don't fall into the trap of thinking that because he had one answer, he has them all. Or worse, the trap that because he can answer a few questions, he can control all. I'm not saying be disrespectful, but if you are cynical, keep it too yourself, and you'll get along fine with 90% of the people there.

Mike

If your certificate of completion is for an upgrade and you already have
a callsign, you can use it to get on the air with new privileges. But if
this is a 'first time' call, and you don't have your callsign yet, then no,
you cannot get on the air.

However, you do not need to have the license physically 'in your hand'.
You can watch the FCC callsign database on the net, and as soon as
your name appears with a callsign associated with it, you can get on
the air with that.

For what it's worth, intercepting the radio at drive thru eateries is NOT new. I remember it going on over 7 years ago. For the most part it's a frickin riot! Carl's Jr. implimented a company directive to dispatch ALL non-essential employees to the parking lot ASAP when an "attack" occured. They were directed to look for vehicles with *BIG ANTENNAS* on them and demand ID from the occupants. Now from what *I* remember...1/4 wave antennas on 467Mhz are 5.75" and 154.570 are about 18"...HARDLY big antennas. The *LAST* thing I'm going to do is co-operate with some goomber's request to ID myself at a fast-food place, more likely to shoot him.
When the RF pranksters hit, the back door looked more like someone had called the I.N.S. hahahaha.
For all the times I ordered a burger with no sauce and got extra sauce, for the times I ordered chicken McNuggets and got some other crap
this is VERY funny revenge.
Try listening to these dumb-shits on thier "talk-around" channel..this is where they chat among themselves and NOT the window. Comments like " check out that piece of shit he is driving" or "that woman is a real beefarillo".It's like a teen-age partyline. The fools don't realize that people DO listen to their channel, mostly in disbelief. The management could listen and see whats going on, if they do it's apparant that they don't really care.
Places that run a "tight ship" really show, no screwing around, orders get filled fast and RIGHT. The ones that are run by "Bozos" will be treated like "Bozos". If they are clowning around, why not the pranksters?
Some tips to getting away with RF pranking......
HIDE THE TRANSCEIVER...put it in a bag or jacket pocket.
USE A REMOTE MIKE...keep mike in the palm of your hand out of sight.
SIT IN NEIGHBORING BIZ....they won't go into another place to look for you in there.
USE HEADPHONES IF OUTDOORS....make it look like your listening to a walkman.
RUN MAX POWER...high power(5-25 watts) causes the signal to bounce off all kinds of shit. Damn near impossible to get a direction unless the hunter has a damn good attenuator and a shielded RCVR. they will be chasing their tail.
TELL THEM WHY THEY ARE GETTING TRASHED...this is important, tell them your tired of getting shit and not your order, or it's cold when you get it, or the place is a pig-stye. People just don't "attack" because of no reason, your doing them because you dont like the place for one reason or another. The owner might take notice and correct the wrong-doings!! Would'nt you if it was your KFC or Taco-Bell?

I always report a crime, or a person instigating commission of a crime.
It is my duty as a member of the militia, and as a citizen of the US.

Your response is typical of what I would expect from the inmates of a
prison.

I'm sure you can explain it to a Judge!

Ah, those railfans again! Fine hobby. Those us of who worked in the rail industry learned quickly NOT to divulge the fact one was a rail employee lest he be
deluged with questions and also be told by some guy
wearing striped overalls, matching cap with hundreds of
patches all over it, replete with red bandana and "fake"
railroad pocketwatch how to do our jobs! Why?
Because they read in one of those fantasy railfan magazines it was supposed to be done a certain way, and
never mind it had not been so in 40 years! We called the
rainfans--at least the rabid ones-- the National Railway
Hysterical Society because they would become almost beside themselves at the sight of an old dirty freight train,
and we used to sigh OH NO! when we saw a steam train
on the lineup. The fans would invade the yard/freight office, ignoring "NO Trespassing" signs, and literally knocking the employees down to "see" that steam engine.
When I worked for Southern/Norfolk Southern, the Superintendent, on one occasion, had to literally stop all
train movements in the yard because there were so many
trespassers and call the railroad cops to run 'em out. You
couldn't work for the "foamers" which is one of the names
we called railfans behind their backs. Foamers? Yeah, I
swear some of them foamed at the mouth over a train!
We would mock them mercilessly behind their backs as they stood out in the RAIN, fer heaven sakes, just to take
a picture of a locomotive. We were getting wet because we HAD to!

I am now thankfully retired (medical). No more getting wet, no more calls off the Extra Board, no trudging along
in some bitter cold freight yard, and I never see a train unless I happen to go over a crossing. Hehe! Funny, funny memories.....

I made no threat, and did not try to frighten.
Always remember an individual is allways responsible for the effects of what
they say in public.
Your continued responses will also be forwarded to the FBI, showing a total
lack of concern for the law!

Have a nice day!
Cheers!

I'm having a nice day there Roger...let me guess...you have a subscriptionn to Soldier of Fortune, you have a 10 foot high fence (with razorwire)around your property, president of your neighborhood watch. Member of "the militia" righty-oh! Your nothing more than an OLD retired jerk that has nothing to do but read stuff off of usenet and comment on it (NEVER in a favorable way either). Your the neighborhood "Naysayer" and think your an expert on everything.
Bet you call FOX broadcasting after every sitcom and bitch about that too right "Roger"?? Make sure you call the FBI and report every time someone posts a frequency in the shortwave group.PPSSttt....DONT LISTEN TO 12.182 Mhz.....you might hear our military talking with airforce one....uh-oh! Roger is surely going to forward this one to the FBI, FCC, FAA, DOJ, NSA, DEA, CIA and the AAA (Autoclub). Don't forget to forward a copy to the White House Communications staff too.
Your nothing but a retired blowhard Roger. I'm sure the FBI and your local law enforcement agency is WAY tired of hearing from you. Next your going to call stuff in under the "Patriot" act and really waste their time you nutcase. It's people like you that waste GOV'T time on garbage because they have to listen to your whining until they brand you a "Loser". Forward your messages, spy on your neighbors, monitor the local CB'ers and make sure you listen to those commie HAM radio operators too! If you hear anyone fire up on 6.955Mhz make sure you call up the closest FCC Field and bitch them out about that too. The pirates on 6.955Mhz might be SPY STATIONS. It's YOUR duty there Roger, considering your a old retired vegtable, you have time to do this kind of mindless crap.Heres a laundry list for you to keep busy...
Call the police on EVERY car with expired tags
Call Parking enforcement on every car thats parked wrong
Patrol the handicapped spots for poachers
File complaints on every car thats exceeding the speed limit
Report to the FBI and FCC every suspicious antenna you spot in town
Report every sale you read on EBay and turn this info over to the IRS
Get a life there Roger....you clueless shitbag. If I want your input I will shake your wheelchair and ask you for it. If you think it's your duty to report what *I* write in a usenet group DO IT! But to throw it in my face has only ONE purpose..your trying to piss me off.
Actually Roger...I feel sorry for you..your old, the useful part of your life has passed, your lonely, and you have nothing to contribute to society. All you have to look forward to is eating babyfood and crapping in your depends...just go away...Eddie

>

It takes a while before you actually "merge" into a new group. They may or
may not have been trying to impress each other. It is actually more likely
that they were trying to come up with the answer to a problem by all
bringing up their own experience and knowledge. However to a newbie this
can sound like bragging.

You might try introducing yourself to someone who seems both knowledgeable and approachable. Tell them you are new and ask if they know someone who can advise you. i.e. Circulate before the meeting, during the break (if there is one) and after the meeting if people stick around. Come early enough to help with set up and/or stay late enough to help with tear down. This way you'll get to know people more quickly.

>

Not so.

Ask the emergency personnel who worked the 9/11 disaster. Phone service was spotty and unreliable. It sometimes took an hour for a cell phone or phone call to get through. This affected fax, internet, land line and cell phone.

Ask the Red Cross and FEMA after any hurricane. There is often no communications in or out of the disaster area except for HF and most of it is done by hams.

> 2) To me, the most appealing aspect to Ham Radio is the gaining of
> knowledge. Learning the "in's and out's" of all that encompasses Ham Radio
o

> result itself.
>

This varies from person to person. For some it is the learning of the in's and out's as you say. For others, their satisfaction comes from actual operating, participating in public service and so on.

> 3) From all accounts that I have heard, the number of new Amateur licenses

to
> save the hobby was to open new Hams with open arms, instead of clinging
> white-knuckled to the past (packet radio, morse code etc.) look to the
> future, and make it fun.
>

Incorrect. The number of new licenses and total hams has been on a steady increase. Just check the various databases such as that of the FCC and other sites. The actual numbers show an increase.

> Thanks for letting me rant folks. Now for some questions.
>

That's OK, one learns by putting forth opinions whether they are right or wrong from the discussion that is generated.

> 1) Can anyone point me towards any resources to assist someone brand new
to
> the hobby? (Stuff like recommendations on the type of equipment to get for
> the first time buyer)?
>

As indicated earlier, keep reaching out to the club members. However, there are a number of good reviews at the ARRL website and it is worth joining them just to have access to these reviews.

For HF equipment, stick to something that is new enough to have the WARC bands (i.e. 10m, 12m, 30m). This would mean something not too much older than 30years. In general, Yaesu, Icom, Kenwood, and Ten-tec are all good.

For VHF equipment, Yaesu, Icom, Kenwood, and Alinco are all good.

> 2) Also, any sources to purchase used equipment. I think I would rather
buy
> more functional used stuff, than new equipment that has less "bells and
> whistles".
>

This is where it really helps to have other hams to talk to. Really try to reach out at the club meetings.

Also the reviews on the ARRL website have a lot of older radios covered too.

> 3) One more thing...I am looking for information on antennas that is
geared
> to the novice.
>

The ARRL has a variety of publications that are easily understood by the beginner. Simply go to their website and check out what they offer.

> Thanks folks.

If you do not have a current license, you must wait for your callsign to
appear in the FCC database. You do not have to wait for the paper license
to arrive.

Hit a nerve? yeah...I'm sick and tired of you old duffers that brag about what they did 50 years ago.If your looking for praise, keep looking. You went out with cloth covered wires and downdraft carburators. I don't have a damn thing to hide, including your stupid bragging, and what your going to send to the FBI.
Roger..your a has been, old news, tolerated because we have to (to some extent).You have nothing *GOOD* to share, no information to exchange except your poor demo of dominance.I don't want to hear from an old duffer like you. Times have changed, step into the 21st century. Your still driving a '53 bel-air and watching a Muntz TV. Your nothing more than a pimple on ones ass there Roger, squeeze your head and your gone.
No go watch the neighbors Mr. militia man, call the FBI daily and live in the past. Oh yeah....I hear Walgreens has "Depends" on sale and that they are the supersize...hold over 2 pounds of crap! sounds like it fits the bill for you since you try to sling it (like monkeys do)...sleep well there Roger, sleep long..sleep all day you old buzzard....Eddie

Damn son I'm impressed! Managed to reply to a reply to a troll and didn't
even include the word radio or scanner or shortwave.

Not to mention quoting everything and top posting. Oops guess I did.

SFB

FWIW - the majority of US states have no laws regarding the use of radio
equipment in a mobile.

I've been given a Conway Masteranger multimeter (think it is a model 639) and would like to get hold of a copy of an operating manual or user guide including schematic. I've been told that it was also sold as a Marconi model TF-2650. A pix is available at the following link:

http://users.netcon.net.au/~lcval1/masteranger_thumb.jpg

Help appreciated -

Damien VK3RX

news:XxXNb.1768$IN5.581@newssvr29.news.prodigy.com...
For what it's worth, intercepting the radio at drive thru eateries is NOT new. I remember it going on over 7 years ago. For the most part it's a frickin riot! Carl's Jr. implimented a company directive to dispatch ALL non-essential employees to the parking lot ASAP when an "attack" occured. They were directed to look for vehicles with *BIG ANTENNAS* on them and demand ID from the occupants. Now from what *I* remember...1/4 wave antennas on 467Mhz are 5.75" and 154.570 are about 18"...HARDLY big antennas. The *LAST* thing I'm going to do is co-operate with some goomber's request to ID myself at a fast-food place, more likely to shoot him.
When the RF pranksters hit, the back door looked more like someone had called the I.N.S. hahahaha.
For all the times I ordered a burger with no sauce and got extra sauce, for the times I ordered chicken McNuggets and got some other crap
this is VERY funny revenge.
Try listening to these dumb-shits on thier "talk-around" channel..this is where they chat among themselves and NOT the window. Comments like " check out that piece of shit he is driving" or "that woman is a real beefarillo".It's like a teen-age partyline. The fools don't realize that people DO listen to their channel, mostly in disbelief. The management could listen and see whats going on, if they do it's apparant that they don't really care.
Places that run a "tight ship" really show, no screwing around, orders get filled fast and RIGHT. The ones that are run by "Bozos" will be treated like "Bozos". If they are clowning around, why not the pranksters?
Some tips to getting away with RF pranking......
HIDE THE TRANSCEIVER...put it in a bag or jacket pocket.
USE A REMOTE MIKE...keep mike in the palm of your hand out of sight.
SIT IN NEIGHBORING BIZ....they won't go into another place to look for you in there.
USE HEADPHONES IF OUTDOORS....make it look like your listening to a walkman.

RUN MAX POWER...high power(5-25 watts) causes the signal to bounce off all kinds of shit. Damn near impossible to get a direction unless the hunter has a damn good attenuator and a shielded RCVR. they will be chasing their tail.
TELL THEM WHY THEY ARE GETTING TRASHED...this is important, tell them your tired of getting shit and not your order, or it's cold when you get it, or the place is a pig-stye. People just don't "attack" because of no reason, your doing them because you dont like the place for one reason or another. The owner might take notice and correct the wrong-doings!! Would'nt you if it was your KFC or Taco-Bell?

You are right. This is nothing new but it is still fun.
For a twist on this, I once discovered that the local Baptist Church had purchased several VHF HT's that worked on 154.570 and had no PLs. They would station two volunteers in the parking lot during services to act as security guards and the Pastor had another rig to keep in touch with the outside men. Now, just for conversation sake, what if a certain somebody played an adult-type .wav file over the frequency? The Pastor scrambled for his radio to shut it off and for a while actually thought one of his own men was playing the sounds. They stopped using the radios shortly after.
And then there are those popular baby monitors that new parents like to place in the kids' room. They don't realize that these low power units transmit 24/7 and further, mom and dad don't realize that their love making can also be transmitted. All it takes is for one enterprising person to pick up the mic on a modified radio and say, "Hey, Dad! Stop hurting my mom!" Poor dad can quickly lose his erection and the rest of the night is shot.
There are many other possibilities and your imagination is the limit.
You don't spose the FBI will be interested in someone who transmits on baby monitor frequencies, do you? Roger says they are....and Roger is gonna forward these posts to Elliot Ness.
I will now live in fear of wannabe cop Roger for the rest of my days.

I'm assuming that the frequency chosen might have a slight effect on the range, but with 75 watts screaming from my mobile, what is the potential range with a clear line of sight? Can anyone approximate at all? There's repeaters galore here, but I am quite interested in simplex operations away from the great Dell of loomis.

Any info greatly appreciated. You're a great group.

Hello and thanks for reading this post.

I am looking for info on the Ham-Key iambic paddle made in the '70s in St. Louis.

These were copies of the famous Brown Bros. paddles.

I would like the opinion of anybody who had owned, or might still be using these old paddles. Are they pleasant to use? Do they have a good feel?

Are they easy to adjust, and do they stay in adjustment for a long time or do you have to fuss with them often?

I realize they are not Brown Bros., but I rather like the looks of them and want to know if it would be money well spent to purchase them.

Any opinions greatly appreciated.

Your output power is just one of the many variables that determines range. That gain and height of the antennas at each end of the circuit, as well as terrain, will play a much bigger role.

Going from 50 Watts to 75 Watts of transmit power will have almost no effect on range.

For true "line-of-sight" paths, the "Free Space Path Loss Equation" is one way to approximate range:

Path Loss (in dB) = 36.6 + 20 Log F + 20 Log D

Where F is frequency in MHz and D is Distance in miles. This equation assumes isotropic antennas at each end.

If you were trying to work the space shuttle at a distance of 250 miles away on 146 MHz, the path loss (from the above equation) would be 127.8 dB. If the shuttle's receiver needed -100 dBm of signal from you, then 1 Watt (or +30 dBm) of transmit power would be sufficient. (+30 dBm transmiited, minus 127.8 dB of path loss, equals -97.8 dBm received)

The problem is that few terrestrial paths are really line of sight. Once you get 10 or 20 miles away from another land based station, earth curvature and other obstructions begin to have a big effect.

Mobile-to-mobile communications will have the shortest range since antenna heights are so low. Mobile-to-base is better, but two base stations with high gain yagis on tall towers will have the best range of all. Switching from FM to ssb will also greatly increase range for a given power.

If you are in flat, open terrain in your mobile running 75 watts, and your buddy has a base station with an omnidirectional antenna at 40 feet, I would estimate your simplex range on 2M FM would be about 25 miles under normal propagation conditions.

It will depend primarily on the antenna height of the receiving station.
Power is only a secondary element. While it tends to make a difference
between scratchy copy and clear copy, the antennas are far more important.
Afterall the Mars rover is only putting out 15watts.

There's a guy up in Orlando, Fla. who has been running an
unlicensed station in the FM broadcast band for a while.
He claims 50 watts & a Comet vertical at 40 ft. I can
hear him on my car radio in most parts of Orland & vicinity.
I've heard him in Ocala & Sebring, which are about 60 miles
away, but that was probably temporary conditions.

407. FS: Motorola Dummyload & Testset

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-17 17:23:34 UTC
From: Walter Treftz <pendragon@netsignia.net>
Message-ID: <40096F7B.136235D9@netsignia.net>
Source record: 59750

No extra charge for packing & taking to USPO/UPS.
If interested, make reasonable offer + shipping.
Located in northern Florida. Items from estate. Load
is untested and the testset we have no idea how to use
it or what it does.

73 Walt (N4GL)
xxxpendragon@netsignia.net (take out the x"s)
(352) 637-1755

(6) RF Dummy Load ("RF Load Resistor")
Model: T1013A
Max power: 300w, 0-1000 mhz, 50-ohm. Very good
condx.

(1) Test Set for HT's (?)
Model: S1056A/S1057A/S1058A/S1059A (can't
determine which) Unmodified, untested,
electronically seems in excellent condition.
Wooden case dirty and a few dings. Missing 1 (of
2) blank plates across case above the meter.

Received confirmation of the FBI receiving the message, and a nice letter
congratulating my alertness!

Have a nice Day!

Don't propose breaking any laws though, someone might be watching!

There are dozens of people who monitor the Internet for anything looking like a threat. I just was willing to inform someone it is not wise. But I also did my duty to provide the FBI with some intelligence.
If you do not propose a crime, or support the commission of a crime, there is nothing to worry about. You are unlikely to show up in a pattern match search for more attention.

If I'm a crank, so be it!
But I'm in good company!
Always looking for potential problems is the price of being civilized!

Sleep well, your being watched over!

PS: Yea - I get it. But I'm being polite!

Yeah..right there Roger..your quite the fucking "Gumshoe". Well listen up there "Block-captain" you provided (supposedly) the FBI with ZERO intelligence...you overaged, failing bladder, shit in your pants old fart. Go try to impress the 13 year olds on AOL. Maybe there you can be a "COP". Your getting stale, your bag is leaking down your leg. Your not in ANY kind of Militia, your not anything but a tired old man with nothing better to do that hide behind your keyboard and try to impress us with your goody-two-shoes acts of internet policing.
You might frighten the kids, or MAYBE even the people on WEB-TV. I *KNOW* your nothing more than a loser, probably living in a retirement home or trailer. The only "GT" you are familiar with is the one on the back of your electric wheelchair.
Remember to at least put your teeth in before calling the FBI and whining. It makes to poor employee that has to actually listen to you spent a little less time with you. The funny part is this, when you bitch to the GOV'T *YOUR* the one that gets checked out first! I'm sure your labeled as a crank in their files by now.
At your age there Roger (see fossil) you should really concern yourself with enjoying what little time you have left on this fine earth, and focus on that instead. Your 65 years (very) old.You have maybe 5-7 years of productive life left. Try searching the internet for fun/exciting things to occupy your time and leave the "police" detail to the able ones.
I'm amused at just how stupid you can be.Your not intelligent in the least, I'm certain you live alone because no woman in her right mind with put up with a worthless shit like you. Your still living in the past (ex military druid I'm sure) and thats all you got.
You bring up the "Militia" like thats impressive? Thats nothing more than a $75 a week job. go away...i'm busy looking for this summers vacation on the other machine...either the Carribean or Hawaii again...Aruba might be a nice change.
Make sure you have the FBI contact me before I leave for 2 weeks. That way me and the wife can laugh about you on the way there....Eddie.

SMHL,

KINDLY RE-EDUCATE YOURSELF PRIOR TO YOUR NEXT VISIT TO CANADA.
(And Some States (Peoples Republics of...) in the USofA.)

TAXES:
* Taxes that you Pay are Not your Income: They Are The Revenue Of The
State.
* Your Income is Not Your Income: The State Created the Environment
for Employment and Your Job Exists to Benefit the State.
* Thus All the Income that Results from your Job: Is Due the State.
* So be 'thankful' that the State allows you keep some of Their Money.

SPEACH:
* Freedom of Speech is a direct result of the Freedom to Think
Correctly.
* First - Think before You Speak: (Are You Thinking Correctly?)
* Good Citizenship Requires that You Think Correctly. (You Want To Be
A Good Citizen Don't You?)
* Now - Are Your Thoughts Socially Correct and meant to 'foster' a
Positive Social Environment?
* If Not, Then Be Silent [.] (Think On The Silence - Silence Is Good!
Good Silence.)
* This has resulted in the Scientific Phenomena called the Silence of
the Great White North in Canada.

Long Ago and Far Away - I Remain ~ a Really Happy Fella - Born in the
USA !

A heart felt thank you to all that replied.

I guess my opinion that "Amateur Radio Service is not an essential element in our society" was incorrect. I appreciate all that took the time to show me where I was wrong. I stand corrected.

Re-reading my origanal post, I seem to have come off as a bit of an idiot. I think maybe I should have taken things a little slower.

And once again, thanks for the gerat advice.

421. Are there any REALLY good cordless phones out there?

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-18 15:58:13 UTC
From: fj40dana@hotmail.com
Message-ID: <9a118507.0401180758.240d768d@posting.google.com>
Source record: 59765
Cross-posted to: rec.radio.scanner,sci.electronics.repair,rec.radio.amateur.misc

I've owned many cordless phones over the years, including some of the newest 5.8 ghz and 2.4 ghz phones. Obviously, some work better then others. However, I've noticed a failing among ALL of them, maybe others have noticed the same.

When you are more than just a short distance from the base unit, these phones all work fine as long as you are not moving, i.e. standing still. If you start to move, the signal will begin to break up. I have a retail location that necessitates being about 150 to 200 feet from the base unit, and all of the newer phones that I've tried do this. They are unusable in my situation, because I have to move around while talking.

I have an older Uniden exs9110 that I bought maybe 4-5 years ago, it's a 900mhz phone with DSS, it doesn't have this problem. It's the best phone I've ever had, it has a very long range, I can walk a block away, moving, and it keeps the signal very strong.

None of the phones I've tried in the last year (and I've tried many) will do this, not even the 900 mhz units I've seen.
The ones that come the closest are the Panasonic units with dual base antennas, but they are still way behind performance to the old Uniden.

I have had other phones in the past besides the Uniden, they were all 900mhz units, DSS, and they ALL did better than ANY of the newer units.

If anyone knows of a current-production unit that will perform as well as my old Uniden, I'd really appreciate knowing what it is.

Please send me mail to: fj40dana@hotmail.com

thanks

Dana

That's OK. Never be afraid to make mistakes or "look like an idiot". You
have to take such risks to learn things in the real world. That's not
limited to ham radio either.

Dee D. Flint, N8UZE

425. Re: life is intrinsically sad

''Sad'' and ''miserable'' are not the same thing.

Happy is fine for little girls. The rest of us got work to do.

Ohio/Penn DX Bulletin No. 644

The Ohio/Penn DX PacketCluster
DX Bulletin No. 644
BID: $OPDX.644
January 19, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL DX Bulletin, K1BV, K1NA, K1XN & GoList, NC1L, AI2Q, N2KI, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, NX4D, K5LBU, W5UE, K8ND, K8YSE, W8LU, W9OL, CE6TBN, CT1EEB, CT1END, DL/VE3ZIK & www.contesting.info, DL1EK & The DX News Letter, DL5EBE, F5CWU & La Gazette du DX, F5NQL & UFT, F6AJA, G3SWH, G4JVG, HA5X, I1JQJ/IK1ADH & 425 DX News, JI6KVR & JA-IOTA Islands News, LA5YJ, LU6EF, M3SDE, SM5BFJ, T93Y, UY5XE, VA3RJ & ICPO and Z36W for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 11th/January, through Sunday, 18th/January there were 228 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE0Y, CE0Z, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GM, GU, GW, H4, HA, HB, HC, HC8, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J3, J6, J7, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T2, T32, T7, T9, TA, TF, TG, TI, TJ, TK, TL, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VQ9, VR, VU, XE, XT, XU, XX9, XZ, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

5W & ZK2, SAMOA AND NIUE. Ted/K8AQM and David/K8AA will again be operating from Samoa (5W) this summer between July 8-12th and July 19-21st. Their callsigns will be 5W0TR and 5W0DL with QSL via K8AA. During July 13-19th, they will be active from Niue (ZK2) as ZK2TR and ZK2DL (callsigns may

change) which will also be QSL via K8AA. They will be on for the IARU Radiosport Contest. Activity will mainly be on CW and RTTY with some SSB.

6W, SENEGAL. Andy, LX1DA, is expected to be active as 6W/LX1DA from now until April 8th. He will be active running only 6 watts! Andy kindly asks for discipline and will go QRT if pile-ups get too chaotic. It is also possible that he will visit other countries. QSL via his home callsign (Bureau is OK).

7Q, MALAWI. Operators Mark/G4AXX, Dick/GU4CHY, Steve/G4JVG and Rich/M5RIC, will operate from Malawi between April 18th and May 1st. The full 7Q7 callsign will be announced shortly before the start of the operation. Activity will be on all bands 80-10 meters on CW, SSB, RTTY and PSK using three stations with amplifiers and beam antennas. Kenwood (UK) has kindly agreed to sponsor the DXpedition and will be providing transceivers. QSL via G3LQP direct (Roger Brown, 262 Fir Tree Road, Epsom KT17 3NL, England) or via the bureau. Each of the team members will be making a personal donation to a Malawian aid charity (details to appear on their Web site). Donations from DX clubs and individuals for the DXpedition or the charity are welcome. They may be sent to G4JVG at: Steve Telenius-Lowe, 27 Hertford Road, Stevenage SG2 8RZ, England. A Web site has been set up and will include a log-search facility updated regularly at: http://www.malawi.digital-crocus.com

9Q0, DEM. REP. OF CONGO. Gus, SM5DIC (9U5D..etc.), will be active as 9Q0AR for the next 2 months starting January 20th. Activity should be on CW/SSB on the HF bands and 6 meters. QSL direct ONLY for this operation via SM5BFJ. Because of high Swedish postage, please send 2 USD or 1 new IRC.

AY1, SOUTH ORKNEY. Henry, LU4DXU, in Ushuaia will be leaving on January 23rd aboard the icebreaker and supply vessel "Almirante Irizar" which will go to Laurie Island, South Orkneys. Activity on board the ship will be LU4DXU/mm from Ushuaia to the South Orkneys (if permitted). He expects to land on Laurie Island on January 26th and stay at the Orcadas Base. Henry's operation will be for one month (between January 26th-February 29th). It has been reported that a special callsign AY1ZA has been officially issued by the "Comision Nacional de Comunicaciones" for the Antarctica campaign 2004. The suggested frequencies are:
SSB - 28390, 24930, 21190, 18130, 14290, 7090 and 3785
CW - 28035, 24905, 21035, 18090, 14035, 10120, 7025, 3515 and 1835
RTTY - 28120, 21090 and 14090
PSK31 - 21070 and 14070 kHz
Henry's HF equipment consists of an IC-751, a TL-922 linear, a 4 element KLM yagi, a rhombic antenna and some wire antennas. Most of Henry's activity will be split. QSL AY1ZA via LU4DXU: Horacio Enrique Ledo, Caracas 2664 or P.O.Box # 22., Martinez (1640) - Bs.As., ARGENTINA.

BW3, TAIWAN. Tatsuhiko, JD1BKQ, will be active as BW3/JD1BKQ during the CQ 160-Meter CW Contest (January 24-25th) as a Single-Op/Low Power entry. QSL via JR3PZW.

C6, BAHAMAS (Op Cancelled!). Wade, AA8LL, informs OPDX that he is sorry to announce the operation to the Bahamas and Crooked Island has been cancelled for now. There are several reasons, not the least of which is a moderate oil leak on their (only) airplane engine. The trip may be rescheduled in February or March. He will advise us when he knows.

DL6, GERMANY. Operators Bernd/DL6FBL and Joerg/DL8WPX will be active as DL6FBL during the CQ 160-Meter CW Contest (January 24-25th) as Multi-Single entry. Activity will be a Winter Field Day on a nearby airfield. Equipment will be a TenTec ORION, 2-element Inverted-V, Inverted-L, Single Beverage pointed to JA, Phased Beverages pointed to USA and a K9AY Loop. For more info, visit the Web page at: http://www.dl6fbl.de/dl6fbl/cq160

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports the following operations are approved for DXCC credit:
Uganda - 5X2A (July 29, 2003 to July 1, 2004)
Afghanistan - YA4F (September 2003 to April 2004)
YA8G (December 14, 2003 to January 31, 2004)

IOTA NEWS.....
CORRECTION. Last week we listed the operation of CE6TBN/8 to Riesco Island incorrectly. This island is IOTA SA-091, not SA-031.

EU-109. The North Wakefield Radio Club will be operating as GX4NOK/P from the Island of Inner Farne (Worked All Britain Ref: NU23NLD) on April 17th and 18th. The Farne Islands lie off the coast of Northumberland, and they are a one of Britain's most important seabird sanctuaries. They are grateful to the National Trust for granting them permission to operate from what is a one of the most wanted islands in the RSGB "Islands on the Air" program. Presently, they are assembling a team to work on multiple bands and modes. During their activation, they will be displaying their operating frequencies on the following Web site, and they hope that they can give as many people as possible the chance to work this rare location. Their Web page is:
http://myweb.tiscali.co.uk/g4nok/iota.htm
To read more about the Farne Islands, please visit the following Web page at:
http://www.nationaltrust.org.uk/scripts/nthandbook.dll?ACTION=PROPERTY&PROPERTYID=180

KG4, GUANTANAMO BAY. Look for Tip, N4SIA, to be active as KG4AS between January 20-28th. Activity will be on all bands. QSL to his home callsign.

LIGHTHOUSE ACTIVITY. The Metro Amateur Radio Club, K9Y, will be active from the Chicago Harbor Breakwater South Lighthouse (ARLHS USA-1185) between 1600z February 7th and 2359z February 8th. Activity will be on 40, 20, 15 and 10 meters CW and SSB. QSL via N9TN, direct (Bill Borgstrom, 1330 W Columbia Ave, Chicago, IL 60626) with a #10 SASE (for U.S. stations) or SAE + IRC (or sufficient funds for postage) for DX stations.

LU/L, ARGENTINA (Rare Province). Alberto/LU1DZ, Hector/LU6UO and Fernando/LW2DX, are going to Corrientes Province, to operate from this "rare"

Argentinian Province, between January 22-27th. They will be using the callsigns LU1DZ/L, LU6UO/L and LW2DX/L; where "L" stands for Corrientes Province, due to LU regulations. They plan to operate on all HF bands, from 160-6 meters, both CW and SSB. ADDED NOTE: Ted, K1BV, reports that it this operation is important for the "Toda Republica Argentina" award. For details, visit the Web page at: http://www.dxawards.com/

LX5, LUXEMBOURG. Operators Manfred/DK2OY and Helmut/DK6WL will be active as LX5A during the CQ 160-Meter CW Contest (January 24-25th) as a Multi-Single entry. QSL via LX1RQ.

OPERATORS NEEDED FOR DXPEDITION. Frosty, K5LBU, reports that they still have room for about 3 more Hams who might like to go to Swaziland in March to operate. They will fly out of Atlanta on SouthAfrican Airlines on the morning of the 11th of March. Right now they are showing a special fare of around 1100.00 USDs RT. If you would like to join them let Frosty know. His E-mail address is: frosty1@pdq.net
DXpedition's Web page is at: http://www.dxsafari.com

P4, ARUBA. Tony, N2KI, will be active as P40KI between May 20-26th. His activity will be mainly on RTTY and SSB. He will try and cover as many bands as possible.

PJ2, NETHERLANDS ANTILLES. Operators Tom/W8TK, Jim/W0NB, Dan/N1ZZ, Goose/W8AV and Geoff/W0CG will be active as PJ2T from Curacao during the ARRL DX CW Contest (February 21-22nd) as a Multi-2 entry. QSL via N9AG. ADDED NOTE: Jeff, K8ND, has posted some photos from the 2003 CQWW CW Contest Multi-2 operation at Signal Point (PJ2T). Ops for the CQWW CW Contest at PJ2T were W0CG/PJ2DX, K4BAI, K8MFO, S50R, W8WTS, N8BJQ and K8ND. The Web page is: http://home.columbus.rr.com/jmaass/Radio/CQWWCW_2003/PJ2T_CQWWCW_2003.htm

PJ4, NETHERLANDS ANTILLES. Operators Jeff/KU8E, Mike/W9RE, Mark/N5OT and Harold/N4GG will be active as PJ4R(?) (not sure of callsign yet) from Bonaire during the ARRL DX CW Contest (February 21-22nd) as a Multi-2 entry.

PJ5, ST. EUSTATIUS (Update). Jim, K1NA, informed OPDX that he will be on St. Eustatius for about a month starting approximately February 18th. His callsign will be PJ5NA. He will be operating on 160-10 meters CW only outside of the contests. Remember, he will be active during the ARRL DX CW Contest and casually during the ARRL DX Phone Contest. QSL via K1NA.

PR0, FERNANDO DE NORONHA. Look for Bill, W5SJ, to be active as PR0F between January 21-27th. Activity will be mainly on CW during the evenings on 160, 80 and 40 meters. He will also be an entry in the upcoming CQWW 160-Meter CW Contest. QSL via operator's instructions.

QSL INFO AND NEWS.....
QSL STATUS for 9N7YJ, XU7ACW AND MI0YJR. Hugo, LA5YJ, informs OPDX of the following QSL updates:
9N7YJ -- All direct cards with sufficient return postage and SAE are now replied immediately. He has received about 2000 requests so far. Cards sent via the bureau will take much

more time. He has started to reply to the bureau cards;
however, direct cards have priority.
XU7ACW -- Cards are not yet printed. He states that he will finish
all direct request during February.
MI0YJR -- Are "OK" via the LA bureau as well.
Direct QSLs can be sent to: Hugo Ark, Rute 504, N-2840 REINSVOLL,
NORWAY. Hugo also adds/states, "The postage from Norway to the rest of
the world has again been increased from NKr. 10.00 to NKr. 10.50, and
at the same time 1 USD is down to NKr. 6.79.!!! Send a SAE plus 1 IRC
(or 2 US) or I will just reply via the bureau. This goes for all
countries (including Japan and Russia.) As you can see I have managed
to get acceptance for receiving cards via the LA bureau. All logs are
done by hand and checked out by hand as well. No computer log available.
At the moment, I am just having enjoyed a nice holiday with the family
awaiting a minor operation at a local hospital." OPDX hopes things go
well for Hugo with a speedy recovery from his operation. He also told
OPDX that he does not know where he will go next, but it will not be
anytime soon; at least not until late February.

Doug, NX4D, provides the correct QSL address for the present 4U1ITU
operation by Ivan, OM3CGN (from Ivan). QSL to: Ivan Gombos, Mission
Slovaque, 9 Ancienne Route, 1218 Grand Saconnex, Geneva, Switzerland.
For postage, please use HB9 stamps (1.8 CHF) or 2 green stamps.

Jose, CT1EEB, reports that he has uploaded the following logs into
the "Logbook of The World" (LoTW): CT1EEB, VK8CS and 4W6EB. Look for
CU3/CT1EEB to follow soon.

QSL CT1GFK/p, CT1GFQ/p, CT2IHP/p, CT2IUA/p and CT1EHX/p via their
home callsigns. Activity was from Barro Island (not IOTA, DIP AL-21;
New Reference DIP).

Boris, T93Y, informs OPDX that the FM/T93Y QSL cards have been received
from the printer and that all direct, bureau and E-mail requests have
been processed. Boris states, "All direct requests are sent via Air
Mail, which is not very fast over here, so please wait until end of
the month before you start sending E-mails to me." More information
about this contest DXpedition, including detailed information how to
QSL to Bosnia Herzegovina, Contest statistics, LOG Search and Pictures
are available at: http://www.t93y.com/fm2003
For Bureau QSL request, his E-mail address is: fm2003@t93y.com

NOT THE MANAGER! Ken, W8LU, is NOT the QSL Manager for KH7R. Ken
states, "I continue to get requests for KH7R confirmations. I think
this started because I do manage for the late KL7Y who last operated
from the KH7R contest station immediately before his untimely passing."

Randy, W5UE, reports that the QSLs for the recent CQWW SSB Contest
PZ5A operation and pre/post contest operation by PZ5UE, PZ5FF and
PZ5CQ have been received from the printer and direct requests are
now being answered. They hope to have all direct requests received
to date answered within 2 weeks. Refer to the Web page for additional

info at: http://www.mdxa.org/pz_2003.html

QSL MANAGER UA3FDX is now the manager for the following callsigns: 4K7Z, 4K1V, 4K60AA, 4J1S, 4K7DWZ, 4K50V, 4K51V, 4K52V, 4K53V and 4K54V. His address is: Vladimir Ulyanov, P.O. Box 10, Moscow 121615, RUSSIA. His E-mail is: ua3fdx@au.ru

Geo, UY5XE, informs OPDX that he has received the log from UA0ZC for the UA0ZAL/p operation (AS-039, October 2001). QSL will be printed between January 25th and February 15th. Cards will be sent out after February 15th.

Bill, W9OL, announed he is putting the logs of YB1AQC, February 16, 1988 through October 11, 1988, into the LoTW. He states, "Got some of them up and will put the rest as I transcribe them. I will continue to provide hardcard QSLs upon request. USA only requires a SASE. Non USA only requires a SAE, 1 IRC is sufficient. All bureau requests will be replied via the bureau. If you feel that you have a QSO that is not included in the LoTW log, feel free to E-mail me with particulars and I will re-examine the log." His E-mail is: w9ol@billnjudy.com

SILENT KEY. The Z37M Radio Club reports that Petar "Pepi" Krajcev, Z31PK, became a Silent Key (SK) on January 13th at the age of 64. They state, "He was one of the few old timers here in Z3-land and well know DX-er. Many of active HAM's in Z3 learn from him a lot about constructions and building home made equipments." Pepi was also founder and President of Macedonian CW Group (MCWG). OPDX and its readers would like to send out our deepest sympathy to Pepi's family and friends.

SPECIAL EVENT (Correction). Chris, HA5X, informed OPDX this past week he sent us a "typo" in the Web page address for the HA2004EU activity. The correct URL is: http://ha2004eu.hu/

V8, BRUNEI. Jim/G3RTE, Phil/G3SWH and Ray/HS0ZDZ (aka G3NOM), who are all members of FOC and CDXC, in association with Greg, V85GD, will be mounting a multi-band, multi-mode DXpedition to Negara Brunei Darussalam (Brunei) between March 8-15th. The main operation will take place from the QTH of Greg, V85GD, under the special callsign of V8JIM. A single operator entry will also be made in the RSGB's Commonwealth Contest using the special callsign of V8NOM. Brunei is #82 in the 2003 Most Wanted survey by the 425 DX News (#83 in The DX Magazine Survey). The January 2003 ARRL listing shows Brunei at #129. In addition, Brunei counts as OC-088 for the Islands on the Air (IOTA) award. Activity is planned for all bands from 160-10 meters and will include CW, SSB and digital modes. Propagation permitting, they plan to have three stations on the air for as many hours everyday as is possible. Their main objective is to work as many European, North American and ROTW stations on as many bands as possible. They have set an expedition target of 12,000 QSOs, with an approximately equal split between CW, SSB and digital modes. The QSL Manager for V8JIM will be G3SWH and for V8NOM will be GM4FDM. They are happy to meet the costs of transport to and from Brunei, but will appreciate sponsorship and donations towards their living expenses, printing QSLs and the like. Any surplus will be

equally distributed between the operators to offset their personal contributions.

XF4, REVILLA GIGEDO. Plans are still a go for this one in March. A QSL Manager has been announced. This operation will use XE1IH: Enrique Garcia, P.O. Box 118-481, Mexico, D.F 07051.

YI, IRAQ. Tim, M3SDE, reported last Tuesday that Darran, M1DAZ, has gone back to work in Iraq. He will be based in Umm Qasar in the South of Iraq. Darran will be once again active as YI9DAZ, and he will be active on HF bands with a Yaesu FT100D using an Atas 120 antenna and a G5RV wire. Although Darran is not there on a DXpedition status, he will be transmitting when he is not working and will makes announcements on the DX Central Cluster when he is live on air. Darran is working for the British Forces Broadcasting Services and looks after a radio Studio with a KU-Band multiplexed uplink, and numerous downlinks along with a network of broadcast transmitters. He was spotted this past week on 3786 kHz at 2009z and 14345 kHz at 1815z. QSL is direct to: Darran, PO Box 17, Kenilworth, Warwickshire, CV8 1SF ENGLAND.

YI, IRAQ. Kaspars, YL1ZF, is now active from Baghdad as YI9ZF for the coming 6-8 months. Kaspars prefers CW but also has equipment for RTTY. He can be found on most bands and is a very good CW/Contest-Op. QSL via SM1TDE, Eric Wennstrom, P.O. Box 94, SE-62016 Ljugarn, Sweden or via the SM Bureau.

YI, IRAQ. Dwayne, KE4RVT, annouced that as of 1700z January 16th, he will be active as KE4RVT/YI. He will be operating CW/SSB QRO/QRP on 40-10 meters. He will be in Iraq for 12-18 months and will be operating during his downtime from work. Dwayne states a standard QSL will be available or an E-QSL.

427. Amateur Radio Newsline™ Report 1379 – January 16, 2004

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-18 21:34:43 UTC
From: radionews@aol.com
Message-ID: <20040118163443.23011.00000267@mb-m04.aol.com>
Source record: 59771

Amateur Radio Newsline™ Report 1379 – January 16, 2004

The following is a closed circuit advisory for Amateur Radio Newsline bulletin stations. It is not necessarily for broadcast.

According to Support Fund Administrator Andy Jarema, N6TCQ, Amateur Radio Newsline has only received enough funding of late to keep the service going for another month or so. In other words, the bills from last November have been paid , but now money has to be raised to keep from loosing the phones and e-mail service from bills accrued in December.

Andy says that Newsline continues to exist hand to mouth on a week to week basis. He says that It is up to you and the listeners to make sure that it is funded so that it can continue to provide this vital service. Otherwise he may soon be forced to pull the plug.

Please help us to keep The Amateur Radio Newsline on the air. Our address is the Amateur Radio Newsline Support Fund, Post Office Box 660937 in Arcadia California. The Zipcode is 91066. Again and as always, we thank you.

That ends the closed circuit advisory with Amateur Radio Newsline report number 1379 with a release date of Friday, January 16, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. The ARRL Board meets to discuss the future of ham radio and lots of news on the B-P-L front. Find out the details on Amateur Radio Newsline report number 1379 coming
your way right now.

**

RESTRUCTURING: ARRL BOD MEETS IN CT JAN 16-17 TO DISCUSS WRC-03

Look for some major changes in the structure of the United States Amateur Radio service to be proposed or at least put open to study. This as the American Radio Relay Leagues Board of Directors holds its first annual meeting of 2004 as this newscast goes to air. Amateur Radio Newsline’s Henry Feinberg, K2SSQ, reports:

--

What’s to come under the ARRL Board of Directors scrutiny? The ARRL Letter points to the big item being the implementation of changes in US Amateur Radio rules. This, in the wake of World Radiocommunication Conference of 2003.

Among other significant changes, W-R-C 03 delegates agreed last summer to leave up to individual countries whether to require a Morse code test for access to

amateur high-frequency allocations. Several nations have already dropped the code testing requirement for High Frequency access. In the United States, the FCC last year invited public comments on 14 Morse-related petitions for rule making, but it has not yet acted on the issue. When it meets, the ARRL Board is expected to discuss in detail recommendations in response to W-R-C 03 that were developed during last November's meeting of the ARRL Executive Committee.

Most observers generally believe that there will not be any major action by the FCC to implement W-R-C 03 changes until it hears from the League. This Board meeting is expected to generate an ARRL position that will be transmitted to the regulatory agency, but you will have to wait until the meeting is over and the League issues its own statement to find out what that position is. We suggest you keep an eye on www.arrl.org the next few days for any breaking news on ARRL Board decisions.

For the Amateur Radio Newsline, I’m Henry Feinberg, K2SSQ, in New Jersey.

--

Among other actions, the Board also will elect members to the Executive Committee and appoint three directors to the ARRL Foundation Board. The Board also will elect officers for the next two years. Incumbent President Jim Haynie, W5JBP, has indicated that he plans to run for a third term. (ARRL Letter, others)

**

RESTRUCTURING: IARU REGION 1 TO MEET IN FEB

Meantime the International Amateur Radio Union will be holding its next regional conference in a few weeks. Q-News Graham Kemp, VK4BB, is here with that story:

--

The Twelfth Regional Conference Is being held from February 16 - 20, 2004 in Taipei, Taiwan. There are Working Groups, where most if not all the business is discussed and these run parallel to one another. A wealth of information is exchanged on the floor at these Working Groups.

There are formal discussion times and of course many informal discussions and gatherings such as over meals and receptions and so on. Contacts made at these conferences assist when an issue comes up back home, help can be sought on a first name basis.

There will be workshops on two important topics. The first is a Workshop on WRC 2003. It will include a detailed discussion on the new Article 25. To facilitate the discussion, a paper by Michael Owen VK3KI is being circulated with the Conference papers so that all societies will be able to make an advance study and brief their delegation on issues to raise and matters for seeking clarification.

The other Workshop will be on The Society's IARU Liaison Officer. The Workshop will help gain a better appreciation of the duties and responsibilities of the

Liaison Officer and hopefully lead to greater satisfaction from the work carried out by Liaison Officers.

Graham Kemp, VK4BB, reporting.
--

More information on this upcoming conference can be found on-line at the Japan Amateur Radio Leagues website at www.jarl.or.jp/iaru-r3 (Q-News)

**

THE BPL FIGHT: AUSTRIA TURNS OFF ITS BPL

And a big win overseas on the B-P-L front as reported by the ARRL Letter. The Austrian Amateur Transmitter Federation says that a Broadband over Power Line field test in the city of Linz has been cut short as a result of excessive radio interference. According to the national ham radio society, the Government Ministry for Commerce, Innovation and Technology closed down Linz Power Company's B-P-L pilot project because it was generating interference on the HF bands.

Shortwave broadcaster Radio Austria says the case that brought the issue to a head was a Red Cross report. One that documented that emergency services radio traffic during a disaster response drill last May was the victim of massive B-P-L interference. According to the broadcaster, measurements were said to have indicated that radiation from the B-P-L system exceeded permissible field strength levels by a factor of 10,000.

Last fall, Linz amateurs and their national leaders got together with power company representatives in an effort to resolve BPL's incompatibility with High Frequency ham radio operation. The meetings followed news reports of interference to emergency service communications and QRM complaints from several area hams.

The Commerce Ministry Order not only means the end of the Linz B-P-L pilot project. It also perminently curtails any future the deployment of this technology in Austria. (ARRL)

THE BPL FIGHT: PANASONIC TO INTRODUCE HOME BPL SYSTEM

A form of Broadband Over Powerline may be coming to a house near you. This as Matsushita Electric announces that it has developed a high-speed home power line IP networking technology capable of high-definition video transmission.

Amateur Radio Newsline’s Bruce Tennant, K6PZW has more:

--

Best known for its Panasonic-brand products, a newly developed Matsushita Electric technology will make it possible to provide broadband connectivity to every room in a house via existing home power lines. This, using an Panasonic branded adapter about the size of an audiocassette that the company says cannot be interfere with by radio amateurs.

The adapter contains a power plug, power supply, LAN connector and an L-S-I chipset that converts broadband data into signals that can travel over a power line. The unit connects a broadband Internet link such as D-S-L or optical fiber lines to the existing power lines in the home. According to Panasonic, a user simply plugs the P-L-C adapter into any AC power outlet to create a home broadband networking without installing new cabling.

The most interersting claim being made by Panasonic is that the new technology it calls H-D P-L-C resists interference from other signals such as those from ham radio that the company says often use the same frequencies as wired communications. In order to realize this capability, Panasonic claims that it combined Orthogonal Frequency Division Multiplexing and Wavelet technology to reduce the noise caused by the interference down to one-fifth of typical noise levels. This the company says creates a proprietary interference-resistant and ultra-high-speed modulation-demodulation method without use of additional filter circuitry that eliminates the frequencies where interference is likely to occur. What impact that this new technology will have on over-the-air radio reception by hams and other spectrum users is not addressed.

Panasonic expects to introduce P-L-C adapters for both consumer and office use by the end of 2004 providing that the HomePlug Powerline Alliance determines a final specification in the summer of 2004. An L-S-I chipset will also become commercially available at the same time.

For the Amateur Radio Newsline, I’m Bruce Tennant, K6PZW, reporting.

--

Matsushita Electric and its Panasonic subsidiary exhibited this new Powerline Communications technology at 2004 International CES held last week in Las Vegas. Both companies are members of the HomePlug Alliance which has been working with the ARRL to notch out amateur frequencies from its powerline communications signals. (ARNewsline(tm), CQ -- from news releases)

**

THE BPL FIGHT: W1RFI SPEAKS IN PA

Meantime, one of the leading experts in the area of Broadband Over Powerline interference has made his thoughts known. Speaking at Frankford Radio Club meeting on in Philadelphia last Tuesday night, Ed Hare, W1RFI, said that B-P-L is not good news for the radio spectrum. Amateur Radio Newsline’s Mark Abramovich, N-T-3-V, was there and has this report:

--

When Ed Hare talks, amateurs and others listen.

During an hour-long presentation at the FRC's meeting on the University of Sciences campus here in Philadelphia, Hare made the case that Broadband Over Power Lines is a threat to the future of the hobby.

"If these B-P-L systems came to my neighborhood, HF Amateur Radio as I know it would be over," he explains. "I mean S-9 on multiple bands would seriously cripple me.

Oh, we've had more serious threats when Amateur Radio was shut down after the world wars, but this ranks up there with it in terms of the potential to cause harm to the types of Amateur Radio that many of us enjoy doing."

The reason: Hare says B-P-L field tests by a handful of electric utilities use power line systems to carry high-frequency or HF signals to homes and businesses to give them connections to the internet.

"My neighbor's computer system is a local interference problem," he says. "I'm not going to hear the one three blocks up the street.

But Broadband over Power Line, they're going to intentially conduct those signals onto the overhead lines that will run through my house and then they're going to build this as big as an entire neighborhood. Clearly it has a different interference potential."

Hare says he's charted the interference on 20-meters, calculating it on a national and worldwide scale should B-P-L be rolled out.

"The ability of HF to sustain worldwide communication if you have 30-microvolts per meter of noise will not exist," Hare says.

He says the interference potential goes beyond the ham bands.

"This will affect military spectrum, this will affect international broadcasting spectrum, this will affect other government spectrum," Hare says. "This will affect commercial HF spectrum and as I tune outside the ham bands, you know what? That's not a radio wasteland, there's a lot of stuff there."

And, Hare notes, there's serious concern about medical-diagnostic devices.

"I go to my doctor's office, it's a house in a residential neighborhood," Hare says. "And he's going to hook me up to the E-K-G machine to find out whether I'm going to die before the end of the day. And, if that thing's interfered with, maybe I'll get a false positive or a false negative."

Finally, Hare says the amateur community is not alone.

"I'm very pleased to see groups like FEMA, NTIA and others getting involved with this saying essentially the same things ARRL is doing based on their work," Hare says.

"They, too, see a serious inteference potential to HF that needs to be addressed before B-P-L could ever be considered in any way."

For Amateur Radio Newsline, I'm Mark Abramowicz NT3V in Philadelphia.

--

More on the fight to stop B-P-L in future Amateur Radio Newsline reports. (ARNewsline(tm))

RESCUE RADIO: NIUE DEVASTATION REPORTED BY HAM RADIO

From the rescue radio file, word that radio amateurs became a lifeline when tropical cyclone Heta ripped through the tiny island republic of Niue two weeks ago. The storm left the tropical paradise with no regular means of communicating with the outside world and summoning much needed relief aid. Enter ham radio.

According to news reports, a radio operator on the island put out a a call for help which was answered by Steve McCully, W7TZ/ZF2CQ, in the California community of Oak Hills. In fact, it was McCully who phoned the New Zealand Consul General in Los Angeles and provided that government with its first notification that Niue had been ravaged by 186 mile per hour winds.

More is on-line at http://www.vvdailypress.com/cgi-bin/newspro/viewnews.cgi?newsid1073499379, 43275, http://www.alertnet.org/thenews/newsdesk/SYD184348.htm and http://www.lonelyplanet.com/destinations/pacific/niue/ (CGC, WA6MCL)

**

RADIO ALLOCATIONS: RULES FOR 5.9 GHZ INTELLIGENT TRANSPORTATION ADOPTED

The FCC has adopted service and licensing rules for the 5.9 GHz Band for Dedicated Short Range Communications or D-S-R-C. This, from 5.850 to 5.925 Ghz in the Intelligent Transportation Systems Radio Service.

According to the Commission, DSRC systems will provide a limited-range, wireless link to transfer information between vehicles traveling at high speeds and roadside units or other vehicles. Some examples include intersection collision avoidance, work zone warnings, road condition warnings, electronic toll collections, and electronic payment for gas, fast food, or parking.

More is on the web at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-242309A1.doc (CGC)

**

ENFORCEMENT: 10 METERS NON-HAMS IN THE SOUTH PACIFIC

Three new non ham radio intruders to the 10 meter band have been monitored down-under by Wayne Featherstone VK4ZRT. All appear to be Asian in location and all operate the A3E mode at around 0700 U-T-C. Listen for them on 28.215, 28.225 decimal 25 and on 28.285 Mhz. (Q-News)

**

ENFORCEMENT: $5.4 MILLION DOLLAR FAX FINE

Some good news for anyone who is sick and tired of getting unsolicited junk faxes. Federal regulators approved a record $5.4 million fine against a company for faxing unsolicited
advertisements to consumers.

The five-member commission unanimously approved the penalty on Wednesday, December 31st but did not announce its decision until Monday, January 5th. The FCC said Fax.com accrued the penalty because it violated the rules 489 separate times incurring an $11,000 fine for each instance. In affirming the fine the commission rejected arguments from Fax.com that the ban on unsolicited faxes was unconstitutional and that the fine was excessive.

The Federal Communications Commission said the fine given to Fax.com, Inc. was the largest ever for violating do-not-fax rules that went into effect in 1992. Fax.com sends faxes on behalf of clients that pay a fee. Its website claims that the company offers the industry's largest fax number database of more than 30 million numbers. Company officials did not immediately respond to a requests from the media for comment. (FCC)

**

COMMUNICATIONS LAW: BLAME THE COMPUTER

Prosecutors looking to throw the book at accused computer hackers have come across a legal defense. In four words, “the computer did it.” And in this era of hijacked PCs and laptops, jury’s are believing it.

In one case in the U-K, nineteen year old Aaron Caffrey was recently acquitted on charges of hacking into the computer system of the Houston Pilots back in 2001. Houston Pilots is an independent contractor for the Port of Houston.

Caffrey had been charged with breaking into the system and crippling the server that provides scheduling information for all ships entering the world's sixth-largest port. Although authorities traced the hack back to Caffrey's computer, he claimed that someone must have remotely planted a "trojan program" onto it. That it was the trojan and not him that did the hacking. (Published reports)

HAMFESTS AND CONVENTIONS: THE 44TH MIAMI TROPICAL HAMBOREE

Turning to the hamfest and convention scene, the 2004 season really kicks off the weekend of February 7th and 8th. This, when the doors of the Miami Dade County Fair Expo Center in Florida swing open to welcome the 44th Tropical

Hamboree.

This years Hamboree has a long list of great programs with speakers that include such notables as ARRL President Haynie W5JPB, FCC chief rules enforcer Riley Hollingsworth K4ZDH, IARU President Larry Price W4RA, CQ Communications' Rich Moseson W2VU and Radio School's Gordon West WB6NOA. They will take part in a free form round-table discussion of the future of the Amateur Radio service. Moseson and West will later join Florida’s own Sherri Bower, W4STB, in the conventions Public Relations Forum.

Attendees will also get to hear the latest DXpedition Adventures presented by South Florida DX Association and learn about Amateur Radio at the National Hurricane Center. There will be lots of vendors and all the other niceties that make the Miami Tropical Hamboree a must attend on the convention circuit. The event is sponsored by the Dade Radio Club of Miami, Inc. More information is on-line at www.hamboree.org (Tropical Hamboree)

**

HAMFESTS AND CONVENTIONS: CHARLOTTE COUNTY HAMFEST

Meantime, March 6th is the date for the Charlotte County Hamfest in Englewood, Minnesota. Sponsored by the Englewood Amateur Radio Society, the event will feature swap tables, tailgating and overnight hookups for those bringing a recreational vehicle. The venue is the Charlotte County Fairgrounds and you can find out more in cyberspace at www.earsradioclub.org (Worldradio)

**

HAM RADIO IN SPACE: AIR LEAK ON ISS LEADS TO CONTACT CANCELLATION

A small air leak on board the International Space Station forced cancellation of the Monday, January 12th scheduled contact with the Armstrong Middle School in Flint, Michigan. The I-S-S recently began experiencing the slight loss of air pressure, which the crew had to locate and repair. This meant that they had to devote all their time to resolving this issue using special ultrasonic monitoring. The leak was located and repaired late the same day. Contacts missed are in the process of being rescheduled. (ARISS)

**

HAM RADIO IN SPACE: UPDATE ON OPERATIONS FROM ARISS

We also have an update on what’s happening with the new radio gear on board the International Space Station and why hams on the ground heard un proto packets for a while. Amateur Radio Newsline’s David Black, KB4KCH, is here with the details:

--
Frank Bauer, KA3HDO, is the Chairman of ARISS. Amateur Radio on the International Space Station. And Bauer says that he has been sifting through the many e-mails he has received over the past few days regarding ham radio operations from the orbiting outpost.

Bauer says that the new Kenwood D 700 radio recently delivered to the ISS is still in what he terms as its "raw" form. In other words, the ARISS team has not yet run a formal engineering checkout of the new hardware and the ISS crew has not gotten the operations procedures uplinked to them.

According to Bauer, at this point in time the Kenwood radio system is not properly configured for digital operations. A reconfiguration change occurred after it was brought on line which has led to this issue. So, what hams see in the way of packets coming from the station right now will probably not be what they will see in the future.

As to the signal fading problem Bauer says that its probably due to the antenna that’s currently in use. The astro-hams are now using the new antenna system located on the Service Module and is a single, bottom mounted unit. Since the structure of ISS is very large, it is quite possible that the ham radio signals are getting some blockage.

Bauer says that ARISS will continue to evaluate the antenna system performance. He notes that there are now 4 antenna systems that can support 2 meter and 70 cm operation. This says Bauer gives a lot of possibilities with the antennas, including signal splitting, if need be.

As to the packet signals heard during a recent school contact? Those who heard it heard history being made. The first ever multiple radio operations from the International Space Station. While the older Ericsson radio system was doing the school contact, the new Kenwood radio system was active doing packet. It was also -- perhaps -- the first man made Q-R-M from space.

For the Amateur Radio Newsline, I’m David Black, KB4KCH

--

Bauer says that the astro-hams kind of surprised everyone on the ground by getting the radio system installed much earlier than they had anticipated. As a result, the Amateur Radio on the International Spasce Station team has been working feverishly with the space agencies to get the procedures uplinked and engineering checkouts scheduled. (ARISS)

**

INTERNATIONAL - INDIA: HAM RADIO AT THE CHILDREN’S SCIENCE CONGRESS

On the international scene, ham radio was a part of India’s 11th National Children Science Congress. Organized by the an educational group in the city of Lucknow the event ran from the 27th to the 31st December with more than 2000 students, teachers and science promoters from various parts of that nation taking part.

According to VU2DCT, Lucknow hams were also called by program organizers to give the demonstration on Amateur Radio for the benefit of participants. Most of attendees were astonished to listen a live QSO between VU2WAP and a ham in Columbia, South America. During their presentation the hams emphasized the role of Amateur Radio in disaster situations. (Q-News)

**

INTERNATIONAL - SOUTH KOREA: HOMEGROWN SOFTWARE IS BEST

South Korea is considering requiring mobile phone operators to use locally developed software for downloading music and games. According to news reports, that nations Information and Communication Ministry is pushing for the compulsory use of in-country developed software for downloading on new mobile phones in order to standardize the wireless Internet platform.

South Korea is Asia's third largest mobile market and one of the fastest-growing wireless Internet markets. As of the beginning of 2004 there are 33.44 million mobile phone subscribers, or about 70 percent of the country's 48 million population. (Science Today)

**

DX

In D-X, word that the Five Star DX’ers Association has announced plans for a very large-scale DXpedition to Rodrigues Island in March and April next year. The callsign will be 3B9C. An international team of nearly 30 will operate no fewer than 15 separate stations will take to the air on virtually every band and mode possible. The Five Star DX’ers Association is the same group that organized the very successful operation from the Spratly Islands in 1998 and the subsequent record breaking D68C DXpedition to the Comoros in February 2001. (IRTS)

Also, word that DJ4KW and D-K-9-G-G will be active from Belize until the end of February. Callsigns being used are V31YN on CW and V31GW on RTTY. Activity is on 160 through 10 meters. Please QSL as directed on the air. (OPDX)

And for those of you who perfer your D-X and D-X awards a bit higher in frequency, Peter Heins, N6ZE says that he will be able to conduct VUCC field checking in Springfield, Massachusettes several times during the next few weeks. You must be a current ARRL member to avail yourself of this service. Those wanting to take advantage of Pete’s offer should e-mail him as soon as possible to n6ze@aol.com (N6ZE)

**

THAT FINAL ITEM: THE POTTY MOUTH AND THE VURGER

And finally this weeek, customers at a Troy, Michigan Burger King are getting something extra with their orders that’s a little harder to swallow than a hamburger and fries. And its coming by radio. Rick Johnson, KA9VZD, is here with a complete menu on this one:

--
The Detroit News is reporting that police in nearby Troy are looking for the person who has found a way to broadcast on the same frequency as a local Burger King drive-through radio system. The jammer has interrupted business transactions with obscene remarks on several occasions that have startled customers.

The most recent incident took place on January 8th. It happened when the manager went outside to apologize to customers and look for the source of the

salty talk. Suddenly a voice boomed from the speaker and said -- quote: “There’s nothing you or the police can do about this, so get your fat -- err -- lets say posterior -- take your fat posterior back inside and take your goons with you.”

Police suspect the calls are being made by a mobile radio transmitter or walkie-talkie in the vacinity of the restaurant. Illegal use of any telecommunications device is a misdemeanor in the city of Troy. And as we all know, its also a serious violation of Federal law.

Heading out the door for some fast food, I’m Rick Johnson, KA9VZD, reporting for the Amateur Radio Newsline.

Hey -- can you make that a double cheeseburger and a double order of rings. Yeah and hold the mayo....

--

Sounds as if the story made Rick a bit hungry. And oh yes. Troy police say that they have the FCC for assistance to track down this all beef potty-mouth with a mustard laced tongue. (ARNewsline(tm) from vasrious sources)

help which was answered by Steve McCully, W7TZ/ZF2CQ, in the California community of Oak Hills. In fact, it was McCully who phoned the New Zealand Consul General in Los Angeles and provided that government with its first notification that Niue had been ravaged by 186 mile per hour winds.

NOTE: "The storm left the tropical paradise with no regular means of communicating with the outside world and summoning much needed relief aid. Enter ham radio."

429. Re: Are there any REALLY good cordless phones out there?

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-18 22:54:12 UTC
From: jerryg50@hotmail.com
Message-ID: <460a833b.0401181454.32b85c3a@posting.google.com>
Source record: 59773
Cross-posted to: rec.radio.scanner,sci.electronics.repair,rec.radio.amateur.misc

Panasonic makes a phone called the Gigarange series. These are about
the best I have seen in consumer cordless phones. There are also
industrial cordless phones that work with a system. These are the
ones that you see in hospitals, and large department stors for the
employees to use while they are working.

The industrial phone systems are very expensive, but very effictive in
their performance. Consult your local phone company about industrial
cordless phone systems, or a phone installation company.

As for the life of these phones, they all fail easily when dropped.
Many of the users drop them often, thus causing damage. With a lot of
use, the keypad may also wear out. The higher end phones are
servicable by the manufacture, but they will charge for this.

If you are a single user in a small business, you may find it cheaper
over the long run to use only a cell phone for your business. This
way, if you are in a good cell phone reception area, you will not have
this problem.

If you look at the cost of a very good industrial phone set, verses a
discent cell phone plan including the cell phone, the cell phone plan
may work out cheaper for you in the long run, and be more versitile.
Also, in most places the cell phone would be a good tax write-off as a
business expense, thus having a more reduced cost.

If you have a cell phone already, then simply put a call forwarding
service on your land business line. Then have all the business calls
forwarded to the cell phone.

431. TS-930 S No Receive

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-18 23:47:48 UTC
From: Winston <win@here.com>
Message-ID: <fn6m009gdfl71rq7dn0584oi97r97997vb@4ax.com>
Source record: 59775

I powered up my old TS-930 S yesterday and there was no RX. TX operation appears to be normal. It seems that I have lost signal somewhere between the front end and the detector. I suspect switching or something in the RF section. I have no meter readings in receive.

For some reason the power supply and final fans are also not running. I think that I remember that one of those fans would come on at power up.

Any ideas?

Thanks.

Win/W0LZ

Can anyone tell me if there's much amateur radio activity in the UK still? Does it still attract many new people? I used to be particularly interested in packet radio. I haven't been involved for a few years and don't have my equipment any more so can't check for myself. I was wondering if it would be worth setting up again.

I am guessing you have a IC-V8000. I have that radio hooked up to a 1/4
wave ground plane antenna 50 feet up and I have transmitted just a
little over 100 miles.

You will find that these radio-links to the ordering menu microphone back to the food establishment are NOT part 15 but do have low power business licenses issued for exclusive allocations. Obviously, you haven't bothered to take the time to even research the truth of the situation.

Are you certain that the distance should be measured in miles and not
kilometers? Using the metric system instead of English units works much better.
Ever notice why most radios have an RX sensitivity of 0.16 microvolts? That's
a field strength equivalent to 1 watt (isotropically radiated) at a distance of
exactly 1 km. 4 watts at 2 km will produce the same field strength.

FS = P / (2 * pi * D ^ 2)

FS is in volts.
P is in watts.
D is in meters.

Hi,

I made a simple PIC-based keypad for the FT-817.

With a 16-buttons keypad it makes you set the frequency, change mode (AM/FM/USB/LSB/CW), VFO (A/B), repeater shift (+/-/simplex) and split.

You can find the project on my website at http://www.qsl.net/it9xxs

The firmware for the PIC is free to any amateur radio operator, for non-commercial purposes only.

Best 73s,

Giovanni IT9XXS

Don't guess. LEARN the facts first.

Aw..so what? Who will be able to find a prankster who uses his HT to mess
with the drive-up windows? Better yet, who will be able to find a pankster
who uses a mobile rig to mess with these same windows from a half mile
distant?
This thread is a light-hearted treatment on the somewhat juvenile joys of
"playing" with fast food joints. Get over it. Have you ever gone to a fast
food eatery and had the mouth-breathing kids screw up your order? Ever sat
and waited while they tried to make change while counting on their fingers?
Have you ever gone to Ronald's House and ordered Hotcakes and milk and when
you drive away...find that you did not get half of your order? Ever have to

turn around, wait in line again and try to tell the mouth-breathers that they screwed up your order? Worse yet, ever go back inside and try to explain to the dimwitted manager that they screwed up your order while everbody else stands in line behind you and becomes impatient while the manager tries to get things right?
I find it rather fun to occasionally mess with these goofs. Random? NO. Malicious, yes.
A crime? NO! Ordering a Taco at a Burger King window be it via the radio or otherwise is a prank. Making threats is a crime.
If one were to, as you say, "jam" the system so as to cause them to lose orders, that might be a misdemeanor at best. That is not the jist of this thread and nobody has expounded on "jamming" their systems.
Again, lighten up old man. Life is too short for you to get your BVD's twisted into a knot for no reason. Smile a little bit, you will find it is painless and good for the soul.

Hey, Rog. Run out of ideas? Here you come again, plagiarizing as usual. Nothing new there.
All these years you were made fun of as being the head of the Lavender Lads. This must have impressed you, for you are now plagiarizing and using the Lavender Lad byline to attack Lloyd. What's the matter, Rog? Couldn't come up with anything better?
Then there is the "list" of misspelled words. For a year now Arf! Arf! has been taking you to task for your atrocious and unforgivable spelling. What do you do? You plagiarize again! Now you compile misspellings that Lloyd allegedly made and publish them.
You are not only a copycat, Wiseman, you are a mindless plagiarist. It is painfully obvious that you have a difficult time creating ideas of your own, therefore you have little choice but to copy those of your mental superiors.
It must be a sad existence you lead. No friends. No love life save your palm. And the well-versed filthy language you use is that of a mentally retarded high school kid who has spent way too many hours in the XXX book stores.
In all honesty I really feel sorry for you, Roger. You are a pathetic, lonely person.
By this time tomorrow, Roger, I will have put this email behind me and moved on. You will continue to be the perennial loser and fifty-something scum bucket you have worked so hard to be.
Carry on, Roger.

For Sale:
Drake L4B Amp. 120 watts in 1400 watt out on 80-10meter. I bought in it 88 or 89. Great shape. Every thing works but me and the Stand by switch. (I never "stand by" so I didn't replace the 8 doller switch 15 years ago) ALC works great. I think I still have a new switch SOMEPLACE but not sure.
I have all paper work, Non smoker and drinker but I do chase women. OK I did 40 years ago.
New tubes around 1992 or 93 if I remember correct. Sold used ones so don't ask. The Amp has been used really very little.
I'm in Indianapolis and perfer to deliver it or I will meet out to 100 miles
$675.
Thanks
Doc K9RNC

Vaughn,

It's quite easy: your best bet is the maximum length of wire you can keep
in your backyard AND as high up in the air as you can afford (trees,
towers, chimneys etc.)

To prevent RFI and TVI, make your antenna symmetrical. Feed it with an
open line, and connect the open line with your TX with an appropriate
coupler (the ARRL Handbook is a good source for information).

Please note you do not need to use a thick gauge of copper wire. Even a
thin gauge of stainless steel wire will do.

You will be pleased very much by the results !!

458. New ARRL Proposal -- Advanced license downgrade

Newsgroup: rec.radio.amateur.misc

>
> Existing Advanceds get free upgrade to Extra, ...

That's not an upgrade; that's a downgrade. Advanced class licensees passed the Extra class written exam, and passed a 13 wpm code test. Furthermore, most Advanced class licensees took the older Extra exam -- an exam that's a lot tougher than the current Extra exam.

Possession of the Advanced class license proves that the holder met higher standards than the current crop of Extras.

So thanks, but no thanks. When I want to downgrade, *I* will make that decision.

Just go away, ARRL, and keep your grimy paws off my license.

EVERYONE_HATES_bush@hotmail.com (What real man doesn't hate bush God asks?) wrote in message news:...

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on [then subverted to steal American lives with by lying] was good, sound intelligence."

Where is bush leading America on not ever taking an apology for his misdeeds to destroy our true American value with? I don't know how else to simply word this to the still sleeping, but bush isn't America, America is America. You, as an American, have a sworn right to demand for America, bush not be allowed to further miscarriage Justice blindly back to the dark ages, by not correcting himself on behalf of established publicly, where American intelligence stood, stands, and ultimately strives. Freedom is not protected by letting the "bad guys" go, to further toll more innocent lives for criminal sacrifice. Sometimes, the real simple things are over looked as profound meaning. The Magna Charta of 1215 states that a freeman should not be imprisoned. Simple right? Not for the bushites who side instead to faith in pope bush, who deliberately unminds a timeless universal principle that exists also in the 1700 B.C's, Code of Hammurabi, where all individuals are to be found equally under the Law, to be fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all

knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition.

The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or don't side to help a plead for mercy regarding yourself truly included.

Can the bushites possibly think, we're all not ever possible to stand together without a true Loyal President, or, make believe King named Johnny, on the facts firmly established regarding the treasonous war monger antiChrist lying to Patriots dying US as victim for?

America, I will now leave the rest of Our job in your hands for the time being.

Yours again,

Johnny Wizard

"We fight not for glory nor for wealth nor honour, but
only and alone we fight for freedom which no good man
surrenders but with his life."

Robert the Bruce, King of Scots, Bannockburn, 24 June 1314.

Some things are worth listening to again and again ...

http://www.talkingpointsmemo.com/archives/002409.html
/ /
PRESIDENT BUSH: Yeah. Look -- what -- what we
based our evidence on was a very
sound National Intelligence Estimate. ...

DIANE SAWYER: Nothing should have been more precise?
\ \

It's the demon bushmob cabal's liberal usage of the
term "we", that every American has a right to demand
a true representation.

Example:

Beyond yellowcake: Dissecting the over-hyped threat
of those aluminum tubes.
http://www.motherjones.com/news/update/2003/07/we_489_01.html

/ / Condoleeza Rice, speaking to reporters aboard Air
Force One, defends the aluminum claim, saying it was
written into the National Intelligence Estimate:

"The NIE ...has the yellowcake story in it, had the
aluminum tube story in it. Now, if there were doubts
about the underlying intelligence to that NIE, those
doubts were not communicated to the president, to the
vice president, or to me. \ \

Cheney Being Pulled Into the Quicksand
http://www.fromthewilderness.com/free/ww3/073103_waxman_noose.html

/ / I asked why you claimed on national television that
no White House officials "knew that there were doubts and
suspicions" about these claims when both the CIA and the
State Department's intelligence bureau had raised significant
concerns with White House officials prior to the President's
State of the Union address. ...

. . . Your statements directly contradict those of your
deputy, Stephen Hadley. On July 22, 2003, Mr. Hadley held a
press conference in which he acknowledged receiving two memos
from the CIA raising doubts about the uranium claim being
included in the President's October 7 speech in Cincinnati
over three months before the State of the Union address. \ \

More Questions for NSA Rice
http://www.apfn.net/messageboard/7-31-03/discussion.cgi.22.html

/ / Rep. Waxman asks National Security Advisor Condoleezza
Rice to answer questions about the extent of her knowledge
of Iraq nuclear claims, whether there were White House
efforts to mislead the public, and how the discredited
uranium claim got into the NIE. \ \

http://www.house.gov/reform/min/inves_admin/admin_nuclear_evidence.htm

--

Washington Post defends Bush, Iraq war against Paul O'Neill's
exposures
http://www.wsws.org/articles/2004/jan2004/wash-j16_prn.shtml

/ / Until the middle of March 2003 Bush came before the American
public claiming that he had not ``made up his mind'' about war
with Iraq, that diplomacy would be pursued, that military force
would only be a last resort when all other options were exhausted,
etc., etc. O'Neill's exposures, including the existence of
documents, prepared months before the September 11 terrorist
attacks, that outlined plans for a ``post-Saddam'' Iraq and the
handing out of lucrative contracts, reveal Bush's performance as
a charade filled out with falsehoods. \ \

Isn't this fascinating... a post-Saddam plan to rob humanity
by killing too cowardly American Patriot Soldiers for
Halliburton and Worldcom.

The Last Word
http://users3.cgiforme.com/htmlhelponline/messages/1708.html

/ / It was just reported by Chris Marden on the 27 November
2002, that bush's top whore richard pearl, has advised
Britsh MPs, that bush secretly as the anti-Christ has no
intention of allowing the Iraqi inspection process to
succeed, and instead, is committed to murder ourselves
either way. \ \

The "pending bonanza"
http://www.alternatives.ca/article930.html

/ / The agency had been chasing the CPA and the UN to account for the
expenses,but was not given any answers. They quoted one senior
diplomat
as saying, "We have absolutely no idea how the money has been spent.
I wish I knew, but we just don't know. We have absolutely no idea." \
\

The Real National Security Threat: The Bush Economy
http://www.alternet.org/story.html?StoryID=17547

/ / While it is unlikely, it is not totally impossible that the Bush administration's policy of locking up anyone called Mohamed and favoring Israel might drive the Arab countries to try an oil embargo again. It is, however, quite feasible that they may simply decide to follow in the footsteps of Saddam's Iraq and demand payment in Euros in the future. The math is simple: if they had done so a year ago, for every 85 cents (one Euro, at the time) they put in the bank, they would now have earned a $1.30. \ \

Caveat Preemptor!
http://www.commondreams.org/views03/0127-09.htm

/ / On January 3, to the well-rehearsed cheers of our troops at Fort Hood, you stated three times that Iraq is a "grave threat" to the United States. But for our allies, and for an increasing number of Americans, repetition alone does not enhance credibility. They are looking for proof. (You are, after all, talking war.) \ \

George Bush: World Class Monster
http://www.beachnet.com/~hoffman/Bush.html

/ / "George Bush is a satanic, sadistic, brutal monster. Compared to George Bush, Adolf Hitler was a true gentleman." \ \

Memo for the President:
Your State-of-the-Union Address
http://www.dissidentvoice.org/Jan04/VIPS0117.htm

/ / It is important that you be completely clear on timing. While the Newsweek report of February 24, 2003 was the first to publicize Kamel's testimony that the weapons had been destroyed, US and British intelligence (as well as UN officials) had had that information since August 1995. If you were not given a full account of what Kamel said before it appeared in Newsweek, your advisers should certainly have given you the whole truth when Newsweek did break the story three weeks before you sent US troops into Iraq to destroy those same weapons. If they did not tell you, heads should roll. If they did, it becomes necessary to explain why the information from Kamel had no apparent effect on your decision to launch the invasion. \ \

Restoring Credibility
http://www.tompaine.com/feature2.cfm/ID/9758

/ / As you prepare to make the case against Iraq in your State of the Union address Tuesday, beware the consequences of favoring ideologues and spin-doctors over the professional intelligence officers paid to serve you. \ \

Guantanamo Bay, habeas corpus and the Texan who would be king: Some legal observations
http://www.wsws.org/articles/2004/jan2004/habe-j05_prn.shtml

/ / Article 29 provides that ``no Freeman shall be taken, or
imprisoned, or be dispossessed of his freehold, or liberties,
or free customs, or be enslaved or exiled, but by lawful
judgment of his Peers or by the law of the land.'' \ \

Guantanamo Bay, habeas corpus and the Texan who would be king: Some
legal observations
http://www.wsws.org/articles/2004/jan2004/habe-j05_prn.shtml

/ / The Habeas Corpus Act of 1640 provided that ``any person
imprisoned by Order of the King or Council should have habeas
corpus and be brought before the court without delay with
the cause of imprisonment shown.'' \ \

A GIANT AWAKENS
http://www.etherzone.com/2004/raim011604.shtml

/ / So let's see if I get this straight: the U.S., which went to war
to export "democracy" to Iraq (and the entire Middle East), in
defiance of the UN, is telling the Iraqis that they aren't ready for
self-government - and is now seeking the UN Secretary General's
imprimatur for what amounts to a policy of brazen imperialism.
Instead of elections, a series of elite "caucus" meetings will be
held, in which the neocons, er, um, I mean, the Americans, handpick
the voters - and predetermine the results. Some "liberation"! \ \

We Report, you get it wrong
http://www.strike-the-root.com/blog/archives/000200.html

/ / "The report, Misperceptions, the Media and the Iraq War, also
found that the more misperceptions held by the respondent, the
more likely it was that s/he both supported the war and depended
on commercial television for news about it. " \ \

An empire implodes

WMD threat exaggerated: report

http://www.theage.com.au/articles/2004/01/09/1073437472186.html

"In that process they changed something that is an opinion
into a fact, and they consistently did this," he said at
a briefing on the report.

From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers
celebrating joyously in contempt for God while singing,
right after the unreported dropping of thousands of
pounds of bombs on everyone in Afghanistan, body parts
everywhere, while knowing directly as individuals, every
single, there was no evidence offered that anyone there
was responsible for any crimes whatsoever, including the
Afghanistan women who worked for the newspaper, but for
to be victims of fanatic nazi american barbarity,
disguised as human, like bush almost gets away with as
pure evil deceived, now completely impossible to
believe. Oh, by the way, I am now taking new
memberships for al-Qaida.

As I say, there isn't a real man in the
American Marines, or the Army willing to protect America
with their lives, for if there were, rumsfeld and bush
would be rightly dead for the murders continuing against
those they know as innocent. As even with their
continuing threats against more innocent people as
American lives they brag to throw away as just soldiers,
as all these other nations they try to make ready to
sacrifice millions for, while propagandizing that our
Justice we need not believe in to grant us freedom from
oppression, nor evidence no longer a requirement to
convince us who is evil, and who is not lying. Nobody
deserves to be murdered, but a murderer escaping to
recommit. \ \

--

That Was Then - This Is Now
http://www.rense.com/general47/thatwas.htm

/ / Today our
"chains" are made of threats and our walls are made of
paper wrapped in patriotic flags. But if we linger -

tomorrow the chains will be of steel and the walls will
be made of stone. And soon we'll all begin to live
this nightmare as reality. \ \

US Firms STEALING Money
http://thestar.com.my/news/story.asp?file=/2003/12/7/nation/6859213&sec=nation

/ / ``KBR is charging Iraq US$180,000 (RM684,000) for each school they
renovate. They then give the project to Iraqi sub-contractors and pay
them just US$20,000 (RM76,000) to do the job. \ \

Any being would not want to be deprived the rights to
living, by living to not deny the same rights of others.
(First commandment is a fundamental of understanding
space-time reality, as it pertains to the politics of an
actual sustainable World, indivisible, and eternal.)

To have US exercise denial of rights granted through the
protections of Freedom, asks naturally for reason to
being ones own commitment kept. To leaderlessly faith
in tyrant bush's faulty public judgement to committing
US to indiscriminate murders so he can rob Iraq of all
her riches going nowhere he silently contends as an
illiterate demon liar, exposes Your Mr. bush Jr. as
unfit to preside in Anyone's name. (Walla: Americans
did not elect the monster who openly with 9/11'd
slush-fund-america, finances the oppression of our
families in Uzbekistan, and Wahabbi Saudi Arabia,
unreported by our CNN and CBC as revealing.)

Iraq reconstruction's bottom-line
http://www.asiatimes.ru/atimes/Middle_East/EL25Ak05.html

/ / So there's money; it's just not going around. And
here perhaps lies the solution to the mystery of how the

world's superpower and the world's biggest corporations can't even begin to put Iraq together again after almost nine months: The reconstruction is less about reconstruction than about making the most money possible. \ \
snpd

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just

like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who

will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe

evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

The Two Troublemakers
http://www.rense.com/general46/guilt.htm

/ / Some of the students had Palestinian passports. When they asked what they were guilty of, the [bushite nazi savage] soldiers said, "You are guilty of being Palestinian." \ \

A ungodly bushite nazi teen soldier, as an enemy of America was quoted to say also to the falsely imprisoned:

/ / "Say that you love Bush and I will give you food," \ \

Not a love for Justice, or the Bill of Rights, but a love for the American cop killer traitor bush demon robbing their very own grandparents they demand by threat of your murder, for US all as Humanity to do likewise degenerating, sacrificing our World as cowardly slaves to benefit the ungodly bushmob 'cabal' of parasites, the enemies of everyone, including that as God's will.

ï¿½Beyond human imagination'
http://www.globeandmail.com/servlet/story/RTGAM.20031104.warar1104_4/BNPrint/International/

/ / I told them I wanted a lawyer. They told me I had no
right to a lawyer, because I was not an American citizen. \ \

"International law? I'd better call my lawyer,"
http://www.payk.net/mailingLists/iran-news/html/current/msg05842.html

/ / "International law? I'd better call my lawyer," the
American President joked in response to a reporter's
question at the White House. \ \

Again, by denying the rest of US as Humanity Justice,
the bushites need advertise between commercial break
only, "Laden did it", no need to follow the ample
criminal 9/11 leads folks, because the crime they say
wasn't committed by true American values. Go on along
bush, cheney, and rumsfeld say, pay no attention to our
evidentiary findings such as, the American FBI's
documented contention, that bush's business partner,
General Ahmad, funded the 9/11 'mastermind' Atta, or the
CIA's, regarding bush LYING in America's name about
Niger (TREASON), or MSNBC's almost Biblical Revelation,
about the bushmob having a signed and sealed, 'top
secret' war plan to not follow the 9/11 evidence to
secure invasion of Afghanistan for Enron, at
Condoleeza's desk, two days prior to the terrorist act
taking place, of which when confronted, confessed as
fully implemented by the Whitehouse. A 'top secret'
plan to blame Laden on a crime they wouldn't actually
try to arrest for with evidence, a plan arranging that
would find bin in Afghanistan pleading innocence with
the help of bush's partner again, General Ahmad, a crime
of such magnitude, it would 'justify' a war mongers
criminal invasion to thwart Enron's impending CRIMINAL
bankruptcy, THIEVING FROM MOMS AND POPS, to then,
ATTEMPT, to close the surviving, armed with knowledge
for good reason Police investigations. All of this
setting a lowly nazi bushite war criminal, frothing
publicly at more than six billion + of US, to state
without opinion, that We, as Humanity, are no longer
afforded God's GIVEN Human Rights to defend ourselves,
nor is the criminal dictates of the demon antiChrist
accountable to any rules of law. Universal they
publicly quip, as the not-so 'secret' ungodly bushite
doctrine of tyranny as enslavement of all that is
Righteous and Holy in this World, because, hey, there is
no God to speak of... and the King of kings, Son of God
fellow, well.. that's all just ninepence fiction. No,
WE, as all the make believers of this World, will no
longer have ANY legal recourse to defend our own loved
family from being stolen from through a bush bitch
buford blount doing whatever criminally with dumfuk
loyal nazi teen bushites leading to sacrifice for, for

demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that

is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq
http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a

savior of the american way of life, and The People?,
they ate it again when in 1950, at the age of 70,
defying Truman, launched a win sumtin at all costs
attack against China, that quickly during the unreported
stupid needless slaughter of countless American teens,
forced Truman to concede defeat by begging for a
immediate truce with China while firing MacArthur, who
came home to giant demonstrations of love and affection
for sacrificing American lives forgotten to the
accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you
love, go out, go out and get killed, and we have had to
say it, and by God they have gone..."

Johnny Wizard "Let US just get bush instead friend."

For the love of life and countries, kill bush as traitor
to all our Humanity.

Your unbroken eternal Warrior,
as acting Servant and King,

the one and only,
as staring Johnny Wizard,
the true Son of Man

P.S. My reader, I taunt you again: forward these words
of love or hate as if they were of Your own concern.
America I think Will be interested in this public
outrage of the silent majority, an outrage that will
ecplise into an international scandal of such
proportions, it just might win US the newscast with the
facts on Justice ruling our way. (I am excepting all
reasonable job offers. Hint hint.)

--

A bushite nazi soldier's motto: Do NOT kill demon bush
for the love of God as true Patriots would, but war your
comrades in arms with toxic cluster bombs to secretly
kill yourselves with later on, including US as the
innocent, our children included, while STEALING, not
going nowhere public Iraqi institutions, including
desperately needing humanitarian aid shipments, starving
the poorest of the poor, all to please and glorify the
pension thieves of our Grandparents, and the heroin
pushers to our school kids.

--

> To my friends in Iraq, don't let corporate american
> media divide yourselves from community as equal

> participators. An Iraqi, is foremost, a member of our
> Humanity, and just like the rest of US, hate the God
> betraying anti-American demon antiChrist bush, more than
> anything else in the Universe for persecuting the
> innocent while killing coppers to steal our assets
> undefended without a leader to speak out everywhere for
> our living rights included.

Deadly suppositions
http://www.rationalreview.com/rlwrights/112603.shtml

/ / That's right. American troops are now being used to destroy private property of "suspected Iraqi guerrilla fighters." What happened to requiring proof before depriving someone of "life, liberty, or property" as stated in our own Constitution? Evidently that does not apply to people we attack so that we can bring them our way of life. \ \

--

GO F*CK YOURSELF, MR. PRESIDENT
http://www.antiwar.com/justin/j112603.html

/ / We must act, even if the threat is nonexistent - because of the potential danger. If "self-defense" consists of necessary "preemption," then what would happen if we started acting on this Bushian principle domestically? After all, killers, robbers, and rapists don't announce their intentions, politely putting us on notice before they strike. Why not just jail them before they have a chance to commit a crime? This principle, if applied within the U.S., would lead straight to totalitarian rule. Applied abroad, it means perpetual war. \ \

--

I Know When Bush Is Lying: His Lips Move
http://military.surfwax.com/files/Weapons_of_Mass_Destruction.html

/ / The Bush regime's panic is reflected in its adoption of Israeli revenge tactics, using F-16 aircraft to drop 500lb bombs on residential areas called "suspect zones".... ...Lianne Seymour, widow of the commando Ian Seymour, said: "They misled the guys going out there. You can't just do something wrong and hope you find a good reason for it later." \ \

War Propaganda
http://www.currentconcerns.ch/archive/2003/02/20030228.php

/ / In other words, the military actors and politicians are totally blinded by the "war on terrorism" dogma. Truth is falsehood and falsehood is truth. Realities are turned upside down. Acts of war are heralded as

"humanitarian interventions" geared towards upholding
democracy. Military occupation and the killing of
civilians are presented as "peace-keeping operations."
The repeal of democracy is portrayed by General Franks
as a means to providing "domestic security" and
upholding civil liberties. \ \

--

http://www.bushdraft.com/

/ / With the threat of 56% of troops not re-enlisting
Bush is going to need a draft unless he changes his
policies soon. I'm sure you agree, I'm sure you don't
want your friends, family and coworkers drafted either.
To fight for what? freedom? When George Bush passed
the Patriot Act and now the Patriot Act 2 he took away
many of the rights that we cherish so much. Why are we
"bringing freedom" to the Middle East when Bush has
shredded the constitution and taken away our freedoms at
home? It doesn't make any sense. \ \

--
http://www.globalblogs.com/binationaltimes/archives/00000116.html
"Yes, Bush lied"

/ / WASHINGTON - A year ago, on Oct. 1, one of the most
important documents in U.S. history was published and
couriered over to the White House. \ \

--

This is why I plead with armed Americans to kill the
unarrested bush for the love of children everywhere.
Look, we know directly who the bushites are who PUBLICLY
advocate the murder of innocent People through corporate
censorship, who support furthering the demon
antiChrist's senseless crimes against my America, and
our World. Example: You'd think Art Bell figures none
of his listeners could in no other way, learn of traitor
bush murdering thousands in New York City, and his
contemptuous silence on the issue forbidding anyone else
from publicly mentioning it. I have dominated
alt.fan.art-bell for years, while Art Bell, like
Canada's Peter Warren, will continuously advertise open
line calls, but abruptly end calls topicing on KNOWN
FACTS surrounding their evil false deity bush, 9/11,
Iraq, depleted plutonium, Halliburton, and the deaths of
our innocent lives fallen to their personal inaction
depicting our community as uninterested. Art Bell in
FACT has pre-screened his "open line" calls since bush
stole power, and does so, to make appear Americans

aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumfuk bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are indiscriminately bombing residential communities with radio-active toxic waste for nothing but to please their evil false deity, Our Mr bush Jr.. No rational reason but for a hatred to Your Humanity, and God if you believe.

Example: that evil nazi terrorist buford blount confesses to murdering thousands of innocent Iraqi People for nothing, no reason he proudly professes as wicked evil heinous traitor. Think of the lives You could save Patriot, by justly killing the unarrested buford blount, on hopes a person to take his place could at the very least consider being honorable in defending Your America? Demon buford blount is truly the enemy to American soldiers, for, if your family was murdered by buford blount irrationally commanding mindless bushite soldiers for nothing but to further rob the dying American tax payers, would you not too, spend your will hunting the evil nazi fuck down personally to spare further another innocent family suffering? To kill the unarrested unAmerican buforld blount is to stop him from ordering the practically dead already, nazi dumfuk treasonous bushite brethren teens, from victimizing again US as the innocent undefended.

While CNN still insists it's better for them to misinform and ignore, than to expose the demon bush as the true target for any Patriot's rage. American soldiers are being sacrificed to die for no known good reason, but for bad leadership as evil bushite war profiteers.

Here's what a bushite's granmom's tax payment is going
towards, minus the 2.5 billion per month of 4 that is
secretly STOLEN by the bushmob as something Americans
are forbidden to know of through their corporate news
censorship stealing their very own demeaned values,
dying.

How U.S. will spend $20.3B in Iraq
By SCRIPPS HOWARD

ACK! This Scripps Howard piece is missing from our internet world!

Hmmm.. now looking...
this following is an archive of official corporate news sources, of
which few if none report specifically on how the demon bushmob is
spending/stealing grandma's moola..

http://www.stern.nyu.edu/globalmacro/cur_policy/middle_east_news.html

looking more...

U.S.'s 'Iron Hammer' Code Name 1st Used by Nazis
http://news.yahoo.com/news?tmpl=story2&cid=1896&u=/nm/20031118/us_nm/iraq_hammer_dc&printer=1

Not surprising, but not what Americans should be following after....

Anyway, the cash breakdown of the criminal thefts of Iraqi assets
is now, as the tyranny of the nazi bushites, becoming harder for US to
find, why so?

We have stories like these ones still though..

--

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The
evil is in plain sight, the danger only increases with
denial."

Remember: Demon bush doesn't forget signing his soul to
the invade Afghanistan plan by not following the 911
evidence, but would top secretly attribute to Laden for
blame, authored by himself, rumsfeld, Condoleeza, and
General Ahmad two days prior to the public event of
murdering "thousands" in wealthy corporate America, a
secret plan that has been confessed publicly to US as
fully implemented by the White House right from the
start to Jim at MSNBC, months after the fact when the
demon antiChrist was caught with American blood in his
breath.

Not to follow the criminal leads surrounding evil bush
as mass murdering antiChrist, is what the White House
confesses to Americans today as official policy under

every circumstance. Karma. Demon bush tells corporate america that they'll persecute the innocent in any country by denying our fundamental human rights of Freedom and Justice, while now dropping 2000 pound bombs in God's World containing children, while corporate nazi bores, report in judgement of the great King who MAY have cuddled some cute boy! Jackson has given so much to America in stone, and in return, the corporate news nazi bushites sit condemning a great man whose open vulnerability gives him his wondrous strength and power as true American artistry. While these very same treasonous corporate bushite news anchors refuse to report on tommy franks running death squads against school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems

sometimes, as too, how terribly it truly is for life
whose love isn't appreciated by our will anymore as the
living in america, oh yeah, I mean America.

As an American then, what life will you forsake where
bush'll rob you over and over as the never living for
something better? These american bushite nazi fuks,
think your gonna wash their feet, and instead of
defending yourself and family, just turn the other cheek
right before the bushites drop a two thousand pound bomb
or two on your innocent neighbor next door? Done for
nothing but feeding the bushmob?, as unarrested buford
blount contends in God's presence? Then to think,
buford blount figures I as a real man will not seek him
out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help
yourself? The true danger to America increases with
American doubts on bush's blatant, true naked evilness,
or humoring God as Johnny, and betting on yourself for a
change by supporting me as the time being? Look, what
could you do for your freedom, when I demand the pursuit
of Justice by following evidence to truly protect this
World we share? Support my demand to raise the news
media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where
almost half of the monthly 4 billion dollar tax payer
bill is quietly disappearing while grandma loses her
cable television, or only grandson? Is that Leadership
I ask every American Soldier to be brave and forward
this letter on terrorism to your fellow comrads
secretly. Then, we'll see...

If you thought the "Plan for the 21st Century Ham" by theNCVEC gang of four was lame, wait till you see what the ARRL gang of fifteen is proposing!

A warmed over version of incentive licensing with 3 classes, Novice, General, and Extra.

Novice is still ghetto-ized and renewable until you assume room temperature.

Extra just like today, including 5WPM Morse exam.

General just like today except without Morse.

Yawwwwwwwwwwwwwwnnnnnnnnnnnnnnnnnnnn!!!!!

But there's more.....

A third of a million Tech/Tech+ would get a free pass to General.

All Advanced (currently about 82,000) would get a free pass to Advanced.

That works out to about 60% of todays licensees would get a free pass to the next higher license without testing for that grade.

And while I personally don't support a Morse test for any license, if we must have a Morse test for Extra, then lets make it something 'Extra', not the same old count-the-dots-and-dashes which Novices have been passing for over a half-century! 20WPM sounds about right.

C'mon, BoD, this looks like something cobbled together in a committee-of-fifteen-tired-old-men-afraid-they-won't-be-reelected, not the National Association of Amateur Radio with leadership and a vision for the future.

Nasty letter to follow.

Love always,

de Hans, K0HB

I >AM< THE ARRL!!!

Yes, it's miles. If using kilometers, use 32.45 instead of 36.6 in the equation.

There are several path loss calculators on the web, such as:

http://www.decibelproducts.com/Calculators/qfreespace.htm

Truly weird. As a 20wpm Extra I don't see you as having a higher licence
than me, oddly enough.

Incorrect!

> Advanced class licensees
> passed the Extra class written exam,

No, they did not. There have always been different written exams
for the two license classes. Until the 2000 restructuring, an Extra
required passing both the 50 question Advanced written *and* the 40
question Extra.

> and passed a 13 wpm code test.

Only until 1990. After that time, code waivers were available.

Extra required 20 wpm in the same time frame.

> Furthermore, most Advanced class licensees took the older Extra exam

again, incorrect!

> -- an exam that's a lot tougher than the current Extra exam.

No argument there.

I was an Advanced in 1963. I guess, by proxy, I will be able to say I
was an Extra for 40 years. I became an Extra in 1979. What will I
become now.

Do you think that if everyone would just buy five copies of QST every
month the League would give up attempting to license every deadbeat
dad and upgrading every licensee that can recite QST?

There's that stupid pecking order thing again.

Hey, a little studying and a code waiver and anyone could have been an Advanced.

471. Excellent ARRL proposal

Newsgroup: rec.radio.amateur.misc

This proposal is a good start. However, the ultimate goal should be to align our privileges with those of the rest of the amateur radio world and REMOVE all mode restrictions.

CW US operators can operate anywhere in the US bands but US phone is restricted. A clear case of discrimination, and a "mode-ist" one at that!! Politically incorrect these days....and a major waste of sprectrum!! (Just tune the CW bands during any non contest day). A carry over from the olde days when the ARRL was clearly a CW only group of old buzzards.

I submit that US Extra class licencee's should be allowed to operate phone anywhere that the rest of the world can. Is that fair??? Or are we still destined to live in an amateur radio world surpressed by our own government?

Hey...ARRL, WAKE UP!!! If you want to keep the activity up you need to promote frequencies where we can talk to the rest of the world! How can I make this any clearer??? And provide incentives to do this!!! An extra 25KHz doesn't make it.

BTW....requiring CW should not be a requirement for HF operation. (Good move by the ARRL on this with the new Novice proposal) Time to get over it....and let the rest of the many good people get on the air!!! I say this from having slaved over getting 20 WPM done to pass my Extra test (for those measly 25 KHz of phone) and I rarely have used code since. So......don't deny folks from HF just because code is "your favorite mode" and you are proud that you have no microphone in your shack.....

73,
Chuck...K1KW

472. The REAL test for HF Amateur operations

Newsgroup: rec.radio.amateur.misc

Source record: 59715

What really amazes me is you folks don't know what the real test is for getting on HF!!!! You have to do it!!! That means really figuring out how to put up the appropriate antenna, tuning it, tuning and running your rig properly, ect. You can get all the answers correct on today's exam and still fail in the real world.

In fact, there have been "hams" here locally that tried for over a year to "get out" and learned more in that process than they ever learned by memorizing today's exam questions.

I submit that these IMPROVEMENTS recommended by the ARRL are a good start and will have more people LEARNING how to get on HF. A GOOD thing. The bands are FAR less busy than they were 30 years ago. Unless we get more people into this great hobby, it's gone...

And to really improve HF operations on ham radio...we must get rid of the archaic mode divisions on each band. I would like to see us have the same privileges as the rest of the world's amateurs enjoy....or are we not good enough???

73,
Chuck...K1KW

You must be new around here.

Many Extra's (me, for an example) never took the Advanced written
exam, and my Extra exam had 75 questions, not 40.

I really have to agree with you on this once Chuck. Yet it still bothers me
that the ARRL said they would rather see all the Techs get upgraded with no
written test. Your right, last year during field day, I learned more about
putting up HF antenna's and HF operating procedures than I had learning on
my own from a book. It seems its easier to learn hands on than it is trying
to memorize from a book.
Also, there aint nothing like putting up a tape measure dipole next to
another active antenna thats hooked up to a Mark V field running 200 watts
CW. Thats a nice tingling sensation!! Hi Hi.

475. GFCI tripping on high power CW

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-20 10:47:53 UTC
From: jeffhs@ameritech.net
Message-ID: <98360ebb.0401200247.43d4967d@posting.google.com>
Source record: 59718

Greetings.

I have an Icom IC725 operating on an indoor antenna (Barker & Williamson AP-10A). Was testing the setup last night on 40 CW; when I transmitted a couple of test dits at high power (100 watts), the GFCI on the kitchen outlets immediately tripped. What was going on? I live in an apartment building with 100-ampere service (as my landlord told me when I moved here), so the current draw from my Astron RS-35 25-amp power supply shouldn't have tripped the breaker, should it? Are GFCIs also sensitive to high levels of RF (as from an amateur station) as they are to short circuits or high currents on electric lines? This is my first experience with GFCI-protected circuits, and I'm baffled. Lower power CW or SSB operation doesn't bother the breaker, but if I run too low power, I doubt if I'll make any contacts. I cannot mount the antenna anywhere outside my apartment due to lease restrictions plus the fact that there are no windows in the room where the rig is located, nor can I separate the antenna from my rig more than 10 feet because of the length of the coax originally supplied with the antenna. Any help on this will be greatly appreciated.

Please respond by e-mail, as I don't check these message boards very often.

Thanks and 73,

Jeff, WB8NHV (mailto:wb8nhv@arrl.net)

Uhhhh...in what universe?

The only "Advanced" class licensees that I know of that took an
Extra written test but didn't upgrade were one's who failed the 20WPM.

And I'd like to know how getting more operating privileges is a
"downgrade"...?!?!

Would you take an airline ticket "upgrade" by moving FROM First
Class to Coach? Uh uh...It's the other way around. Same here.

> Possession of the Advanced class license proves that the holder met
> higher standards than the current crop of Extras.

Perhaps. Certainly the Advanced Class folks passed a more
stringent code test. My Advanced written was hard, but so was the
Extra. I am proud of both.

>
> Just go away, ARRL, and keep your grimy paws off my license.

Yeah...how dare they offer to get you more operating privileges
without having to take any further tests...rotten scoundrels anyway...

Hmm, sounds familiar,. I had a 2 meter 1/4 ground plane out on my deck with a GFCI about 6 feet away from it running 50 watts and that thing would vibrate something fierce, but it never tripped it.

481. NEW Ham Rigs and Scanners forsale-going out of business

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-20 13:29:41 UTC
From: scannerhead2002@yahoo.com
Message-ID: <834b97b1.0401200529.6fa25acc@posting.google.com>
Source record: 59724

Hi,
Our local CB/Radio shop recently went out of business. There were several items they had which I wanted but I could only buy them in large 'wholesale' lots. So to get what I wanted I had to buy some items which I really didn't need. So I'm selling off the items I don't want.

The items listed below are all brand new, in original boxes. Included will be a receipt so you get the full factory warranty. All prices include shipping.

Take a look and if you have questions please email me at scannerhead2002@yahoo.com

-- Scanners --
Uniden BC780 XLT -- $200.00
Uniden BC785 XLT -- $200.00
Uniden BC250D -- $150.00
Digital Card -- $150.00

Uniden BC296D Digital -- $375.00
Uniden BC796D Digital -- $375.00

-- Ham HF and VHF Rigs --
Alinco DR620T 2m/70cm Dual Band Mobile -- $225.00
Icom 2720H 2m/70cm Dual Band Mobile -- $225.00
Yeasu FT840 HF Base -- $425.00
Kenwood TS-50S HF Mobile -- $475.00

-- CB Radios --
Galaxy DX 2547 40 Channel CB Base -- $200.00
TEXAS RANGER 696F 40 Channel CB Base -- $200.00
COBRA 148NW-ST NIGHT WATCH AM/SSB -- $100.00 (I have several)
Galaxy DX959 11 Meter Mobile W/FreqCounter -- $100.00 (I have several)
Uniden President Grant LT -- $100.00
RANGER TR-296 Gold Faced AM/SSB Mobile -- $100.00

-- CB Amps --
BOOMER 300 Base Amplifier 300 Watts -- $200.00
(for more info: http://www.copper.com/cgi-bin/checkitout/checkitout.cgi?catalogSTORE:CKIE:prodW90-BOOMER300+)
KLV-550 Base Amplifier 550 Watts -- $230.00
(for more info:
http://www.copper.com/cgi-bin/checkitout/checkitout.cgi?catalogSTORE:CKIE:prodW90-KLV550+)

Again all equipment is brand new in original boxes.
Thanks for looking

George

They're trying to revive a DEAD HORSE Hans.
(For as long as you've been in ham radio cannot you
realize this?)

Better face up to it, Ham Radio is DEAD.

Burt and Wayne Green are right on this one I am afraid.
Even new 2 Meter radios are going for under $200.00
at HRO and AES. Nobody's buying ham gear except
for on e-Bay where you chances of getting "E-screwed"
on that "perfect condition used radio" are better than 7 to 1.

Nobody new wants to bother with ham radio and antennas
and climbing a roof or putting up a tower when
all you need is a $300 Dell Multimedia PC and a DSL or
Cable Modem connection? I mean, let's get real here, OK?

...and please...everyone else, spare us all the tired
rehashed old comments we've *all heard already*
100 times about "when the power goes out, CW
always gets thru the QRM, my 2M HT will
still work" ...etc etc ad-nasuem

(We've all heard this schitk 20 years ago)

Ham radio is TECHNOLOGICALLY OBSOLETE and has
become *nothing more* than a venue where old retired white males
get together to kibitz on the air for an hour a day or more about the same
old tired topics they've been talking about for the past 5 Years.

Stick a fork in it, or send it off to the glue factory or Fred Sanford's
junkyard.

In its newest trial, announced earlier this month, Idacomm will make broadband service available to 100 businesses or residences in Boise, Idaho using equipment from Amperion. Christian estimated that about 1000 customers will be within reach of the service and said that in earlier trials, Idacomm has had no problem getting 20% of the customers in a potential serving area to request participation in the trials, which are at no charge.

Say Lloyd, how do I get myself one of them there Lordships?

I'd like to be Lord of something too. Like "Lord of all I survey' or 'Lord of Radio', 'Lord of Shortwave', something like that.

Who do I get in touch with? How much does it cost?

The Queen no longers speaks to me, so I need another route here to Lordship.

"PC" my butt.

CW is authorized "anywhere" since it is a narrow band mode
requiring only a fraction of the bandwidth of any voice mode.

The ONLY time I've ever heard CW in a "voice" allocation was a
mobile station trying to check in to a net that wasn't being heard
otherwise. It worked well.

> I submit that US Extra class licencee's should be allowed to operate phone
> anywhere that the rest of the world can. Is that fair??? Or are we still
> destined to live in an amateur radio world surpressed by our own government?

No, it's not "fair".

Most US Amateurs are allowed to run far more power than they
need, and in most cases area able to erect antenna systems that
overshadow those of many other countries. Like it or not, we owe it
to the rest of the world to restrain all that ERP.

> Hey...ARRL, WAKE UP!!! If you want to keep the activity up you need to
> promote frequencies where we can talk to the rest of the world! How can I
> make this any clearer??? And provide incentives to do this!!! An extra
> 25KHz doesn't make it.

Like it or not, not all of the world is chomping at the bit to
have US Amateurs able to pounce on them at every turn. When Podunk
Island is ready to work the pile-ups, he'll announce his intentions.
Otherwise, WHY do we need to have all that spectrum? Except on
contest weekends it's ahrd enough to strike up a QSO as it is anyway.

Bully for you that you did it...However Morse Code STILL,
contrary to naysayers, plays an important part in international
communication in the AMATEUR Service. That' it's been put out to
pasture by the unwilling and the boistrous is evidient. That it's a
"good thing" is yet to be seen.

I think we need protection from ourselves. I think that way too many in the US will not follow a voluntary band plan particularly in the heat of contest. Keep in mind that with the exception of Japan, the US has more amateurs than all the rest of the world combined and that world might find it a bit of a nuisance if we did away with the splits and just had a band plan like they do. The Japanese don't really figure in as so many of them are inactive (their licenses are for a lifetime) or are limited to very low power operations.

The only band where it is causes much inconvenience is the 40m band and that is now, at last, on its way to being fixed. Last summer's international treaty changes have directed the broadcasters to move out of 7.100 and 7.200 and that will become exclusively amateur. I forget the timing though but it's just a few years. Perhaps in time, ITU regions 1 and 3 will have the same extended 40m that we enjoy here in region 2.

From: danielmorlan@yahoo.com
Message-ID: <a7dee37b.0401201558.3dd38632@posting.google.com>
Source record: 59640

Do they make a 13.8v, 20-25 amp rechargeable power supply? I'm sure this thing would be rather bulky, but I'm quite serious. I know that I could use a 12v battery, but is there something ready made? Furthermore, is there something available that doesn't need to be fully discharged before it can be safely recharged? There MUST be something, but I'd like to know which brand names, etc. And what these devices are specifically called.

Any information would be greatly appreciated.

In my experience its comments like the ones from news.vif.com that shows their real frustration in knowing that the country they live in cannot compare to the one to the south of them. So, they berate it and belittle it and hate those that live in it. Id invite them to join our military forces while we join theirs and see who has the real guts and dedication to put their backbone where their mouth is. As I recall, I didnt see any Canadian troops in Iraq, or Afganastan. And heard very little sympathy when our twin towers went down. Yeah, yeaa Canada.
B.

Tell that to the families of the Canadian soldiers who were killed by US bombs. The pilots who dropped the bombs in Afghanistan that killed the Canadian troops in April of 2002 probably didn't see them, either, I guess.

Well, actually they *did* see them, but went ahead and dropped the bombs before getting the proper clearance and target identification.

The ARRL's latest licensing scheme is driven by money.

The league will achieve its goal by spreading cash to the correct
FCC managers. The FCC has no shortage of corrupt
management officials, ready to accept a bribe for anything.

ARRL is no friend of amateur radio.

Moe

This is hysterical<ROTFLMAO>, enjoy......

10. Their slogan is, "We'll leave the WHITE on for ya!"

9. Those Confederate Flag pillow cases.

8. Sign in the lobby announces: "Pat Buchanan Rally This Saturday!!!"

7. Sign behind the front desk reads: "You're damn right we're open on Martin Luther King Day!"

6. Sign above the beds reads: "Absolutely no HIP-HOPPING on the mattresses!!!"

5. Sheets and towels already have eye-holes cut in them.

4. No rating by the AAA. . . but 5-stars by the KKK.

3. Bible on the nightstand replaced with a copy of "Mien Kampf".

2. Instead of a "Presidential Suite" they have a "Grand Wizard Suite".

And the Top Reason to Stay at the Hiram Hotel. . .

1. Every morning the front desk will give you a "wake-up slur".

Anyone else have any like minded humor?

Think of it as having walked in a very large circle for the past 40 Years.

:) :) :)

> Do you think that if everyone would just buy five copies of QST every
> month the League would give up attempting to license every deadbeat
> dad and upgrading every licensee that can recite QST?
>
> Win/W0LZ

Probably an accurate observation Win. All that the ARRL has ever been
interested in for the past 40+ years is more subscriptions to their ad
filled fishwrap. No suprise really as the ARRL's 501-C3 Charter lists
them as a non-profit "scientific" publishing company.

Looks like the Ivy League also has **finally** realized that the Incentive
License disaster of the 1960's pretty much trashed ham radio.

Now their franticly trying to back-peddle the boat before it finally goes
over Niagra Falls. Not much you can do, seeing that 99.5% of young
persons are more interested in Ipod, Blogging, Chatrooms and other
Net related projects instead of this old antiquated hobby of their
granddaddy called "ham radio". (It used to be that ham radio was
unique in that it was the only alternative to making a long distance
telephone call to speak with someone far away. Today anyone can
do the same with a $10-per-month ISP and a PC. The NOVELTY
of long distance communications for the common person has worn
off - this is the root-cause of the issue - ham radio is become obsolete.)

I have a Panasonic 2.4GHz. It's three years old, so I'm not sure what the current model would be. It's from the GigaRange Extreme line.

http://catalog2.panasonic.com/webapp/wcs/stores/servlet/ModelList?storeId=11251&catalogId=11005&catGroupId=11107

I have 2 acres, and I can be anywhere on my property, or even at the neighbor's house, without any loss of signal at all.

My wife has had the same phone in her home office for the same length of time, and the signals have only crossed two or three times in those three years.

When the phone dies, I won't hesitate to buy another one.

Go to any dealer who handles Deep Cylce batteries, They can be discharged
and recharged hundreds of times without ill effects. A car battery loses a
significant percentage of its llife each time it is fully discharged and
will be dead after before you get into double digits.

And you know this, how?

Let's think this through. We're talking about ham radio, right?
Someone at ARRL is going to risk jail time to funnel personal or
League funds to corrupt FCC officials in the hope that by doing so,
the proposal will become reality. Then, when it does become reality,
there will be a HUGE increase in League membership, and said ARRL
person will presumably siphon off huge profits (again risking jail
time) and live the good life ever after.

Meanwhile, the FCC bureaucrats are going to risk their jobs and jail
time to accept these funds and push through this crazy proposal. Then,
they too will live the good life ever after. Oh yeah, that's real
plausible.

Hi All

I scored some interesting radio and audio tubes from someone that I will never use for my audio amps. So, they are up for sale at this link: http://mamaliga.com/gabriel/gallery/view_album.php?set_albumName=Tubes

Please let me know if you are interested in any of them.
Unfortunately I have no access to a tester to see if they test fine, but I examined them and phisicaly there is no rattle, or melting or anything.

Let me know if you have any questions.

Take care,
Gabi.

PS: I also have other items that are in the proccess of beeing photographed. i will list them to the same link soon. Check back...

There was that window of time from Jan 2000 to April 14, 2000 where one
could take the
extra written, pass it, get the CSCE, and cash it in on April 15, 2000.
And then have
your extra. And not fail the 20wpm test because he didn't take it. I
did this and also
took the advanced written (was an old tech plus), and cashed in the
CSCEs April 15th.

>>
But those advanceds didn't do the extra writtens (4B). So, if the extra written is "worth"
more than 13wpm, then todays' extras have higher standards than the advanceds'.
Depends on how you call it, if element 4B > 13wpm or not.

>>
>>

Hang in there, Dave. I think the problem is that a lot of the time the crazies in Quebec get all the press, and the great folks in the rest of the provinces end up getting lumped in with them as "Canada."

As someone with several good Canadian friends, I'm privileged to know each of them, and also agree that they were outraged over 9/11 and that they support our efforts against terrorism.

True, but with the FCC they could butcher it up so bad that the Novice
equivelant would be Extra no code.

The point I have is the ARRL has proven beyond a doubt they are a bunch of
world class hypocrites. They trash ham radio with 'Incentive Licensing' to
FORCE hams to upgrade and 'improve'. Then 40 years later they totally
reverse themselves. Bullcrap. The league has shown their true colors to
me. Money Money and more Money.

Well, some FCC brearucrat botched the lifetime code credit thing. You
get lifetime
credit for passing a 5wpm, but not for 13 or 20. So we need to look
closely at
what they write up....

How did you find this site? 640 SITE

Shoen likes to run nets, but he has several issues with doing so,
1. Shoen rushes check-ins
2. when people have a problem, they ask and he may say, i dont know... do we have any more checkins please? when he should say something like, i dont know, but maybe someone else out there does......

recently he has stepped down from the tech net to focus on schooling, and KG4WLI has steped up to the plate, WLI is very good at running the tech net, answers lots of questions and encourages people. last monday tech net, YMB got on at the end and started telling WLI what all he did wrong with the net, in particular that WLI must give thanks to ron for the use of the repeater, YMB went on and on about giving thanks, almost like he was saying that WLI needs to brown nose ron. finally YMB said to WLI that he was going to start recording the net to make sure that WLI was doing it correctly. TALK ABOUT A SLAP IN THE FACE!!! WLI didnot deserve any of that!!! HE DID A GREAT JOB!!

now YMB is running the trasders net on saturday night, hopefully he does better.

You undoubtedly listen to FM radio. Are you a DJ? Do you have your own talk
show? No? Why not, they wouldn't hire you?

This is a CW only rig. No-coders can leave now. It has new finals and bridge rectifier. Works very well. All aligned and ready to go. PTO is smooth and all functions work. Has some scratches on the case but not in bad shape. 28 W on 80 and 22 W on 10 max. What have you got to offer for trade?

546. Possible damage from reversed DC power?

I accidentally reversed the polarity of my DC power supply. I blew
the fuse in my TNC, but I can't find a fuse in my TR-7400A and the
only fuse I see in my TS-520 appears to be for the AC power supply.

What sort of damage could these radios have suffered?

Jack.

You may have blown the 'idiot diode' as well as the fuse..

Packet is not dead in USA...
HF Packet is alive and regrowing...

Its is only cleaned its self up of the massive overload it once suffered
from.. its like the local repeaters.. There to use and not nearly as
crowded.

I agree... No longer the FAD...
But the internet is not as reliable... Nor as cheap...
When you can have a packet station for as little as $100-150 complete.. A
opne time outlay.
And you pay $20/mo for internet where do u get idea that its cheaper..?

HF forwarding still requires a GOOD TNC...

Yes the Packet Users and VHF UHF forwarding can be done on a Soundcard just
fine..

Learn *your* history. It was the ARRL which first proposed incentive
licensing.

From http://www.qsl.net/ecara/wayback/page13.html:

"In summary, although the vast number of hams were satisfied, a small
minority had complaints. And the ARRL listened. In 1963, acting on
complaints they claim they received from members and operators in
other countries, the ARRL proposed "Incentive Licensing." In an
editorial, the ARRL implied that perhaps it was a mistake when the
Class B and Generals were given the 75 and 20 meter phone segments.
The ARRL's stand was now clear. Exclusive frequencies must be restored
to the Advanced and Extra class amateurs in order to give the Generals
an "incentive" to upgrade. Of course, what was left unsaid was that in
order to do so, frequencies would have to be taken away from the
General class hams."

>> towers, chimneys etc.)

>Hmmmmm, my back yard is ten acres. :-)

Until wind toppled the tree at one end, my "dipole" went 275 feet SW
and 250 feet NE of the "center" feed point. Height was about 45 feet.

Someone once commented that the reason I "got out" so well was that,
by the time the RF reached the end of my antenna, it was already a
significant part of the distance toward its destination!-)

If what you say is true, why is almost everybody in the rest of the world busting their home borders to come here? Being an "old guy" I remember living in the U.S.A. long before it aspired to the Europeanization trend that seems to prevail today. I liked it better then. The move toward socialism/statism is what makes todays lives "suck".

You don't mention that the working Europeans pay for all of that through enormous taxation. Again the burden is carried by the working people. That is what would also happen here if the socialist liberals have their way, here in the United States.

And yes, Toto, this is the, "Greatest Country on Gods Green Earth".

Sorry Dee D, I was there, were you? The ARRL was the main reason Incentive Licensing happened. They are the ones that started it all. The 'good ole boys' in Newington are the ones responsible.

True, by the time the FCC got into it, it came up with a bunch of crap that the ARRL did try and fight. But by that time it was too late.

Yes indeed...the ARRL is the reason we have incentive licensing. And now they want to open it up so much that a untrained monkey could be on HF in a week.

I am a life member of the ARRL. And have been a member since 1962. With only 1 year lapse because of military service. I was there Dee D.

True, different folks. But of a similar mind set. They do what they want
WITHOUT the input of the alleged voting members. Same crap, different day.

I used to own one of those radios. Great QRP rig. Hard to kill because
when you tuned it (very simple) if you tried for too much power or a
terrible mismatch it would just shut down. Turn the power on and away you
go again.
Strictly cw but that's what i loved.
If anyone manages a trade with dan i have a copy of the manual that i will
supply at a reasonable cost.
Love to try to trade you Dan but i suspect shipping to Canada would not be
in the budget.
Take Care.

There is a diode on the 7400a that is there to stop damage in such an thing
happens.

It is either in parallel to ground off the 12v lead in in the rig , or it
may be in series. But most likely it will be in parallel.

It will be easy to see as it will be burnt and probably busted open. It is
also shorted. Hopefully it went before the rest of the radio did. But if
it did not stop there, look at the Voltage regulator (s) chip (s) and you
probably blew out the rcve audio stages also.

Why was there no fuse is my question on the 7400A line?

As to the TS-520, it runs on AC. Why is there a DC power supply on it?

> General class hams."

Unfortunately, that's not quite how it happened.

FCC thought that hams would go for the Extra after 1953 simply
"because it
was there". And some did - but not many.

As early as 1958, FCC asked why there were so few Extras. They were
concerned about certain trends in amateur radio they didn't care
for, such as increasing use of manufactured equipment whose inner
workings the ham-owner had only a vague concept of.

FCC asked ARRL for proposals in 1958, and again in 1963. ARRL put together a
very simple proposal in 1963, *in response to* FCC's request. It consisted
of just two items:

1) Reopen the Advanced class license to new applicants (it had been closed
at the end of 1952)

2) Require an Advanced or Extra class license to use 'phone on the 80, 40,
20 and 15 meter ham bands. (back then 30, 17 and 12 meters were not
ham bands).

That was the whole proposal. No additional code testing would be needed to
retain full privileges. No subbands-by-license-class except those already
in place for Novices. No new limitations on CW. Existing Advanceds
wouldn't have to do a thing. Existing Generals and Conditionals would have to take
one additional written test to get their 80 thru 15 'phone privileges back.

This proposal was nothing new - it was essentially a return to the old
"ABC" system that had existed from the mid '30s to February 1953, and which FCC
had revised in 1951 by adding Novice, Tech and Extra and renaming the
ABC classes of license.

The 1963 ARRL proposal got an RM number and the commentary began...

FCC looked at that simple proposal, and then asked for more. They got quite
a bit of response from the amateur committee, and at least 10 of the
proposals were assigned RM numbers. There were at least 11 proposals with
RM numbers by 1965.

Commentary to ARRL was mixed, to say the least, but a slight majority were
in favor of "incentive licensing" changes. ARRL and FCC took that as a
mandate...

Out of all these proposals FCC put together ideas and came up with a proposed
scheme that bore little resemblance to the 1963 ARRL proposal. It was far more
draconian, restrictive and encompassing than anything ARRL proposed,
and was strongly opposed. Finally a compromise was announced in 1967.

Over 6000 comments were received by FCC on the matter, even though the
number

of hams back then was less than a quarter million and there were no online
comment systems. The whole process took years (1963-1967).

Most hams then and today are not aware that FCC asked first. But they did.

And I'll ask the question again:

How did incentive licensing "trash ham radio"?

I have the schematic to the TS-520, so I can look for an obvious diode
near the power connector but I don't have the schematic for the
TR-7400A. If anyone out there has the schematic and knows where this
idiot diode is, let me know.

W4NTI> of the radio did. But if it did not stop there, look at the
W4NTI> Voltage regulator (s) chip (s) and you probably blew out the
W4NTI> rcve audio stages also.

I'll look for a smoky component then.

W4NTI> Why was there no fuse is my question on the 7400A line?

There was. It blew, but when I replaced that fuse, the radio still
didn't turn on, so I suspected an internal fuse.

W4NTI> As to the TS-520, it runs on AC. Why is there a DC power
W4NTI> supply on it?

The TS-520 can run on AC or DC, depending on what power cable is
attached to the rig. Mine has the DC power cable attached (it
connects to different pins) so it can run directly off DC.

W4NTI> Dan/W4NTI

little face"

Oh and here's the "list" you are whining about, LARDASS..what's
the matter, LARDASS, did you get rejected at the "dance hall"
again, you 30 year old VIRGIN?

"breaddead" - LLoyd hasn't got anything upstairs in the oven

"defenseive" - Lardass is "defensive" of his ignorance

"counter-offenseive" - When LARDASS LLoyds attack

"nights" - Athens ASSHOLE was referring to last "night's" masturbation session

"I forget to set the playlist in Winamp to repeat!" - Mongolloyd also "forgets" the use of past tense, maybe he forgot!

"Techincal" - Lloyd just hates those "technical" things

"Dalkes" - Lloyd's granddad remembers when movies became "talkies" too bad LARDASS learned to Dalk <sic>

"That it!" - When Mongolloyds get real mad, they talk like Tor Johnson

"Woger" - LARDASS closely identifies with Elmer Fudd with his lack of hair and all

"decide on weather or not" - It's always "stormy weather" with Lloyd deciding "whether" or not to use correct English

"can not" - Mongolloyd is wondering how he "cannot" seem to get ahead in life

"is'nt" - "Isn't" LARDASS cute when he is mad?

"PAINFULL" - How LARDASS' bathroom scale feels when he steps on it in the morning, real "painful"

"I wish for Roger Wisemand" - Lloyd liked thosed thingd ford Rogerd

"alot" - Davies dreams he can communicate in English a lot

"thier" - Lavender Lloyd sure does lisp after a night behind the dumpster

"dont" - Lloyd says "dont", the rest of the world says "don't"

"Isreal" - Is FATASS Lloyd's retardation for real, or can he blame Israel?

"juist jelous" "extermenate" - A three for one post Athens Asshole axiom

"footting" - What LARDASS doesn't have, an equal "footing" anywhere

"Cant" - Emmanuel?

"th" - When Lloyd gets nervous, he stutte, er stutters

"enfighting" - Lloyd's two brain cells are infighting for control of his stupidity

"YOU STUPID JEW!" - Wasn't Jesus Jewish, so called Christian LLoyd?

"Tonite" - There's nothing in Lloyd's brain "tonight" or any night

"segmant" - What Lloyd's commuications are, only sentence "segments"

"I just listening" - Too bad he doesn't listen to his poor English

"buffon" - The Athens, Alabama "buffoon" strikes again!

"museium" - Where LARDASS LLoyd keeps his "muse"

"nastey" - How everybody describes LARDASS' body stench, especially in the ghetto

"loose" - Lloyd's description of his spinchter muscles...

"wont" - Lloyd refuses to learn English, it's Lloyd's "wont"

"awhile" - It will be "a while" before Davies gets a clue

"freinds" - Lloyd's congobulation of "friends" and "fiends"

"thier" - "There" just isn't any hope for LARDASS Lloyd "ill-educated" Davies

"backstabers" - Lloyd's version of the OJays' hit

"becuase" - Home of the "Deliverence Extras" spelling by LARDASS Lloyd

"obselete" - What LARDASS thinking is to him, others see it as 'obsolete'.....

"belive" - What fools like LARDASS Lloyd "believes"

"thier" - Ill-educated Xtian LARDASS Lloyd shows off his language skills!

"marshalls" - Mongolloyd spell "marshals" real good!

Wisemand - LARDASSd fucksd upd againd

"compay" - Mongolloyd never gets any female "compay," while others do get "company"

" But when we are winning," DUMBFUCK, YOU have NEVER WON anything in your miserable life!

"and do the nasty!" You don't really know what that means, do you, 30 year old VIRGIN?

"It's does" - Mongolloyd use good English

"momnet" - LARDASS Lloyd Davies misses his dead "momnet" for a "moment"

"seriuosly" - Lavender Lad President Mongolloyd wants to be taken "seriously" instead of "seriously"

"annouced" - Monolloyd "announces" his stupidity again

"tonite" - Davies never lets his lack of education stop him from announcing to the world he's a fucking imbecile!

"nite" - When LARDASS Lloyd molests those kids he makes them say "nite, nite" at "night"

"weldare" - Calling Dr. Weldare, LARDASS needs his head out of his FATASS....put it on his welfare bill

"so fuck of" - When Mongolloyds who have man tits talk tough......

"fukcing funney" - Alabama deliverance extra Davies speak

"pictrue" - "Picture" yourself as a Davies mongolloyd

"isseus" - Davies has "issues" too many to list here

"resortjng" - Is Lloyd from Finland?

"attsxks" - When LARDASS Davies "attacks" he uses illiteracy

"basturds"- What mental illness patient LARDASS Lloyd calls his nurses

"shkt" - Mongolloyld Davies' "Skittles", he likes that "hershey rainbow"

"law suit" - LARDASS never leaves his HUD apartment with out his law suit

"opinionn" - When LARDASSn postsn whiln drunkn

"intrenet harrasssmint" - Tries to make LARDASS Lloyd's rotting teeth feel fresh

"sneeky" - The teachers always "sneaked" Lloyd through the next grade

"that' wasnet" - LLoyd was out that year of school that they went over English grammar

idiout! - "Lloyid" <sic> strikes out again!

"speling" - Mongollpoyd Davies the "spelling" bee champ of the retards!

"reas isseus instaed" - Davies talking out of that cheap beer again

"atttacking" - LARDASS Lloyd stutters when he gets upset.....ttttt.....

"challegne" - When Mongolloyds drink and post

"metnal" - Mongolloyd just doesn't have the "mental" ability to debate......

"debste" - What Lloyd's mommy did to him in the bathtub

"cahllenge" - Mongolloyd speak for "call" and "challenge"

"basturds" - LLoyd ,Amanda's illegitimate "bastard" sure does have a scat fetish

"morsd" - Whend Daviesd drinkd andd postd

"wont" - It is Mongolloyd's "wont" to be stupid, "won't " you let him?

"youd" - Oops, LARDASS did it again!

"poinion" - Must be an Athens Alabama "Deliverence" thing

"Woger Wiseman"- LARDASS LLoyd's got that cocksucker's lisp

"isnt" - "Isn't" LARDASS cute when he slobbers?

"worfh" - Davies' cocksucking lisp has returned

"waset of spaceda" - When Lloyd's only friend Colt 45 malt liquor kicks in

"Oppulant" - The only thing "opulent" in LARDASS is that he is rich in ignorance

"obly" - LARDASS lisp from cocksucking shows when he tries to say his favorite fag artist "Moby"

"wood" - LARDASS LLOYD'S head "would" be made of "wood"

"dserve" - LARDASS lives in that ghetto where they say he sure does "dserve" those pizzas

"frum" - LARDASS LLOYD DAVIES wonders where his real father is "from"

"DISCUST" - Mongolloyd Davies' command of the English language is "disgusting"

"You worthless coward are scared of debating me." - Mongolloyd make good sentence

"jellous" - Most of LARDASS lloyd's celluite body is "jealous" of skinny, in shape people

"It just didn't wok out"
"wok out" - When LARDASS tried to stir fry those nutsacks for pizza topping, Pappa John's terminated him saying he didn't "work out".

"entact" - LARDASS' single brain cell isn't "intact" either.

"empahis" - Notice how LARDASS Lloyd's "emphasis" is always on his fucking stupidity.

"Fuck all fo you" - Christian LARDASS Lloyd showing that Jesus spirit.....

"bllod" - How LARDASS Lloyd spells "blood"

"did'nt" - LARDASS "didn't" do very well in school

"PLEASE by a clue" - LARDASS Lloyd's parents couldn't even "buy" him an education

"extrodinare!" - LARDASS is a moron "Extraordinaire"

"unsubsribe" - Mongolloyd Davies "subscribes" to the theory that ignorance is bliss...he must be in heaven

"Must've struck a cord" - LARDASS confuses his favorite sex fetish of tying his penis with a
light cord and masturbating to the word "chord".

"dumass" - Dumbass Davies trips and falls in shit again.

"Them two bigtime losers!" - Mongolloyd mentally ill Davies makes good sentence!

"straming" - Lardass usually has to wash his sheets from the "stream" of piss
when he wets the bed or not given his filthy HUD apartment

"surpassinf" - LARDASS is always "surpassing" his previous leveles of stupidity.

"pleanty" - <guffaw!> "Plenty" of stupidity comoing from LARDASS Lloyd.

"Cause i'll have law lock you up and throw away the key!" - Mongolloyd talk tough!

"pome" - When LARDASS WADSWORTHLESS Stubbyfellow writes a "poem"

"Once she here's my show" - Most people hears a show, LARDASS "here's" them!

"forgotton" - LARDASS has "forgotten" what he was taught in special ed

"I want your seriousness" - LARDASS does his take on "I want your sex"

"I did'nt ask for your fucking grammer checking!" - LARDASS
Lloyd revels in his ignorance!

"agrument" - When the voices in LARDASS Lloyd's mentally ill
head collide they have an
"argument"

Seems to me like you're getting mad at the wrong people.

Ham radio, like Life itself (I've said this before, and I'll
probably end up saying it again), is a mirror. You get back EXACTLY what
you put into it.

What you hear on the air is a reflection of the PERSONALITY of
each INDIVIDUAL operator. It has NOTHING to do with how hard they
studied for their license, or how much they know, or how many letters
they have after their name.

If ham radio is declining in the "quality" of what's heard on the
air, it's because of poor operators making life miserable for the
newbies, apparently all because of some misguided sense of loyalty. To
what or to whom this loyalty is directed, I have never understood.

Let me ask you something: Have you ever made comments on the air
that were derogatory to someone who was new to the hobby? Have you ever
adopted an air of superiority in the presence of a newbie?

If so, then YOU are part of the problem. If you do not feel you
can be civil to a new operator (remember, there was a day when NONE of
us had ever seen a microphone or transmitter, let alone operated one),
then simply ignore them and move on to something else.

The "Death of Ham Radio" has been predicted by many others for
many years. Yet, the Amateur Radio SERVICE endures to this day.
Different from what it was ten or twenty years ago, yes, but it endures.
This tells me that new licensees aren't the problem, and it tells me
that the ARRL isn't the problem.

What I see as the REAL problem are those "veterans" in the HOBBY
who have become so obsessed with their own ideas of whom is superior to
whom that they will deliberately make life on the air miserable for
anyone who doesn't measure up to their own standards. I think such

people would be doing much better to offer polite-but-firm correction to operating errors, and be willing to SHARE their knowlege as opposed to zealously guarding it like some grumpy dragon guarding their hoard.

You may not like the ARRL for whatever reason. Fine. That's your choice (I'm proud to be a 'Lifer' myself). But would you find it so very hard to remember and respect "The Amateur's Code" that they publish? It dates all the way back to the League's founding, and the days of Hiram Percy Maxim (without whom we wouldn't even HAVE Amateur Radio).

Chill out. The only things that will truly kill amateur radio are forgetting its origins, WHY we have it today, and more anger and hatred at newbies just because they have an easier time getting licensed than some of us did.

If you have an ohmmeter you could clip it across the DC input pins and
start unsoldering various connections etc.

By the way - have you measured ohms across the DC input? Clip leads both
ways round?

Right on!!!!

Like the Radio school at Ft Gordon Ga? Where students were already learning CW and Radio theory in classes, and at K4WAR the guys got together and studied for their license with instructors from the school. Like you were going to fail with all that help? Vs the determined blind guy who learned it on his own? Like is not Fair, it is what you make of it!

K7DUP......

You should have waited until after the FCC decides what to do with the ARRL's "suggestion". Yes, I am a Tech and was furious when I seen that they were wanting to grandfather the Techs to General with no written test. Just because the ARRL suggested it, does not mean that it is set in stone yet. FCC may have other ideas. Don't forget that the ARRL does not consist of so many X number of board members at meetings. You and the rest of us as members have a say in these matters also. More than likely they got input from alot of other people and tallied it all up. Yet, I still would like to know where the idea came from about grandfathering techs with no test.

I think you were right about "fowl". He is a chicken who won't use a
real email address (probably doesn't have a callsign, which indicates
why "rec.radio.cb" was in the posting originally).

It's sad, really.

You may have cancelled your ARRL Membership, but I am afraid
that the greater percentage of hams will continue to send their Yearly
subscription (tribute?) to the snooty yankees in their ivy covered brick
walls at 225 Main Street, just like they have continued to do so for
the past 5-10-20-30+ Years. Just like the lemmings they are, they just
cannot seem to pry themselves away from that shi+ self-serving magazine
that's in reality, more advertising than relative topic. Truly pathetic.

(Tell me, does the ink in QST still rub off onto
your thumb when you rub the print like it used
to do in the 70's and 80's - before I wised up
and left these bastards subscripton letter in file 19?)

What I mean to say is, do they still use the same thin cheap paper stock
and that
half-assed ink that not only smells like acetone solvent, but is of a worse
grade than the ink used for the daily newspaper, which is usually cheaper.
Makes you wonder if their printer back then was some
New Haven sweatshop factory, staffed with min-wage wetbacks that ducked
outta sight whenever the INS van pulled up in the parking lot out
front.....)

But the average wage doesn't mean a lot to a great many people. The average income is skewed by a very few very high paid corporate execs (who make many times more a year than does the president), entertainers and sports figures. This has the effect of raising the median income significantly when figured as part of the whole. For every Enron exec making millions a year, there are thousands of folks making less than $20G, which isn't a living of any kind with our cost of living. There's a whole lot of grunt labor out there, including a lot of the salespeople at your favorite radio store, that make much closer to minimum wage...

591. TS450-SAT Trouble

Hello ,

I have troubles with my Kenwood TS-450-SAT . When i power on the transceiver
i get a cw code and in stead of the frequency i get dots on the screen .
Also i can't receive or transmit .
Anyone know this problem ? Can't find this problem in the manual .

Many thanks ,

Kurt

> "because it
> was there". And some did - but not many. ...

Please cite references. I have before me two historical accounts
which both agree that the ARRL first broached the subject of incentive
licensing, as well as the QST editorial from 1963 which rationalized
```

it. Web pages such as "The Wayback Machine" also agree that the League first proposed the changes which were finally implemented in 1967.

In fact, http://www.qsl.net/ecara/wayback/page14.html goes on to say:

"On May 3, 1963, the ARRL Board of Directors adopted their official position on incentive licensing. Their proposal would completely take away all General and Conditional class phone privileges on 75, 40, 20, and 15 meters in a two-year phase-in period. In other words, the ARRL's incentive licensing would only allow HF phone operation for Generals and Conditionals on 10 meters and on the small sliver of 160 meters that was available in the days of LORAN Radionavigation. The ARRL also suggested reopening the Advanced class license again to those who held a General or Conditional license for one year. Strangely, the ARRL did not suggest that Extras be given exclusive frequencies, nor did they propose exclusive CW frequencies. Rather, they just wanted exclusive access to the 75 through 15-meter phone segments for the Advanced and Extra class licenses ..."

Based on all of these items, it appears to me that your account could well be someone's revisionist history. I can find nothing in the literature to support it, but can easily find material which refutes it.

597. AMATEUR DONATIONS NEEDED

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-23 14:21:30 UTC
From: n2ion@aol.com
Message-ID: <20040123092130.20644.00000351@mb-m21.aol.com>
Source record: 59540

Long Island Mobile Amateur Radio Club (LIMARC), is looking for DONATIONS of "Ham" gear, like triband beams, rigs, and towers, to be used for our Emergency Communication Stations, and Field Day.

If you have any old equipment that you're not using anymore, and would like to donate it to our cause, we will make sure that you get a nice letter, being that we have 503 c(3) status with the I.R.S. ,for a tax deduction, from our club.
We really need your help, so please try to assist us in any way that you can.

Thanks in advance

598. From the Extra question pool: The dipole

Newsgroup: rec.radio.amateur.misc
Date: 2004-01-23 15:18:03 UTC
From: Lloyd <lloyd@no.spammmmm>
Message-ID: <870EX17833.2458F8789@taranews.net>

A coaxial cable lying over the peak of a roof is the same length on each side. It weighs one third of a pound per foot. On one end hangs an Extra holding a dipole, and on the other end a weight equal to the weight of the Extra. The dipole weighs two ounces per inch. The cable is as long (in feet) as the age of the Extra (in years), and the weight of the Extra (in ounces) is the same as the age of the Extra's mother. The combined age of the Extra and his mother is seventy years. One half of the weight of the Extra, plus the weight of the dipole, is one forth as much as the weight of the weight and the weight of the cable. The Extra's mother is half as old as the Extra will be when he is three times as old as his mother was when she she was half as old as the Extra will be when when he is as old as his mother will be when she is four times as old as the Extra was when he was twice as old as his mother was when she was one third as old as the Extra was when he was old as his mother was when she was three times as old as the Extra was when he was one fourth as old as he is now.

How long is the dipole?

me thinks about the math for a second
lets assume you are correct
1000 people at 20g/yr
1 enron exec 10million/yr

1000 X 20,000 = 20,000,000
1 X 10,000,000 = 10,000,000

total 30,000,000

average

30,000,000/(1000 + 1) = 29,970 and change
actually that doesnt seem to me to skew the number all that bad

That is quite correct. There are really not enough of the very rich to skew the numbers to a significant degree.

Piss on you LIMARC assholes! I used to travel in your
area on business a lot. You are a bunch of rude lids, and if
anybody is not in your "in crowd," you ignore them on your
repeaters. Moreover, you don't offer an iota of hospitality
on your repeaters to out-of-town hams. You totally ignore
anyone who you don't know and is not a part of your closed
little circle of LIMARC lids. Errrr, what I am trying to
say is FUCK YOU LIMARC assholes!

Nonsense. While I don't agree with everything Leonard said, he is absolutely correct about the taxes. When you compare the entire tax burdens (sales, sin, property, state income, federal income, and so on), most Europeans don't pay higher taxes. Further, because of the often higher saleries, Europeans usually have more money to spend after taxes. Yet, in spite of this, Europeans still enjoy the benefits described below. I've worked in both places, paid taxes in both, and know this to be the truth. If more Americans did the same, they would also realise the claim of "enormous taxation" in Europe is false.

I think you meant to say no "additional" written test, Mike. I suspect the idea comes from the fact that the current Technician license already allows HF access with the simple addition of the code test. In other words, the current Technician license exam already covers much of the material needed for HF access. Therefore, it makes more sense to grandfather them into a license class with HF access than into one without. Of course, that's just my take on it. If you really want to know why ARRL decided to do so, ask them.

When I got my "extra lite" :-) I made a number of "newbie" type errors,
but soon learned.
What I don't like is when, years before on learning my way around packet
on 2m, I made
some newbie errors and then learned, but some other packet operator
assumed that
I would always make such errors and got banned off his maibox BBS. (I
hadn't distingushed
between private mailboxes and more public BBSs just yet, and posted a
general ham interest
article). A polite but firm correction would have been enough. Turns
out other people
had some problems with him....

Thank you for all the refrences. I also 'remember' it that way. As I stated to Dee D in another post.

I too appreciate the detailed references. Facts are always good to have. I
was unaware that the initial concept was put out by the ARRL. I was looking
only at the final version that the FCC developed, which was substantially
different than the ARRL's proposal and which the ARRL then opposed due to
these significant differences.

FYI, in conversation, I prefer Dee rather than Dee D even though I use more formal signature.

Even better: we were at Costco today, and picked up a new Panasonic 2.4GHz phone (Model KX-TG2382) that includes two extra handsets, each with its own charging station. Total package was $150.

Great article! Thanks for posting that link. I learned a few things I never knew before. (I was just starting to get interested in radio in 1963.)

It's amazing that ham radio has survived at all when you consider how much needless tinkering with the license structure has gone on over the years, and how much discontent it has created.

I don't think a batch of newcomers can unleash any more unholy blasphemy onto the HF bands then what has already been said and done.

Most of the conversations I've heard on HF sound like rowdy barroom talk or a bunch old maids sitting around on deflated hemorrhoid cushions complaining about poor health and cat food.

We need incidents like this to remind us every now and then that there
is no free lunch when it comes to "wireless" communications (Sorry
about that pun, but I couldn't resist).

In my mind, this is merely teen age pranksterism. No, it's not a very
sociable thing to do, but it's not exactly as if they hurt sales of
fast food retailers nationwide. What worries me are those busybodies
who are so offended by this "awful" behavior that they'll attempt
additional legislation against it.

This is how bad laws get passed. We need to watch carefully and
ensure that these busy-body twits are thwarted and sidelined. Teen
pranks shouldn't be cause for raping our judicial system with ill
advised legislation.

...an "enterprising ham"....a modified two meter rig? Don't be ridiculous! No two meter rig with an upper frequency limit of 148 mhz. even expanded for MARS operation on 149 mhz. is going to have the capability to reprogram in the 154 mhz. range. You need a reality check. The closer truth is some teenagers with a little technical knowledge and shit for brains. The FCC recently authorized MURS which are certain high vhf frequencies that do not require a license. The equipment, typically an HT is available from Radio Shack or other sources. Two of those MURS frequencies are 154.570 mhz. and 154.600 mhz. typically are two of a 5-6 low vhf/high vhf frequency combination licensed to fast food operations. Some use a pl tone and some don't. I can hear a Burger King on 457.5125 mhz. 1/2 air mile from my home and a McDonald's drive thru on 154.570 mhz. 1 1/2 air miles away. The only surprise is that it does not occur more often.

Golly gosh,

I thought we both had burried the hatchet a while back. We put aside some differences in our battles with Roger Wiseman. I never had alot against you. I am sorry I can't please everyone, Dan.

I am sorry you cannot see past yourself on this ARRL proposal. In the long run, it'll be the best thing. I felt exactly the opposite, before the proposal. I was debating on wheather to renew or not. But the ARRL had great news. I am sorry that you will not benefit like I will.

At least I tried.

Lloyd

The Icom IC-229H can be made to operate up in that range... easily.

Yes indeed! An "enterprising ham" (or anybody else) with a Yaesu Ft-2400,
FT-2500, or even the dual banders can clip a wire, desolder a jumper and be
good to go up to and above 164 mhz.
For instance. It is all too easy to modify one of these rigs to transmit on
154, 155, or higher freqs. All one needs is an antenna that handles these
frequencies without causing the protection circuit to dump the radio. A Rad
Shack discone is one such antenna....
Don't be ridiculous...know whereof you speak.

the 146.640 N9EE REPEATER in tampa bay florida update

there appears to be a band opening today.
this evening we have heard stations in orlando on portables, A
dunellon person on a mobile, a station near gainsville. lots of people
comming in to the repeater.

i have not heard DON KG4COQ lately, atleast several days. that is
quite unusual, as he is often on for 3/4 of a day either in his
car,taxi cab or home.

several other stations i have heard today,

K4XS with N9EE
KD4NWL with KC4UYL
WB0QIE talking to a guy about how he has been in the AC biz for a long
time
W4TPH
KG4ORS to a unknown station who was wanting a radio check.

Q. My middle-aged son is still wetting the bed. How can I help Roger overcome this?

A. First, place yourself in his position. Certainly it wouldn't be pleasant to wake up cold and wet in the middle of the night. Interrupted sleep patterns profoundly affect his "potty time". Make sure he gets adequate rest and shuts off his computer at a decent time. Being overly tired could contribute to the situation just as much as anything else. Maybe a lighter dose of Thorazine will also allow him to awaken in a timely manner. It may also be that staying in the soapy bathtub playing with sex toys contributed to the situation. It may be causing an irritation similar to a bladder infection. Take Roger to a doctor and have him examined as soon as possible.

I have a completly different opinion!

Join the ARRL today! There is no better time than now, to join the ONLY
voice that Ham Radio has. If you don't like what you, Mr I have no balls,
than turn your radio off! You are not helping anyone!

Like I said, my membership had paid off!!!!!!

I agree with that answer. I had to take both the Novice and Tech written to
get my Tech no-code. So what? I think it's a great idea to get on HF!!

Actually, it's jerks like you that are intent on destroying everyone's enjoyment of the hobby. FYI - it's the hams that have entered the hobby over the last 17 years that have boosted and improved the effectiveness of the service in times of national emergency. Everyone's sick of listening to whiners like you with your prognostications of doom and gloom.

Do the hobby at large a favor and go phuk yourself...

>Shack discone is one such antenna....

Better yet: an antenna cut to resonance. Since 154Mhz is a popular business
frequency, antennas designed to transmit here are inexpensive and easy-to-find.

Actually, I got 2 Icom handhelds for that price from HRO. They sure
beat FRS for keeping contact withs the kids. Getting a tech liscense
for the kids isn't too hard either. You get a whole family of hams
that don't need to pick of a cell phone around town. They don't need
FRS with it's crowded bands and you get much greater range.

Are you telling me that it's unusual for hams to operate (illegaly) out-of-band?

(Trying to stop choking from uncontrollable fits of laughter.)

Consider the number of hams who use their dual-banders on the FRS and GMRS channels...or the number of hams who use their HF rigs on the CB band.

I would dare say that *most* hams partake in such behavior at least occasionally.

Not condoning it, just stating that it does happen...and happens frequently.

I don't normally respond to anonymous trolls, but I feel compelled to
counter
your statements above.

IF you feel that the ARRL "is intent on destroying (your) enjoyment of the
hobby," you must get your enjoyment purely from a self-delusional sense of
superiority.

I've been licensed for well over 25 years. The ham bands have *not*
"become sounding like CB over the last 17 years" - there have always
been a few bad apples - MANY of them OTs who passed the 20 wpm
Morse test and believe they are some sort of gods.

Yes, new hams may make some operating errors and they may need
a little coaching and immersion in the "culture" of ham radio to get to
the point where they sound experienced. We ALL made such mistakes
when we first got on the air - learning by doing is the best way to learn.

So get off your high horse ...

I was unhappy with the ARRL's policy on Morse testing for a long time,
and I'm still not happy with the aspect of their new proposal that would
keep Morse testing for Extra. (Though I have nothing to gain personally,
since I'm already an Extra.)

HOWEVER, the ARRL does SO much good for ham radio that I finally
decided to take out a life membership - BEFORE their proposal came
out (not knowing what position they'd take on the code test).

If all the OT's bail out on the ARRL over this, they will be cutting off
their noses to spite their face.

I encourage everyone to maintain their ARRL membership. And, I
encourage those who aren't members to join. The best way to influence
the ARRL in a progressive direction is from the inside - join, then talk to
your ARRL Director, make your views known, and let him/her know that

your vote in the next ARRL Director election in your division depends on their performance.

73,
Carl - wk3c

I agree 100%. If one wants to influence the direction of change, they've got to get in there and do the work. "Taking their marbles and going home" accomplishes nothing except leave the field wide open for people with other viewpoints. It removes the necessary balance and resulting debate that is necessary for progress. Not everyone is going to agree with the direction and result but the effort that goes into it will usually (but not always) yield a better result than when a single point of view is allowed to be put into affect without the scrutiny that comes with such debate.

Have you actually listened to CB lately? Ignoring the heterodynes from the
AM carriers, it sounds completely different than even a crowded during a
contest ham band.

If they can find a place where nobody has a need to receive weak radio signals, then the test should be "successful." Or, if they can setup the test where those affected by the naturally resulting wideband interference can't get their complaints registered, the test will be officially "successful."

In her speech, "Overview of the Road to Convergence: New Realities Collide with Old Rules," the FCC's Abernathy called BPL "another promising technology" that electric utilities have already successfully field tested.
"

"I recognize that Amateur Radio licensees have raised concerns about harmful interference," Abernathy said, "and that is something that will have to be addressed before any mass market deployment can occur."

Abernathy said that if engineers can find a way to prevent harmful interference to other radio services, BPL would represent "a tremendous advance for consumers, because it could bring broadband to any home that has electricity."

Engineers know the way to prevent BPL interference - it's called total shielding of any wire carrying wideband transmissions. Maybe some day this pathetic political appointment will ask someone at the FCC who understands radio transmission theory to correct her pipe dream. Of course, with the big money pouring in from the power lobby, the truth may not want to be known.

Test test

665. Americorps+Ham radio+homeland security

I had this idea that I can't follow up on myself, but maybe someone else can. Americoprs has been authorized to fund homeland security projects. It might be possible for someone to write an Americorps grant that would enable funding for teaching ham classes to kids asz part of homeland security. It should be something that could play into the Amateur Radio responsibility for producing a group of highly trained personnel for emergencies. Amateur radio clubs could be a great volunteer partner in such a project. My boss is working on a different Americoprs project, so I can't do it myself. It is just an idea if someone wants to run with it.

Robert KB7DAI

How can Scheissman run out of ideas, when he never had an idea of his own to start with?
